ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President

MICHAEL PERRY City Clerk

WILLIAM F. McCRAY ... Ass't City Clerk

Pittsburgh, PA
Monday, January 4, 1982

In accordance with the provisions of the Act of Assembly of the Commonwealth of Pennsylvania, approved May 31, 1911, the Members-elect of the Council of the City of Pittsburgh, together with those holding over, convened in the Chambers at 10:00 A.M.

The Council was called to order by Michael A. Perry, City Clerk, who acted as Chairman pro tem of the meeting.

Mr. Perry:

This being the day and hour fixed by the Act of Assembly of the Commonwealth of Pennsylvania and the Pittsburgh Home Rule Charter for the organization of the Council of the City of Pittsburgh, the One Hundred Twenty-Second Council will be in order.

At this time will Mr. Givens and Mr. O'Malley please escort Mayor Caliguiri into the Chambers.

We will now rise for the Pledge of Allegiance to the Flag.

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation, under God, indivisible, with liberty and justice for all.

Mr. Perry:

Please remain standing.

We are honored this morning to have with us Father Alex Vukovich, Pastor, Holy Trinity Serbian Orthodox Church who will deliver the invocation.

Father Vukovich:

Let us bow our heads in prayer. Lord God Almighty, the God of our fathers and our nation, Who has guided men throughout their lifetimes, send down the Holy Spirit and bless these people who do the will of Thy Church and of Thy people. Stretch forth Thy hand from the Holy Dwelling Place and bless these Councilmen and women who dedicate their lives to this City. Grant them strength, wisdom, integrity; grant them the wisdom to guide this City to greatness and to greatness; bless this City of Pittsburgh, the people who dwell here, their families and friends, grant them prosperity and good health. Bless this Mayor and all those who live here in the City, grant them every good thing in life, for Thou art holy always. Amen.

Mr. Perry:

Thank you Father.

The first Order of Business will be the presentation of the Certificates of Election.

The Chair presented

Certificate of Election, certifying that at the election held on the third day of November, 1981, Sophie Masloff was duly elected as a member of Council of the City of Pittsburgh for a four year term.

Which was read, received and filed.

Also,

Bill No. 2

Certificate of Election, certifying that at the election held on the third day of November, 1981, Bill Robinson was duly elected as a member of the Council of the City of Pittsburgh for a four year term.

Which was read, received and filed.

Also,

Bill No. 3

Certificate of Election, certifying that at the election held on the third day of November, 1981, Robert Rade Stone was duly elected as a member of the Council of the City of Pittsburgh for a four year term.

Which was read, received and filed.

Also,

Bill No. 4

Certificate of Election, certifying that at the election held on the third day of

November, 1981, Ben Woods was duly elected as a member of Council of the City of Pittsburgh for a four year term.

Which was read, received and filed.

Also,

Bill No. 5

Certificate of Election, certifying that at the election held on the third day of November, 1981, Richard S. Caliguiri was duly elected as Mayor of the City of Pittsburgh for a four year term.

Which was read, received and filed.

Mr. Perry:

We are honored to have with us this morning, the Honorable Rita Wilson Kane, Register of Wills and Clerk of Orphans' Court, who will administer the Oath of Office to Sophie Masloff.

The Oath of Office was administered by Rita Wilson Kane and Mrs. Masloff signed the oath.

Mr. Perry:

We also have with us the Honorable Justin M. Johnson, Judge, Superior Court of Pennsylvania, who will administer the Oath of Office to Bill Robinson.

The Oath of Office was administered by Judge Johnson and Mr. Robinson signed the oath.

Mr. Perry:

Also, the Honorable Michael O'Malley, Judge, Court of Common Pleas, who will administer the Oath of Office to Robert Rade Stone.

The Oath of Office was administered by Judge O'Malley and Mr. Stone signed the

oath.

Mr. Perry:

Also, the Honorable Gerald M. Bigley, Judge, Court of Common Pleas, who will administer the Oath of Office to Ben Woods.

The Oath of Office was administered by Judge Bigley and Mr. Woods signed the oath.

Mr. Perry:

Being that the re-elected members of Council have been duly sworn in, the clerk will call the roll.

And the roll being called, the following members were present:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

Mr. Perry:

Nine members present. The next order of business is the nomination and election of the President of City Council. What is your pleasure?

Michelle Madoff:

I would like to nominate Mr. DePasquale.

Mr. Perry:

Mr. DePasquale has been nominated.

Michelle Madoff:

I think he is going to faint. May I add a note? I would like to say that I do this in the hopes that this Council will

have harmony and peace and that I can calm down in the next year, and I would like to thank Mr. DePasquale again, for protecting me in a moment of need because I might have been in the hospital now if he hadn't helped.

Mr. Perry:

Any more nominations? Any more nominations? Any more nominations? I will entertain a motion to close nominations.

Mr. Givens moved that the nominations be closed.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Perry:

The clerk will call the roll on the election of Eugene P. DePasquale as President of the Council of the City of Pittsburgh.

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

AYES 9

NOES none

And a majority of the votes of Council being in the affirmative, Mr. DePasquale was approved as President of City Council.

Mr. Perry:

Mr. DePasquale has been

elected. The Honorable Thomas Harper, Judge of the Court of Common Pleas will administer the Oath of Office.

The Oath of Office was administered by Judge Harper to the President of City Council.

Mr. Perry:

Members of Council, ladies and gentlemen, may I present to you Eugene P. DePasquale, President of City Council.

Mr. DePasquale:

Thank you Mike, Judge Harper, all of you here today, and especially Councilmembers for re-electing me as President of Council, I certainly appreciate that. I don't know if the standing ovation was for Michelle's nomination or my election, but, she is asking for harmony this year and already there is discord. Sophie Masloff had a nice speech prepared for nomination and now she will have to tear that speech up. Sorry Sophie.

Michelle Madoff:

See, if we had harmony I would have known about it.

Mr. DePasquale:

Seriously, again thank you from the bottom of my heart for the re-election and as Michelle said, let's hope that 1982 is a less stormy year, we have a lot of problems facing us, it is a tough year but I think we will overcome the obstacles and help the Mayor and his Administration and Council and we will have a good year.

Without further adieu ladies and gentlemen, the Mayor of the City of Pittsburgh is here today and I know you

are waiting to hear a few words from our Honorable Mayor and without further adieu, I repeat, would the Mayor of the City of Pittsburgh, our good friend and trusted servant, Mayor Caliguiri, say a few words please.

Mayor Caliguiri:

Mr. President, members of Council, our honored guests and friends of all our Councilmembers. First allow me to congratulate those members of Council who were re-elected to this marvelous body. And I hope that the harmony that now exists in this room will flow through this Chamber throughout the Administration so we can have this dialogue that we so desperately need in order to keep this City moving forward.

Let me say that I feel the cooperation this year has been just tremendous. Starting with Councilman Stone, the Finance Chairman, working on a budget which is probably one of the toughest budgets that we have ever had to grapple with, and I'm sure the people of Pittsburgh recognize that more than anybody. But we even have harder budgets coming up because I think we have reached the end of our line in terms of things that we can do ourselves because we do need help. We need help from each other, we need help from the citizens and we need help from everybody that will consider themselves a Pittsburgher. So to that end, I'm hoping that all of us together, members of Council, my cabinet, the department heads that come before you each and every week, will work to that end and there is no doubt in my mind that if we continue to do that, that Pittsburgh will stand out as it has these past few years and will continue to stand out, greater than ever before and we will show the rest of this country how people can come together, sometimes in adversity, and make things work because that is what

we want to do in Pittsburgh and that is the business that we are about ready to do.

So, to Ben Woods, let me welcome you, even though you have been here for the past few months Ben, but to your four year term, your new four year term, I congratulate you and certainly look forward to working with you over the next four years.

And to Bill Robinson, again Bill, four years now, this is your second term and I wish you success in these succeeding four years; and certainly we will work a lot closer and do the things that we have to do the Chair that you are under.

And to Sophie Masloff. And Sophie, to you and your Parks and Recreation, because we have some exciting things happening in Parks, with our Zoo, and things that you have done, and particularly the Cable. I was asked the other day from the neighbors on my street, "Mayor, when are we going to get Cable?" and I said, "Call Sophie, she'll tell you exactly when we are going to get it." But we look forward again to working with you Sophie.

And of course, to Bob Stone. Bob, this past couple of months has worked very, very closely with me and my Administration, in putting together, as I said, this budget. In fact, we even kept the same cover on the budget book, and that means something. I think maybe it is because I had a South Side church right on the front of it and how dare he take that off. But Bob, again, I pledge that same cooperation to you and to all members of Council in 1982. I think 1982 is going to be a good year for Pittsburgh, and let's not just think that it is going to be a good year, let's make it a good year.

Good luck and congratulations to all of you. Thank you so much.

Mr. DePasquale:

Thank you Your Honor and in spite of that tax increase, I still think you are the best Mayor we ever had.

Reverend Clergy, Honorable Judges — and when I say Reverend Clergy I'm a little surprised, I always thought Bob Stone and Bill Robinson were the pastors of their churches but it turns out they have clergy.

Seriously, before we hear from the newly elected Councilpersons, there are some distinguished guests in the audience today and as the Mayor said, these are the same people that we are going to have to work with and who are going to have to work with us this following year for us to have a successful year in the City of Pittsburgh and the County of Allegheny.

MR. DE PASQUALE INTRODUCES GUESTS.

Now this is the moment you have all waited for, this is why you have come, friends and relatives of the newly elected and re-elected Councilpersons, and we are going to hear a few words from each Councilperson who was re-elected.

We will start with our good friend, Sophie Masloff, Sophie please.

Mrs. Masloff:

Thank you Jeep. Your Honor, Mayor Caliguiri, members of Council, Judges and other distinguished public officials and friends.

I suppose to some people, being sworn in as a member of City Council is

not a particular noteworthy event, but to me it is an important and solemn occasion. Many of you were here when I was sworn in to an interim term as a member of Council in 1976. And many of you also witnessed my being sworn into a full term in 1977. I must tell you however, that I am every bit as moved today as I was at that first ceremony.

In approaching this day I have wondered why the oath I have taken is important. My conclusion is that these past few years as a Councilwoman have brought home to me the fact that decisions we make here affect every resident of the City and many who may live outside the City but spend their working hours in our town. It is not easy for me to express how seriously I view my job as a Councilwoman. You certainly are aware that I am not a public speaker. I do not expound on every issue, every debate that comes before Council, nor do I advance false issues merely to get media attention. But I make it my business to understand every issue. I consider my vote in these Chambers to be the public vote. That I believe is the mandate that the people have given me. In these times when we are beset by huge problems of changing social times, a depressed economy and the need for fiscal restraints beyond anything we ever before have experienced, the decisions we make are difficult and perplexing, but I have great support in accomplishing the task of representing the City. I owe my career in public life primarily to one person, Rita Kane. Her counsel, her ideals of honest, faithful public service have served me well these many years. I also give public recognition to the support given me by my husband Jack, my children Linda and Nick, and my dear sister Sarah. It is they who bore with me these last few years when our personal lives have been disrupted by my erratic schedule resulting from the

Chairmanship of the Parks and Recreation Committee and the time consuming task of chairing the Cable Television Committee.

In my acceptance speech at my swearing in in 1976 I pledged to serve the average taxpayer. I said I would make their concerns my concerns. I still feel in tune with the average citizen because I am an average citizen. The worries, the concerns of Mr. and Mrs. Average Taxpayer are mine. I believe that I have served those people. The great body of our population in that regard. I pledge that I will continue to be responsive to their needs. It is my pledge that I will continue to work for the betterment, not of any special interest, but for all of us who choose to be common, ordinary, but proud citizens of the City of Pittsburgh. Thank you very much.

Mr. DePasquale:

Before I introduce this next gentleman to say a few words, there are some people here today that we take for granted year in and year out, and do a tremendous job for City Council, and that is the entire staff of City Council and former staff member Frank Martin. Would they stand and take a bow please?

Now the next gentleman, if I'd have know what he was up to I would have upstaged him and had my six grandchildren here, but he brought his two children and it was great. Would the Chairman of the Housing & Development Committee of the City of Pittsburgh, William Robinson, come up and say a few words please.

Mr. Robinson:

As Jeep knows, I'm not one to say a few words and I won't change that today, but I certainly want to say first of all, greetings to Reverend Clergy, other

elected officials, guests, friends, and those who have worked so hard on behalf of all of us here on City Council, and I too would like to publicly acknowledge the support and assistance of all of the members of our Council staff, the dedicated job that they do everyday is unsung, there are people here who work more than 40 hours a week, who give a lot to this Council and give a lot to themselves and who by the grace of God, remain uninvolved in much of the turmoil. Thank you very much.

Giving glory and honor to God, I would like to thank my family, Mrs. Annie Robinson, my mother, Mr. George Robinson my father, who could not be here today, my aunt Louise Smith, my uncle Hubert Smith who has been like a right arm to me, my sister Barbara who has stood with me through tumultuous times, my daughter Niota, my son William. As he always tells me, he is Billy and I am William. I also would like to thank all of my friends, supporters and the voters of this City for their support, encouragement and assistance during my re-election efforts of 1981.

This day is very important to me for many reasons, but I dreamed about this day, the very day I was sworn in in 1978, and I promised myself that I would get elected one more time. Thank each and every one of you who prayed with me and worked with me because that day is finally here, and those of you who noticed me blowing on that piece of paper that the Judge had me sign, I also promised myself I was going to do that because I wanted to make sure the ink was dry, I wanted to make sure that indeed I was a Councilman again, and I thank God for that. And I offer a special thanks to my Administrative Assistant Mrs. Alberta Broaden for her dedication, patience, loyalty, determination and positive spirit during the last four years. Without her assistance, only God

knows, I would not be here today. Without the assistance of those I have mentioned and many others who gave me their prayers, I would not be before you today as a member of City Council on this first Monday of January, 1982, and it is just one day and I would just like to read a small portion from a little prayer called "One Day at a Time".

One day at a time with its failures and fears with its hurts and mistakes, with its weaknesses and tears,

With its portions of pain and its burden of care, one day at a time we must meet and must bear.

One day at a time to be patient and be strong, to be calm under trial and sweet under wrong,

Then its toiling shall pass and its sorrow shall cease, it shall darken and die and the night shall bring peace.

One day at a time, but the day is so long and the heart is not brave and the soul is not strong.

Oh Thou pitiful Christ, be Thou near all the way, give courage and patience and strength for the day.

This is a portion of a poem by Annie Johnson Flint, and I think it in many ways symbolizes this date for me. God has truly blessed me to be so honored to serve the people of the City of Pittsburgh as an elected member of Council and to give service in a profession I truly love, government and politics.

When I was first elected to this Council in 1977 I accepted the challenge of public service and dedicated myself to serve the interests of all of the citizens of this City and to utilize my education

and training to improve our City's quality of life. Today again I accept the challenge and make that same dedication.

Unlike four years ago, one more crucial challenge will face this Council and the Mayor of this City. It is the challenge of adjusting the mechanisms of municipal government to the utilization of dwindling resources. While at the same time maintaining services at an acceptable level. There simply aren't enough resources to spread around. Resource management will be and must be a major component of making government work in our City in the years ahead. As a student of government I fully appreciate the legal and political limitations of local government, as well as the necessity for certain governmental functions to be conducted by quasi-governmental agencies such as redevelopment authorities, housing authorities and transportation authorities. Let us not forget that in a democracy the people are the power, and the legislative body such as this Council, still has an important and vital role in translating and representing the will of the people in the form of substantive programs, efficient administration and innovative techniques. While there is an ever increasing dwindling of influence on local government, policy development and municipal legislatures; they the legislators, must reassess their role in local government, while working in a cooperative fashion with administrators and agency heads to assure the delivery of services during this period of transition.

There is another challenge to be met by local government and that is the challenge of adjusting to the reallocation of power and the utilization of that power to serve the needs of all segments of the community. New people, new constituents will be placing demands on

local government and those demands must be addressed. They will be as straightforward as delivery of new services and they will be as complex as the issue of redistribution of power to those who feel they are powerless and to indeed, those who are powerless.

I have been privileged to serve with four different combinations of Councilmembers in as many years and to observe at both the participant end of government, the dynamics of a rapidly changing political system, wealthy with new ideas, techniques, innovations and personalities. I look forward to the next four years with hope, optimism and a trust in God that the changes this Council sanctions will truly be in the best interests of all Pittsburghers. That the resources of this City will be redistributed in an equitable fashion and that a spirit of cooperation will pervade the deliberations of this Council.

My mother gave me a plaque four years ago and it reads, "Challenge. Every man has within him the ability to do great things. His touchstone is challenge. No matter what his field of endeavor, a man must measure himself against the demands of his world. To rise to the challenge. Ultimately this is the reason men build bridges, climb mountains and do a thousand things that manifest personal achievement and satisfaction."

Thank you for your patience, your well wishes, and may God bless each and every one of you. Thank you very much.

Mr. DePasquale:

The re-elected Councilpersons are recognizing their spouses and I think it is no more than proper than I should recognize the very lovely Ethel Givens, the wife of Councilman Dick Givens. And I believe my lovely wife Josephine is

in the audience today.

You know it is significant ladies and gentlemen, that ten years ago when I was first sworn in as a City Councilman, there was great turmoil in the City of Pittsburgh in regards to a rapid transit system. There was pro and con as to whether we were going to have Skybus or not. At the time I made a statement that we could get a person on the moon and we couldn't get a person in the Wabash Tunnel to get the Skybus project started. I was a proponent of Skybus, I am not ashamed to say I was, I think it would have been the greatest system of all time, but we never had the chance to prove that. Yet today, ten years later, almost to the day, they are digging the dirt for the subway system here in the City of Pittsburgh, so after ten years we got a little bit of progress and let's say, Godspeed to them and may that subway system be in operation in a couple of years like they say. We need it and we need it badly. I just thought I would mention that in passing.

The next gentleman I would like to ask to come to the podium and say a few words, probably has the toughest job on all of City Council and he does one terrific job, he is our Finance Chairman, Robert Rade Stone.

Mr. Stone:

Rev. Clergy, the Honorable Mayor Richard S. Caliguiri, Council President Eugene P. DePasquale, former Council President Louis Mason, Jr., President Emeritus, Members of City Council, Judges, Commissioners, governmental leaders, Democratic Chairpersons and Committeepersons, Fraternal leaders, other distinguished guests, Budget and Council staff and ladies and gentlemen.

Permit me, first, to introduce my family. My wife, Sally Stone; my mother

is unable to be here today, but sends her love and best wishes; my sister Martha Stanish; the man who made sure my wife and I were married in bliss — my best man — George Topich.

Permit me first of all to acknowledge a permanent "change of guard" on this City Council.

First, to acknowledge and welcome to this body — for his first full 4 year term — the Honorable Ben Woods.

Secondly, to acknowledge and express a debt of gratitude for former Councilman William Coyne. Councilman Coyne is now U.S. Congressman Coyne. Our loss is the country's gain!

While Councilman Coyne made some constructive contributions to this Council, perhaps his greatest contribution lies in a short statement he made — which seems to have even greater significance — with each passing year, and even more so — in this decade of "fiscal constraints" of the 80's and that is:

"When one votes for the expenditures and appropriations, they must have the intestinal fortitude to vote for taxes and revenues — to pay for those appropriations. To do otherwise is to be fiscally irresponsible!"

That expression carries, with it — more attributes of maturity — than some can realize!

Having served as Finance Chairman these four (4) years, one begins to see a new perspective of this City and its fiscal life. Here is an opportunity, through a series of in-depth reviews, to see this City as it is — its past, its present and of course, its future.

The 80's will be "fiscally constrained" by need and by intent. Our

President, by intent, has imposed Reaganomics "upon this land."

Reaganomics, we are told, is a "balanced budget", but more clearly it is cuts — cuts — and more cuts. Some cuts even where need exists!

There is a "trickling down" affect of Reaganomics, we are told. So far, the "trickling down", we, nor the President, sees, but one need not be an economist — to feel the consequences of these cuts and reductions — locally.

How can our cities prosper, when, through "fiscal constraints", under the guise of a new program — Reaganomics, the new program is crippling the core cities by denying them good federal programs, that have a track record of success?

Reaganomics or not, this City needed some constraints, but this City has made good progress, and has even made a substantial investment — in its future.

This City has exercised some care, caution and restraints, as it has gone along, and it has made — a smoother transition — rather than, face the traumatic shutdowns — experienced by many cities.

Seeing the problems of other cities, one might say, "It could be worse!" for Pittsburgh!

But truthfully -- Pittsburgh is not like other cities, it is in the forefront of major and innovative and substantial development.

There is, therefore — not "darkness" but, rather — "there is brightness at the end of the tunnel." We should view our City with cautious optimism — not pessimism!

In my prior swearing-in speeches and again today, January 4, 1982, I would like to reaffirm my belief that in this complex era — in this era of fiscal constraints of the 80's — that COOPERATION is most important.

I spoke before and I speak now — of cooperation between...the business world, labor and government. I speak of cooperation by government on all levels, regardless of political affiliation. I speak of cooperation between government and our local neighborhood and civic organizations.

In 1978, I also added these words: "...and yes, I even envision — a partnership of cooperation — between the City Administration and this Council."

Council should not be "a rubber stamp" to no one, but neither, should Council be anti-anything and everything!

In years past, I have been up front and vocal on many issues, and made many constructive criticisms and suggestions, but always toward a goal of cooperation.

So it is most refreshing to say that — never, in recent years, has there been a more respectful cooperation between the Administration and the majority of this Council — than in 1981.

Each made known their thoughts, ideas and suggestions and solutions. Neither got everything that they wanted, but one thing is certain — they worked respectively and together and in a spirit of cooperation and — this City gained from it.

When times are "tight or tough" — constructive criticism and meaningful input, far exceed — "prose of no(s)".

This year alone, through cooperation:

1. \$500,000 of additional interest income — was realized from the institution of the "lock box collection" system.

2. \$3.8 million of extra income was realized by changing our payment schedule — for large employers — from quarterly to monthly.

3. And an additional \$150,000 in interest income was realized from the \$3.8 million.

4. A new constructive suggestion, by our newest Councilman, in regards to direct hauling of our garbage to the landfill station, rather than to the transfer station, will bring a savings of \$500,000 plus in 1982.

This was done, without the need to tax additionally for these nearly \$5 million of revenues!

Its time for better understanding from our non-City resident/City wage earner. We shall not begin to repeat the many reasons why — that are contained in our Budget message.

But permit me to repeat one phrase — "We challenge any non-City resident to say that they don't get more than \$10.00 of value, in services, from this City!!!

I would like to thank the voters of Pittsburgh — for their confidence and renewed faith in my candidacy and re-election to this Council.

I accept this public service — with the intent and desire — to do whatever I can to better our City and to improve the life of the citizens within it.

I congratulate my colleagues, and thank — all of you — who attended this swearing in — and by doing so — honoring us all.

To all of you — I extend the season's greetings.

This coming Thursday, January 7, 1982, according to the Julian Calendar, is Christmas Day for members of the Eastern Orthodox Church and faith.

There are in excess of 100,000 persons of the Eastern Orthodox Rite in this area.

To those, who will then celebrate the birth of Christ, I extend my personal wishes..."Peace of God...Christ is Born. "Thank you all so very much!

Mr. DePasquale:

And now the last, if not the least, the newly elected Councilmember from the North Side, the 27th Ward, he took a \$20,000 cut to come into City Council, he is that spirited of a citizen, and I seriously mean that, I question why he would take such a cut, but he wanted to serve on Council so bad, and here he is, from the North Side, again I repeat, Ben Woods.

Mr. Woods:

Mayor Caliguiri, President DePasquale, fellow Councilmembers, Reverend Clergy, Honorable Judges, friends, my wife Pat, my mother, my four children and the rest of my family.

This is the second time in six months that I have taken this Oath of Office. Today I see no need to amend the remarks I made then. Six months ago I spoke about Council's need to stand together in the face of those who would let the American city fall apart.

Today I re-state that need and I reaffirm my pledge to achieve that goal. Once again I see the federal government and Ronald Reagan robbing the cities to pay for their excesses. Once again I see the state government and Dick Thornburgh leaving the urban areas to die on the vine. And now, I see suburban leaders like Ed Early, sneer at the City that made the suburbs, while Dr. Hunt turns his back on the City that is this County's very foundation. But if we want to see the people that resist those forces, by renewing our City, I look to the people in this room. All of us here know what Pittsburgh means. Pittsburgh means a strong heart of a thriving region. Pittsburgh means the center of commerce, of education, health care and culture. This City is home to the working man, the business man, the young and the old, the rich and the poor. Pittsburgh means home to all of us. For those who would impoverish our City serve only one purpose — they drive us together and together we will prosper. Thank you.

Mr. DePasquale:

Congratulations Ben, to all the Councilpersons. Ben saved the best for last and he asked me to say it, from 12:30 to 3:00 at the Super Bowl, right down the street on Fifth Avenue, he is going to have a reception and you are all welcome. Thank you Ben.

We are nearing the end ladies and gentlemen and I would like to say before we conclude that you all remember the Mayor of the City of Pittsburgh is being sworn in in the lobby of the City-County Building at 12:00 and obviously, you are all invited to that swearing in.

The next order of business is the appointing of the Chairpersons to their respective committees. I wish to announce the appointment of the

Chairwomen and Chairmen of the Standing Committees of Council as follows: Committee on Finance, Bob Stone; Committee on Public Works, Mr. Givens; Committee on Planning, Housing & Development, Mr. Robinson; Committee on Supplies, Mr. Woods; Committee on Water, Michelle Madoff; Committee on Parks and Recreation, Mrs. Sophie Masloff; Committee on Public Safety, Mr. O'Malley; Committee on Lands and Buildings, Mr. Flaherty and Committee on Hearings, of course, yours truly.

Also, the appointment of Councilmembers to the Board of Trustees of Carnegie Library: Richard Givens, Bill Robinson, Tom Flaherty and myself.

Also, one member to the Board of Trustees of the Buhl Planetarium: Mrs. Sophie Masloff.

MOTIONS AND RESOLUTIONS

The Chair:

What is the pleasure of Council with respect to the adoption of the Rules of Council?

Mr. O'Malley:

I move that the Rules of the preceding Council be adopted as the Rules of this Council.

Mr. Givens seconded the motion.

Which motion prevailed.

The Chair:

Ladies and gentlemen, before we adjourn, I request that you would rise for Benediction. We are honored this morning to have with us Reverend Clifton Ruggs, Pastor, St. Luke Baptist Church, who will offer the Benediction.

Pastor Ruggs:

Behold how good and how pleasant it is for brethern to dwell together in unity. It is like precious ointment upon the head that went down upon the beard even Erin, that went down to the skirts of his garment, even that the dew of Herman descend upon the Mountain Zion and there the Lord commanded the blessings on life forever more. Now, may the grace of our Lord and Savior, Jesus Christ, rest rules in the Bible for all of us, now henceforth and forever more let us all say together, Amen.

And on motion of **Mr. Givens**

Council adjourned.

Mr. Givens:

Are these bills coming up this Wednesday?

The Chair:

Yes.

Mr. Perry:

The following Wednesday.

Mr. Givens:

The following Wednesday?

Mr. Perry:

Yes sir.

Mr. Givens:

I'd just like to make one point, Mr. President, on those, especially all the joint agreements, and knowing that we still have two that are still out and how can any Council, in trying to make up a budget, know what the joint bargaining agreements are until we complete our budget. What I would like the Chief Clerk then to do, is to write a letter from this Council to our Legal

Department and to the people that are now going to be responsible for handling the negotiations of the various labor contracts and to try to update those so that by law all these agreements, including that of binding arbitration, must be before this Council somewhere before the first or second week of December so this Council then can collectively look at not only, one, the agreement, which this Council has the right to send back by itself, or two, that we look upon it and we know and have a better understanding of what the total cost of the City of Pittsburgh will be for that forthcoming year. And why do we wait until after the budget is in before we receive all these agreements? That is my major point.

The Chair:

I think they allow appropriations. Mr. Stone can probably elaborate more.

Mr. Givens:

I have to agree, but ...

The Chair:

They're pretty sure about what it's going to be. Like I say, they allow a percentage point here and a percentage point there, and it usually falls right in the middle.

Mr. Stone:

I can't believe what I'm hearing. These are people negotiating with the City of Pittsburgh and the contract negotiations were attempted in '81. They didn't have a meeting of the minds until late, and some just not yet. When they get down to resolving it, then they'll do it. They have a right to strike until they do it, and I'm not so sure that Mr. Givens recommends that.

Mr. Givens:

No. But definitely, those that have the right to strike, can strike, and those that do not ...

The Chair:

But you have Mr. Givens who is saying how do you appropriate money when you don't know what it's going to be?

Mr. Givens:

No, my point is, that I can recall when I was Chairman of ... for example we still have two out - the Police and the Emergency Medical are still in arbitration. What if the arbitrator, for some reason or another, at any time, not specifically this year, would come in and was a real haymaker? Now, this Council can't even object to an arbitrator's decision. We came to a contractual decision, predicate upon the Mayor and the joint bargain agreements. But once it goes to binding arbitration, even this Council cannot reject it. To my knowledge. That is my deep concern. What if some arbitrator would come in with some unusually high amount of money, and I appreciate to set aside seemed adequate. To me that is not the best way of doing business. To me I think they had a starting date, that they must sit down by September. If they don't make an agreement by October or by November, they have to go into some pretty hard deliberations by sometime in December. If they're not, if they don't have agreements on certain points, then they could go to binding arbitration. I think that process should be, the time clock should be set back on that so they can be doing this during the summertime and be completed with next year's finalization, including the arbitrator's decision by sometime in the early part of December. And I think a legal opinion to

that, as to can we do it, and if we can do it I think common sense would dictate that maybe we should do it.

The Chair:

Thank you. Mr. Stone for Mr. Woods.

Mr. Stone:

I'd like to respond. I wish I didn't have to, but too often when you don't respond, it makes it seem as though something wasn't done that was, in fact, done. Everything that Mr. Givens has talked about has been done, and that is why it is in arbitration. They were negotiating back and forth, they failed to have a meeting, and the police are now in, as is provided by the present law, that they go to arbitration and that's what they're doing. Now, there may be, so to speak, in fairy-tale books, better ways to do things, but this a practical world and that's how it's set out, those are the rules, those are the present guidelines, and they have that way to do it. But in fairness to everybody, they've gone through all of those motions.

Mr. Givens:

I could bring one example out, Mr. Stone, in regards to when this Council sat down and made appropriations, including our own Council staff. At that particular time, at least this Councilman did not know what the final agreement was going to be with the City blue collar and white collar workers. We did not know that information. Along with that, many authorities also act upon the directions of the City government. Otherwise, the City government blue collar and white collar people will get x amount of percentage increase then a lot of the authorities will fall in pursuit of that. So there's more concern there. There's not only our budget, but other

budgets in Housing, Urban Redevelopment, the Stadium Authority, Housing Authority, you name it.

The Chair:

To the best of my recollection, this is the first time, at least in my time, that they have gone beyond the current year into the following year in regards to negotiations or bargaining. Why, I don't know.

Mr. Stone:

No, this has happened before.

Mr. Givens:

Mr. President, I could give a good example. I think this Council, specifically myself, had asked for an actuarial report to be submitted to this Council no later than the 30th of September. And because of that, this Council and the Mayor, because whatever reason he gave, was caught with our drawers down to the tune of \$1.4 million in a new actuarial report. We should have known that, the Mayor should have known that by the 30th of September. That's my exact point. And I'd like to know these facts about our bargaining agreements, which this Council has to approve. We have to approve everyone of those bills. If we approve them, fine, if we disapprove them, then they must go back to the drawing board again and start all over. Now do we want to do that in March or April or do we want to do that in the month of December or maybe January at the latest, or while the budget is still open for those five or six weeks after it's officially adopted?

The Chair:

Thank you.

Mr. Stone for Mr. Woods presented

No. 73 Resolution providing for the letting of a contract or contracts for the use of existing contracts for the furnishing and delivery of a Tubeless Truck Tiremounter, an all purpose Tire Spreader, and a Tube Dunker Tank and Stand for the Department of Supplies, and for the payment thereof from Code Account 1153, Equipment, Department of Supplies. (Cost not to exceed \$8,000.00)

Also,

No. 74 Resolution providing for the letting of a contract or contracts, or the use of existing contracts for the furnishing and delivery of thirty FM Two-Way Mobile Radios for the Department of Supplies and for the payment thereof from Code Account Number (SD 81-01) 4-30-01-0001-81, Misc. Services, Department of Supplies. (Cost not to exceed \$20,000.00)

Which were read and referred to the Committee on Supplies.

UNFINISHED BUSINESS

Mr. Givens:

It's unfinished Council business from the year 1981, and I don't know just how to start this out, Mr. President, but certain things are done that reflect upon this Council body, and I for one, trying to be legal minded, and I think all of us do, sometimes there is ignorance of the law, and generally the Courts are very, ah, have great sympathy in this particular case. But we have a case before us, two cases, in fact. One, and I'd like to so direct the Chief Clerk to find out if the poinsettia, and I'm sorry that Michelle is not here because the two points I'm going to bring up are in this regards. One, and

it's not a laughing joke to me. It's a very serious, serious concern. I want to know if the poinsettias have been returned. If not, then I so direct the Chief Clerk to submit to wherever the plants came from, to submit a bill to this Council to be then sent to Michelle Madoff for her payment. Secondly, and even more serious, a mailing was conducted within the confines of City Council, in direct violation of the Home Rule Charter. I want the Chief Clerk to so submit a bill to Michelle Madoff for those cost of mailings and the cost of the work that was done by the employees and the equipment that was used. And if this is not forthcoming, then I want this to be a written letter to her, Mr. Chief Clerk, and I want a copy to go to all Councilmembers and when you get a response from it, I want a copy to go to all Councilmembers and being a logical person, I'll wait a reasonable length of time before this Councilman will take any kind of action whatsoever.

The Chair:

With one exception. Unless you put that in a form of a motion, you're going to have to do it yourself.

Mr. Givens:

I ask this as correspondence directly from this Councilman to Mike Perry ...

The Chair:

You're going to make it look like all of Council is asking for that. You should put this in a form of a motion or you should ...

Mr. Givens:

Well, this Council, upon the actions of what has happened, there has been a violation of this Charter. And I'm

not saying that I want to pursue the issue, I just want justice to be done. If payment is made, I'll be satisfied, maybe. But until some restitution is made, then I have a serious problem. When it comes before this Council, to my knowledge, is if she does not pay it, then this Council has a position as to whether or not we're going to do something about it as a body. But as an individual Councilman, before this body, I think I have the right to so ask for that information.

The Chair:

I think we run the risk of being sued for slander, because as of now, it's only alleged that she pilfered the poinsettias. It's one thing to prove it and it's another thing if it didn't happen. It might have been somebody, God forbid, that looked like Mrs. Madoff. I don't know.

Mr. Givens:

It's one of record.

The Chair:

I'm just saying ... You're getting into deep waters there, Dick.

Mr. Givens:

It might be deep water, and I have to agree it might be deep water, and I hope that someone would swim to the surface and say bail us out. And there's only one person who can do that to my knowledge. And if she's willing to do that, then I'm willing to drop what I feel has been a violation of the Charter. If I were to do it, then I would feel under the same laws that govern all of us.

The Chair:

Alright. I stand corrected.

Mr. Givens:

And, a couple others under Old Business.

Recently, just in the newspapers we had an article so indicating that two thousand North Siders were without telephone service for some several days and I have to appreciate that everyone worked around the clock to restore those lines. However, under Old Business, when the 62nd Street Bridge burned down, for about a week, several thousand residents of the City of Pittsburgh were without telephone service. Now, when we tear a bridge down, Duquesne Light, or any utility company, requires us to make restitution. When we open up a street and move one of their utility lines, the City of Pittsburgh must make restitution. It is funny that we must make restitution on all this, including paying the City of Pittsburgh Bell Telephone, Pennsylvania Bell Telephone, on our 911 Emergency System, plus all the phones that we use. However, our citizens, the people that we represent, sit out their and get no restitution from, especially, Bell Telephone in this particular instance because, and on the 62nd Street Bridge, it is under legal dispute as to who was the cause of the disruption of the Bell Telephone System. Well, that's very nice, but in the meantime, the people of the City of Pittsburgh are not reimbursed for the time that their services were so knocked out. I think this is not just. If the City of Pittsburgh is in error on something, we pay judgments all the time. If we must go to the Courts, fine, we go to the Courts. But I feel that the Utility people must pay our citizens the correct amount of money, or charging the correct amount of money, minus the services charges that they did not receive during that particular period of time. And it's something that kind of gets under my belt just a little bit.

Also, under Old Business, Mr. President. Steam in Council's offices was not on this morning. I know Mike Perry had to do something about that. But Mike, and maybe you can answer my question on this. For three months, most of the people in the Council Chambers, in our offices, had to have air conditioners on while the damn heat was on. Now, who is at fault for that reason? Lands and Buildings, or do we have a Contractor or what?

Mr. Perry:

That's the fault of Lands and Buildings. County has control of our steam heat here and I have no control over that.

Mr. Givens:

I appreciate steam heat comes into the building. Do we in the building have any control over where that steam goes?

Mr. Perry:

The engineers probably do have control of that.

The Chair:

We've all been trying to get them to cut down, Dick. I can't shut mine off.

Mr. Givens:

I couldn't either, Jeep. But, hold it, wasn't it nice that we come in in the most frigid weather of probably the century, and somewhere, somehow, during this little interim period, some engineer was able to turn all of our heat off, with the exception of this room. Now, three months ago we had asked them to do this.

The Chair:

Seriously, I turn mine off and I still get heat.

Mr. Givens:

Are you saying, Mike, that that comes under Lands and Buildings?

Mr. Perry:

It's under Lands and Buildings.

Mr. Flaherty:

It's under Lands and Buildings but it's the County that controls the steam flow.

Mr. Givens:

Well, I appreciate that, but can the City cut off that steam flow. Apparently we can't.

Mr. Flaherty:

It's the County's. Frank Williams.

Mr. Givens:

Somebody can cut it off here. If you walk in in the morning and there's no heat in the building, what happened? Do we want more frozen pipes like we had up in the sixth story of this building. Some poor contractor left the shithouse door open?

The Chair:

I hope you said shedhouse.

Mr. Perry:

Let's have Daryl Smith here.

Mr. Givens:

That's exactly what it was Mr. President. They were working in the

latrine and left the damn window open or someone left the window open and we had considerable millions of dollars of damage in this building.

The Chair:

It could be worse. We could be in Siberia.

Mr. Givens:

Mike, I need whatever direction you can give me on that particular one. Okay?

Mr. Perry:

Right. We'll have Daryl Smith here.

Mr. Givens:

Seondly, for Post Agenda this coming Wednesday. The water, and the undermining of the one hill up on Polish Hill. I want everyone from the Water Department that had any action to do with that particular thing. Now, when a person comes and tells a responsible City Department that we have a problem and those people negate their responsibilities of investigation, all they had to do was put a little dye in the water upstream from where that condition was happening, and they could have told those people exactly if it was coming from City water or not. Here is a family being relocated and their home completely undermined because, apparently, of damage that was done by a City watermain. I want to know the people who were responsible and I want that to be a Post Agenda item. I want the people who have that particular area of responsibility, I want the Director and I want the individual who went out and did any investigation on that, that were called in to look on it. And if need be, Mike, I would like for you to call the

residence of those people who were the victims of this to come in and give their side of the story. I don't want to read every damn thing in the newspaper. I want to get some facts in this Council and I want it right from the horses mouth.

Secondly, in Environmental. Along with Lands and Buildings, Post Agenda item. And I use it as a test. In my own area. In fact, the property belongs to me. For two to three months, for two to three months, Mr. President, there has been what they call whites, or refrigerators, couches, chairs, garbage at the other people, ugly looking things to ugly people, that sat in front of a piece of property of mine at 206 South Millvale Avenue. I want the Director to clean that up, number one, and, Mike, if you would so call him because I'm not in the mood to be calling anybody right now as you can see from my attitude, and I want the Director up here, I want the inspector that was responsible in that particular area to be up here and if at all possible, I want the person who collects that route over the last two to three months to come up here and tell me why that was not picked up. And it's not only my particular piece of property. There are couches and chairs and garbage laying all over that particular neighborhood, that is not been picked up for a number of weeks, a number of weeks. Sometimes I wonder, Mr. President, what is happening. I don't know if it's certain areas of the City, I have to agree. Along with that comes the Homewood-Brushton. The whole Homewood-Brushton area, the citizens out there complain to me. We have a complete list of all the Lands and Buildings, all URA property and everything else that not cleaned up. Now, you know when the Mayor gives his speech saying let's, what I consider, bend over and pick up your garbage or put it in a proper container, then that starts at

home. Now, there are people renting that house and there's neighbors that I have and other neighbors that have to look at this damn trash. I want the people ... It's on the books, the violations are on the books, let's get after the violators.

The Chair:

The section you're talking about, it that near Morewood Avenue? Is that the part near Morewood Avenue? The part of South Millvale you said hasn't been picked up?

Mr. Givens:

No, that's right off of Penn Avenue. Between Penn and Friendship. You see Penn Avenue, one side is Garfield the other side is Bloomfield, and you know, you look at the lots up in Garfield, if it hadn't been for that community really getting on the City and the various departments, that area would still be in a very blighted looking condition. They are working very hard up there. But you know, as you punch the bag in here and it comes out on the other side. I still have reservations about the curbside pickup, but that is not my point. My point is, why wasn't it picked up. I need a reason, and if it happens to this Councilman, God knows the collectors along that route know whose property it belongs to. And if they do it to me, a Councilman, what does the poor little citizen have to say when there's over five thousand calls that have been made in the year 1982 before our switchboard down there in the Mayor's Service Center. Five thousand garbage complaints of which, I'm told, eighty some percent of them, or better, were corrected. It's awful nice to know that people have to call the Mayor's Service Center to get service in this City. I guess the message I'm trying to deliver is that we have people who work

for the City of Pittsburgh, and if there's a breakdown in our equipment, if there's a breakdown in our personnel system, I want to know.

The Chair:

Okay. Mr. Flaherty.

Mr. Flaherty:

Point of clarification, Mr. President. In regard to an issue that I'm sure is close to everyone's heart, and I'm sure that we have all received a few days prior to Christmas, a copy of an opinion from the Solicitor's office in regard to the three-prong questions that were on the ballot in regard to what system we will use to elect people to Council. In regard to that opinion, I agree somewhat that the results are inconclusive and it seems to me the bottom line in the opinion is that the Charter remains unamended strictly because the Charter cannot have two amendments that contradict each other and that seems to make clear common sense. However, in conferring with my attorneys, and it also seems of common sense to me, that Council is going to have to take some action to break the logjam that now occurs, because, even though these two amendments are absurd in a way, since they do contradict each other, say that one Council shall be elected at large, and one Council shall have all of it's members elected from the districts, regardless, they are binding amendments to the Home Rule Charter. I state Statute 221, under the title of Amendment of Existing Charter. An amendment to a Home Rule Charter has force and status of a legislative enactment and courts should not interfere. I would like the City Solicitor's office to suggest how Council breaks this logjam. I don't feel that it is so unprecedented that Council just forget this current problem strictly because an

opinion of the Law Department says that the Home Rule Charter continues unamended in its present form because I'm concerned about the safeguard of in the future. For example, under the Charter now, it specifies that Council can switch from all at large to electing all nine members from the districts. I'm concerned that in the future if a bill should be introduced to attempt to bring about that change, that someone may say, well the Charter is amended which strips Council of that power to whoever switched to elect all nine members from the district. So I believe that it's essential that we receive more clarification and a more conclusive result as to what action Council can take to try to bring some clarity to this quagmire.

The Chair:

Do you understand that, Mr. Solicitor, in regards to giving an opinion?

Parliamentarian:

I think Council as a body has to request that.

The Chair:

Council as a body.

Mr. Flaherty:

Well, I move that Council, as a body, ask the Solicitor's office to make suggestions as to how we can break this logjam. I believe from a legal perspective we have to do it, and from a perspective of accountability, I feel that since Council put the three questions on the ballot, it's only proper that we now take the leadership role in trying to sort it out and make some common sense.

The Chair:

Is there a second to Mr. Flaherty's motion?

Mr. O'Malley seconded the motion.

Mr. Givens:

Mr. President, I don't know if everything has to go, I think Tom Flaherty had a point there that he requested something from the legal department, are you just asking that this go down for clarification from the legal department?

Mr. Flaherty:

Well, I believe that we have to have more of a conclusive opinion. I don't know what was asked of the Law Department in the first place. I did not request the opinion.

Mr. Givens:

I read several opinions ...

The Chair:

You're specifically asking the Law Department for us to unravel the logjam, for us to take further action on the vote of the public.

Mr. Flaherty:

What I am saying, Dick, is the Law Department has issued strictly an opinion and this Council can either accept that opinion or refuse the opinion, as all opinions. But the thing is, I believe it is going to take councilmanic action to break this logjam of two amendments that contradict each other.

Mr. Stone:

Mr. President, may I respond? It's not my turn here and I don't want to interrupt or interfere, but we're getting

into a debate with it and I just ... Does anyone have any objections?

The Chair:

Well, in all fairness, we started on the vote and we said here a couple of weeks ago that once we get on the vote and until you ...

Mr. Givens:

Well, my point, Mr. President, I guess, is very simple. You brought it up earlier when I mentioned something about the poinsettias. I think when any Councilperson here asks in this body for an opinion from the Law Department, that he is by right and can only this body, as a body, per se, ask for an opinion, I've never heard any objections, I never heard any requests for a vote of confidence or anything else in regards to asking a legal opinion.

The Chair:

Well, with the exception of this case, it's going to be rather moot. They've already given the opinion. They're not going to give you a different opinion to contradict the opinion they gave you.

Mr. Givens:

I've read all the opinions. I'm satisfied with those opinions and I don't think we need another opinion.

The Chair:

Their opinion is that the Charter cannot be changed according to the vote that was taken last November. I don't see how they can give you a different opinion. It's always been Council's prerogative to change the Charter. You can do it today. There's no reason to tell us it's prerogative, we know that.

Mr. Stone:

Mr. President, point of order, if I may. I think maybe Mr. Givens is on target here in the sense that if some Councilman wants some information, he can have it. I think the President is also accurate. I think that the opinion that has already been given kind of answers it all, but if Mr. Flaherty needs some more information he's entitled to that.

Mr. Givens:

I agree and I don't think that I would want to give a vote on it. I think that's his right to ask for whatever he wants from the Legal Department, and I will read it and interpret it from the Legal Department. If I don't like it, then we'll seek our own Council. But I don't think I'm going to ask for a vote for something to determine something that the voters had already determined. If he wants an opinion from the Law Department, fine, he's so authorized to get that opinion anytime. I think any Councilperson so requests that opinion. So I think it's out of order to have a roll call vote on something that's automatically adjudicated to us

The Chair:

Look, Dick. We said we're going to ask the Solicitor and we've referred to the Solicitor and he said it has to be the action of the entire body. Now if we're going to respect the Solicitor's opinion, I think we have to respect Mr. St. Johns.

Mr. Givens:

Then I'd like to hear it from the Solicitor please.

Parliamentarian:

Mr. Stone is right. An individual Councilperson can ask for additional

information from the City Solicitor, but if Council wants this, then Council as a body has to request it. Mr. Flaherty can certainly, you can, or any member of Council request this additional information. Now if the Council should want that as a body, you should vote on it

Mr. Givens:

Hold it. Since I've been in Council here, if a Councilperson, and since you've been sitting there, wanted information from the Law Department or Solicitor, you know, we just ask for it. Now, if I'm back in my room and I ask for some information from the Law Department the thing is, "We cannot do that for you, Dick, you have to do that in front of Council." Only through Council and it's normal form of this particular body at this particular meeting can we ask for that.

The Chair:

Okay, so in other words, Flaherty's prerogative to ask for information, you're doing that as Mr. Flaherty, you're not doing it as Council as a whole.

Mr. Givens:

Well if he wants more information ...

The Chair:

Now wait. If he's asking Council do as a whole we have to vote. If he's saying he's going to do it himself, then that's something else.

Mr. Flaherty:

I am asking Council as a whole because, granted, I have a very strong interest in this issue and I respect the

opinion of my colleagues that aren't in agreement with me on this. But I feel that it is important that Council take action on this because I don't think a City Solicitor's opinion can stand up in a court of law. Say, for example, we introduce a bill to change the current system to elect the members of Council by districts. Then I believe the strong argument could be made that someone could say the Charter was amended and the Charter says that it stripped that line out that gives Council the power to Switch to districts. Then someone could come back and say, "Well the City Solicitor issued an opinion that says that the Charter remains unamended." Well someone says, so what, it doesn't mean anything. I don't think, you know, legal sense, does this opinion mean anything, Vince?

Parliamentarian:

I can't comment on that.

The Chair:

Well, you know Tom, we could go round and round about this, but it's my impression from what I was told, that the public had voted almost unanimously for District Council. Council still had to change it. Council still had to vote to table to change the Charter. Obviously it was an overwhelming vote for District Council, I believe Council are to go along with the public's mandate. But we didn't have that overwhelming vote, so therefore, we still had the prerogative of changing that Charter regardless of what the opinion of the Law Department as to the Charter not changing due to the vote results. They're only telling you through the vote results you can't change it.

Mr. Flaherty:

Well I believe that its important that Council as a whole request this

information because I'm afraid someone could go to court on this issue, I feel in conferring with a couple attorneys on it, that if Council does not take the initiative and try to clear up the confusion that now exists, and I know confusion exists in my mind, I believe with the public in general, the segments of the public I have heard from, they are very confused as to what is the status of those three questions now, and for the public opinion in respective Council, I believe that it's important that Council take some leadership in resolving the issue one way or the other rather than just say, well here's an opinion from the City Solicitor. I don't think this has any bearing, I don't think it means anything in a strict legal sense. I believe what means something in a strict legal sense is what this Council does.

Mr. Stone:

Mr. President, I'm trying to stay away from a debate, I thought we were into a vote. Now we go back to Mr. Flaherty and I'd like to respond to what he said. For me, I don't need anymore legal opinions. I think the opinion speaks for itself, but more so, I think the voters of City of Pittsburgh spoke for themselves. There's no question that the at large got more votes and won over any other question. There's no question in my mind that there was no overwhelming pursuit to change it when we got to District Council and there's no question in my mind that the proponent of this particular issue started with some combination and jumped all over the place before it was over and the one he said and represented to this Council was what the overwhelming majority of all the people in this City wanted was one he didn't even support when it came down to voting. And obviously it lost. I think the thing that the problem lies in is the person who is making the motion. I don't know that anything will satisfy him

other than some way that it becomes district. Now, some people have to learn that no is no and that's where it is. As far as this particular vote was concerned, at large won, no question it won. It got more votes and it won. As far as the district, it did not show any movement in this City that showed anything of materiality or substance that the people wanted a change. He asked for an opinion from the City Solicitor, you got one, he spoke on the issue. It's now a closed issue. I'm not going to engage in a debate, because when it comes to law, some people ought to learn to stay out of the law business. But aside from that, when someone tells me they got lawyers, go ahead, that's what the courts are for. You want to go to court, go ahead. If you think you know the law, you go to court. But it's going to cost you some money to play around. This City and this County spent enough money on this issue. There's no need to change it. If Mr. Flaherty wants to have an additional opinion, as far as I'm concerned, he has that right to have it. Now whether this Council needs that information, I say they don't, now if he wants it himself, fine. As far as I'm concerned as one member of this Council, I don't need it and I'll not vote for it.

Mr. Flaherty:

I just wish to respond to Councilman Stone. First of all Councilman Stone, I did not request this opinion, okay? Second of all, perhaps you need some legal advice because you of all people should know that this was not a preference question. This was three separate questions on the ballot. Three separate entities. So how can you say because one question received more votes, more affirmative votes, it was the winner. The second question ran stronger on a percentage basis by one percent. So I believe everybody in this

room knows, I mean I think that is a weak, very cheap argument to say that the first question, since it received more affirmative votes, it won. There were about twelve hundred more people that voted on the first question. But on a percentage basis, the second question ran one percentage point higher. Even Mead Mulvihill, in his opinion said you can't compare the two. It's like apples and oranges. They're three separate questions. If it was a preference question, fine, but it wasn't a preference question.

Mr. Stone:

Call the question.

The Chair:

We're already voting.

Mr. Givens:

He has the right to ask for that opinion, he's got the opinion. I'm not going to vote on it. I don't think we have to vote on it. It's out of order. The question to vote is out of order, the question for him to get a determination is in order.

The Chair:

Is there any further discussion on the motion?

And on the question, "Shall the motion be approved?"

The ayes and noes were taken agreeably to law, and were:

AYES:

Mr. Flaherty
Mr. Robinson

NOES:

Mr. O'Malley
Mr. Stone
Mr. DePasquale
(Pres't)

ABSTAINING:

Mr. Givens
Mrs. Masloff

AYES 2
NOES 3
ABSTAINING 2

And a majority of the votes not being in the affirmative, the motion was defeated.

The Chair:

You still request that information and he'll still send it over.

Mr. Flaherty:

Okay.

MOTIONS AND RESOLUTIONS

The Chair presents

Bill No. 75

Communication from Richard S. Caliguiri, Mayor, submitting the name of Dante Pellegrini as City Solicitor.

Which was read, received and filed.

Also,

Bill No. 76

Resolution approving the appointment by the Mayor of Dante Pellegrini of 5928 Bryant Court, Pittsburgh, PA 15206, as City Solicitor of the Department of Law.

Which was read.

Mr. Stone:

Mr. President, if I may, just on this point. If no one has any objections, I'd move for it, but if you want to wait, I'll wait for it. He's been the assistant City Solicitor, he's been very qualified in his own right, and he's been nurtured along into this field. It seems to me that it's a good move and we're fortunate to have someone as talented who's been sitting in that second seat as Danny Pellegrini. He did the whole codification of the City Code and the Home Rule Charter and everything else that's involved here. It would appear to me that we have a unique individual. I don't want to cut anyone short if they want to go into what his philosophy is and those kind of things, I'll move for two weeks.

The Chair:

The two week waiting period is a mere formality and certainly it can be waived and you can vote on Danny —

Mr. Robinson seconded the motion.

Mr. Stone:

Does anyone have any objections?

Mr. Givens:

Bob, I don't have any objections, but I think any time the Mayor submits a name to this Council for approval, and I have to agree with you, I've known Danny, it's also a public notification that he is going to be the Solicitor and all of us have to appreciate that the final signature comes out on most of the documentation that has been forthcoming to this Council is from the Solicitor himself, and I think the public should have at least one week to voice an opinion if they so desire to voice that opinion.

Mr. Stone:

Well then I withdraw my original motion and move to hold it for two weeks.

Mr. Robinson:

I withdraw my second and second the motion to hold for two weeks.

Which motion prevailed.

Mr. Givens:

When does Mr. Mulvihill retire? Officially?

Mr. Perry:

January 4.

Mr. Robinson presented

No. 77 WHEREAS, the Reverend Martin Luther King, Jr. dedicated his life and endeavors to the achievement of a just and healthy society and the enhancement of respect and trust in our institutions and the insurance that all citizens are treated equally before the law; and

WHEREAS, his outstanding contributions included the Nobel Peace Prize and other forms of international recognition; and

WHEREAS, January 15 is the birthdate of this great American and is celebrated throughout the United States of America; and

WHEREAS, celebrations are held in schools, churches and community centers; and

WHEREAS, the Commonwealth of Pennsylvania had designated January 15 as a State holiday; and

WHEREAS, the Untied States Congress has been petitioned to designate January 15 as a National legal holiday.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh on behalf of the residents of the City of Pittsburgh do honor and recognize the birthdate of the Reverend Martin Luther King, Jr. and encourage the Congress of the United States to designate January 15 as a National Legal holiday.

Mr. Robinson moved for approval.

Mrs. Masloff seconded the motion.

Which motion prevailed.

Mr. Robinson:

Mr. President, I'd like to make a comment. I think it would be appropriate if we could have the City Clerk forward a letter to Congressman Coyne asking him to enter this resolution into the Congressional Record.

The Chair:

Also, I believe they're having services Friday morning. Perhaps they can send a copy of the resolution. Thank you.

The Chair presented

No. 78 WHEREAS, on January 16, 1982, pro-lifers everywhere will commemorate their disagreement with the Supreme Court Decision of 1973 which authorized abortion on demand; and

WHEREAS, local observances will be held in cities across the nation; and

WHEREAS, People concerned for the Unborn Child will spearhead a formation of organizations in a march and rally in Pittsburgh on Saturday, January 16, 1982, and a national march for the Right of Life in Washington, D.C., on Friday, January 22, 1982.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh recognizes the positive efforts of those responsible for the pro-life movement and their activities during Right for Life Week, January 16, through January 22, 1982.

Mr. Givens moved for approval.

Mrs. Masloff seconded the motion.

Mr. Flaherty:

Mr. President. In regard to this I am going to support it though it is not my whole-hearted concurrence that I agree with the convictions of people concerned for the unborn child though I do recognize and respect their positive efforts in addressing their concerns to the government.

The Chair:

Well, I don't think this in any way reflects Council's opinion as to whether the pro-lifers or pro-abortion. It's just another fact that this is a group that's convening here this coming weekend and I think in Washington, D.C. the following week and we're just respecting their right to convene or have a convention.

Mr. O'Malley:

I'm going to abstain on that.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

AYES:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mrs. Masloff	Mr. DePasquale (Pres't)

AYES 6 NOES none
MR. O'MALLEY ABSTAINING

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Robinson moved to excuse Michelle Madoff and Ben Woods for absence from this meeting.

Mrs. Masloff seconded the motion.

Which motion prevailed.

Mr. Robinson moved to approved the minutes of Monday, December 21, 1981, Monday, December 28, 1981, and Monday, January 4, 1982.

Mr. O'Malley seconded the motion.

Mr. O'Malley moved to suspend Rule 8 by providing for consideration of the bill only until or after the 9th calendar day following the meeting in which the bill was introduced so the bill will be on the agenda this Wednesday.

Michelle Madoff seconded the motion.

Which motion prevailed.

Michelle Madoff:

Mr. President, I think it would be incumbent upon the Director to be here to explain how this happened and I don't think it was Mr. Perry's fault. Mr. Perry cannot violate the law, he has a certain amount of time to publish notices, and if it wasn't given to him in time, I think somebody has some accountability with the flooding that could go on with the snow or what have you, or river flooding. This is inexcusable. And I think on Wednesday, before we vote, we should have an explanation.

The Chair:

Also, I think Mr. Perry should write a letter explaining our position. We're in the clear on the thing, but there were some letters to the editors where

we were blasted, and it's not our fault.

Michelle Madoff:

Absolutely.

Also,

No. 95 Resolution providing for the issuance of a warrant in favor of the following contractors: Nathan S. Levenson, Architect, in the amount of \$2,305.00, Ruff Electrical Construction Company in the amount of \$1,431.25, A.R. Scalise, Inc. in the amount of \$700.00, and Art Frangos Construction in the amount of \$5,079.45, in payment for the construction and relocation of the Police Identification Section, First Floor, Public Safety Building, without previous authority of law and providing for the payment thereof, payable from City-County Identification and Information System Project Special Trust Fund #2, Pittsburgh National Bank.

Which was read and referred to the Committee on Finance.

Also,

No. 108 Communication from Ronald Schmeiser, Director, Department of Finance, submitting a report of deposits and market value of collateral security pledged by City Depositories to secure same as of December 31, 1981.

Which were severally read and referred to the Committee on Finance.

Michelle Madoff:

Mr. Perry, does that have anything to do with the Lock Box? Mr. Stone? We were talking about the monies in our banks and getting some --

Mr. Perry:

I don't believe so, Michelle

Michelle Madoff:

Mr. Stone, do you know if that has any tying with our Lock Box at all? Obviously if the bank has our money they also have a Lock Box money, don't they?

Mr. Stone:

Not really.

Michelle Madoff:

Well where's the Lock Box go. It doesn't go underground. It goes into a bank.

Mr. Stone:

One bank has our Lock Box. They're collecting our revenue.

Michelle Madoff:

You mean they collect it if we deposit.

Mr. Stone:

No. We designate an advance and the money goes to them.

Michelle Madoff:

And it should go in within how long? Within what period of time should

that money be deposited?

Mr. Stone:

We'll get interest from the day it's received.

Michelle Madoff:

No, I didn't ask you that. I said how long would it take before the time we receive the check downstairs and it would be deposited to the Lock Box?

Mr. Stone:

The Lock Box system says that we get it from the day they receive it and then we process it after.

Michelle Madoff:

They meaning whom? Do you mean when the Controller's office gets the money we get interest on it?

Mr. Stone:

The bank gets the money, takes the check out, makes a photostat copy and sends the paper back to us --

Michelle Madoff:

We do not understand each other. We have a communication problem. Let's try again. It's my fault. I make a payment downstairs in the Controller's office for my back taxes. How much time will it take before that check is deposited or a Xerox made before it goes in the Lock Box.

Mr. Stone:

It should be shipped over there immediately so that we get interest and then they do the bookkeeping.

Michelle Madoff:

Have you checked it out at all, sir?

Mr. Stone:

Well that's the way the system should work.

Michelle Madoff:

Well it's not working. And have absolute, conclusive proof that it isn't working. I have the name of somebody who has called me repeatedly. It took over a month, almost two months, for his check to go in, Mr. Robert Garner. I was down there. They had three quarters of a million dollars that they had not deposited. They said it would take five to six weeks before they could process it, and I said why can't you do just what you just said, xerox the check and deposit the check and if there's a rebate take it off a grand total going to school, the County or the City. I think you might want to check into that. It is not happening. It did not happen. And as a matter of fact, I had a reporter with me at the time. It turned out the interest was only several thousand dollars on the amount of money, but nevertheless, several thousand dollars might help some little group that comes to us for funding.

The Chair:

Thank you.

Mr. Woods presented

No. 109 An Ordinance amending the Pittsburgh Code, Title Nine - Zoning, by adding the definition of adult book store to Article I - Administration, Chapter 903, Definitions, and establishing an exception for adult bookstores in Article V - Regulations Applicable to all District, Chapter 993, Exceptions.

Which was read and referred to the Committee on Planning, Housing and Development.

Also,

No. 110 Communication from Lawrence J. Yatch, Director, Department of Supplies, requesting permission to attend Greater Pittsburgh Development Corporation Awards Luncheon, January 28, 1982, Pittsburgh, Pa., at a cost not to exceed \$17.00, payable from Code Account No. 1128, Miscellaneous Services, Department of Supplies.

Which was read and referred to the Committee on Supplies.

Michelle Madoff:

Mr. Woods, have you reviewed this with the Law Department?

Mr. Woods:

Reviewed what, Michelle?

Michelle Madoff:

The Ordinance that you're sending in. I'm just checking, I'm not criticizing you.

Mr. Woods:

Yes, Michelle. Last year we didn't have a public hearing on it so we have to have a public hearing. It's just resubmitted.

Michelle Madoff:

Okay, I just wanted to know what it was so that, in other words, when it comes up again you're going to schedule a public hearing?

Mr. Woods:

Yes. Wednesday we'll schedule a public hearing.

The Chair presented

MOTIONS AND RESOLUTIONS

Mr. Givens presents

No. 114 WHEREAS, Franklin Delano Roosevelt, thirty-second President of the United States, whose most magnificent achievements were: the inclusion of the predominantly excluded segments of society, such as, the under privileged and minorities; and the elimination of the Great Depression with the consequent return of prosperity to the United States; and

WHEREAS, the citizens of the United States felt so strongly about his work that they elected him to an unprecedented four terms as President; and

WHEREAS, January 30, is the one-hundredth birthday of this great American.

NOW, THEREFORE,

BE IT RESOLVED that the Mayor and members of Council of the City of Pittsburgh on behalf of the residents of the City of Pittsburgh on behalf of the residents of the City of Pittsburgh do honor and recognize the one-hundredth birthday of President Franklin Delano Roosevelt and strongly recommend that a commemorative be included in Pittsburgh's Renaissance II.

Which was read.

The Chair:

My birthday is the day before and nobody's doing anything for me.

Michelle Madoff:

My daughter's is Valentine's Day. She has a celebration.

Mr. Givens moved for approval.

Michelle Madoff seconded the motion.

Mr. Givens:

I'd just like to make one comment. When you think of the hundred-year birthday of a president who gave much to this particular country, and when we look around the city of Pittsburgh and think of any mementos in the way of street naming, building naming, public and otherwise, there has been nothing done for this President. It's

very unique that when you look almost throughout the country of ours, there's been very little recognition given to him in the way of public recognition of buildings, etc. In fact, the Smithsonian Institute is the only place where, I think, all of the works of the president who has served in four terms, and no one has been like that in this country. In making this resolution for this particular one hundredth birthday, I'd hope that this Council, as well as the Mayor of the City of Pittsburgh, would look around and see how FDR could be put into our Renaissance II in the naming of something in his remembrance.

The Chair:

Thank you Mr. Givens.

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale (Pres't)

AYES 8

NOES none

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Michelle Madoff:

Mr. President. I have a number of very small items that I would like to mention and then I want to talk about something rather important. They're all

important actually. I think all of us saw the letters in the papers and the editorials on the First Side building where, after the person puts up the building, they are now going to tear it down, perhaps, and build a garage. And I think it would be incumbent upon the Planning, the URA, and whoever is responsible for that development of the First Side —

Mr. Givens:

The Parking Authority.

Michelle Madoff:

Not only the Parking Authority, the development of the First Side, URA, to come to Council and explain how this nonsense occurred, because it's going to cost us a pretty bundle and it's going to effect our revenue in the coming years. Could I have the Council Clerk write that letter, please, to the appropriate people.

The Chair:

With one exception. I think that was a boo boo on the part of the Parking Authority and I believe somebody fouled up royal. It was a few million dollar mistake, is what it was.

Michelle Madoff:

But I think we still need to know what the City's planning to do about it. I'd like someone from the Mayor's office, the Parking Authority, and Development. Three parties, Mike. We need to find out what's going to happen and if Mr. Stone feels he can address it that's fine.

The Chair:

I wasn't referring to the Board. I was referring to the Parking Authority.

Michelle Madoff:

The other thing. We've touched on the flood insurance that's coming up. Mr. O'Malley, on Wednesday, will have somebody here, correct?

The other one was, apartment fire kills fire, hurts twenty, in Cleveland. I want an update from the Building Inspection, I guess that's Imhoff, and the Fire Department, on what's happening with the smoke alarms that passed this Council and what state that bill is in, whether it's being enforced or not, and I want a post on that. I also would like Mr. Imhoff to appear before this Council and explain to us, in the story "Bribed Witness Balks, City Inspector Freed", the panel investigation made public in November included allegations that the Bureau had been plagued by inefficiency for years, and it goes on to say one complaint raised by the jurors involved the lack of written guidelines to cover the Bureau's policies and procedures. And I want to know the status of the 123 report on the Bureau which was published amending changes, when it's going to go into effect, so that we can indeed not have another repetition of those youngsters burned alive in Oakland. So I would like to have Imhoff here to tell us what the guidelines and whoever is dealing the Law Department the status of the BOCA Code and what impact it might have.

Now an issue I wish to discuss. You know, we make light of some things that are sort of fun things, and I don't mind being the butt of a joke, I have as good a sense of humor as anyone else, I think the bathrooms fiasco was very funny. I think it's silly that it was allowed, that the Mayor didn't just say, as you did, Mr. President, and I must thank you for that, from day one you said build the darn bathroom. But the Administration didn't see fit to do that

and dragged it out for two years for which I am accused of being a publicity hound. Now we have the incident of the poinsettias. As I told you on the printing matter, if you will submit that material to the Election Board, and if they determine, indeed, that it is a political mailing, I will be more than happy to refund the money. It is my conservative opinion and that of my legal counsel, which I hired three to review it, they say it is not a political mailing. I've also spoken to some political experts, but I defer to your judgment, sir.

Now with reference to the furnishing of plants, the poinsettias. I don't know whether this Council is aware, but I did a quick study. My plants were originally to come through the Mayor's office. Mr. Caliguire, our Mayor, has plants in his office. And I mentioned that my office was rather barren and not very attractive, and he said do you want me to call and get you some, and I said no, I've already spoken to Louise Brown and she was sending them up. She sent me a tree. An expensive tree. I do not need a tree nor do I have room for a tree in my office. So the tree is sitting in the lobby making it more attractive for people coming into our quarters, which compared to other cities are really not as grandiose. However, because I didn't get the plant and because Louise Brown said I will get you plants, I took a couple of plants that were left over here that day and took the poinsettias which are really irrelevant. But I found out that sixty plants were given away the day of the swearing in downstairs, as momentos, and I've also learned that part of the furnishings of our office, our desks, our tables, our chairs, what have you, we also get plants. They go to Public Works, they go to the Controller's Office, they go to Civil Service, they go to the Mayor's Office, and that is part of our furnishings. It is not a big deal.

The Chair:

We also have a standing invitation from Parks if anybody wants to decorate their office.

Michelle Madoff:

Thank you, sir. I'm glad you substantiated that.

Now we'd like to read a little letter. I'd like this in the record, please.

"Michelle Madoff: I read in the Pittsburgh Post Gazette, Tuesday, January 12, the article about the poinsettias. Councilman Richard E. Givens is on your back so to speak. If you are ever out Bloomfield way, please ride down the alley behind 206 South Millvale Avenue, just off Penn Avenue. You may also check and see whose name this property is registered to. This property is a real pigpen in our neighborhood. It has been reported to the City several times without any results. Please take pictures of this property from the alley and show it to Mr. Givens. He may get off you back, or better yet, he may clean his property up a little. We can also use some rat poisonous cleanup, if it should happen." It's signed, a crabby neighbor.

That leads me to my next item which all ties together. My garbage has not been picked up in two weeks. My garbage is out front, gift-wrapped. I long ago bought those canisters from Sears on wheels so I could wheel them out, with solid lids on them, they are wrapped. A gentleman just called me before I came into Council by the name of John Zimecki, 2311 Elsie Street, I have his phone number. He had his garbage out in plastic bags. After two weeks it was picked up today, but I guess the dogs had gotten into it or whatever, and garbage is strewn all over his

street. Now, I just called, before you attack me, Mr. Woods, just bear with me a minute, and I'll bear with you, I called as many as I could reach in a few minutes, the hauling companies who do private garbage pickup. I spoke to South Hills Disposal, Brunner, Vogel, Long Hauling, and BFI. They tell me, that they had to post a performance bond, that there are penalties, and BFI said we have never missed one in all our years no matter what the weather. I asked them all the same question, "Do you have narrow streets and do you have hill and did the weather affect you?" They said we may have been three hours late, but we go it all. And what I'm saying is that I had the same concern two years about the, and I raised the question two years ago at budget time about the compensation. In other cities like Altoona, when they put a doctor on staff, the compensation claims went down tremendously. We've now got a compensation board for the city and a list of doctors, and I think we will see a tremendous difference. I opposed garbage at curbside because in two weeks, with bad weather, it's only a sign of things to come. My neighbor's garbage before the bad weather was put out on the curb, gift-wrapped, plastic bags, tied securely, animal got into it or something, the garbage is all over the streets. And I think that if we are to have some kind of garbage pickup at the curbside, we're going to have to look for some kind of performance audit of the people doing the job, and somehow we're going to have to provide other trucks, maybe narrower trucks, but whatever is needed to do the job, but I am opposed to it. This is one of these things where I cannot support it until it proves it can work.

Mr. Woods:

Michelle, the people that put their rubbish out on the curb now, including

yourself, I don't think it's time yet. I think the project wasn't supposed to start until March. So shame on those people if they put it out now.

Michelle Madoff:

Well, what do you mean? Do you think it will be different after March 1st. There won't be another winter?

Mr. Woods:

Sure, but why did they put it out now when it's not supposed to be put out until March? It doesn't make sense.

Michelle Madoff:

It makes sense because my garbage is picked up Monday mornings. So I put it out Monday. When they didn't come Tuesday, I took it back in again. I took it back out again.

Mr. Woods:

Why did you put it out on the curb when it's not supposed to be on the curb? It's supposed to be in your back yard, or wherever you put it normally.

Michelle Madoff:

I don't think that's a valid argument.

Mr. Woods:

Well I do.

Michelle Madoff:

March 1st it's going to be at the curb isn't it? What difference does it make if they rip it apart March 1st or if we have a test run. As Mr. Givens said, they rip it apart now.

Mr. Woods:

Well the thing is, it wasn't supposed to be a test run, and —

Michelle Madoff:

But Mr. Woods, what difference does it make March 1st or now? Would you explain that to me?

Mr. Woods:

Well it makes a lot of difference because it wasn't supposed to be out there.

Michelle Madoff:

But I brought mine back when they didn't pick it up. Mine wasn't ripped apart. I'm just saying my garbage hasn't been picked up in two weeks.

Mr. Woods:

Well then make that the complaint. Don't make it that it was out there for two week and the dogs are into it.

Michelle Madoff:

I want to go on the record as saying that March 1st, August 1st, or December of next year, it's going to be the same story. That's my prediction. Let's wait and see what happens.

Mr. Woods:

Right. Michelle, go on the record and say that and —

Michelle Madoff:

I've said that. I'm accepting your criticism.

Mr. Woods:

I'm not criticising you.

Michelle Madoff:

I accept it.

Mr. Woods:

I'm not criticising you. I'm saying whoever put it now was wrong.

Michelle Madoff:

Now let's go back to the issue. My garbage has not been picked up in two weeks. I have taken it back and forth to the curb. Mine is in covered containers, the weather is horrendous, I thought that it was only reasonable that the garbage should not be picked up because of the weather. I accept that. However, my street has been plowed, traffic gets in and out, there were several days when it was very easy to get in and out, and the garbage is not being picked up. I have many, many complaints in my office and I'm sure you have them in your office.

Mr. Woods:

No I don't. In fact I was home —

Michelle Madoff:

Do you have a special arrangement?

Mr. Woods:

I was home today when the garbagemen were there to pick mine up. They were there at 9:00 this morning.

Michelle Madoff:

Lucky for you. You're bigger than I am. Maybe they're afraid of you. They're not afraid of me. All I can say is that I don't think it's going to work, I want it on the record that my sentiments are such, that there is no protection.

and then see if it works. 270656Z 010601-124

I have never received any plants or

committee people. —

Mr. Givens: "Did you ever see him?"

The Chair:

If we're going to have a debate between the both of you then take your seat Michelle. It's not official unless Michelle's in her seat.

Mr. Givens:

To the Chief Clerk, because if you want to pursue the issue, Michelle, I'll be more than happy to pursue the issue with you and let's not have the Election Department view it, Mike, it's a violation of Chapter 7 of the Charter of the City of Pittsburgh, and if there's anyone to decide who has made a violation, it will be this Council body according to the Home Rule Charter. That is not my rule but the Charter's rule. —

Michelle Madoff:

Right. I spoke to the President and he said it was not a violation.

Mr. Givens:

Excuse me, I still have the floor. I haven't relinquished the floor.

Michelle Madoff:

You're on the same subject?

Mr. Givens:

Secondly, Mr. President, there's an article that appeared in the Pittsburgh Press, —

The Chair:

Well first of all, I think you deserve an answer on the mailings. There's two issues at stake here. One, I doubt, if it was wrong, that you'd ever be able to prove and I don't think we should get into that and as far as I'm concerned, it's a closed case. And the other is, first one among us who has never sinned, cast the stone. I think all of us have done

some things, maybe purposely or not purposely, that we shouldn't have done, and that goes for everybody sitting in this room, and I can vouch for that, myself included, so you know, we're all not so innocent. At the same time, it's minor stuff and I'm sure we didn't think about it. Last week I did it myself. I sent a letter to the judges on stationery. I could have just as easy done it on plain paper. I wasn't thinking, I sent it out on City Council paper.

Michelle Madoff:

Mr. President, did I or did I not ask you twice whether I should pay for that.

The Chair:

You asked me before you sent it out, you asked me again, and I said as far as I was concerned there was no wrong doing.

Mr. Givens:

I can appreciate that, and I think there is forthcoming, in your words you have just mentioned now, there is forthcoming some legislation from the Council of the City of Pittsburgh we will depict or better define through our own Council rules, what we can and what we cannot do, and that, I think, will satisfy it in the future. You know, if one takes a mailing from any one of us, this happened with another Councilperson once before when he was making mailings to all the various organizations throughout the City of Pittsburgh. I felt that that should have been a Clerk's function and it was so then directed that the Clerk assume that responsibility. I think if we want personal mailing privileges in the City, then we better tax the people of the city of Pittsburgh a little bit more because all of us will want to do the same thing. What Michelle had

done, I had looked at the same Ordinances, the Home Rule Charter, and it was my interpretation, and also through legal guidance, that I could not make politica mailings.

Michelle Madoff:

Mine was not a political mailing.

Mr. Givens:

My particular mailings then, were at my own expense and if Michelle wants to pursue the issue to its finalization, I'll be happy to go along with that.

Michelle Madoff:

I'd be delighted because mine was not a politcal mailing.

Mr. Givens:

Secondly, if Michelle is able to make her mailings, then I submit to you, Mr. President, that I have about five or six mailings that I made at my total expense, some tune of two thousand some five hundred dollars that I would like possibly to be reimbursed from the Council of the city of Pittsburgh. That was on point one.

My second point, Mr. President, is in regards to --

Michelle Madoff:

Are we through with that point? Why don't we finish one before we go to another.

Mr. Givens:

Excuse me, I have the floor.

Michelle Madoff:

But you can't go from one subject

to another without finishing.

The Chair:

Excuse me. Michelle, you're out of order.

Michelle Madoff:

Mr. President, we don't go to another subject until we finish the subject.

The Chair:

He's finished.

Michelle Madoff:

No he's not. I'm not finished with the subject.

The Chair:

Mr. Givens, Michelle Madoff wants to reply to you.

Michelle Madoff:

Mr. President, I would respect your opinion if you would take Mr. Givens mailings that he paid for himself, take my mailings, and I have two, not one, two, I did one two years ago. They were critiques of the budget saying, Dear Community Leader: I know you share the same concern about the City. Will you please review my comments on the budget and respond. I was not running, I am not running for office. Would you take my piece of literature, submit it to the Election Board and will you take Mr. Givens' pieces of literature and submit them to the Election Board, and I suggest that you will find that his said I am wonderful, I am great, vote for me, and I did this for you, and I did that for you. Mine didn't say that. Mine only commented on the budget and talked about what I would like to see the

department heads supply for the budget. And I will abide by the ruling of the Election Board. I've spoken to you three times about this, you know I have not tried to get out of any responsibility or obligation I have, and I trust your judgment. If you think I should do that, I will.

The Chair:

Why don't we take Michelle's advice and make it a closed matter.

Mr. Givens:

I have my second point. I'll submit, I have most of my copies that I have submitted, and Michelle will be very delighted that it wasn't I, I, I, it is what the Council of the city of Pittsburgh was doing. In fact, I didn't put editorials in there trying to describe what the media was saying on the one hand, and what you meant on the other hand. If you don't call that being politicalized, I don't know what is.

Michelle Madoff:

Mr. President, one last word on that subject. Do you think it is important that we keep the public informed. The most important thing that we, as members of Council, if we had the staff, if it were possible if we had the dollars, other communities do, is to send letters. Everytime you get a complaint, sir, in your office about a problem, don't you dictate a letter to somebody often and say this is what I've done about it. Do we want to have every piece of literature, every letter that we send out edited or censored to see if it's a political mailing or a piece of private mailing? Because I respond constantly and that was a general mailing on the budget. I will defend to my death my right to say that was not a political mailing. I am not a dishonest person, I

pride myself in my credibility. If indeed I am wrong and someone determines that that is political, I'll pay for it, but I don't think it was a political mailing, and I don't think anybody else would. Incidentally, the funniest part of it all is, I asked Mr. Givens if he read it. Do you know what his answer was? I don't want to read it. I don't want to find out — don't confuse me with the facts. He said I don't want to be a co-conspirator.

Mr. Givens:

That's right.

My second point that I have to have, and I'll respond to what Michelle Madoff had the remark right here, I don't know if she wants to leave or not. There was an article, Mr. President, that appeared in the Pittsburgh Sunday newspaper, the Pittsburgh Press, on the City Council gay rights bill pushed. I'd like to make some comments on this particular article. I'd like them for the record. I do not have the pen and I do not write articles and what I say is a part of the official record, and I so desire that this be. It so indicated in this article by Dave Nilsson that four Councilmembers were, in fact, in agreement with this particular legislation that was going to come forward and he so indicated that I was one of those persons. Let me, for the record, strike my name off of this particular publication. I have never put my name to any such publication that I would go for any bill or sign for any bill that came before this Council and on three different occasions, I indicated to that reporter, number one, that I did not have that bill before me, number two, that I did not have that bill before me and I cannot make comment on a bill, and number three, that I did not have that bill before me. Today as I sit here, that bill has never been sent to this Councilman and I don't know who else.

So I think fabrication is being done here for a particular story and it came out in such a particular way that it did not paint the pictures of this particular Councilmember.

The Chair:

You're involved like in that movie "Absence of Malice".

Mr. Givens:

Before me, I'd have to say that if this bill did come before the Council of the city of Pittsburgh, I would request a public hearing. And I think the people of the city of Pittsburgh would require us as a body to have a public hearing. I wouldn't want to see the city of Pittsburgh go in the same direction as that of our sister city that we're somewhat recognized after, and that is the city of San Francisco. In talking to John Jay today, who had called me, I indicated to him that I would not sponsor this particular legislation. I told him in all good, sincere advice, that he should go to the state. I talked, over the weekend, to our Human Relations people, and again, they did not want to take that particular route. Again I submit to them, that I think this is not a local problem, and if it is, that they have to bring proof before this Council that, in fact, they are being discriminated. I think it has to go to the state level and I suggested to him to go that particular route. As far as housing is concerned on this particular bill and as far as discrimination is determined on this alleged legislation, which I have not seen, I so indicated to the author of this particular article, that I feel as most people feel, that no one should be discriminated as far as housing and jobs go. —

The Chair:

Mr. Givens, if I may, I think you've made your point. Why don't we wait until this legislation comes up for any more comments because we're going to get into something that may never come up. To the best of my knowledge there's no legislation prepared.

Mr. Givens:

I'm just about finished, Mr. President. It's true. It's something that's been the written media and probably will go to the other media and as a result, I want to set the record straight here today so that people know how this Councilman, Councilman Dick Givens, feels in regard to this particular article. As far as housing, my thoughts were, in regards to public housing, and the article did indicate my cutoff point was somewhere along the marriage or inter-marriage. When two people are afflicted, and I think the good Lord might look at them as being afflicted, with the particular compulsion, if they were to want to want to join one another in a particular apartment complex or home, I think the person that is selling that particular piece of property or home have a right to say who they should sell it to and who they should not sell it to if they feel, in fact, that is rental primarily, rental or property, that they should have such a right. Especially if in any case it goes along with the same people that if you have narcotics and all this type of stuff, I think the owners and the landlords of buildings have a certain right too, as to what is conducted and what happens on the premises of their property. They are the main things that I wanted to bring out, and I have to say that I do not want anybody to be discriminated upon, but at the same time, I feel that the remarks that were made here and the fact that I have so indicated I am in favor of this bill, when

in fact, I have never even seen the bill,
and in fact, all the comments I had made
were not directed towards this bill.
Thank you.

Mr. Givens moved to excuse **Mr. Robinson** for absence from the meeting.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Stone moved to approve the minutes

No. 150 Resolution providing for an Agreement or Agreements with the County of Allegheny and the Private Industry Council ... to enable Allegheny County and the City of Pittsburgh to share the joint costs of the establishment and operation of the Private Industry Council ... and providing for the payment of the costs thereof, at a cost not to exceed \$4,025.00, payable from CETA Title VII Trust Fund.

Also,

No. 151 Communication from Richard S. Caliguiri, Mayor, requesting permission for David M. Matter to attend the U.S. Conference of Mayors Mid-Winter meeting, Washington, D.C., January 27-29, 1982, at a cost not to exceed \$750.00, payable from Code Account No. 1017, Miscellaneous Services.

Which were severally read and referred to the Committee on Finance.

Michelle Madoff:

Does anyone know what is meant by Private Industry Council?

The Chair:

I didn't hear the reading of the bill.

Michelle Madoff:

He just read it. He just read the bill.

Mr. Stone:

It's coming up next Wednesday.

Michelle Madoff:

I'm just curious. Does anyone know what it is? I would sort of like to know.

The Chair:

It's the Council appointed by about private industry, probably like the Allegheny Conference.

Mr. Perry:

We'll check with Melanie Smith.

Michelle Madoff:

Mike, get a copy of the bill today so I know what it is.

UNFINISHED BUSINESS

The Chair presented

Bill No. 76

Resolution approving the appointment of Dan Pellegrini as City Solicitor of the Law Department effective January 5, 1982.

Mr. Stone moved to approve the appointment.

Michelle Madoff seconded the appointment.

Mr. Stone:

Mike, that's of January 1st, right?

Mr. Perry:

January 5th.

Michelle Madoff:

Is it retroactive?

Mr. Perry:

Yes.

Michelle Madoff:

Does he get a raise? New title? Title on the door rates a Bigelow on the floor?

Mr. Stone:

I don't want to repeat all I said that first day, but I think in fairness I indicated then that the City is lucky to have someone who was on the scene, as he and I think, it may be to our best interest at this time.

The Chair:

Is there any discussion on the appointment?

And on the question, "Shall the appointment pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

AYES 9 NOES 0

And a majority of the votes of Council being in the affirmative, the appointment was approved.

The Chair:

Mr. Pellegrini gets your vote of confidence.

Michelle Madoff:

Mr. President, may I ask you a question? I'm just a little bit confused. I've been here three and one half years, and you know, it's like Alice in Wonderland. Words don't mean what they mean, they mean what we want them to mean. When you say Unfinished Business, what do you mean by Unfinished Business?

The Chair:

I wish you hadn't asked that.

Michelle Madoff:

At the end of the meeting we go into items that we've talked about

previously and bills and so on --

The Chair:

That comes under just what we had a while ago, appointments and stuff like that. Anything other than the reading of the bills.

Michelle Madoff:

For example. I'm only throwing this out and you can rule me out of order if you wish. There's a big lawsuit going to take place and we can talk about it after the meeting, with the PUC shutting down Allegheny Steam Heat and the Pacer Project and and so on, and I've requested from the City Clerk that we have an agenda --

The Chair:

That, Michelle, is not Unfinished Business because I just clearly stated it's got to be either some sort of legislation or resolution or an appointment. This we'll take up under Motions and Resolutions

Michelle Madoff:

It's nothing we've discussed in another bill? Wouldn't it tie into bills we've already voted on and the cost of our energy and the fact that we better start finding out how we're going to heat this building next year, when they shut us off of the steam heat? I'm just asking, isn't that really old business as opposed to discussing at the end of meeting when everybody's got up and left.

Mr. Givens:

That's what we have post agendas for.

Michelle Madoff:

Well I scheduled it for a post, but I just -- I'm just asking a point of order that's all. I'm not being critical, I'm just asking. You say any Unfinished Business. That's certainly unfinished business.

The Chair:

I think everybody is aware of the seriousness, and obviously we have to have some kind of heat. At the present time the gas companies are saying they can take up that slack at a cheaper rate. I don't know. That's something Mr. Givens says is going to have to be looked into. Perhaps a post agenda.

Michelle Madoff:

I've already scheduled one, Mr. President, we've asked for that. But I do want to touch on that very briefly.

REPORTS OF COMMITTEES

Mr. Stone presented

Bill No. 152

Report of the Committee on Finance for January 20, 1982, transmitting sundry resolutions and one ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 12

Resolution entitled, "Resolution providing for the issuance of a warrant in favor of Dick Corporation in the amount of One Hundred Twenty Three Thousand Five Hundred Twenty (\$123,520.00) Dollars in payment for "Extra Work" furnished for the benefit of the City in connection with the proposed City Asphalt Plant; and providing for the

payment thereof."

Which was read.

Also,

Bill No. 13

Resolution entitled, "Resolution providing for the issuance of a warrant in favor of Dan Construction Company in the amount of Fifteen Thousand One Hundred Fifteen Dollars and Thirty Two Cents (\$15,115.32) in payment for "Additional Work" furnished for the benefit of the City in connection with the widening and repaving of North Side Intersections, Various Locations; and providing for the payment thereof."

Which was read.

Also,

Bill No. 28

Resolution entitled, "Resolution authorizing the issuance of a warrant in favor of Adolfo J. Marche' Associates in the amount of \$200.00 in payment for work performed at Highland Bathhouse, furnished for the benefit of the City without previous authority of law; and providing for the payment thereof."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Michelle Madoff
Mrs. Masloff
Mr. O'Malley

Mr. Robinson
Mr. Stone
Mr. Woods
Mr. DePasquale
(Pres't)

AYES 9 NOES none

And there being two-thirds of the votes of Council in the affirmative, the bills passed finally.

Also,

Bill No. 29

Resolution entitled, "Resolution authorizing the issuance of a warrant in favor of Western Union Telegraph Company in the amount of \$1,152.97 in payment for telegrams for the Pittsburgh Zoo, furnished for the benefit of the City without previous authority of law; and providing for the payment thereof."

Which was read.

Michelle Madoff:

I wonder if Mr. Stone would clarify Bill 29 for me. I understand that we have a problem when we reject all bids that sometimes we have to send telegrams. But we've had a telegram sent in the amount of \$3,000.00 out of Public Works. The other day we had the discussion on some telegrams and it was pointed out that we didn't allow enough time because of --

Mrs. Masloff:

That was this bill. They put the final date on this, the day before a holiday. And that was the problem.

Michelle Madoff:

Okay.

Mr. Givens:

One other point. Any federal money that is sent out on bidding contracts, to my knowledge, a telegram must go out regardless of it's before a holiday or otherwise. That's required by law.

Michelle Madoff:

I just want to understand whether, if it isn't federal dollars, do we ever send telegrams? I recall once we had an outrageous dollar amount in telegrams, and if it's because it was the day before a holiday, we ought to have whoever the director is plan better so that if it has to be under law because -- I don't know if this is one. Is this one of the federal dollars. It was strictly the day before a holiday and there wasn't enough time, right?

Mrs. Masloff:

There was a problem, yes.

Michelle Madoff:

I think our people who are directors ought to find out if the bid is going to come due at a time that will be inconvenient or create a problem because that is an unconscionable spending of \$1,152.00.

Mr. Givens:

The reason for the telegram is there's information within your hand saying that that designee received it and the City must have that. Otherwise, the whole bidding process can be thrown out.

Michelle Madoff:

I know, but we're talking two different things now. This was done simply because they didn't know it was a

day before a holiday. It could have been extended a couple of days in the due date. You sent a letter out to the directors on that? Thank you.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

AYES 8 NOES 1
(MICHELLE MADOFF VOTING NO)

And there being two-thirds of the votes of Council in the affirmative, the bills passed finally.

Also,

Bill No. 30

Resolution entitled, "Resolution authorizing the issuance of a warrant in favor of Tedesco Landscape Contracting Corporation in the amount of \$1,075 in payment for furnishing and planting of trees at Point State Park, furnished for the benefit of the City without previous authority of law; and providing for the payment thereof."

Which was read.

Also,

Bill No. 52

Resolution entitled, "Resolution providing for the issuance of a warrant to James W. Carter, c/o Sanford A. Middleman, Esquire, 722 Frick Building, Pittsburgh, PA 15219 in the amount of \$1,250.00 in full settlement of a lawsuit wherein Plaintiff claimed property damage and providing for the payment thereof."

Which was read.

Also,

Bill No. 53

Resolution entitled, "Resolution providing for the issuance of a warrant to Mary Grace Kratovel and Richard J. Kratovel, her husband, c/o Louis M. Tarasi, Jr., Esquire, Tarasi & Tighe, 510 Third Avenue, Pittsburgh, PA 15219 in the amount of \$3,000.00 in full settlement of a lawsuit wherein Plaintiff's claimed personal injuries and damages and providing for the payment thereof."

Which was read.

Also,

Bill No. 54

Resolution entitled, "Resolution authorizing the Mayor to issue and the City Controller to countersign a duplicate warrant to the same payee and in the same amount to replace the following warrant which was lost, stolen or inadvertently destroyed."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the

bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

AYES 9 NOES none

And there being two-thirds of the votes of Council in the affirmative, the bills passed finally.

Also,

Bill No. 55

An Ordinance entitled, "An Ordinance amending and supplementing the Pittsburgh Code, Title One, Administrative, Article 2, Personnel, by amending Sections 181.06 to increase the monthly maximum automobile reimbursement from \$100.00 to \$150.00; amending Chapter 183, Holidays, by deleting certain holidays; amending Chapter 185, by changing vacation schedule; amending Chapter 187, Sick Leave, by making it apply only to employees hired prior to January 1, 1982, and the addition of a new Chapter 188, Personnel - Personal Leave, by providing for personal leave."

Which was read.

The Chair:

If I may, Mr. Stone, on Bill No. 55, whose idea was it to strike Columbus Day out as a holiday?

Mr. Stone:

I think Sophie's.

The Chair:

Sophie's? Thank you thank you Sophie. Remember that on Yom Kippur.

Michelle Madoff:

What about Washington's birthday? I want that one.

The Chair:

I'm only kidding.

Mr. Stone:

Mr. President, now that we've paused on that, I just mentioned to Councilman Woods, I think we're going to have to watch that as it goes on. If enough people are used to those days, and they take their personal days, we may end up really not being in a better position. It would be better to let everybody off on the day than to have everybody, let's say fifty percent of them decide to take off on the day, you're paying the rest just to sit there almost like a skeleton crew. I'm not so sure that's going to turn out well. We'll see how it works out.

Mrs. Masloff:

Mr. Stone, is that a motion that we go with those three holidays instead of --

The Chair:

Al and I are going to be off Columbus Day.

Michelle Madoff:

I brought this up originally and I was told it was usually a union contract and we didn't have any say on the matter

and I think that it's going to be just as Mr. Stone has said it will be.

The Chair:

You're right. And he's right, too. It was negotiated by the Grievance Committee.

Michelle Madoff:

Obviously we can't do anything.

The Chair:

Probably there were no Italians on that Committee.

Mr. Givens:

I vote no on Bill No. 55 only that Section B of 183.01 as it's amended in that particular bill. I very strongly feel that as we move along and change Washington's Birthday, Flagg Day and Columbus Day, then there are going to other holidays that are going to be changed and it wasn't the purpose that we gave those particular days off when we gave them off to the various City employees. It's nice for some people to plan their vacations, etc., but I think if we're to honor Flagg Day especially, and those others then I think we must honor them on the day that they come before the people of this Country. I can only think of some of the Veteran's Day, what they have done with that, and what they have done with Memorial Day. I mean, through the veterans groups they finally got those dates put on the actual dates and that's when we take those vacations whether it be a Monday or a Saturday. But the purpose of what those days are for are, I feel, being downgraded to a certain degree.

The Chair:

As long as they don't fool with

Mother and Father's Day.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Michelle Madoff	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

AYES 8 NOES 1
(MR. GIVENS VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also,

Bill No. 56

Resolution entitled, "Resolution providing for an Agreement or Agreements with a professional administrator for professional services in connection with the Workers' Compensation Program and providing for the payment of the cost thereof."

Which was read.

Also,

Bill No. 57

Resolution entitled, "Resolution amending Resolution No. 68, approved February 6, 1979, entitled, 'Providing for a contract or contracts with Prudential Insurance Company of America for a short term and long term sickness and

accident liability insurance plan for all uniformed members of the Department of Emergency Medical Services,' to provide coverage for all City employees entitled to same by a Collective Bargaining Agreement or, if not covered by a Collective Bargaining Agreement, by Title One, Administration, Article VI, Personnel."

Which was read.

Also,

Bill No. 58

Resolution entitled, "Resolution providing for an Agreement or Agreements with Data Processing Micrographic Specialists or Consultants for Computer Processed Microfiche Services in connection with Real Estate Tax, Water and Sewage Services, and various other tax, service and payroll and worker's compensation records; and providing for the payment of the cost thereof."

Which was read.

Also,

Bill No. 59

Resolution entitled, "Resolution authorizing the transfer of Three Hundred Eighty-Two Thousand, Seven Hundred Ninety-One Dollars (\$382,791.00) from the CETA Trust Fund to the 1982 General Fund of the City of Pittsburgh for reimbursement of Indirect Costs, Comprehensive Employment and Training Program, CETA."

Which was read.

Also,

Bill No. 60

Resolution entitled, "Resolution providing for an Agreement or Agreements with Joseph M. Mazzei, M.D., for professional services in connection with the examination of candidates for employment as police officers, firefighters, paramedics, and extra helpers; and providing for the payment of the cost thereof."

Which was read.

Also,

Bill No. 61

Resolution entitled, "Resolution providing for an Agreement or Agreements with various hospitals and/or physicians for professional services in connection with the administration and evaluation of medical examinations and tests for the Civil Service Commission's Medical Examination Program for Police Officer candidates, Fire Fighter candidates, and other candidates for employment and promotion."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Mr. Givens presented

Bill No. 153

Report of the Committee on Public Works for January 20, 1982, transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 14

Resolution entitled, "Resolution amending Resolution No. 1073, approved November 29, 1979, effective December 5, 1979, entitled, 'Providing for an Agreement or Agreements for Engineering Services for the replacement of Forbes Avenue Bridge (PW 79-10); and providing for the payment of costs thereof', by providing for a Supplemental Agreement or Agreements and by increasing the total project allocation by Fifty Five Thousand (\$55,000.00) Dollars."

Which was read.

Mr. Givens:

I abstain on Bill No. 14. When I went back and looked over some of my studies on the Forbes Avenue Bridge and some of the facts and figures that the Department of Public Works had given me during this period of time, for the costs, I know the costs are almost doubling on many of our bridges. This is one specific bridge that I wanted the landfill to be instituted in. That bridge, the Schenley Park Bridge and I think there's another bridge right close by on the opposite side of that. All three of

them are within one block of an existing tunnel that runs under North Craig Street right now. If they were to extend that tunnel we would eliminate three bridges within the City of Pittsburgh.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

in conjunction with Transportation Coordination for the Central Business District; providing for the creation of a Trust Fund for receipt and payment of the respective shares; and providing for an Agreement or Agreements with the above mentioned parties in connection with the Transportation Coordination of the Central Business District", by increasing the project allocation by Five Thousand (\$5,000.00) Dollars."

Which was read.

Also,

Bill No. 16

Resolution entitled, "Resolution amending Resolution No. 802, approved August 11, 1981, effective date August 24, 1981. Amending and reserving the existing 12" inch waterline in Saint Ives Street, in the 21st Ward of the City of Pittsburgh."

Which was read.

Also,

Bill No. 17

Resolution entitled, "Resolution amending Section 7 of Resolution 798, approved August 11, 1981, effective August 24, 1981, entitled, Authorizing the Director of the Department of Public Works to give his approval to construct a canopy over the entrance to their building, at 711 Forbes Avenue, Pittsburgh, Pennsylvania, First Ward."

Which was read.

Also,

Bill No. 18

Resolution entitled, "Resolution granting unto L.K. Comstock Engineering

Company, 912 Fort Duquesne Boulevard, its successors and assigns, the privilege and license to construct, maintain and use, at its own cost and expense, an electrical vault in a portion of the sidewalk of Fort Duquesne Boulevard, in the Second Ward of the City of Pittsburgh."

Which was read.

Also,

Bill No. 19

Resolution entitled, "Resolution vacating Osprey Way between Glen Caladh Street and Tecumseh Street in the Fifteenth Ward of the City of Pittsburgh."

Which was read.

Also,

Bill No. 20

Resolution entitled, "Resolution vacating Russell Street between Irwin Avenue and a point 115 feet + east of Irwin Avenue as measured along the northerly line of Russell Street; Unnamed Way between Chester Avenue and Russell Street and the westerly half of Irwin Avenue between Chester Avenue and a point 143 feet + north of the center line of Chester Avenue in the Twenty-sixth Ward of the City of Pittsburgh excepting and reserving a 7.5 foot utility easement and the 15 inch sewer located therein."

Resolution entitled, "Resolution vacating Birkhoff Street from Hofburn Street to a point 200.24'± northwesterly (dividing line between B & L No. 114 H 332 and 114 H 333) Probst Street from Lapish Road to its westerly terminus, Lapish Road from the northerly line of Probst Street to a point 110'± northwesterly (dividing line between B & L 115 E 185), Lapish Road from Probst Street to its easterly terminus in the 27th Ward of the City of Pittsburgh and Festoria Street from Ransom Street to its southwesterly terminus in the 26th Ward of the City of Pittsburgh."

Which was read.

Michelle Madoff:

What's Bill No. 21 for. I'm sorry, I've forgotten.

Mr. Givens:

It's a vacating of a street.

Michelle Madoff:

I know. Why? For what?

Mr. Givens:

For the purposes so stated there.

Michelle Madoff:

It doesn't say it. That's why I'm asking.

Mr. Givens:

Twenty-Seventh Ward, City of Pittsburgh, southern terminus.

Michelle Madoff:

For what? What are you going to do with it? Is it for Port Authority, are we selling it?

Mr. Givens:

Generally it's for the people who live adjacent to that particular area. It's probably a paper street, then they vacate it, the people take it over, it becomes now a part of the taxing body for the City of Pittsburgh.

Mr. Perry:

That's for Redevelopment Area No. 35, Northgate Redevelopment Area.

The Chair:

Director Gaetano gave me —

Michelle Madoff:

Three answers I still don't have. Mike will you tell me what you said? I didn't hear you, I'm sorry.

Mr. Perry:

This is by Ordinance No. 127,

approved April 7, 1971, the City enter into a Cooperation Agreement with the Urban Redevelopment Authority in furtherance of Redevelopment Area No. 35, Northgate Redevelopment Area. They're going to use that for the Redevelopment of that area.

Michelle Madoff:

Of what?

Mr. Perry:

What project?

Michelle Madoff:

Yes. Would you do me a favor and send a note out and ask them what it is and in the future would they tell us because I don't want to vote in a vacuum, I keep telling them that. Now that Brophy's there, he's very cooperative and I think they'll tell us. We've all voted, nobody knew what was happening.

The Chair:

Mike, I want to be sure they have to get permission or approval from the residents in that area to do that. The ones that are affected.

Michelle Madoff:

They may have some special building going in there. It might be a store or it might be a shopping center, it might be anything. I just want to know what it is.

The Chair:

No. If it commercial they'd have to pay for it.

Mr. Givens:

You'll see it coming before this

Council before it's finally approved.

Michelle Madoff:

But maybe I don't want to turn it over to them. Maybe I don't want to --

Mr. Stone:

Part of the Northgate Project up there. They're doing a whole redevelopment project up there.

The Chair:

There was a discussion on it Wednesday and Director Gaetano explained.

Michelle Madoff:

I've just forgotten and I just want to be sure I know what I'm voting on.

Mr. Givens:

I'd like to give Michelle a copy of that Bill #21 which was part of the Monday session of the Monday before December 21st, whichever date that was. It came in to us in the mail, and it was marked on as 7.14. In the Mayor's Conference Room it was later given bill designation 21 right here, there's a coversheet to it. It was addressed to the President and all Councilmembers. I read the thing, I didn't see any concern about the bill itself. I assume Michelle gets a copy of that particular bill. If not, I don't know how your distribution system is, Mr. Chief Clerk. Do you send that to all members of Council?

Mr. Perry:

It's excellent.

Michelle Madoff:

I got this and it still didn't give

me an explanation.

Mr. Givens:

Then how in the hell were you voting in a vacuum is my point.

Michelle Madoff:

I couldn't figure out from that what it was going to be used for. It still doesn't say what it's going to be used for. I want to know what it's going to be used for. Mr. Brophy and I have an understanding that we will be doing that in the future. I'm abstaining.

Mr. Givens:

You voted on it Wednesday, did you not?

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 48

Resolution entitled, "Resolution approving execution of Contracts for Disposition of Land by and between the Urban Redevelopment Authority of Pittsburgh and the listed Redevelopers for the sale of the following lots in the City of Pittsburgh."

Which was read.

Also,

Bill No. 49

Resolution entitled, "Resolution approving execution of a Contract for Disposition of Land by and between the Urban Redevelopment Authority of Pittsburgh and St. Paul Baptist Church for the sale of Block 50L, Lots 173, 174, 175, and 176 in the Tenth Ward of the City of Pittsburgh."

Which was read.

Report of the Committee on Supplies for January 20, 1982, transmitting two resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 73

Resolution entitled, "Resolution providing for the letting of a contract or contracts or the use of existing contracts for the furnishing and delivery of a Tubeless Truck Tiremounter, an all purpose Tire Spreader, and a Tube Dunker Tank and Stand for the Department of Supplies, and for the payment thereof."

Which was read.

Also,

Bill No. 74

Resolution entitled, "Resolution providing for the letting of a contract or contracts, or the use of existing contracts for the furnishing and delivery of thirty FM Two-way Mobile Radios for the Department of Supplies and for the payment thereof."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

AYES 9 NOES none

And a majority of the votes of

Council being in the affirmative, the bills passed finally.

Mrs. Masloff presented

Bill No. 156

Report of the Committee on Parks and Recreation for January 20, 1982, transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 31

Resolution entitled, "Resolution providing for an agreement or agreements with professional instructors for services provided within the City of Pittsburgh, Department of Parks and Recreation's 1982 Leisure Learning Programs for the payment of costs thereof. Payments shall not exceed \$10,000.00 and shall be chargeable to and payable from Special Parks Program Trust Fund (S.P.P.T.F.)."

Which was read.

Which was read.

Michelle Madoff:

Would the City Clerk check with Brother Richard Emenecker whether on Bill #37, the Ozanam Cultural Center will be one of those groups that should be getting monies next year from the Warner Cable Contributions. I'm almost positive that I remember them as one

group, but I would like that verified.

The Chair:

Sophie, do you know about that?

Mrs. Masloff:

No, I don't.

Mr. Givens:

They can only get some if they have a profit. I don't think the company's —

Michelle Madoff:

I said for next year, okay?

Also,

Bill No. 40

Resolution entitled, "Resolution providing for an Agreement or Agreements with the Three Rivers Arts Festival of Carnegie Institute for cultural entertainment during 1982 and providing for the payment of the cost which is not to exceed \$8,500.00 and is chargeable to and payable from Code Account 1838, Recreational Activities, Miscellaneous Services, in the Department of Parks and Recreation."

Which was read.

Michelle Madoff:

On Bill #40. The Three Rivers Arts Festival generates alot of business in the City, and I certainly don't want to vote against that bill. But I would request, Mr. Clerk, that a letter go to the Law Department inquiring as to the legality of putting a rider into a contractual agreement that we have with the Three Rivers Management when they run the Arts Festival, that they will have at all times, a mechanism set up to remove litter because it is not an art festival, it is a pigsty. It is worse than anything you can possible imagine. The garbage pails fill up rapidly and they're not emptied for an hour and we, maybe two or three times a day we do our job in the City, they're going to have to help us by having a private contractor and private staff people there to pick up the litter all the time. Even if we have to

have admission gates for people to give a voluntary contribution or what have you, to keep it clean. I would like that included in Bill #40.

Also,

Bill No. 41

Resolution entitled, "Resolution providing for an Agreement or Agreements with Robert Morris College for the services of the group named Pittsburgh Folk Festival during 1982 and providing for the payment of the cost which is not to exceed \$5,000.00, chargeable to and payable from Code Account 1838, Recreational Activities, Miscellaneous Services, in the Department of Parks and Recreation."

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Also,

Bill No. 43

Resolution entitled, "Resolution providing for an Agreement or Agreements or the use of existing Agreements for architectural, engineering or other professional services in connection with the implementation of the Pittsburgh Zoo Master Plan; and providing for the cost thereof."

Which was read.

Michelle Madoff:

I voting no on #43 because that's money for the Zoo, the County is not giving it's share. I know I'm repeating myself for about the dozenth time, but this is a facility that is used two-thirds by County residents, and one-third by City residents, and I'm in favor of giving the Zoo to the County.

On the other bills I am voting no because if Mr. Roderick, Chairman of the Board of U.S. Steel, speaking for the Allegheny Conference at a public meeting to the Allegheny Conference has stated that less than one percent of

industry contributes anything to the Arts and to culture, and the Country only, seven percent give less than five hundred dollars and he has chastised industries to give more. I am not going to vote for those bill for that reason. I've stated that previously.

MOTIONS AND RESOLUTIONS

Michelle Madoff:

Two very quick items. We do have a post agenda scheduled, I believe. Mr. Perry, am I correct, to get a report from the Mayor's Office and from Lands and Buildings as to what we plan to do with reference to heating this building next year when the PUC gives permission to phase out either quickly or over a lengthier period. The problem we're confronted with, that the more people that leave the system, the greater burden on those who remain with it and

so that becomes a very serious, urgent matter, and of course, at that time we'll discuss having dual lines, that we maintain the steam heat line, and when the steam heat price is fixed at four dollars per M pound we might find it more expedient to go back to that, but we ought to have a post agenda.

Another matter is about a water hydrant on a street that has parking on one side. It was unfortunate, but the streets were not salted for a great length of time. Apropos of really nothing except my own personal interest, my daughter was in that that plane crash that crashed in Boston. And that runway was icy.

The Chair:

Your daughter was on that plane?

Michelle Madoff:

She was on that plane. She came back from California because she had a cold, and walked out into one and a half feet of icewater. Somebody up there was watching her. But that roadway was obviously icy. The people calling me were leaving messages on my service were it ran like call me back, it's a matter of life and death. I'd call back and they'd say there have been four crashes on my street. We have to find out why we cannot get some of these side roads salted a little more rapidly, the hilly roads. The main roads, I had no problem with the flat roads, it was just the hillside roads.

The Chair:

The worst was probably Shady Extension. There was a woman who had a heart attack, I believe, and the ambulance could not get up there on account of the ice. That may not have contributed to her death, she may have

been dead before they even started out, I don't know, but there were several complaints that the ambulance did not get up there, and when they finally did, the woman expired. But we got a lot of calls on that. Shady Extension, Cape and Eddy apparently were very bad.

Michelle Madoff:

Do we have front wheel drive on ambulances, do you know? I would like, if it meets with the approval of the President of Council, whether we could get a report from the Vehicle Division of the Police Department, how many fender benders or crashes took place that night, and I would also like a report from our divisions as to how many trucks were out because I called and they went out as a special favor to me so I could get home. At ten o'clock at night, and I believe it was Friday night, and they salted Mt. Royal on the other side which is level, and didn't salt mine which is a hillside. They then went back and did it as a special favor. I don't want to be treated as a special favor. I want to be treated the same as everybody else and the calls were coming in saying just block off my street, don't let anybody down my street, it's a death trap. And I was told there was only one salt truck working. Mr. President, I was told there was only one truck out. I want to know why and I want to know whether that can be rectified in the future.

The Chair:

Do you mean in the whole Squirrel Hill area?

Michelle Madoff:

I don't know whether it was in Squirrel Hill or the City. They said we have only one truck. I think it was the Third Division.

The Chair:

It was probably within the one division but I can't even understand why there was only one truck there, but --

Michelle Madoff:

One salt truck in that kind of a situation, where a plane can slide into water, you couldn't walk on the street, is certainly not adequate, and I would like to know why we didn't have other salt trucks out and I don't it to ever happen again. Maybe we need a little quick post on that. What do you think, Mr. President? As to what happened and how many trucks were out.

The Chair:

Well, I think, Michelle, a post agenda --

Mr. Givens:

I checked on that myself and I drove that particular night and there were some dangerous spots where there wasn't proper drainage throughout the City. As it turned out, before I went home that particular evening, all the icy spots had been hit all over the City from one end to the other, and I'm talking from the Bloomfield area all the way over into the extreme western section of the City, transversing quite a few hills. Looking at it Saturday again in the Lawrenceville area of the City of Pittsburgh, which is a complete slope area, every street, every side street had been hit. In fact, there was so much salt on the road, it looked like it was crushed and pulverized and the roads were white as the snow. So they were actually hitting it then.

The Chair:

Well they're lucky because

normally they don't get the majority of those side streets.

Michelle Madoff:

I think the problem, Mr. President, is we discussed this, if memory serves me well, three years ago, that there ought to be a code thing, and I remember Mr., who was our former director of Public Works? How soon we forget.

Mr. Flaherty:

Mr. Ruff.

Michelle Madoff:

Jack Ruff. So they had a map and they coded the streets A, B, C, D, you know, those that needed immediate attention. I think Squirrel Hill is basically, except for Commercial Hill and some of the streets, quite level and that maybe some of the emergency streets, like Saline, Forrest Glenn, Mt. Royal coming down Commercial, ought to be marked and those streets ought to be attended to immediately, the minute they do the main streets.

The Chair:

Bear in mind, too. You're never going get all the secondary streets in Pittsburgh, there are just too any of them, but I think they do give a priority to the hillier areas. They should anyway.

Michelle Madoff:

Well they didn't, I'm telling you. I get calls. I pay for an answering service. I pay one hundred dollars a month for a good answering service. I don't use Able-1 that uses mechanical equipment that doesn't pick you up. I get picked up on the third or fourth ring. And I had calls all night saying save my

life. I though someone was attacking somebody cause I get some of the kook calls. I've had some of those kind of calls, too. Somebody wants to kill me. They were just objecting to the fact that couldn't -- there were five or six cars crashing on the one street.

The Chair:

You mean you're objecting to the fact that they couldn't get there to kill you?

Michelle Madoff:

Not to me. They don't want to kill me. They love me, Mr. DePasquale. I tell everybody you and I have a secret thing going, so just be careful. Anyway, would we get that information?

The Chair:

Sure.

Michelle Madoff:

Thank you.

Mr. Givens:

I have one very important piece of information to pass on for the Municipal Record, and that is that they finally picked up my garbage, 206 South Millvale Avenue, Pittsburgh, 24, PA.

The Chair:

You're not a slum landlord anymore.

Michelle Madoff:

And I'm glad we had a post agenda on it so it got done.

Michelle Madoff moved to approve the minutes of Monday, January 18, 1982.

Mr. Givens seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Givens**

Council adjourned.

Municipal Record

ONE-HUNDRED

TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President

MICHAEL PERRY City Clerk

WILLIAM F. McCRAY ... Ass't City Clerk

Pittsburgh, PA
Monday, February 1, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale (Pres't)

ABSENT:
Mr. O'Malley

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

We're going to change the normal order of this meeting so that Mr.

Robinson can make a presentation.

Mr. Robinson presented

No. 205 WHEREAS, Afro-Americans have been an integral part of this nation, this state, this country, and this City's history for more than three hundred years; and

WHEREAS, the first week of the month of February has been traditionally designated to recognize their many deeds and accomplishments; and

WHEREAS, many distinguished Afro-Americans made history as residents of our City, such as Dr. Martin R. Delaney, Louis Woodson, George B. Vashon, Henry Ossawa Tanner, Robert L. Vann, Daisey Lampkin, Dr. Alma Illery, Honorable Homer S. Brown, Honorable Paul Jones, and Percival L. Prattis, former Executive Editor of the Pittsburgh Courier; and

WHEREAS, in February, 1926, Dr. Carter Godwin Woodson, the Director of the Association for the Study of Negro Life and History, launched the celebration of Negro History Week; and

WHEREAS, this celebration has been expanded to a full month of recognition; and

WHEREAS, throughout the nation, distinguished and honored people of African ancestry will be honored during Afro-American History Month.

NOW, THEREFORE,

BE IT RESOLVED that the Mayor and the members of the Council of the City of Pittsburgh on behalf of the citizens of the City of Pittsburgh, shall recognize and observe the month of February as Afro-American History Month.

Mr. Robinson moved to adopt the Resolution.

Mrs. Masloff seconded the motion.

Which motion prevailed.

The Chair:

It's a great pleasure and a great honor to be part of this today, as President of Council and certainly all my Council colleagues share in this joy. Councilman Robinson has a letter he would like to read and would like to make a couple presentations. Councilman, if you would come up here please.

Mr. Robinson:

Mr. President, I just want to indicate that there are two persons here from the Association for the Study of Afro-American Life and History and I took the liberty of inviting them as I do every year, someone from the organization to make a slight presentation to Council and to officially accept the gold seal copies of this Resolution. The two persons who would like to speak before Council are Mrs. Emma Lucas, who is the Assistant Dean of Faculty at Chatham College and Mrs. Helen McClain, the librarian at Carnegie Library of Pittsburgh, Wylie Avenue Branch. If they would come forward, please.

The Chair:

Would those two young ladies

come up here please?

Helen McClain:

I'm Helen McClain, the librarian at the Wylie Avenue Branch, Carnegie Library of Pittsburgh.

On behalf of the Association for the Study of Afro-American Life and History, I would like to thank the Mayor, City Councilmen, and especially Councilman Robinson, for passing the resolution proclaiming February as Afro-American History Month. As most of you know, those of you who do not know, the Association for the Study of Afro-American Life and History was organized back in 1915 under the leadership of Dr. Carter G. Woodson. In 1926, Dr. Woodson was known as the father of black history and he initiated Black History Week. In 1976, during the Bicentennial, it was discussed that we should have a longer period of time to observe Black History Week. Therefore, the period of observation was changed then to one month. So now we celebrate Black History Month instead of Black History Week. At the library and at the churches and other organizations throughout the City, in fact throughout America, Black History Month, during the month of February, is celebrated in different ways and means. At the library we have on display books by and about black people. The theme for the Pittsburgh chapter this year is, Black Pittsburgh Writers, and keeping with the theme, the library has on display books written by black writers of the Pittsburgh area or with Pittsburgh connections. We have on display Dr. Edna McKenzie's book "Freedom in the Midst of a Slave Society", we have Kenneth Sims, "The Voice", Letty Shaw, "To Each His Own", Christine Fulwylie, "Steps to Free Worlds", Frances Barnes, "Love From Black Men to Black Women and Love From Black Women to Black

Men", Martha Moore, "Unmasked", Phyl Garland, "The Sound of Soul", Robert Pryor, "America, What Are You To Me?", Robert Penny appears in several anthologies, Gerald William Barrax appears in anthologies, and Darnell Williams, "A Guide to Stocks and Bonds for the Beginners". I mentioned these black Pittsburgh writers because they too are imported and as Pittsburghers we should support our black writers, we should buy their books, and support them in that way. Now on Saturday, February 6, at the library, we are observing Black History Month with a program sponsored by the Association for the Study of Afro-American Life and History. The two speakers will be Kenneth Sims, author of "The Voice", and Darnell Williams, author of the stocks and bonds book. So any of you in the audience, if any of the Councilmen would like to come out, we'd be pleased to have you. Thank you.

Emma Lucas:

Councilmembers, fellow Pittsburghers, and friends. The issuance of this resolution is a noteworthy occasion. The recognition of the history of Black Americans is becoming more important as we face daily situations which divert our attention to day to day survival. Even many of our current generation of college students are focusing more on technical courses as opposed to those which are liberal arts in nature and cover the rich history of people in America. The transmission of our cultural history cannot be neglected and must be passed on from one generation to another. Black history not only strengthens oneself, but also fortifies the strategies for survival and well being. We often hear of Nat Turner, Gabriel Prosser, James Fortune, W.B. DuBois, Booker T. Washington, A. Phillip Randolph, Martin Luther King and Andrew Young. But there are others, many others that are still making

significant contributions and have made significant contributions. These individuals include such people as Ralph Bunch, Turner Brown, Blanche K. Booth, Henry O. Flipper, Coleman Young, Tom Bradley, Barbara Jordan, Shirley Chisholm, Lou Mason and Patricia Harris. Black history unveils itself worldly if we look back to ancient Ethiopia and consider individuals such as Chaka and Nefertiti. The fabric of which our rich history has been interwoven by indelible threads of achievement and inspiration. Each thread allows us to uncover a healthy identity which we cannot deny because of the remarkable strength contained within. We must discover more of our history, absorb it, and pass it on to our youth.

Even though February is recognized as a month to focus directly on black history, we must work equally hard all twelve months of the year to infuse the contributions of Black Americans in our community, our homes, our schools and our churches. The knowledge of these contributions should be directed to all ages, sexes and races.

A philosopher once stated, human beings, not anonymous forces, determine the course of history. Whatever the history learned, it is less than accurate if it does not directly involve the input of Black Americans. When you hear a man say, I hate — , adding the name of some race, religion or social class, you are dealing with a belated mind. That man may dress as a contemporary, ride in an automobile, own electronic equipment, but the mind is probably dated to 1000 B.C. The same holds true for many Americans who refuse to recognize the rich contributions of Black Americans to American history.

During February, I challenge you to learn more about the contributions of

Black Americans in American history. There will be opportunities to expand your knowledge base by reading, attending special events and listening to media announcements during this acknowledged Black History Month. Please take advantage of these opportunities. Thank you.

The Chair:

Thank you very much. Again, congratulations on behalf of the Afro-American History Month. I don't know all of you here, I do know most of the Councilmembers are probably acquainted with you personally, but those I do know, and certainly a distinguished person that I would like to introduce today, I see Alma Fox in the front row, Kathy Irviss, Joe Parker from the 21st Ward, Jesse DelGre, and did I see Cynthia McLaughlin here? At any rate, thanks for coming and congratulations.

Mr. Flaherty presented

No. 157 Resolution amending Resolution No. 1375, effective December 31, 1981, entitled, "Providing for the issuance of a warrant in favor of Carnegie Library/Institute of Pittsburgh, in the amount of \$323,778.57, in payment for construction work furnished for the benefit of the City in connection with the Unification of Maintenance Services and Technical Processing at Carnegie Library/Institute of Pittsburgh, Central Branch, and providing for the payment thereof", by changing the source of funds and providing for an additional payment, by increasing the amount payable to \$500,000.00 and changing the funding source to Capital Project LB 81-06.

Also,

No. 158 Resolution providing for the issuance of a warrant in favor of Carnegie Library of Pittsburgh, in the

amount of \$199,881.91 and \$77,151.01, totalling in the aggregate \$277,032.92, in payment for construction work furnished for the benefit of the City in connection with the Unification of Maintenance Services and Technical Processing at Carnegie Library of Pittsburgh, Central Branch, and providing for the payment thereof, payable from Capital Project LB 81-05.

Also,

No. 159 Resolution providing for the issuance of a warrant in favor of the Pennsylvania Department of Transportation, in the amount of \$5,982.93 as reimbursement for rentals collected by the City and providing for the payment thereof, payable from Rental-City Owned Properties.

Which were severally read and referred to the Committee on Finance.

Mr. Givens presented

No. 160 Resolution amending Resolution No. 1005, approved October 15, 1981, effective October 22, 1981, entitled, "Providing for an Agreement or Agreements with the Norfolk and Western Railway Company for permission to tunnel under their tracks in connection with reconstruction of the Saw Mill Run Sewer" payable from Code Account PW 81-29, 4-01-25-0752-81.

Mr. Givens moved to suspend Rule 8 by providing for consideration of the bill only until or after the 9th calendar day following the meeting in which the bill was introduced so the bill will be on the agenda this Wednesday.

Michelle Madoff seconded the motion.

Which motion prevailed.

Also,

No. 161 Resolution providing for an Agreement or Agreements with Bearing Service for a grant of air rights in connection with the reconstruction of the Bloomfield Bridge and providing for the indemnification in case of fire under certain conditions.

Mr. Givens moved to suspend Rule 8 by providing for consideration of the bill only until or after the 9th calendar day following the meeting in which the bill was introduced so the bill will be on the agenda this Wednesday.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Givens:

Mr. President, with that last bill that was read, air rights, is there any money involved? I didn't see that in the legislation and it's going to come up this Wednesday. Also, it relieves this particular company of any fault of fire underneath that bridge and I can only think of the 62nd Street Bridge wherein we had a fire. I then want the Director of the Department of Public Works to discuss at this coming Wednesday's meeting, what we're going to do with buildings under our bridges. Especially the new bridge that we're going to build. If we're going to build a multi-million dollar bridge and we have a company underneath there, I want to assure myself that we don't have another 62nd Street Bridge. If we, in fact, even have to help those people out, get sprinkler system and update their particular facilities.

Also,

No. 162 Resolution vacating Voeghtly Street from a point 82.47 feet + north of East Lacock Street to its northerly terminus, in the 23rd Ward of

the City of Pittsburgh, and abandoning the 6 inch waterline and the 15 inch sewer line located therein.

Also,

No. 163 Resolution providing for a contract or contracts, or the utilization of existing contracts, authorizing the resurfacing of various City streets and park roads with bituminous materials, including asphalt milling, planing and regrading, recurring, and other work incidental thereto; and providing for the payment of costs thereof. Code Account No. PW 82-01, 4-01-01-0001-82 - \$750,000.00.

Also,

No. 164 Resolution providing for the taking of property in the 6th Ward, City of Pittsburgh, owned by James Stallings, for the reconstruction of the Bloomfield Bridge Project and approaches and authorizing payment of Just Compensation and necessary and incidental acquisition and relocation costs related thereto.

Also,

No. 165 Communication from Louis Gaetano, Director, Department of Public Works, requesting permission for Joseph J. Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
	(Pres't)

AYES 8 NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Mr. Givens presented

Bill No. 200

Report of the Committee on Public Works for January 27, 1982, transmitting one resolution to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 85

Resolution entitled, "Resolution providing for a contract or contracts for the furnishing and installation of a Chain Link Fence on the Public Safety Building Parking Lot; and providing for the payment of the cost thereof."

Which was read.

Mr. Givens:

On Wednesday I discussed with the Director of Public Works in regards to the chain link fence that we could put some other type of a fence up down there. I don't like the words chain link and I was hoping that they would put up some type of a fence but it would be decorative in nature in the fact that this is in the Downtown major area and when Ross Street is fully opened up it's going

to be a major artery for people entering and exiting the City from the western terminus. So it's in here as chain link, Mike, and I don't know what we can do. I don't want to change that phraseology, but I think all of us know what a chain link fence is. If I see one go up down there I'm going to wrap it around somebody's throat. I don't know really what to do. I don't know if I should amend it to take out chain link fence or just put fence.

The Chair:

In regard to a chain link fence, I think you and I are on different wave lengths. A chain link fence is a very good fence.

Michelle Madoff:

It's very ugly.

Mr. Givens:

It's a very good fence, it's just that I'm looking for something that's more decorative in nature, otherwise -- . It's a major facility Downtown.

The Chair:

The only other alternative would be a wooden fence.

Mr. Givens:

A chain link is an industrial type fence, too. It's to keep people in and keep people out. You have to have gates and things of this nature and I have to appreciate, as I discussed last Wednesday, the security of such a building as the Public Safety Building with people coming and going. At the same time, I don't want to see an industrial type, six-foot chain link fence around the parking area that probably the gates will be open.

The Chair:

Do you want to amend it to just read fence?

Mr. Givens:

Just strike out the word chain link and just put fence there. I'd be much happier with that.

Michelle Madoff:

I would like to hold it for a week because they were to come back and tell us, they agreed with Mr. Givens, and said they would look into an alternative. One of the alternatives that I have at my own home, which is a chain link fence between my neighbors, I put in a seven or eight foot hedge. The hedge grows before the fence and into the fence. You don't see the fence. That's one of the possibilities. I don't know whether a hedge will grow with the fumes down here, but I think we ought to hold it a week and that way we'll get an answer. If we vote on it now, what's going to happen is you're going to get a chain link fence that's going to be aesthetically unsuitable with Renaissance II, the great panacea.

Mr. Givens:

I've so indicated that in approving this piece of legislation for \$10,000.00 I'm making that a part of the record. Hopefully the Administration will, in fact, come back with some alternative.

Michelle Madoff:

Why don't we wait for a week and see what they're going to give us.

Mr. Givens:

I've asked them do it, they said they would look into it. I'm making it a

part of the official record that they do such a thing and get back to at least myself in regards to what type of fence they're going to put up.

Michelle Madoff:

If you hold it a week you'll get an answer. If you don't hold it a week you won't get an answer.

Mr. Givens:

I've gotten an answer already. They're looking into it.

The Chair:

Do you want to withdraw your amendment, Mr. Givens?

Mr. Givens:

I've asked that we strike out the word chain link, it's been seconded, Mr. President.

The Chair:

You don't want to withdraw your amendment, okay. Strike out the word chain link and just have fence.

Michelle Madoff:

I'm not striking chain link because you could get —

The Chair:

Wait a minute, Michelle, he's got an amendment on the floor, you spoke to it. Once we pass that amendment, then if you want to make the motion —

Michelle Madoff

But we're still on discussion I presume.

The Chair:

Yes.

Michelle Madoff:

We might go into a brick wall which would be very costly. We certainly don't want a wood fence because —

The Chair:

We're not changing the figure of \$10,000.00. He's just going to change the type of fence.

Michelle Madoff:

I'm suggesting that maybe we ought to have them come and tell us before we make a decision.

The Chair:

Is there any further discussion on the motion?

And on the question, "Shall the motion be approved?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Mrs. Masloff
Mr. Robinson

Mr. Stone
Mr. Woods
Mr. DePasquale
(Pres't)

AYES 7 NOES none
(MICHELLE MADOFF ABSTAINING)

Michelle Madoff:

Mr. Flaherty, on the second to last page. Someone is buying a lot 25 x 132 on Wabash Street, George Wadell. It says the stipulation for the sale of this

property be used for surface parking only the deed contain a provision that requires the owner to sell this property back to the City of Pittsburgh at a cost if it is so determined that this property is needed. At what cost?

Mr. Flaherty:

At the cost that they are going to pay for it.

Michelle Madoff:

Are you sure of that?

Mr. Flaherty:

Yes.

Michelle Madoff:

Could you double check it for me? We've been hung up before. We did that to PPG. People got parking lots --

Mr. Flaherty:

At cost is the cost that they paid for it from the City. It says at cost.

Michelle Madoff:

Okay, you're satisfied with it, I'm satisfied with it.

Mr. Flaherty:

I'll check it for you.

Michelle Madoff:

I'm just curious. I just want to be sure. We've had some big troubles with some of the parking lot owners who vote us taxes then when PPG came in bought the land at 8, said they bought it at 12, didn't pay taxes and wanted 36 and 56 dollars.

I might point out, Mr. President, there's something like \$17,000.00 starting price just in those sales this week.

MOTIONS AND RESOLUTIONS

Michelle Madoff:

Mr. President, can we take this one first?

The Chair:

This is the resolution on Billy McCray.

Mr. Stone:

I think we ought to get into that one before we get into some of the antics that have been happening in these last months. Let's pay some respect before we become ridiculous

Michelle Madoff:

I would think that out of respect to Mr. McCray we ought to get our business out of the way so we could give it the respect that it requires instead of having that bill read and then --

The Chair:

We will take the resolution in order.

The Chair presents

No. 205 WHEREAS, it has pleased Almighty God, in his infinite wisdom, to have removed from our midst, by death, William McCray, on Tuesday, January 26, 1982; and

WHEREAS, Mr. McCray was employed by the City of Pittsburgh for thirteen years, rising to the position of Assistant City Clerk, which position he held for seven years; and

WHEREAS, he was a conscientious, energetic and reliable city employee who gave generously of his wisdom in the days of City government; and

WHEREAS, he was a loving husband and a devoted father, dedicated to his family; and

WHEREAS, the Mayor and the members of the Council of the City of Pittsburgh, who were associated with him, desire to formally record upon the minutes of the Council of the City of Pittsburgh a tribute to his memory.

NOW, THEREFORE,

BE IT RESOLVED that the Mayor and the members of the Council of the City of Pittsburgh do hereby express their grief and sorrow over the death of

William McCray; and

BE IT FURTHER RESOLVED, that the Mayor and the members of the Council of the City of Pittsburgh do hereby express their sincere sympathy to the bereaved family; that this resolution be spread upon the minutes of Council and that a copy be forwarded to his family.

Mr. Givens moved for approval.

Michelle Madoff seconded the motion.

Which motion prevailed.

The Chair:

Now if we may, out of respect for Billy and his family, a moment of silence.

Michelle Madoff:

Mr. President, there are two items of business that some people may think are not important, but I would like them as part of the record. I received a letter today dated January 28.

"I have been trying for seven years to but a vacant lot behind my house. The lot has been an eyesore for longer than that. There was \$206.40 plus penalty and interest plus a \$1,400.00 lien owed on this piece of property which is in Ward 10, Block and Lot 50 K 51. I have been doing it in earnest" meaning trying to buy it "for the past year. The city did put it up for Sheriff's sale on March 7, 1981. No one purchased it. I talked to Mike" I can't read the name, "Iannarino, or something, and Bill Waddell constantly about buying it. They said it could be purchased for \$1.00 on the side lot." He obviously wants to clean it up because it's an eyesore. "As of this date," we're talking about a year ago, "I have nothing in writing from any office

of the city as to my purchasing it. Is there anything that can be done to expedite the purchasing of this property?"

I know that Mr. Flaherty and I will move to see that something happens. But I just want to share with Council for those member of Council who don't think that the people's business, and please make it a note in the record that Mr. Stone left the room, particularly. He thinks these are shenanigans. They are serious items that the people are concerned with. These are the people's business, just not our resolutions. And I have had hundreds of these over the past three and a half years and I'm going to start bringing into Council and reading them and sharing them into the record.

On another matter. I learned from the media, the only time you really get what's really going on in Departments is when you get somebody disgruntled. And I've heard from the director that the person who wrote this, which is an unsigned letter, but I have verified the facts in the letter with the Department of Water, are basically true. In fact, they're all true. The letter is from someone in the Water Department. It says:

"Dear Michelle Madoff: I think you will be interested in this letter once you read it. Since the summer of 1973, the Water Department has had an emergency shift. 4-12 seven days a week, 12-8 seven days, 8-4 Saturday and Sunday. There were 2 men on each shift, from Mission Yard and Brilliant Yard. Now they have 5 men from 4-12 from both yards. Only 2 men on 12-8 to cover the whole city from 1 yard. No one on Saturday or Sunday or holidays. The 12-8 shift is from Monday through Friday. The big brass downtown figure water mains or hydrants don't break on the weekends or holidays. By the time they

call someone out, do you realize the damage that could be done by the water? I have seen so many times what water has done to people's property and city streets. And we got there in a hurry to shut down the breaks. How can 2 men try to cover the city if you have a big break in the West End and another one in the East End going at the same time. We had 2 men at Brilliant Yard that know their part of the city well, and 2 men at Mission Yard that know their part of the city well.

Mission Yard covers all of North Side, Downtown, Strip District, half the Hill District, Uptown, South Side, Allentown, Mt. Washington, Duquesne Heights, West End, Elliot, Sheridan, Esplan down to the McKees Rocks line. Brilliant Yard covers Oakland, Herron Hill, Hazelwood, Homewood, Brushton, East Liberty, Squirrel Hill, Garfield, Bloomfield, Lawrenceville, Regeant Square and Greenfield.

So you see that is a lot of city for 2 men to cover.

Besides shutting down main breaks and fire hydrants, we shut off peoples service lines, reset barricades, replace mission lids in the street, and the big steel plates that cover the holes shift a lot of the time and we have to put them back. In the summertime, we concrete streets, sidewalks, etc. So you see, we are quite busy.

What we want is to put the other 2 men on the 12-8 shift at Brilliant Yard. And also on the weekend shifts.

I thank you for taking up your valuable time and for reading this letter. I would sign my name, but I am afraid if I do, they would find out and I would be in a lot of trouble.

Thank you very, very much and

God Bless you.

Keep up the good work, etc., etc.

At the bottom it says the past weekend, January 24-25, there were leaks all over the place, and no one to check on them until Midnight, Sunday.

I took this matter up with the Director. It is essentially true, but in the last two weeks they put somebody on one of the other shifts. We still don't have evening coverage at all over the weekend on the night shift. Which brings me to the item that the men are still working with picks and shovels when they should be working with backhoes which would expedite matters. I checked today with the auctioneers and there are backhoes that can be investigated. We have now hired someone in Supplies who is an expert on equipment, who could be buying backhoes for certainly 40% on the dollar, and they could check to see that they are alright. The Water Department is in a serious state. I don't think we can ignore it, I think it's going to catch up with us. There's going to be some money given this year to the Water Department. They haven't received their plumbing trucks that they need. They have not received their backhoes and they still working on a band-aid and spit and paste and were told they're going to have to make do. I've sent a memo to the Water Department which reads as follows. And it's gone to Mayor Caliguiri, Larry Yatch, Richard Cosentino, and all members of Council.

"The enclosed information is accurate, since I have verified the facts. It is insane to continue to operate the Water Department as we do.

Obviously, we better start to think about some alternative, possibly a water authority.

I will be meeting with the Water Department supervisory and personnel, both privately and at public meetings. I am going to monitor the Water Department like it has never been monitored before. Please advise if you wish to discuss this matter any further, to come up with some logical conclusions."

Today I have ordered a radio. I don't want a \$12,000.00 radio. I'll take one that you can just zero in on our frequency. I want to know when there's a break. I have a map ordered for my office. There will be a colored map for serious breaks where we have damages, another one for breaks that are serious where we pick up the costs, another one for serious breaks where there're minimal, and then one for breaks that are not even reported to the Director. I'm going to try to stay tuned into that radio as much as possible and by the end of this year, I think a picture will emerge that will be absolutely frightening because I remember the day that we had a map here where we had seven breaks within a very short period of time. This winter has been horrendous and the damage that has been done to an antiquated system, we don't even know the damage and yet we do not make that a priority. I'm very concerned about it and I wanted to share that, which I consider the public business with this Council and not frivolous.

The Chair:

I can't resist this. Suppose they play those radios too loud. What do we do then?

Michelle Madoff:

I will play it at a level where the decibels will not offend anyone.

The Chair:

Very good idea. You're very dedicated.

Mrs. Masloff moved to excuse Mr. O'Malley for absence from the meeting.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Givens moved to approve the minutes of Monday, January 25, 1982.

Mrs. Masloff seconded the motion.

Which motion prevailed.

And on the motion of **Mrs. Masloff**

Council adjourned.

No. 6

Municipal Record

ONE-HUNDRED

TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
WILLIAM F. McCRAY ... Ass't City Clerk

Pittsburgh, PA
Monday, February 8, 1982

PRESENT:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Robinson
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale (Pres't)

ABSENT:

Mr. Stone

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

I'd like to change the normal order

of this meeting so that Mr. O'Malley can make a presentation for Crime Week.

Mr. O'Malley presented

No. 264 WHEREAS, February 7th through February 13th is National Crime Prevention Week; and

WHEREAS, decreases in Federal and State Funding of Social Service programs will ultimately lead to an increase of crime; and

WHEREAS, the City must rely on community projects such as the Neighborhood Block Watch Program to fill the void being created; and

WHEREAS, these programs are staffed by volunteers who get no compensation and very little recognition,

NOW, THEREFORE,

BE IT RESOLVED that the Members of the Council of the City of Pittsburgh hereby proclaim the week of February 7th through the 13th, 1982, as "Crime Prevention Week" throughout the City of Pittsburgh and express our appreciation to all the community volunteers that give of their time and money to fight crime in their communities.

Mr. O'Malley moved to adopt the Resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. O'Malley:

I'd like to call Tracy Suska to come up. And Bill Conway.

This is my third year in office as Chairman of Public Safety and the Community Relations Department and the Pittsburgh Community Crime Prevention Coalition have united to organize National Crime Prevention Activities Week, and I'm very please at the ongoing cooperation between the City of Pittsburgh, the Police Department and the National Crime Prevention. Both past acting Chairmen, Tracy Suska, and current Chairperson, Bill Conway, have been visionaries in the field of Community Crime Prevention. And the work that Kathy Griffin, Kathy would you stand up please, put into planning this week's information seminar downstairs was tremendous. I want to thank you personally, Kathy.

This week falls in the midst of the City's drive to create Block Watches. On every block in the City of Pittsburgh. But since we started this drive with the cooperation of Marie Reilly, we have organized over 600 Block Watch Clubs in the City of Pittsburgh. It has been proven that where we organized these Block Watches, that there is a decrease in crime. This week alone I have two more neighborhoods that I have to go into. They're associated with 67 different blocks that participate in programs to prevent crime. They're interested in organizing Block Watching Clubs. So, hopefully, within the next few months twenty to twenty-five percent of the City of Pittsburgh will be organized. I just wanted to thank Tracy and Bill for all the help that they've given us and especially to the media. Without the media's help in getting word out to the communities and to the public that they can participate, that they can have a say-so in what happens in their

neighborhoods and their community, that with their help that there can be a deterrent to crime to make the communities a better and a safer place to live for all our citizens. I'd just like Bill.

Bill Conway:

Thank you, Jim. In behalf of all the community groups and agencies throughout the City of Pittsburgh which are active in community crime prevention, I'd like to thank Council for recognizing our efforts. One year ago, I accepted a Resolution similar to this here at Council. During that one year, there has been a tremendous increase in interest in the neighborhoods in Block Watches, Block Walks, in helping victims in their neighborhoods, and I'd like to thank Council for recognizing our efforts. I would also like to particularly thank the neighborhood groups participating today. The groups from Perry Hilltop, Point Breeze, East Liberty, Oakland, and other areas of the North Side including Manchester and East North Side. Thank you.

Michelle Madoff:

I'd like to ask a question if I may. Councilman O'Malley, I think you're to be commended and I certainly think the people are doing an outstanding job, and you made a statement that sort of threw me. You said that very shortly you hope to have twenty-five percent of the City organized. What would it take to get 100% of the City organized this year? Would it mean some funds from us? What would we need to do it?

Mr. O'Malley:

Real quick, Michelle, I've met with all the Community Relations officers here in Council, and we've sent out a mailing to over 300 community

groups --

Michelle Madoff:

Has Mr. Givens heard about that? Go ahead, just a little fun.

Mr. O'Malley:

The idea is to let them know that there are programs available that they can participate in and that they can become involved to help the Police Department make their neighborhoods a safe and a better place to live. So since I've had that, I've done two television shows, a radio talk show. We have inquiries from about eighteen to twenty more community groups which have hundreds of citizens in each community group.

Michelle Madoff:

Do you need some money for staffing? May I ask the gentleman who is organizing what he feels he would need.

Mr. O'Malley:

I don't need any money because we're using the Pittsburgh Police Department and the Community Relations Officers are out two and three nights a week. So they've been very helpful. They're doing an excellent job.

Michelle Madoff:

But what do they think they would need? I'm just curious because I think it's such a tremendous program, you've done such a tremendous job, Councilman O'Malley, you're to be congratulated, and I just want to say what can we do to help you? We're all in this together, what can we do to help?

Bill Conway:

I might make the comment that I think the greatest resource are the community groups throughout the City of Pittsburgh, and at some point, if community groups would ask for funding through the Block Grants to promote public safety in neighborhoods, that could be dealt with at that time.

Michelle Madoff:

Are you having enough staff to get to the community groups? For the responses that you've had, have you had a chance to interact with them? Do you have enough staff to do that?

The Chair:

Excuse me, if I may. Michelle, this is not a hearing, it's merely a resolution. If you want to have a post agenda, we can have a post agenda and discuss it. We can have a full-scale hearing out of it.

Michelle Madoff:

Well, I just think they're doing a tremendous job and we ought to extend it.

Mr. Flaherty presented

REPORTS OF COMMITTEES

Mr. Stone presented

Bill No. 257

Report of the Committee on Finance for February 3, 1982 transmitting one ordinance and sundry resolutions to Council.

Which was read, received and filed.

Also, with a **NEGATIVE RECOMMENDATION**

Bill No. 79

An Ordinance entitled, "An Ordinance directing the Allegheny County Board of Elections to place before the qualified voters of the City of Pittsburgh a referendum question to whether or not said voters are in favor of amending the Home Rule Charter to provide for the annual salary adjustment of all elected officials."

Which was read.

The Chair:

We have to vote on this bill separately. You understand, to vote for it you have to vote aye and to oppose it you vote no. It's a negative recommendation.

Mr. Flaherty:

Mr. President, in regard to the pay reform proposal, as I'm sure all my colleagues are aware, this is an amendment to the Home Rule Charter. It is the only way that Council can change the current way of granting itself a salary increase or a salary adjustment. The proposal will do two things. It will equalize Council's salary. We are the only major city in the Country that has a nonuniform salary structure. There are certainly other cities that have staggered Council terms, but they do not have staggered Council salaries. So it will uniform the salaries in the beginning of the year 1984.

Secondly, it would put a cap on any salary increase that members of Council would grant themselves in that the increase could not exceed the average

percentage granted to all city employees. For example, in the past four or five years, that has averaged out to approximately an eight percent raise. I believe that this is in keeping with the symbol that we as public officials should project and also in keeping with the spirit and flavor of the office and not granting ourself anything more on a percentage than what the rank and file City employees are receiving. Therefore, I would move for approval on this proposed amendment to the Charter.

Mr. Flaherty moved for approval of the resolution.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Michelle Madoff:

I'd like to make an amendment to the bill, Mr. President. Is that in order?

The Chair:

No it isn't.

Michelle Madoff:

There was a second on the bill. I'd like to make an amendment to the bill.

The Chair:

He's going to have to withdraw his motion.

Michelle Madoff:

But you have to have a bill in order to amend it.

Mr. Givens:

You could amend it first then vote on the bill.

Michelle Madoff:

Of course you have to amend it, then we vote. You have to vote on the amendment first, then you vote on the bill. Isn't that how it's done?

The Chair:

You're voting on an amendment now.

Michelle Madoff:

I haven't issued it. I haven't offered it yet.

The Chair:

You're voting on an amendment to the Home Rule Charter.

Michelle Madoff:

No, I'm voting on an amendment to the —

The Chair:

You want to further amend Mr. Flaherty's amendment.

Michelle Madoff:

That is correct, Mr. President. May I do that? Directly after the word "percentage increase granted to all City employees", I would like to include, "and further, Council shall have the option of not increasing salary at all in any given year, and that Council pledges to exercise restraint in years where inflation and recession would indicate Council is already earning an adequate compensation." I think that would take care of the concern that Mr. Woods has shown. He's afraid that by having eight percent every year we will get to \$72,000.00 and —

Mr. Givens:

He didn't say eight percent.

Michelle Madoff:

Well, he's concerned that if we do it on a yearly basis, even based on the eight percent estimated — I'm saying there may be years where we shouldn't raise it at all. And I think that Mr. Flaherty in essence is saying the same thing. He's saying it would up to Council, we vote that ourselves. It's up to us to decide whether we're going to go eight, two, four, one or nothing. But I think it would reinforce a feeling of responsibility, I've read the editorials that it looks like Council's out for a pay grab.

Mr. Flaherty:

One editorial said that. One editorial. The Post Gazette was supportive, the Press was, seemed to be, undecided on it.

Michelle Madoff:

I don't think that my, hopefully, this amendment would be accepted and it would put to rest any fears that we hear just to get our eight percent every year because we're not saying that that's what we want.

The Chair:

When you're talking about newspaper writers, if you get a one percent increase it's too much as far as Council is concerned. I personally don't give a damn what the newspapers think. Let's keep it along our line. How you feel, how the members of Council feel. I'm tired of how the newspapers feel about it.

Michelle Madoff:

That's not what I'm worried about, Mr. President. I'm concerned about the public. I represent the public. So do you. And I think you feel that way.

The Chair:

The public does the voting, not the newspapers. If they don't like you, they'll vote you out. If they do like you, they'll keep you in. I just want to impress upon you that newspapers don't impress me.

Michelle Madoff:

How does the public know how you feel if you don't have media? If you didn't have media we'd have a totalitarian state. Thank God for the media.

The Chair:

That's your opinion. Do you want to make an amendment?

Michelle Madoff:

I made the amendment.

The Chair:

Is there a second to the amendment? No one seconded the amendment. Is there any further discussion?

Mr. Flaherty:

Yes, Mr. Chairman.

Michelle Madoff:

Mr. President, I'm not finished with my amendment. I have not finished. Just one moment.

The Chair:

Your amendment didn't even pass. Your amendment didn't get a second, Michelle. Mr. Flaherty, do you want to talk about an amendment that's not going to pass?

Mr. Flaherty:

No, I am not going to second the amendment. I believe that the amendment is certainly cast or presented in a very positive manner, but I would not want to point out, Michelle, that currently, the way the Charter reads, it says, "The salary of any elected official shall not be increased or to be diminished during the term for which the official is elected." In the proposal I have, I say, and furthermore, to provide that all elected City officials shall be eligible for annual fiscal review for salary adjustment." It does not say anything about an increase, it talks about a salary adjustment. An adjustment could mean a cut in pay. So I think the amendment is commendable, but I believe that it is superfluous and I think it's important when we put a question on the ballot that we keep it as concise as possible for the public.

Michelle Madoff:

Mr. Flaherty, unfortunately, having not been a public official all my life, and having been involved with public issues for some thirteen years, the public may know what it reads or what it means. On the surface, the bill appears, to understand it here, I think we all understand what you're saying, that we're not out for a pay grab. You're saying let's not give ourselves ten thousand dollars every four years and have everybody jump on us and particularly have somebody in the administration give us that raise we can't even ask for or assign to ourselves, and I didn't even take. You're saying let

us make our decision here. All I'm doing, and I think you're right, this clarifies it. All I'm doing is reinforcing what you're saying. I'm saying, there are years of inflation and recession where we may not want to take any raise at all and we would have that option. And I don't see why you wouldn't support that. I think it clarifies the issue.

Mr. Flaherty:

The reason why I'm not supporting it is to keep the issue concise and I believe that alternative is included in the proposal.

Michelle Madoff:

I don't. I think yours says we can still go at eight percent.

Mr. Flaherty:

No it doesn't. It's very simple. It says "provide the opportunity for all elected City officials to be eligible for an annual fiscal review for salary adjustment." There's no talk about eight percent, there's not talk even about an increase in that.

Michelle Madoff:

So you're agreeing with what I'm saying? You just don't want to cloud the issue by putting it in?

Mr. Flaherty:

I agree with what you say. I have no problem with you intent, I just believe in keeping it as simple as possible.

Michelle Madoff:

Then what we might do is introduce that as a resolution so that would be the will of Council, that indeed, we would use restraint in years where,

perhaps, we feel we're earning sufficient. To be fair to the public we would not want an increase.

Mr. Flaherty:

I would hope that Council would use restraint, and I think for the most part in the past it has used restraint, and I believe this Council is very much aware that we could possibly be heading into a bad recession.

Michelle Madoff:

But the public doesn't know that and I think it's always good to let the public know how we feel. And that's why I think that resolution, the amendment, is very important. That we're not saying, indeed, we want an increase, but we're saying, instead of making us look bad every four years, with the ten thousand dollar increase or whatever it is, it isn't even that in amount, for those who are getting it, and some of us aren't getting it, that indeed, we plan to exercise restraint and we plan not to increase in times of inflation and recession. I think it's important to put it in. I'm sorry that no one else on this Council shares that opinion.

Mr. Woods:

I do believe that there should be some type of reform. But under this present bill, I feel it's going to result in automatic pay increases for the Mayor, the City Controller, and City Council. Under the present system with all its defects, at least Council, the Mayor and the City Controller has to own up to the public. Right now, if this bill would pass, it would pass on election day and when it came time to vote for a raise everyone would say, we have no excuse, we're going to vote for it, the public wants this. You voted for this, the public, not the Council, not the Mayor or not the

City Controller. This is no way to do it. And in reference to this eight percent that Tom says is the average over the four years, I didn't go back four years but I did go into 1982, into the budget. It wasn't eight percent. Excluding the Mayor's raise and Council's raise even, it adds up to 10.2%. I know. I have the figures here.

Mr. Flaherty:

I ask you to present those figures to this Council.

Mr. Woods:

Just the white collar workers alone, 44 people are not covered in a bargaining unit, but 14 —

Mr. Flaherty:

There are 5,000 City employees, and granted, —

Mr. Woods:

Right, and when you average them all out you end up with 10.2 percent raise.

Mr. Flaherty:

The unions were granted an average of 7.8, the Mayor's Office was critical of the Police because they were granted a 9.5.

Mr. Woods:

Also, the Firemen are under a three or four year contract and they got nine percent.

Mr. Flaherty:

Well I think Firemen are entitled to nine percent.

Mr. Woods:

That's not the point. You said an average. I'm telling you the average.

Mr. Flaherty:

Okay. Then the point is, if the average City employee gets ten percent

Mr. Woods:

The point is, your figures for 1982 were wrong, it's ten percent raise, not eight. That's the point.

Mr. Flaherty:

If you want to talk percentages, Council's last ten thousand dollar increase gives them a percentage each year of approximately sixteen percent.

Michelle Madoff:

Mr. President, may I respond to Mr. Woods?

The Chair:

Are you finished, Mr. Flaherty?

Mr. Flaherty:

Yes.

Mr. Woods:

I'm not finished.

Michelle Madoff:

I will wait until you're finished.

Mr. Woods:

I gave these figures to Council before. Under an eight percent raise, if we would use that figure, by 1987, if we

start giving this raise in 1985, after all the pays were equaled in 1984, in four years, Council would be making \$40,932.00. In the same period of time, the Mayor would be making \$72,463.00. If we go on to the ten percent, which Council got or which the City got in 1982, the Mayor, in the same five year period, would be making \$76,950.00. Council would be up to \$43,000.00. In seven years Council would be making \$64,140.00. In a seven year period they would have gotten a \$31,640.00 raise for seven years. The Mayor would have gotten a \$55,985.00 raise in seven years. That's a hell of a lot more than \$10,000.00 in four years no matter how you cut it, no matter how many times you figure this thing out.

Mr. Flaherty:

Probably in seven years your average cab driver will be making \$45,000.00 a year, too. It's all relative. You're talking about a percentage.

Mr. Woods:

Whoever makes the most gets the most.

Mr. Flaherty:

Common sense will tell anyone, I believe, that an eight percent annual raise is not as much as a ten thousand dollar raise each year over four years. That is it in its simplest terms.

Michelle Madoff:

On top of which they could have made it more than ten thousand, Mr. Flaherty.

Mr. Flaherty:

An eight percent raise with the current salary of \$32,500.00 will be

approximately \$3,000.00. For example, granted Ben, in seven years maybe the Mayor will be making \$62,000.00, maybe Council will be making \$45,000.00. But what will they be making under the current process? \$32,500.00? No, they will be up around the same figure and the thing is, they will be getting that for each of the four years. They won't be working up. You have to consider compound effect.

Mr. Woods:

If you ended up jumping, if you did jump like this big jump that it was, two years from now you'd be at \$37,000.00. Four years from now you'd be at \$42,000.00. And six years from now you'd be at \$47,000.00. Under this you're going to be at \$50,000.00.

Mr. Flaherty:

Without this reform, Council, in 1984 could possibly go up to \$40,000.00. You know it and I know it, Ben, and I think everybody on Council knows it, and that would be \$40,000.00 a year for each of those four years. That's not a calumative effect of working up to \$40,000.00 in increments each of those four years. So I think it's important to keep in mind that we are the only city in the Country, the only major City that is stuck with what I feel is a very anachronistic way of grant ourselves pay raises. I think it's even good politics, we're all concerned about good politics. Even Dave Lawrence said, "Good politics is good government". And that's what this is. No one, the average taxpayer is not going to complain when Council grants itself an average eight percent or nine percent increase as long as its in accord with what the average city employee is receiving.

Michelle Madoff:

I did not respond to Mr. Woods. I yielded to Mr. Flaherty.

The Chair:

I don't think there's any reason to Michelle.

Michelle Madoff:

Well I think it's important. I would like to respond to Mr. Woods if I may. I spoke with Mr. Woods and I think Mr. Woods is speaking his conscience. I don't think he's trying to be ornery or arbitrary because he stated, he opened his statement by saying we need reform. Is that correct, Mr. Woods?

Mr. Woods:

That's correct.

Michelle Madoff:

We know that our Finance Chairman said we need some kind of reform. I'm going to vote for Mr. Flaherty's bill. I'm disappointed that he will not include my amendment. The reason I think it's important, Mr. Woods, and we talked about introducing, and I thought you were going to introduce some amendment, because what it does is say, the public may not be upset if we get what everybody else is getting every year. Many of the public feel that Council members' jobs are part time. We know it is not, but they still feel that way, and maybe it is important to state publicly, as part of this resolution, that indeed there are times we will not take any raise at all. And indeed, when things are bad, we would not, even if there is an eight percent average or a six percent average increase, maybe we'd only take two or three. That's why I think my amendment is so very important, and I'm surprised, Mr. Woods, that you would not second it. Because that really deals with

that your concern is. That there would not be this automatic increase no matter whether we go the ten thousand way, the lump sum, and incidentally that ten thousand could be raised, couldn't it? The Mayor could have said more than ten. He could have said fifteen. He could say twenty. What we're doing is living, in a sense, the public the feeling that we've now given ourselves license, if everybody gets a raise every year, we're entitled to it. I'll go on record right now saying I don't think Michelle Madoff is worth what a fireman is worth or what a policeman is worth or what a paramedic is worth. I don't think I'm worth that kind of money. I think I'm worth what some of our Department Heads are worth, not all of them. It depends on who and what job we're talking about, and I think some of the ones I thought were not very good are no longer here. And I would really urge before we move on, Mr. Woods, as a fellow councilmember concerned with your issue, because I don't think you're really in basic disagreement, that you would like to see some reform. What I've done is put in an amendment that says, you don't have to give any increases. And why you would not support that surprises me.

Mr. Woods:

Because Mr. Flaherty's virtually says the same thing. It's up to Council to give the raise. But I feel, no matter what terminology you use, it still would become an automatic raise.

Michelle Madoff:

Are you willing to go on record saying you don't want any more raises ever again, this it it?

Mr. Woods:

No, I'm not. I might have this job

for thirty years.

Michelle Madoff:

What do you want to say? I don't understand what you're saying.

Mr. Woods:

And another thing. Tom, don't ever say to me that I don't think that the firemen or anyone else deserves a raise.

Mr. Flaherty:

I didn't say that. I said I think they deserve it. I didn't say you didn't think so.

Mr. Woods:

Okay, but don't imply that I don't think they do. I just made the statement of what they did get raised.

Mr. O'Malley:

One small comment. I sort of feel that this is a sad state of affairs with unemployment in Pennsylvania almost over ten percent, that we're sitting here for twenty minutes squabbling over our own pay raises. I think this Council ought to spend this time talking about what we can do about getting full employment for the residents of the City of Pittsburgh. I think what we ought to do is talk about reducing taxes for the residents of the City of Pittsburgh, at least utilizing. The taxes that we do tax people are to the utmost, and I think we ought to be talking about programs to help the poor and middle class. I think these are important issues we should be talking about.

The Chair:

We're getting off the subject. First of all, we're talking about

amendments to the Charter, and Jim, in all fairness, you're making a political speech.

Mr. O'Malley:

No it's not a political speech. I don't think it makes any difference.

First of all I want to correct one of Mr. Flaherty's statements. First of all, this Council did not issue itself a sixteen percent raise. By Professor Cunningham's own statistics, when he came in this Council, prorated over eight years it was five percent raise. I think it's a media issue that this Council got a ten percent raise. But no matter what issue it is, I think it's silly to discuss it for twenty minutes when we have more important problems.

Mr. Flaherty:

I agree.

Mr. Woods:

I'd like to make one remark. I was not arguing over Council's pay raise. I don't think anybody was, Jim. I think the argument is over reform, salary reform. No one is talking about Council's pay raise.

Michelle Madoff:

I resent this very much.

Mr. Flaherty:

I just want to add, and I send this to you too Ben, what I think the essence of it is. This is a proposed amendment to the Charter. So Ben, I wholeheartedly believe you're very sincere in your arguments, but since this is an extremely controversial issue, and one that I have probably had more public input from than any other issue, the essential question is,

just to put the issue on the ballot, just give the public the opportunity to vote it up or down. If the public is opposed to this plan, that is fine with me. And I think it would be good to put it on the ballot and I'm sure that a lot of people would be interested in hearing the reasons why you are in opposition to and I think that's healthy.

Michelle Madoff:

Mr. President, why don't we just put a motion now that for the next eight years we don't take a raise at all then we won't have to sit here for twenty minutes and make it appear by innuendo that we have been arguing about pay increases. Mr. O'Malley, would you like to make that motion? I'll second it.

Mr. Givens:

Mr. President, I vote aye for the bill and I vote aye, I think the public has a right to decide what this Council's pay is going to be and how it's going to be for the forthcoming time. If it's a no vote, I would feel that the public indicated that this Council and the past seven years that I've sat on it, has indicated we've done a pretty good job. If it's a yes vote, I feel they want to equalize it. When you look at this particular bill, there's going to be five Councilmembers who are going to receive \$5,000.00 less than four other Councilmembers. Even with that, I still vote for an aye.

Mrs. Masloff:

Tom, no matter what this thing says, no matter what it says we're allowed to have, the final vote will be with Council whether or not we get five percent or two percent or nothing each year?

Mr. Flaherty:

Exactly.

Mr. Masloff:

With that I vote aye.

Mr. O'Malley:

I disagree with Mr. Flaherty on one thing. I don't think it's right for the members of Council to get any more than the average City workers.

Mr. Woods:

I feel it's deceiving the public, that's it's going to be an automatic average increase every year and this thing is going to escalate and escalate and then the public will have a big outcry that we're making all these enormous, big salaries.

The Chair:

I'd like my comments to carry over from the January 26th meeting.

MR. DEPASQUALE'S COMMENTS ON BILL NO. 79 FROM TUESDAY, 1/26/82)

In 1975, the City of Pittsburgh passed the Home Rule Charter. It is no secret that I was in opposition of that Charter. I was also in opposition of many of the members that were elected to that Charter, not all, but I would like to be fair about it. They put a lot of long time and hard hours into that Charter and they were dedicated and sincere people, but I think they did a lousy job. But, at the same time, the City of Pittsburgh voted on that Charter. The voters of the City of Pittsburgh adopted that Charter and we're stuck with that Charter. Every time we turn around, somebody wants to amend that Charter. It was a Charter

we should have opposed in the beginning. Once it went through, there is no need to amend it in the future. I never was in favor of Council members setting their own salaries. I think it was wrong, completely wrong, but it's always been that way, even before the Charter. I am going to vote against this, but I am also going to offer an amendment of my own, because the only way we can change this is to amend the Charter. Even though I say I don't want to amend the Charter, there is no other way to do it. I think that a Salary Board should somehow be commissioned and I am bias. An impartial Salary Board should set the salaries and that's the way that I am going to be voting, but I want to make it clear, and I am not propositioning you, Mr. Flaherty, or anybody at this table. Everytime we turn around somebody is saying, let's amend the Charter. I repeat, I was opposed to that Charter and opposed to most of the members of the Charter. I think they did a lousy job, but that's the Charter the people of the City of Pittsburgh adopted and the one that they voted on. And bear in mind, if we are going to serve the voters, let's serve them in a correct manner. If we approve something, let's allow it to go through.

I want to answer Tom to this extent. Another reason I said what I said, Tom, we are not quite clear on how those salaries are to be set up. We are talking about parttime people, we are talking about fulltime people; we are talking about Directors that make \$40,000.00 a year, we are talking about laborers that make \$10,000.00 a year and I just think that an unbiased Salary Board would do a better job than we can because I don't think I understand and I don't think that anybody else understands.

If somebody would say let's base it on the highest salary paid the City

employees and on the average salary. If there was a discrepancy, then why is the discussion on how we do it.

The increase of Council's salaries is not an issue here. The issue here is to amend the Charter in another way, to do it to set Council's salaries and that has been played back and forth in a political speech by you and Mr. Flaherty.

This has been playing the news media for the last three or four months. We know how we stand on that.

The only way to go is to scrap the entire Charter because it's a lousy Charter.

(END OF MR. DEPASQUALE'S COMMENTS ON BILL NO. 79 FROM 1/26/82)

	(Pres't)

AYES 7 NOES 1
(MR. GIVENS VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Michelle Madoff:

May I have clarification, please? On No. 128, Mr. Givens, that's a repealing of the bill. And on No. 129 it's money from the Point Park going to other parts of the City for lighting. I thought it was Point Park Stage. I would have voted no as well. Am I correct? It's not. We're not using it for the stage. I thought it was. It's not.

Mr. Givens:

What is it being used for?

Michelle Madoff:

For lighting in the parks. Department of Parks and Recreation lighting. They took the money from the money allocated. It's a repealing bill. I didn't understand that either. I would have voted with you.

The Chair:

They're replacing security lights. Why would you be opposed?

Michelle Madoff:

It's from the Symphony stage to other parts. No. 128 is a repeal. No. 129 is using the money elsewhere.

Mr. Givens:

I've been consistent in there where they put it into or take it out of.

Also,

Bill No. 130

Resolution entitled, "Resolution transferring \$80,600.00 from the Department of Parks and Recreation's Code Account 1843, Senior Citizens Program to the Department of Parks and Recreation's Senior Citizen Program Trust Fund."

Which was read.

Which was read.

Michelle Madoff:

I had a letter on my desk this morning, I asked my aide to make a copy, she probably didn't know I needed it this morning, from some group saying that they, North Community Group, who wanted the study to go through. It seemed to me the Manchester was not too thrilled with it. What is the latest status on this? The subject was we're going to have jobs for the North Side.

Mr. Robinson:

This particular bill did not relate to Manchester at all. This particular bill relates to a specific project on the North Side in the area where we will be initiating the North Shore Project. If any other group in the City would like to work out some arrangement with the Planning Department, certainly I think they ought to do so because, I think, this particular piece of legislation speaks to trying to develop economic opportunities for people who live in our City. It's something I believe in, it's something I've

been pushing. So I think this bill is right on target in terms of the group whose specific problem it is addressing. Whether or not other groups are or not, North Side is going to benefit from it. It can be handled two ways. One, for us to work out some arrangement with them. Two, before the contract is actually signed, have them come back to Council to make sure all the areas on the North Side are addressed.

Michelle Madoff:

What you're saying then is, this is the bill where I question the wisdom of hiring someone to tell us the kind of businesses we need in the North Side. We know that we need a Kellogg, we need a Johnson and Johnson, we need light industry, and that would create jobs. We don't need to pay twenty to thirty thousand dollars to someone to tell us that. Why are we paying, no one has justified with me, why we're hiring a consulting firm and paying them \$30,000.00. And there seems to be some other feeling the other day, and I'm just confused on that.

Mr. Robinson:

I think one of the things that has to be addressed is, the issue of the utilization of consultants. I don't think we can address that at this point. But I think utilizing consultants in this regard is consistent of what the City has been doing, at least for the five years I've been on this Council, particularly in the area of economic development and housing. I see no inconsistency there.

Michelle Madoff:

Inconsistent or not, do you think that these people are going to tell us something we don't know about spending \$30,000.00?

Mr. Robinson:

I really don't know.

Michelle Madoff:

I think a \$30,000.00 saving is more important than the twenty-two minutes that we supposedly were arguing on issues that pertained to salaries and not to the public good. Here we can save \$30,000.00 because we know what we need in that community. We don't need a consultant to come in and tell us.

Mr. Robinson:

I don't believe that there's any empirical evidence that we, and I assume you mean Council and Administration, know what need to be in the North Side area. One of the difficulties has been that persons who are living on the North Side, whether it be East North Side, Central North Side or Manchester, have felt that they have not been involved in the process enough. In the case of Manchester, we worked out an arrangement with URA where they are more directly involved through the Manchester Citizen Corporation.

This is another attempt to make sure that there is citizen input into what is occurring in the neighborhood. I think for that reason alone that this kind of study is going to be valuable. Whether or not we need to conduct any study I think is something that we always debate back and forth. I just think in this particular instance the \$29,900.00 will be well spent. If you want us to give more direction and preciseness to what we're going to do, the bill can be recommitted and we can get that kind of preciseness before we move forward. I have no problem with that.

Michelle Madoff:

Councilman Robinson, my concern is that I think if we had somebody from planning, we don't have Mr. DeLuca anymore, but he did an outstanding job in the area from which he came, but if somebody of that caliber were to meet with the people who represent the various groups on the North Side and say, obviously we need somewhat unskilled, untrained jobs where we can, as I said, I use those two because I have seen what they have done in other communities and certainly the space is available for industrial light work in that particular community. We don't need to pay anybody \$30,000.00. I'd rather spend that \$30,000.00 in advertising or sort of work with the Industrial Development authority. While they're not allowed specifically to work on an area, they are, indeed, allowed to bring people into western Pennsylvania. Maybe that \$30,000.00 ought to go to hiring a person full-time, who always works on getting people to come into this area and create jobs in this area. I can't vote for this consultant.

Mr. Robinson:

You mentioned Mr. deLuca, I think most members of Council know that Mr. deLuca is a consultant with our Urban Redevelopment Authority and it's my understanding that the concerns that could be addressed by K.S. Sweet could be addressed by Mr. deLuca. He is certainly more than qualified to do that and I'm sure has some perspectives on it. If you'd like, —

Michelle Madoff:

I'd like to hold it a week.

Mr. Robinson:

If you'd like to send it back to committee, I think it might be advisable to have, perhaps, Mr. deLuca, come in or

even the representative of K.S. Sweet and get some perspective as to what we need to be doing in that area, and maybe even ask Mr. deLuca what information we already have.

Michelle Madoff:

Is Mr. deLuca part of this K.S. Sweet?

Mr. Robinson:

I doubt it.

Michelle Madoff:

Maybe we're running into a semantics problem. What I'm saying is, I don't know that we need a consultant to say we need light industry in the area. Maybe we better spend that money bringing in the \$30,000.00 advertising in the Wall Street Journal and other places or hire someone. Like I've always said we need a grants person. We also need someone to bring business to this community. I just think it's a waste of \$30,000.00.

Mr. Woods:

Bill, can I ask you not to resubmit it because I have met with these North Side groups and I've talked to them and they've met with different organizations, Planning and so forth, Urban Redevelopment, and they feel they need a consultant and it is going to be work done over there, and also, Mr. Lowe, who was here last Wednesday at the Committee meeting, stood up and was at these meetings for Manchester Citizen Corporation and is in favor of this particular contractor, at least he stated that last Wednesday. I have no contact with him in writing. So all these groups, every group over there, Perry Hilltop, Allegheny West, Allegheny East, Manchester Corporation, all of them,

have met with different consultants and URA and various City groups, and this is the particular contractor they picked and I think at this time we have to get that thing moving, that North Shore Project, and I would like you to leave it on the table for a vote.

Michelle Madoff:

I agree with you, but I don't think a week will make that much difference. Mr. Woods, I would like to hear from the group what they're going to do that's going to be so unique other than saying this is the kind of business we need, light industry, we're going to go get it. Are they just going to say after they going to take the simple statement I just made which is, we need light industrial work and then flush it out and come up with a report of fifty pages.

Mr. Woods:

Michelle, it comes down to the same thing that you always say that we need consultants to go through all our Departments and tell us how to run it, how to spend it, and if we're going to spend thousands upon thousands of dollars that you want to, to go through our Departments and do that, what is the difference? These people are taking over a whole neighborhood and telling them what we need over there.

Michelle Madoff:

There's a big difference. You're running apples and oranges together.

Mr. Woods:

If we want to go through our Departments instead of hiring a consultant, myself I make \$32,500.00 a year, you make \$27,500.00, then maybe we should go into each one of our Departments and tell them how best to

run them.

Michelle Madoff:

Boy, would I use the help. They tell me I need five more people to cover the workload. When can you arrange that? How fast?

Mr. Woods:

Do you understand what I'm saying? That's exactly what we would be doing over in the North Side.

The Chair:

Michelle, are you making a motion to recommit?

Michelle Madoff:

I want to ask him a question, then I'll know whether I want to recommit. Mr. Woods, do you have any feeling other than what the groups have said, that they would object to meeting with somebody from Mr. Brophy's department and have him do exactly what this group is going to do? Do you know what this group is going to do for us? Can you tell me that?

Mr. Woods:

These groups have met with him. They're going to go over and tell you what industry to bring in here, what's best fitted for people in the North Side.

The Chair:

Mr. Robinson, do you want to recommit the bill?

Mr. Robinson:

I have no motion to recommit.
The Chair:

Michelle, do you want to recommit the bill?

Michelle Madoff:

No.

Mr. O'Malley:

Just one comment. We have consultants for the Bloomfield/Garfield Corporation on the East End, and I think we can't do any less for the North Side Community Groups that feel like they need them.

Mr. Woods:

Thank you, Mr. O'Malley.

Michelle Madoff:

I question whether we're really going to get our money's worth simply because nobody has come to us and told us what we're going to get, but in the interest of getting this moving, I'll vote aye.

R. GIVENS' COMMENTS ON BILL NO.

124 FROM WEDNESDAY, 2/3/82)

There is a little discussion on this
and if you add up this cost, the cost of
that bridge and looking at extending the
tunnel that is out there presently and
looking for landfill over in this particular
area, some of these points that I have
been talking about for seven years will
come across and the fact that this bridge
will probably be replaced within another
50 years.

I'm talking about extending the
tunnel in this particular case, about 100
yards and doing away with one bridge and
extending another block, you will do
away with another bridge.

Not the tunnel, you'd be surfacing
over top. We have 130 bridges and all of
them are going to come down and all of
them are going to be replaced in 50
years.

When they give me figures of
what it is going to take to fill a
particular area, they always come back
and say, "This is the cost of the bridge."
It is the cost of the bridge plus
relocation of the water line —

I never said I wanted to fill in the
Bloomfield gulley first. I'd like to fill it
in 1500 years though.

I know we don't own that land.

The government has certain air
rights over certain areas too.

MOTIONS AND RESOLUTIONS

Michelle Madoff:

I have something to tell this Council that I think is unreal. I had, at some time ago, raised an issue in which you supported me, Mr. President, which was the issue of the garage directly across the road from the Fulton Building where most people choose to park when they go to Heinz Hall. It's not the one at Sixth at the corner where the new station is, it's where the Aiken chicken place is when you go in. And they had discontinued prepayment. In other words, before, if you were going to the Symphony or you were going to the Stanley, and there were alot of activities coming out downtown so that we wouldn't need all the police there at once. You could prepay, and then you could just go get your car. Now everybody comes out all at once, because they didn't allow you to prepay. Well, we raised the issue and I believe our good City Clerk sent a letter out. So they

reinstated it. Look what they did. If you go to the Symphony or anyplace, it's \$1.25. Beforehand, you could prepay it and it was the same price. I said I don't care if you raise it to \$2.00. If somebody wants to prepay and you want to have a premium, that's fine. They've now raised it to \$3.00. In other words, if you go to any of the events and you just pay your normal parking, it's \$1.25. But if you want to pay in advance, so that we won't have congestion and need the police and all that trama that creates when everything comes out at once downtown, you pay \$3.00 in advance. And on principal, I wouldn't do it. I don't know who else would. And I think that's something Council ought to address. I beleive it's the Parking Authority, I do not know. But I would ask the City Clerk find out who has that parking lot so that we can have a letter go from Council, and I'd like to, I certainly hope it is the wish of Council that people can prepay maybe \$2.00, but certainly not \$3.00 for a \$1.25 payment.

I'll hold off on making that a resolution until we find out whether we can do it without a resolution.

One other item. Today as I was leaving my home, I had a water meter man at my house. I just sent in my meter reading. You know, they send out a card and I marked it off and I sent it in. Why was the meter reader man at my house. Could we find that out, Mr. City Clerk, because that is costing the taxpayers money, unnecessary money.

Mrs. Masloff moved to excuse Mr. Stone for absence from the meeting.

reading of a resolution. Mr. Clerk, will you do so?

The Chair presented

No. 308 WHEREAS, in 1981 the Pitt Panthers were ranked number two by the UPI poll, and finished the season with an 11-1 record, capped off by a brilliant win over Georgia in the Sugar Bowl, thus achieving 500 career wins, and

WHEREAS, the Panthers' 11 wins has distinguished the team as having more wins (33) over the last three years, than any other college football team in the country, and over the last six years Pitt's record of 62-9-1 is also a distinction, being better than any other of the nation's teams; and

WHEREAS, during this season Pitt produced seven All-Americans including two Pittsburgh residents, Sal Sunseri, and quarterback Dan Marino - who broke nine Panther passing records and finished second in the country in passing efficiency; and

WHEREAS, these achievements have brought national honor and acclaim to the City of Pittsburgh and deserve public recognition and commendation from its public officials.

NOW, THEREFORE,

BE IT RESOLVED that the Mayor and the members of the Council of the City of Pittsburgh, on behalf of the citizens of Pittsburgh, hereby

congratulate and commend the players and the coaching staff of the Pitt Panthers on their outstanding 1981 season and for bringing national recognition, honor, and prestige to the University and to the City of Pittsburgh.

BE IT FURTHER RESOLVED that the Mayor and this Council congratulate Pittsburghers Sal Sunseri and Dan Marino for their outstanding play and for their distinction as All Americans; and congratulate "Foge" Fazio on his new assignment as Head Coach of the Pitt Panthers, and wish him and the Panther Organization the best of luck in the coming seasons.

Mr. Stone moved to adopt the Resolution.

Mr. Robinson seconded the motion.

Which motion prevailed.

The Chair:

Before I ask Coach Fazio and Mr. Marino to say a few words, it's a doubly proud moment for me because I know Coach Fazio from a long time, I have known him for a long time. I say young Danny grow up and I was a guest at the wedding of Sal Sunseri's mother and father. I may be giving my age away, but it's been quite a while and it's certainly a happy day for Pittsburgh and City Council. We'll tolerate no gruff from the Serbians. We have no Serbian football players. It's not my fault.

I wonder if Coach Fazio and Dan would come up and accept this proclamation, please?

Coach Fazio:

I want to thank the City Council for the resolution that was passed here today honoring the Pitt Panthers, and on

behalf of the University of Pittsburgh and it's administration and the rest of the coaches, I accept this and will take it back and let it hang properly in our trophy case.

It means a lot to me to be down here, and I hope we can repeat this again next year, and hope that 11-1 becomes 12-0.

Thank you for having me.

Dan Marino:

This is something. It's Resolution No. 66 and Sal's number is 66. He couldn't be here today, but I'm sure if he was, he would probably say that it's a great pleasure to be honored by City Council and for me it's a great pleasure to be honored by City Council and I just hope next year we can perform a lot better and bring a national championship to Coach Fazio and Pittsburgh.

Thank you.

The Chair:

I don't have to tell these two gentlemen and Mr. Alex Kramer who's come with them today, that they'll always be number one in our hearts, even if you don't finish 12-0.

Thanks a lot Foge, Dan and Alex.

Mr. Flaherty presented:

MOTIONS AND RESOLUTIONS

Mr. Stone:

In accordance with Section 322 of the Home Rule Charter, publication effective date of legislation, I move that the effective date on Bill Nos. 98 and 231 shall be the date on which it is signed by the Mayor.

Mrs. Masloff seconded the motion.

Which motion prevailed.

The Chair:

That should be this afternoon. We'll sign right after the meeting, Mike, and we'll get it right over there.

I believe there's somebody coming in from Washington tomorrow to give them the seal or what have you so they can get underway with that. Mr. Matter or somebody said they're coming.

Mr. Robinson presents:

No. 309 WHEREAS, the Voting Rights Act of 1963 is widely

acknowledged to be the most significant and effective Civil Rights legislation ever passed by the United States Congress; and

WHEREAS, thousands of American citizens who have long been denied the right to vote have been given opportunity to exercise that right since 1965; and

WHEREAS, the Congress of the United States is now debating passage of a bill to extend the Voting Rights Act;

WHEREAS, the House of Representatives has already passed such a measure and the Senate has before it Senate Bill 1992 which specifically requests that the Voting Rights Act be amended.

NOW, THEREFORE,

BE IT RESOLVED that the Mayor and the Council of the City of Pittsburgh urge the United States Senate to pass Senate Bill 1992, and that Senators John Heinz and Arlen Specter support passage of Senate Bill 1992.

Mr. Robinson moved for adoption.

Mr. Flaherty seconded the motion.

That motion prevailed.

Mr. Robinson:

I think it would be appropriate for me to send a letter to both Senator Heinz and Senator Specter asking them to take affirmative action we have suggested in this resolution.

The Chair:

Thank you.

Members of Council, if I may take the prerogative. A week or so ago I saw a piece in one of the newspapers where Mr. Coyne was urging the passage of the Kennedy-Rodino Handgun Control Bill. It got me thinking, why couldn't we do the same thing that some other cities have done because I'm very opposed to handguns and their possession.

I was in the Marine Corps, I guess you know, four years and I haven't looked at a gun since December 31, 1945, because I have no need for a gun and I don't think anyone else does. Although my feeling is that all the guns in the world should be thrown in various oceans, I guess that will never happen and we can't pass a City ordinance because it violates that stupid Home Rule Charter we have that certain people want to amend.

So, ladies and gentlemen, if I may please have my say today, I would like to urge those members of the Council that feel so inclined, to urge their constituents to back that Kennedy-Rodino Handgun Control Bill because I think it's very necessary to restore some sanity in the United States of America. There are enough crazy people out there to fight it and they may beat it down, but if enough of the so-called silent majority come out and speak out, we can win that battle.

Mr. Givens:

Mr. President, I just have one comment on that. I have to appreciate what Senator Kennedy is trying to do. However, it's been proven that many of the countries that Mr. Coyne had mentioned, Sweden, Switzerland and a few others, some of these countries do not have gun control. They punish the people by those who use the weapon and it's a mandatory type sentence. It's our State Legislators that have never done

anything to attach some type of significant penalty to those who use the Saturday Night Specials and I think we just have to look to Poland today to find out that when you start registering arms, and what happens to, in a totalitarian state wherein they confiscate all the weapons, and if they don't, if you don't give the weapon, then you go to jail. It's that simple.

We have to be very cautious in this. I think that what you're saying is a very sensitive issue, but I think the users of the weapons should be punished, and abusers, and not so much the people who use them for sporting events, etc. It's a very delicate thing, I've read the Kennedy bill several years ago, I'd have to refresh my memory on it again, but I think there has to be much debate made on this and we have to watch where we go because if it's anything to curtail freedom of weapon, to own a weapon in this Country, then I just have to point my finger to other countries that I have been in in my lifetime, and see what happens in those particular states. And the people do have the right to revolt from within against their own government. That is the right of all people.

The Chair:

Are we abdicating a violent overthrow?

Mr. Givens, you must remember that the National Rifle Association --

Mr. Givens:

The people holding within have a right to revolt against their own government.

The Chair:

Even such as an armed revolution?

Mr. Givens:

When that Government turns to a totalitarian state.

Mr. Stone:

Armed revolt?

Mr. Givens:

What the hell do you think we did in this country?

Mr. Stone:

I kind of find that in conflict with the Constitution. I was wondering if you're going to support it.

The Chair:

I hope I heard that differently. You must remember, Mr. Givens, -- do you want to rephrase that?

Mr. Givens:

In case this or any other country would be taken over, the citizens of that country have a right to revolt to maintain a type of government that the citizens of that country and that nation want.

The Chair:

To bear more on the legislation, Mr. Givens, the National Rifle Association --

Mr. Stone:

We'd have a Communist Party if the Americans had that attitude.

Mr. Flaherty:

Dick, if that were true, we'd all be dead.

The Chair:

I started to say the National Rifle Association does quite a bit of lobbying, I guess you know and I know. They can't seem to get it through their heads there's a difference in people having hunting equipment, hunting rifles and so on, and those having handguns. If they make the penalty stiff enough, just having possession of the handgun, made it a stiff, stiff penalty, then people wouldn't have handguns. If we had them, they'd be put away, but nobody has the guts to do it. Let's just say we're all afraid of that voting block of the National Rifle Association.

Mr. Givens:

To clarify my point here that Mr. Stone just raised. I was referring to that when a nation, or any nation is, that the government that is serving the people, turns on the people —

The Chair:

But we rebel at the polls, Mr. Givens, we don't rebel in armed evolution.

Mr. Givens:

I agree. But at the same time you don't know what's going to happen in this or any other country and all I suggest to you is —

The Chair:

You want people to have their guns and be ready when it happens. Is that what you want? I know the first ones to go if I had a gun, and I don't want to look to the right too seriously.

Mrs. Masloff moved to excuse Michelle Masloff and Ben Woods for absence from the meeting.

Mr. Stone seconded the motion.

Which motion prevailed.

Mr. Givens moved to approve the minutes of Monday, February 8, 1982.

Mrs. Masloff seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Stone**

Council adjourned.

Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale
	(Pres't)

ABSENT:

Michelle Madoff

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

Before we get into the reading of the bills we have a presentation.

Mr. Flaherty, Mr. Givens and Mr. O'Malley presented

No. 373 WHEREAS, on February 13, 1982, at the Pittsburgh Auto Show, Police Sergeant Arthur Banze of No. 5 Police Station, saved a nine year old Upper St. Clair boy from the jaws of a 150 pound cougar; and

WHEREAS, this courageous man, while off-duty, gallantly overcoming apathy and non-involvement, shot and killed the cougar; and

WHEREAS, this City is proud to honor one of its public servants whose professional efforts averted a fatal situation.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, on behalf of the citizens of Pittsburgh, hereby recognize and honor Sergeant Arthur Banze for his prompt and professional reaction that resulted in saving the boy's life.

Mr. Flaherty moved to adopt the resolution.

Mr. Robinson seconded the motion.

Which motion prevailed.

The Chair:

I wonder if Sergeant Banze would come up here. Councilman Flaherty would like to present the resolution.

Mr. Flaherty:

I would just care to add, Art, that we, on Council, are extremely appreciative of your quick and quick action. I'm sure that we are all aware, as everyone in the City, that if you would not have acted in such a fashion, that the results may have been far more catastrophic. We are also aware of your excellent 16 years worth of service and also, that in the past you have received a few other commendations.

So, with the highest regard, we, the entire Council, wish to give you this award and if you would care to honor us with a few words, we would appreciate it very much.

Sergeant Banze:

Members of Council, I thank you very much, and I know my family thanks you. I said before a simple thanks would be enough, but I received so much support from the public and just about every letter that I've received through the station or phone calls, were in support of my action.

Again, I thank the Members of Council for the award and I'd like to accept it on behalf of myself, my family, and especially the whole Police Department. Thank you very much.

The Chair:

Sergeant, it goes without saying that Councilman Flaherty conveyed the thoughts of Council, but I would just like to add my own personal congratulations and thanks.

I presume that's your family. Would you introduce them before you leave?

Sergeant Banze:

This is my wife Judith, my daughter Christina and my son David. David and Judith were at the Convention Center when this all happened. So I think they deserve some thanks, too.

Mr. Flaherty presented:

Resolution entitled, "Resolution amending Resolution No. 1443, approved December 29, 1981, entitled, 'Making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year, beginning January 1, 1982', by correcting the appropriation amounts for various code accounts."

Which was read.

Mr. Givens:

On Bill No. 240, I'd like my remarks from the Wednesday session brought forward.

Mr. Stone:

I think my remarks on Bill No. 240 ought to be brought forward also.

(BEGINNING OF MR. GIVENS' AND MR. STONE'S REMARKS ON BILL NO. 240 FROM WEDNESDAY, 2/17/82)

Mr. Givens:

Is this the one on all of the --

Mr. Stone:

Right.

Mr. Givens:

Mr. Stone, when you were not here last week, when this was held over, I have felt, and so did other Council members feel, that maybe we should go down this line by line or pull those items out that we feel are worthy of discussion and the fact that at normal, we would have done this during our normal budget deliberation.

Mr. Stone:

Let me just give you my comments on it. There are some things there as far as some increases and in my opinion, should have been done at budget time and I so shared that with the Mayor and at the time, we discussed the matter of what do I do now, are we correcting the budget and we leave what he felt was an iniquity at point for the rest of the year or by not doing it, or correct it now and it was his request that we do it now and that's why it was in there as it is right now. Although, I don't want to start a policy that we make mayor changes in corrections, I don't think it belongs there.

Mr. Givens:

That is true, like any Mayor —

Mr. Stone:

This is something that he wanted to do during the budget time that they didn't do, so that the explanation that I am getting.

Mr. Givens:

Any Mayor increase, any other increase for that reason, regardless of what it might be, sometimes I think we have to ask ourselves the question why and I know there is a lot of documentation that Jack has put on the table here which I haven't had the opportunity to read through some of it; I might have read through some of the comments, but I don't know if I am the only one that feels this way.

Mr. Stone:

The timing bothers me a little bit, but as I have indicated to you before, the Mayor's prerogative, if he would have put it in the budget initially, it was something that he didn't do at that time and he wants to correct it now and it is coming from his department effecting his people.

Mr. Givens:

I have noticed this to be a trend that things don't happen in the beginning and we get a change later.

Mr. Stone:

Hold on, you are going through a change thought in fairness, you are going from Ken Fields who handled the budget process before, to a new man, Steve Schullio, so there are going to be some things until we get reorganized here and

that's one of the reasons for the reorganization for the Finance Department, to put everything under one head, but let me just say again, so it is very clear, I think some of the changes that are being made at this time is the wrong timing, but nevertheless, the next question is, do you leave it alone, or do you correct it now. I told the Mayor and shared with him, that I don't think we ought to make presence of doing it this way in the future.

Mr. Givens:

Bob, let me have some specific questions, and maybe I can get some specific answers to it.

Mr. Stone:

Alright.

Mr. Givens:

I don't know, but it's hard to define the documents right here, but, it's the one that has Commission on Human Relations on the front part of it; it starts with that particular one.

Mr. Stone:

I think you will be better off, if you look at the letter, January 29, 1982, because I think the explanation is better.

Mr. Givens:

January 29, 1982?

Mr. Stone:

Yes. Let me explain these documents to you. The first group that is stapled together is consequential as a result of union contracts and things that had to be done which were just kind of carrying out consequential matters. The second section is the changes that are

contained in the Mayor's memo of January 29th. Now when you are talking Human Relations, all that is, is a title change.

Mr. Givens:

I started with Human Relations, that was the document that I was looking right here; I was not familiar with this until right now.

Mr. Stone:

Yes, I told him to give it to you.

Mr. Givens:

I went through some of these items, and the only one — most of them are clerical and nature and changing, etc., but where I had some difficulty was Personnel and Civil Service Commission.

Mr. Stone:

That's on page two of that letter.

Mr. Givens:

On page two. On that specific page, on the upper part of that page, in regards to the Assistant Director, Secretary Chief Examiner and I note the Mayor's increase of \$1,368.00. When I go back over and saw that this individual line item so indicated that the 1981 budget, there was \$29,091.00 and in our budget, we jumped it up to \$2,686.00 and now this is another \$2,368.58 increase, or a total of just under \$5,000.00 increase for one particular individual. And this telling me it is being done, but it is not telling me what it is being done for. I mean it is telling me the changes. What is the justification for increasing someone's wages almost by \$5,000.00 where nobody else in that department received

significant increase of like nature. What is that person doing now and all that I am asking for is justification. What is that person doing or persons doing that require such an increase in salary?

Mr. Stone:

Melanie, where are you at? Tell us what that person is doing.

Director Smith:

I think there are three positions that are being adjusted, they are all Assistant Director positions and it is because they are not currently compensated adequately relative to their counterparts with duties; I don't mean to imply that I think all the Assistant Directors or Deputy Directors are the same, but these particular three individuals are under paid relative to those who have the same difficulty —

Mr. Stone:

So you are trying to put them on the scale with other departments?

Director Smith:

Exactly.

Mr. Givens:

I see one for Planning, Organization Planning & Research. Is that all still under Personnel?

Director Smith:

That's correct. And one in the CETA division.

Mr. Givens:

Tell me one thing. Within your department over the last several years, have you increased in personnel or have

you decreased in personnel?

Director Smith:

There was an increase in 1979 and through the freeze, we began getting smaller.

Mr. Givens:

Did you not have many CETA personnel working underneath at one time?

Director Smith:

The CETA staff is still working under me, but it is now a smaller staff.

Mr. Givens:

How much smaller?

Director Smith:

We eliminated 11, 12 filled positions and those people were laid off and a number of vacancies, that had been remaining vacant because we knew of the CETA cutbacks were coming.

Mr. Givens:

And what has been added in this last year that would cause anyone in your department to go up. Has there been any added responsibilities?

Director Smith:

No, what I am saying is the responsibilities which haven't changed deserve a pay rate higher than what is currently being paid and comparable to other positions, second level positions in departments with comparable responsibility and the three Assistant Directors are underpaid relative to their counterparts. It's unequal pay for equal work, without this adjustment.

Mr. Givens:

Why is this coming to our attention now? Why wasn't it brought to our attention several years ago, where there was a bigger workforce down there and greater responsibilities with the CETA Program? Now that the CETA Program is winding down, in fact, it is almost nonextinct other than a few --

Mr. Stone:

Some of this is not CETA.

Mr. Givens:

Pardon me?

Mr. Stone:

Some of this is not CETA.

Mr. Givens:

I know it is not CETA, but CETA is a greater responsibility and now that they lost CETA, I mean there is a de-emphasis and the total responsibility -- the number of personnel that would be handled by the Dept. of Personnel, I don't know if I am the only one that feels this way. Does anybody else feel this way?

Mr. Stone:

I will call for the vote, you tell us what you want.

Mr. Givens:

Well, the significant increases in raises, you know, for me, it's a hell of a jump of \$5,000.00 for just one year.

Mr. Stone:

Any other questions on this thing?

Mr. Givens:

No, all three of them are about the same.

Mr. Stone:

That covers all that you have?

Mr. Givens:

Most of them are general corrections back and forth and some of them you can see that, and that was the only one that was really — like maybe having a new position like Administrative Clerk or something like that which seems to be logical and reasonable and I don't want to have too many questions on that. We have in the Department of Parks and Recreation, I think one.

Mr. Stone:

There are some changes there as well.

Mr. Givens:

S59 — Code Account 1817, Park Supervisors, there are three of them right there. No six.

Mrs. Masloff:

Six. They eliminated some jobs and added those and it all comes out the same.

Mr. Givens:

Okay, and there seems to be an increase of about \$1,000.00 apiece.

Mrs. Masloff:

They eliminated some jobs and added made supervisors.

Mr. Givens:

And the Park Supervisor is now what, getting greater responsibility?

Mrs. Masloff:

Yes, they had them doing the work, but they hadn't been compensated for it.

Mr. Givens:

In the elimination of those jobs, how many did they eliminate and how much money was that?

Mrs. Masloff:

Louise, I am not sure of the number. How many jobs did they eliminate when they increased the supervisor?

Director Brown:

It was two supervisors and there were two positions and that saved about \$20,000.00 per day.

Mr. Givens:

That was a total of \$20,000.00?

Director Brown:

About a total of \$40.00 a day.

Mr. Givens:

And you are increasing it by what?

Director Brown:

About \$15.00.

Mr. Stone:

\$12,000.00.

Director Brown:

So there is a net saving.

Mr. Givens:

Let's stay with the major items that I have to mention.

One correction, if I may, let me just add something here for a second. All in favor of the bill say aye.

I am not opposed totally, but I am opposed to the \$1,000.00 to \$5,000.00 in personnel, I think that is too much of a jump.

On page 79 — S79, all it is, is changing a word from on, to in, to give it the right intent and all it is job titles maybe filled by Director at any step higher in the grade, rather than on the grade, then shown in this budget, and I have approved it and it is in line.

Mr. Stone, on that no vote, I am not saying that they shouldn't receive some type of raise, but I think \$5,000.00 is —

Mr. Stone:

I hear very well, Mr. Givens, and it's the third time you said it. I heard you.

Mr. Givens:

I know you heard me.

MOTIONS AND RESOLUTIONS

The Chair presents

No. 374 WHEREAS, the Pennsylvania Department of Transportation has, within the City of Pittsburgh, various and many roads and bridges under its control, maintenance and responsibility; and

WHEREAS, the roads and bridges have come into total deterioration, making travel impossible and unsafe, and

WHEREAS, the condition, if not corrected immediately, can and will result in possible loss of life and/or serious injury.

NOW, THEREFORE,

BE IT RESOLVED that the Members of the Council of the City of Pittsburgh do hereby request that the Pennsylvania Department of Transportation take immediate corrective measures to remove the deplorable and dangerous conditions existing on the City's roads and bridges so as to provide normal and safe travel.

The Chair:

If I may, before I ask for a motion to adopt, we're all very familiar with PennDOT's history in regards to botching up I-279, the Oakland Crosstown, and various other highway systems planned for this area. I think it's absolutely atrocious and ridiculous with all the potholes existing at the present time and in the repairs and demolishing of bridges are needed so badly, that they're talking about these highways anytime in the future when we have the situation which exists right now. I know all of you had several complaints. I know Dr. Kraus has started a pothole committee and they're trying to contact all the legislators and

want reports sent to them all so that Dr. Kraus can pinpoint all these potholes and all the damage that was caused due to accidents from the potholes.

I just wonder why we even talk about highways when we have such a situation existing. It's absolutely insane. With that I'll ask for a motion to adopt the resolution.

Mr. Stone:

Mr. President, before you proceed let me just add one more comment. PennDOT has gotten a lot of credit for doing the Parkway, but I am somewhat shocked and appalled at two things.

First of all, there has come a policy as far as the Pennsylvania Department of Transportation, and that is that the State is being reasonable when they can get to it with the reduced work force they have. That's not my interpretation and understanding of the law. The law is -- if there's a hole on that street, they have to fix it immediately. I shared that with them, and I think it's wrong, but let me just give you a slight example. I'm shocked to find that on the Parkway in the fast lane, that you're finding potholes that exist for many days. Just last week I lost two front hubcaps right going into Squirrel Hill Tunnels. Here's people going 55 mph, up to 55 mph, and in the fast lane, not even the slow lane. I'm shocked to see that. And some of things that are permitted to exist, Carson Street, 837 which is there in the business area, it's fantastic the dangerous conditions that are existing and you're having that all over on the ramps. It's atrocious. Somebody comes off of there 55 mph, slows down for the ramp and, boom, not even within a car length there's big holes that you could lose everything you've got in that automobile. Somewhere there has to be some

attention paid to it. The City of Pittsburgh has to face up to doing it's part. But the State has to take care of those roads —

Chair:

Obviously the City of Pittsburgh has to share the guilt because there's quite a few holes in the City proper, but there are so many that exist on roads that are controlled by the State, probably a lot more than the City. And I don't wonder, when I served time at the City Asphalt Plant, we always had an emergency crew. I don't care if it was the coldest winter day where those potholes like at the corner of Wilkins and Murray that somebody brought out at meeting the other night. You could see a car. Those kind of holes should be patched and filled immediately. Why aren't they're not doing it, I don't know. I can't say there's a lack of money. We gave them enough in the last budget, certainly, to make those repairs. Emergency repair is absolutely a must and somebody has to take the fault for it because it shouldn't exist.

Mr. Stone moved to adopt the resolution.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Givens presented

No. 375 WHEREAS, House Bill H.R. 5276, cited as the "MULTIMODAL TRANSPORTATION IMPROVEMENT ACT OF 1981", was introduced in the House of Representatives on December 1, 1981; and

WHEREAS, this bill provides assistance for transportation improvement projects by addressing the problem of upgrading all modes of transportation to insure national

economic health on an evenhanded, non-discriminatory basis; and

WHEREAS, this bill also states that it is necessary that practicable supplemental sources of revenue, such as the Nation's customs receipts, be provided to insure adequate funding of the basic improvement and maintenance requirements of the several transportation modes; and

WHEREAS, an upgraded and modernized transportation system is an objective of the highest priority for the Pittsburgh district, one of the major industrial centers for national defense, to insure energy self-sufficiency and conservation, economic growth, reduced unemployment, and to maintain Pittsburgh's competitive posture in business and industry with other industrial areas of the Nation.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, hereby support House Bill H.R. 5276 as fulfilling the necessary requirements of the transportation modes so critical to economic health, industrial viability and the quality of life to the citizens of our great City; and urge the United States Congress to support these measures by taking affirmative action on this bill.

Mr. Stone:

Mr. Givens, can I make a request? Can you hold this for one week? I'm going to go to a transportation meeting this afternoon. Let me find out what this is, because I was up in Washington when the President spoke and I'm not so sure whether transportation is one of those items that are to be transferred back, and what the consequences are. So can you hold it for

one week, so there won't be a problem on it?

Mr. Givens:

Makes no difference to me. I think there's about 12 bills right now, presently before Congress, addressing various aspects of the various modes of transportation within this Country. This bill still has to, and must be, debated on the floor of Congress. The main thing in review on some of these bills myself, being very interested in, as the President of Council, I think six months ago, had submitted a similar type of resolution. This is addresses through the customs that I receive in this Country. It was surprising. Many of the various types of transportation, the river and the ports, the rail, over land, being that of tractor trailer or interstate system, and the airways. We look at the cost overruns that we're going to receive out in the Allegheny County Airport. This addresses this problem. For example, in just about each one of these, they average around 17, anywhere from 12 to 17 percent. It's the actual amount of imports coming into this Country and how they are exported over our various modes of transportation. For example, the rail is about 17%. Our rivers and ports are around 17%. Excuse me, over land is about 17%, rail is about 12%, the rivers and ports are around 17% and air, I think, is down around 10 or 12%. This indicates our river ports itself is about a 1.3 million dollar increase and to our over-lands or our interstate system about 1.5 million dollars of new revenue.

The other factor is that this money, presently, is going into the general fund. This particular bill would so state that this money would go into the various modes of transportation and looking at all the bills for the past four or five years and working with the various groups, our river groups, our

corps of engineers, river transportation, our teamsters, very cognizant of the air system within this County, this bill appears to be the one that most of them are jumping on the band wagon after they have an opportunity to review it. For example, most of the Congressmen up and down the Ohio River were for it. Joe Gaydos became aware of it. He seems to be acting in favor of it. Billy Coyne, our local Congressman, in calling his office, had not had an opportunity to review the bill. But I'd be more than happy, Bob, as I said, there's a lot of working back and forth. This is the, probably would be considered the first draft of the bill. I think it addresses all modes of transportation, and one, to get the monkey off of our back, we're mostly affected this by our inland ports. This is my greatest interest in this particular bill.

The Chair:

That was my question, how it related to the rivers. The rivers are included?

Mr. Givens:

Yes, rivers and ports come under the same thing. Otherwise, we bring anything in from overseas and it comes in to any of these modes of transportation or is moved over land or by rail or river, or it comes into the ports, it's part of it. And part of that customs, then, would go back to that user. Being at the ports, the railways, the over-land, or interstate system. So we're hurting for money in this area. The fact remains that this goes into the general fund, so the general fund is going to be drawn down by probably some five or six billion dollars. Now does Congress want to draw that down and put it in these modes of transportation? I think all of have to appreciate that if we don't do something as indicated by the first

solution that came before this Council day, I mean, if we're not able to move things over our bridges and down our rivers and on our interstate system and oil system, then in the long run, it's going to hamper this Country's ability to be able to be competitive against the world. When I can think of Japan turning around and trying to lend this Country a billion to get us back on our feet, I think this is the type of bill that I'd like to see go through so we addressed, at least about 20 percent of the total cost of all of these systems.

The Chair:

Do you think I can get the Japs to pay for a pair of binoculars and a watch I left over there?

Mr. Givens:

I don't know about the Japs, but I can tell you one thing. The damn Germans came in here in World War II and one of their targets was this particular lock where up in the Monaca River, where most of our coal comes in from the West, and we have to appreciate that within several days up there, with that lock being jammed open, just being jammed open, that many communities downstream from us did not have water, and I don't have water to fight fires. And that becomes very critical. If we were to lose some of these locks and dams that we have along our river, then we're going to take ourselves way, way back to major flooding, water contaminations, and you name it.

Mr. Stone:

All I'm suggesting is that you hold it one week until I get some information.

Mr. Givens:

I have a copy of the bill if you're interested. In fact, I think all Councilmembers got a copy.

Mr. Stone:

I just came back from Washington. I spoke with the Federal UMPTA and the other Federal officials and they don't know where the hell they are. I think we ought to find out where we are before we make some decisions. The only reason I'm suggesting that we hold for a while is to find out whether this particular bill is in our best interest and that's all I'm suggesting. And I'm meeting with the Southwest Regional Planning this afternoon.

The Chair:

Can we do that in a week?

Mr. Stone:

Yes, there's no problem.

Mr. Stone moved to hold Bill No. 375 for one week.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Givens presented:

No 376 WHEREAS, on February 12, 1982, the City of Pittsburgh and the YMCA of Pittsburgh sponsored the 1982 City Youth and Government Program in Council Chambers; and

WHEREAS, the Garfield Outreach YMCA, the Homewood Brushton Outreach YMCA and the Intercollegiate YMCA participated in this program; and

WHEREAS, the Youth Delegates

were high school students from Alderdice, Central Catholic, Peabody, Schenley and Westinghouse High Schools; and

WHEREAS, the purpose of this program is to proffer the opportunity to simulate the day-to-day process of City government by delegates assuming the roles of City Officials.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, hereby recognize and congratulate the Youth Delegates on their participation in the 1982 City Youth and Government Program and their quest for knowledge enabling them to become enlightened and active citizens of the City of Pittsburgh.

Mr. Givens moved to adopt the resolution.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Givens:

Mr. President, it was quite interesting. I personally did not see the activities, but I did read over their agenda. They had eight Councilmen rather than nine. They had four by district and four at large. It was held right here in this Chamber. It was a mock-up of City Government is what it boiled down to, meaning they came in, they had a President of Council, they had a Chief Clerk, they had eight Councilmen rather than nine, I don't know why, I'm going to have to ask them that particular question, and they had four Councilmen at large and four by district. Why, I really don't know. It was their high school that was putting it on, but they had regular resolutions,

adoptions, discussions, arguments and their agenda was quite elaborate with a final luncheon with the Mayor. I would hope the next time they do this they would give us greater notification. We might be able to sit in and listen to them.

Mr. Stone:

They ought to share their expertise with this Council.

Mr. Givens:

In fact, some people that did listen to them thought they did quite a damn nice job.

Mr. Flaherty:

I have a request, Mr. President. I move that Council request an opinion from the City Solicitor in regard to the proposed equality ordinances for the Gays. It's my understanding that a few of us on Council have shown real interest as to the constitutionality of the proposed ordinance so I would ask that this Council as a whole request from the City Law Department as to the constitutionality of the proposed ordinance and if it is not constitutional in its present form, if the Law Department could provide us with any suggestions as to making it constitutional.

The Chair:

I hope you don't mind if I don't go along with that request. Okay?

Mr. Flaherty:

Well could I ask for a roll call vote on that —

Mr. Stone:

No, if he wants a legal opinion, let him ask for one. Period.

The Chair:

But he's saying in the name of Council. He's not asking it for Mr. Flaherty. I really don't want an opinion.

Mr. Flaherty:

It is not my personal -- I was approached through the advocates of the equality ordinance --

Mr. Stone:

If you're going to ask for a legal opinion, get it over with.

Mr. Flaherty:

Councilman Stone, they wanted to know where Council as a whole put on this and I'm just trying to convey it. If you don't want to vote for it, don't vote for it, but I'm asking for a roll call vote on it.

The Chair:

You can tell them my feelings, Councilman, you can bring my feelings back. If they don't know them already, they'll never know them.

Mr. Flaherty:

Then stand up and be counted, Councilman, let's have a roll call vote on it.

Mr. Stone:

Hold on, Mr. President. He just made a motion. I didn't hear a second.

The Chair:

Is there a second to the motion? No second, the motion fails.

You still have the prerogative of doing that on your own, Mr. Flaherty.

Mr. Flaherty:

I request a legal opinion on this as to its constitutionality, and if it's not constitutional, as to any suggestions to make it constitutional.

Mr. O'Malley moved to excuse Michelle Madoff from absence from the meeting.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Woods moved to approve the minutes of Monday, February 15, 1982.

Mr. Givens seconded the motion.

Which motion prevailed.

and on the motion of **Mr. Woods**

Council adjourned.

UNFINISHED BUSINESS

Mr. Givens presented

No. 375 WHEREAS, House Bill H.R. 5276, cited as the "MULTIMODAL TRANSPORTATION IMPROVEMENT ACT OF 1981", was introduced in the House of Representatives on December 16, 1981; and

WHEREAS, this bill provides assistance for transportation improvement projects by addressing the problem of upgrading all modes of transportation to insure national economic health on an evenhanded, non-discriminatory basis; and

WHEREAS, this bill also states that it is necessary that practicable supplemental sources of revenue, such as the Nation's customs receipts, be provided to insure adequate funding of the basic improvement and maintenance requirements of the several transportation modes; and

WHEREAS, an upgraded and modernized transportation system is an objective of the highest priority for the

Pittsburgh district, one of the major industrial centers for national defense, to insure energy self-sufficiency and conservation, economic growth, reduced unemployment, and to maintain Pittsburgh's competitive posture in business and industry with other industrial areas of the Nation.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, hereby support House Bill H.R. 5276 as fulfilling the necessary requirements of the transportation modes so critical to economic health, industrial viability and the quality of life to the citizens of our great City; and urge the United States Congress to support these measures by taking affirmative action on this bill.

Mr. Givens:

I don't think I have to go back over it again, but there are several bills in Congress, some twelve in nature. This particular bill, however, addresses all the modes of transportation that affect our total energies conservation, bridges, dams, waterways, inland routes, our rails as well as our airports, and because it's all inclusive, I think we'll probably get the greatest support and the one thing is selfish that I'm looking at, and I hope this Council will, is the fact that it's going to do something to address the locks and dams that we have that most affect us, along with our interstate system and our bridges that affect this area strategically, probably more than they do any other area of the Country that I have been in. So they're talking about a user's fee. If this happens on our rivers to maintain them and the locks, etc., it's going to be an increase of cost of goods to us, it's going to be inflationary to us, and it's going to cause us jobs. Just yesterday, they had the article in the

cal Press that indicated what was going to happen to the Allegheny River. Four million five hundred thousand dollars is appropriated to that annually right now, and if Reagan has his choice, it's going to go down to \$30,000.00. Of course, the people in charge of that indicated that they'd have to close eight locks and no repairs to eight locks and the dams on that particular Allegheny River dealing a tremendous hardship to that particular area of our County.

Looking at these bills, and looking at this particular bill, it's a new bill, it has not been debated on the floor of Congress. It's just going into Congress, but I think it's one that, historically, for the last five or six years, I've been very interested in what happened to our locks and dams. I think all of us have become aware in the last several years that it's very critical to the health and well being of the people who live in Pittsburgh and the surrounding areas. I think this bill, because it addresses, again, all the modes of transportation will probably be the ones that will be given the greatest consideration and one that will help this particular area. I ask for approval of this particular bill. Let it go up there, let it be discussed, and that we give it whatever input we can.

Mr. Stone:

Mr. President, if I may. I checked with Southwest Regional Planning and some of the PennDOT people on the Multimodal Transportation Improvement Act. That's a basic act under which all is covered. As Mr. Givens has indicated, at this point, it doesn't really mean much of where it's going.

Relative to the lock problem. We passed a resolution at Southwest Regional Planning Commission last week, which supports and gives a unified statement by all of the region plus all of

the counties plus all of its constituent parts which says, in effect, that we oppose any user fees or user tax on the locks and dams. Then as I understand it, Washington must have heard because in two minutes they put it in the paper that they agreed with us. They removed the user fees, at least temporarily.

But as far as this particular bill is concerned, I think maybe we're a little premature, but I don't know that it's going to cause any harm.

Mr. Givens moved for approval of Bill No. 375.

Mr. O'Malley seconded the motion.

Which motion prevailed.

MOTIONS AND RESOLUTIONS

Mr. Givens:

There are two things I'd like to submit before the Council for a Post Agenda this coming Wednesday. One is the Bloomfield/Garfield Corporation has a high-rise that they are trying to get within their particular neighborhood and the surrounding neighborhoods around them and they ask Council that they be given an opportunity this Wednesday to brief the Council on what actions this particular neighborhood has taken in order to bring what they need in this area, a high-rise for the elderly. That's a post agenda and the only other person I think we need on that, Mike, is to have someone from the URA, Mary Reilly has been the person in this Department, so at least she should be here if not the Director.

The second thing, Mr. President, is something that I think has been addressed in the media but has not been addressed before this Council, and something that I want to get a little bit more information on and to find out where the City is going and that's in regards to the personal care homes. In the personal care homes versus, some, even the newspaper called it boarding home, it is not a boarding home. The difference between the two is that a personal care home is in it, actually, to make money and to receive certain

appropriation from the State. I think I've all read the newspaper articles wherein there could be a possible calamity out there if some 2,500 elderly are put out on the streets or in case of much higher than that, somewhere up to 100 some elderly just within our own neighborhood. The people that I feel could be called before us, and this is for informational purposes only, would be, I, our Fire Department, our Planning Department, which apparently has some type of ordinance that will be proposed sometime in the future coming before this Council of ours, our Zoning Coordinator, someone from the Mayor's office, and naturally I'll contact some of the people that are most interested in the community that are most affected by the zoning laws that we have passed, that this Council has passed in the last. The only thing that I have is a deep concern for what's happening out there in our community, that maybe by this meeting we can bring some of the parties together to find where are we, and where are we going, and what is going to be the impact. Thank you Mr. President.

Mr. Robinson moved to excuse Michelle Adoff for absence from the meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Woods moved to approved the minutes of Monday, February 22, 1982.

Mr. Givens seconded the motion.

Which motion prevailed.

and on the motion of Mr. Givens

Council adjourned.

O'Malley	Mr. DePasquale (Pres't)

SENT:

Michelle Madoff

The meeting was opened by the
recitation of the pledge of allegiance to
the Flag of the United States of
America.

I pledge allegiance to the Flag of
the United States of America and to the
Republic for which it stands, one Nation,
under God, indivisible, with liberty and
justice for all.

PRESENTATIONS

Mr. Givens presents

No. 163 WHEREAS, the Council
of the City of Pittsburgh recognizes the
critical need for subsidized housing for
the elderly in the Bloomfield-Garfield
Community; and

WHEREAS, Council acknowledges
the advantages of the location proposed
by the Bloomfield-Garfield Corporation
for this type of housing in that area.

NOW, THEREFORE,

BE IT RESOLVED, that the
Council of the City of Pittsburgh hereby
designates the three parcels of property
owned by Carl P. Munter, adjacent to
Penn Avenue and Gem Way in the 10th
Ward of the City of Pittsburgh, to be a
priority site for the future construction
of any governmental subsidized housing
for the elderly in the City of Pittsburgh
and urges the Pennsylvania Housing
Finance Agency to vote affirmatively on
this proposal.

Mr. Givens moved to adopt the
resolution.

Mr. Robinson seconded the motion.

Which motion prevailed.

Mr. Givens:

Mr. President, I'd like to offer
congratulations to the Bloomfield-
Garfield group and ask them to keep in
contact with us and anything we can do
to help them would be most appreciative

in doing so.

Agnes Brose:

Mr. President, the people of our Corporation want to thank Council for believing in us. Thank you very much.

The Chair:

Thank you dear. Thank you very much. Thanks everybody.

Mr. Robinson presents

No. 164 WHEREAS, the Tots and Teens, Incorporated, was formed in Los Angeles, California in 1952 by Mrs. Geraldine Jacoway Ross and Chartered in 1954, and

WHEREAS, the objective of the Tots and Teens has been to provide wholesome recreation and worthwhile activities for the youth of the organization, and to serve as a clearing house for child-parent relations, and

WHEREAS, the Tots and Teens have been in the Vanguard of charitable, civic, religious, and cultural activities for more than thirty years, and

WHEREAS, the Tots and Teens Eastern Seaboard Regional Conference (District of Columbia, Maryland, Virginia and Pennsylvania) will convene in Pittsburgh on March 12, 13, and 14, 1982.

THEREFORE, be it resolved that the Council and the Mayor of the City of Pittsburgh on behalf of its citizens does recognize, honor and welcome the Tots and Teens, Incorporated, and gives special praise and note to its Pittsburgh Chapter.

Mr. Robinson moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Also,

No. 165 WHEREAS, the Government of the Union of South Africa has historically maintained officially sanctioned government policies that discriminate against peoples of color; and

WHEREAS, the Civil Rights of many citizens in the Union of South Africa, especially people of color, have been violated; and

WHEREAS, the United States Government has historically been dedicated to the causes of civil rights and political freedom and has advocated the extension of political and civil rights in nations throughout the world; and

WHEREAS, the United States government has given official sanction to the establishment of a consulate in the City of Pittsburgh,

NOW, THEREFORE,

BE IT RESOLVED that the Council of the City of Pittsburgh on behalf of its citizens objects to the establishment of a Union of South Africa consulate in the City of Pittsburgh and encourages the Government of the United States to revoke its authorization for the establishment of such consulates in the United States.

Mr. Robinson moved to adopt the resolution.

Mrs. Masloff seconded the motion.

Which motion prevailed.

Robinson:

Mr. President, if this resolution is passed, I would think it would be appropriate to send a copy to all the businessmen in our Western Pennsylvania Delegation, to Senator [unclear] and Senator Spector and to our Secretary of State, Alexander Haig and one to the President of the United States. I think this particular issue is perhaps a lot more serious than some people think it is. I don't think that it's in the best interest of this city to officially name the government of South Africa and encourage it to do business with American companies and I think it's an insult and an insult that government officials at the national level, the President and the Secretary of State, give authorization to the Union of South Africa to set up the consulate in this country. I think the history of racial repression, the fascist-type government that exists in South Africa is an insult to decent and fair-minded people across this world and I think if this City welcomes the Union of South Africa, if we in any way sanction their activities in the City, I think it's a very bad day for this City and I would hope that more people in the City of Pittsburgh, more public officials, both elected and appointed, would come out and officially, officially voice their opposition to this consulate being in our

Chair:

Well, I don't know why it should surprise you because coming on heels of the tax exemption status they asked for the segregated schools in the south or wherever, and they come up with the adding of a school in the City of Pittsburgh from a country that practices apartheid and practiced it for as long as, I guess, as long as we've been around. I think it's a

disgrace and it just shows the way the present administration is leaning and they continue to do it regardless of the criticism.

Mr. Flaherty presented

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
WILLIAM F. McCRAY ... Ass't City Clerk

Pittsburgh, PA
Monday, March 15, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mr. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale
	(Pres't)

PRESENT:

Michelle Madoff

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

We have a very pleasant task to

perform as our first order of business, but I did want Councilman Stone to know that the suit that I am wearing is one of the suits I bought with campaign funds. Okay? I just want you and the reporters to know that. I don't want the Post Gazette to indict me over it.

The Chair presented

No. 502 WHEREAS, on December 8, 1981, Richard and Vincent Santaguido, after notifying the Fire Department, escorted six elderly women from a burning house at 300 East End Avenue, and

WHEREAS, these boys, Richard, age 12 and Vicent, age 8, without regard for their own safety, performed this meritorious act of heroism without hesitation, refusing to come out of the house without these women.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and Members of Council on behalf of the citizens of the City of Pittsburgh, hereby recognize and commend Richard and Vincent Santaguido for their outstanding performance and quick response in saving the lives of these women.

Mr. Stone moved to adopt of the resolution.

Mrs. Masloff seconded the motion.

Which motion prevailed.

The Chair:

Why don't the two gentlemen come up here with Mr. Pernell.

Now, you heard the resolution, and you certainly read the story in the newspapers not too long ago about how heroic these two lads were and I thought it was no more than proper that the City of Pittsburgh and City Council should bring them up here for a commendation and the resolution.

Mr. Burns, would you like to say a few words, please?

Mr. Burns:

We want to thank you for taking time out from your busy schedule to honor these two young men here. They look small, but what they did was a real big job and we can be proud of them. The big thing was that, in their excitement, they remembered to spread the alarm, the most important thing, and they spread the alarm and then they got the people out. I think they really did a magnificent job. And thank you people for taking the time to honor them.

Mr. Pernell:

For those who don't know me, my name is John Pernell, I'm with the Fire Fighters Union. Rich and Vincent, they did do one heck of a job and like Bernie said, the main thing was, is to notify the Fire Department first. That's what they did. They went and notified the Fire Department, went into the building, and we investigated later on, the women did not want to leave the building. The only reason the women left the building is because they thought these kids were going to get hurt because they said they weren't leaving until the ladies left. But they saved all the women's lives and we're very proud of them as Fire Fighters because we know how dangerous it is in that type of situation and for

inexperienced boys like that to do what we do every day, it really did something to the Fire Fighters. We're proud of them. Thank you.

The Chair:

We want you to say a few words to these people. I don't know if they can see you over there but give it a try. We're very, very proud of you.

Richard Santaguido:

My name is Richard and I don't have anything to say. Thank you.

Vincent Santaguido:

I really don't have anything to say but all I can say is thank you.

The Chair:

Again, congratulations and City Council and the City of Pittsburgh are very proud of you two lads, believe me. Thanks for coming.

Mr. Givens presented

No. 503 WHEREAS, the Council of the City of Pittsburgh firmly supports tuition tax credits for parents who exercise their basic right to educate their own children according to their own religious, moral and cultural values; and

WHEREAS, Council supports the belief that all children should be treated equally as first-class citizens.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh supports Senate Bill S.550 and urges the Senate of Pennsylvania to vote affirmatively on this Bill.

Givens move to adopt the resolution.

Woods seconded the motion.

Which motion prevailed.

Mr. Stone moved to hold reappointments for one week.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Stone moved to hold the appointments for two weeks.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Stone:

Can I make a suggestion, Mike. For those that are repeats, if you can get them this Wednesday, fine. For those that are new, hold them until the following Wednesday and don't set any post agenda. Freeze it out so that we're dealing with them only.

Mr. Givens:

I have some business I'd like to take care of. You mentioned about next week for the post agenda, Bob, not this week? This week, post agenda, or next week?

Mr. Stone:

They're going to take the ones that are repeats this week if they can. And the following week all the new ones with no post agenda.

Mr. Givens:

Okay. And for this coming week, post agenda, I'd like to have the Executive Director of the Parking Authority, and there is a letter that we all received in regards to them asking to brief us on some of the problems that they're having and some of the ways they're going to go. I had submitted a letter to George Charlton, dated February 2, where, I think his letter to us and this letter I had sent to him might have some merit in raising some funds in

revenues for the Parking Authority. That's this coming Wednesday.

Also, it's been noted in my particular neighborhood of the City of Pittsburgh that the street cleaning signs are going up throughout the neighborhood, a weekly street cleaning. I couldn't recall in our budget that the Mayor was going to do this. If you can recall, we had a vote in the years gone by, where that service was being curtailed and would only be done on an as needed basis. Now I noted that the neighborhoods are going to be swept in a weekly fashion and I also noted that the whole block is reserved, the parking has to be removed for the whole block, or both sides of the street in certain neighborhoods. I don't know what this is going to bring about. I'd like for someone in the Department of Supplies, I would imagine, and the Department of Public Works, to come in and explain what they're going to do, how much it's going to cost, etc.

Thirdly, I'd like to announce that I'm the happy grandfather of the seventh child within the Givens clan, who was born on the 12th of March on or about 11:00. The name was Katy Lynn Givens to be the seventh grandchild. I'm happy to announce that.

That's all, Mr. President.

The Chair:

I don't know, Mr. Givens. Not too long ago you didn't have any grandchildren and in about three years you've got seven. I made the statement I was the only grandfather on City Council, you wouldn't even let me have that.

Mr. Givens:

I've got another one coming in

May.

The Chair:

Congratulations, Mr. Givens.

Mr. Stone moved to excuse Michelle Madoff for absence from the meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Stone moved to approved the minutes of Monday, March 8, 1982.

Mrs. Masloff seconded the motion.

ONE-HUNDRED

TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
WILLIAM F. McCRAY ... Ass't City Clerk

Pittsburgh, PA
Monday, March 22, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

Mr. Givens presented

No. 589 WHEREAS, the Knights of Columbus is a fraternal benefit society of Catholic men founded by Fr. Michael McGivney; and

WHEREAS, this society was chartered by the General Assembly of the State of Connecticut on March 29, 1882 and currently has chapters in all fifty States; and

WHEREAS, the purpose of the Knights of Columbus as stated in their charter is: 1) to provide for financial aid to its members and their beneficiaries, 2) to assist sick and disabled members, 3) to promote social and intellectual association among its members, and 4) to promote and conduct educational, charitable, religious, social and patriotic activities; and

WHEREAS, the Pittsburgh Chapter has forty-one Councils with approximately 10,000 members; and

WHEREAS, this chapter, in 1982, exceeded the ONE MILLION dollar mark in donations to Saint Anthony's Home in Oakmont and the McGuire Home in Beaver Valley for the education of the mentally retarded and the maintenance of these homes.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, hereby commend, honor and recognize the One-hundredth Anniversary of the Knights of Columbus.

Mr. Givens moved to adopt the resolution.

Mr. Robinson seconded the motion.

Which motion prevailed.

The Chair:

Would the two gentlemen from the Knights of Columbus come up here please?

Richard Miksic:

Ladies and gentlemen, on behalf of the Knights of Columbus of the Pittsburgh chapter, I want to take this opportunity to thank you for presenting this resolution and adopting it here this afternoon and I just wanted to comment very briefly on our most favorite that was mentioned in the resolution, and that is the St. Anthony McQuire Homes here in the Pittsburgh and Beaver Valley Areas. We're very proud of our accomplishments over the past twenty years and this year we will go far over the one million dollar mark when we present Bishop Leonard our check this year on April 14th at Belleview Council and it's always a pleasure to take on a charitable drive such as this. The Knights all over the Pittsburgh Diocese are very interested in that project and we all try to do as much as we can to help these exceptional children in these two homes. So once again, on behalf of the Chapter and the entire Order, in this one-hundredth year of our celebration, we thank you very much.

The Chair:

Thank you, sir.

Thomas O'Elaney:

I can't add anything more than Dick has already said so I'll just say thank you on behalf of all of us.

The Chair:

Thank you.

Mr. Stone:

If I may, speaking as a national president of a brother fraternal group, Serb National Federation, let me extend congratulations to the Knights of Columbus. I think this is only pointing out a little part of the fraternal movement across the United States of America. There are ten million fraternalists in this nation. There are one million of them in Pennsylvania alone and relative to the charitable efforts of the fraternal benefit societies, I think they have no equal as far as their contributions to, whether it be church orphanages, whether it be to camps, and I think that the fact that they have been able, through all trials and tribulations, to have accomplished so much in this one hundred years, I commend them from the Serb National Federation who are celebrating they 80th anniversary year right now.

Mr. Givens:

Mr. President, I'd just like to add words that I've been, thank God, a member of this particular Knights of Columbus organization for some fourteen years, and as they work here in the City of Pittsburgh and Allegheny County, likewise, as mentioned in the resolution, they do likewise over the 50 states of the United States. It was out in California in the Mohave Desert when I first became a member of that great society and they have done tremendous work for the youth and the total spectrum of life, from infancy up through the grave, and not another organization that I feel more devoted to than our Knights of Columbus.

The Chair:

Thank you, Mr. Givens.

Michelle Madoff:

I think it's a fantastic group and they should certainly be commended for their work and the next thing they can do to improve their group is to take in women. When would you like to do that?

Richard Miksic:

Well we are already a Catholic Family Fraternal Service Organization so we really include women in a lot of our activities. So you're not left out.

We don't have any officers, if that's what you're saying, although we do have auxiliaries.

Thomas O'Elaney:

There's always a good woman behind the man, otherwise he doesn't function.

Michelle Madoff:

I find there's a good man behind a good woman.

The Chair:

I hope they get out from behind each other.

Mr. Stone:

I think instead of trying to reorganize the organization after one hundred years, they've been able to do exemplary service, we ought to just, at this time, mark the one hundred years.

The Chair:

Talking about standing behind someone always reminds me of the Italian Army. They say don't forget the first row because when they call for volunteers, the guy in the second row

pushes you up.

Thank you, gentlemen.

Michelle Madoff:

Mr. President, question. Are we in the habit now of taking resolutions first so the people in the audience will not have to wait in the future. Getting all the resolutions out of the way? Why don't we make it a policy to do them all at once and get them out of the way and do any business after the meeting?

The Chair:

Strictly resolutions. We have one other resolution.

Michelle Madoff:

Then let's get it out of the way.

The Chair:

We're going to do that.

Michelle Madoff:

It's possible that Ms. Langer or somebody could be here. Maybe she isn't, but we might as well do them all together instead of breaking them up.

Mrs. Masloff presented

No. 590 WHEREAS, Elinor Langer has announced her plans to retire from her position as Member of the Pittsburgh Board of Public Education; and

WHEREAS, Mrs. Langer began her service on the first elected School Board in 1976; and was elected Board President two consecutive years, 1979 and 1980; and

WHEREAS, in addition to her outstanding service on the Board, Mrs.

Langer has been an active member of Women In Urban Crises, President of the League of Women Voters, Board of Directors of the Vocation Rehabilitation Center of Pittsburgh, and various other community and social organizations; and

WHEREAS, Mrs. Langer's devotion to the educational, social, and spiritual well being of our communities has helped cultivate high standards and ideals, and has enriched the lives of many.

NOW, THEREFORE,

BE IT RESOLVED, that the Members of the Council of the City of Pittsburgh, on behalf of the citizens of Pittsburgh, hereby recognize and honor Mrs. Elinor Langer for her distinguished service as a Member of the Pittsburgh Board of Public Education, and thank her for her dedication to the high ideals of education and social justice.

Mrs. Masloff moved to adopt the resolution.

Mr. Givens seconded the motion.

Which motion prevailed.

The Chair:

I just want to say the Elinor is not here and we will mail her a copy of the resolution.

Michelle Madoff:

Our daughters went to school together, she's my neighbor and in addition to that, personally, she's a fantastic woman. Maybe someday her husband will transfer back here and she will come back. As a character example, if the Knights of Columbus had somebody like Elinor like that, they should include women in everything.

The Chair:

Don't feel so bad. They would let me in the Knights of Columbus because I was a bartender one time About 35 years ago.

Michelle Madoff:

You worked very hard to do good job and they should have taken you

Mrs. Masloff:

I don't blame them for not taking you.

The Chair:

I only sold the stuff, I didn't drink it.

Meantime they had all the presidents of all the breweries were members. The Fridays and what have you. They made it and the guys that said it couldn't join the Knights of Columbus

Mr. Stone:

A bartender like you I would take in either.

The Chair:

I don't like hypocritical organizations. I don't say they're hypocritical, but they are in that matter Do Serbians take bartenders in?

Mr. Flaherty presented

No. 553 Petition from the residents of Carrick requesting a hearing before Council to discuss transfer of City lots in the 2000 - 2100 blocks of Lucina Avenue to the Urban Redevelopment Authority.

Which was read and referred to the

Committee on Planning, Housing and Development.

Michelle Madoff:

There's one thing I'm confused about, if I heard correctly. The Carrick community wanted to hold a hearing. That doesn't come up to Council until a week from Wednesday. Is that correct?

The Chair:

The Carrick community is having a hearing up in the Carrick, I think, Thursday night.

Mr. Woods:

Wednesday, the 24th.

Michelle Madoff:

Where's it going to be?

Mr. Woods:

The high school.

Michelle Madoff:

And the subject matter?

The Chair:

The property that the City was supposed to have awarded —

Michelle Madoff:

The reason I'm asking — If there's going to be a public hearing, if we wait ten days before we even schedule it, the loss is another ten days. Is that right, Mike? We've lost twenty days. Is it possible that we have request for hearings that we can always cancel later to start scheduling them earlier so that we don't kill twenty days?

The Chair:

As far as this situation is concerned, it may be resolved without a public hearing. There's really no sense in a public hearing if they can resolve it before that. Apparently we put the horse before the cart because they're saying now that the property wasn't sold to Degenhardt and there are not plans to develop that property right now and the URA is saying that they will listen to those people up there and give them a chance to buy their property. If we see it's going to be otherwise, then we'll hold the hearing. This is the purpose of the meeting Wednesday night, to discuss this and all the parties will be there. Mr. Lurcott, Mr. Brophy and what have you.

Michelle Madoff:

Mr. President, they don't want to buy the property. They want the City to dedicate it to the park which they've kept immaculate for years —

The Chair:

I won't argue with that. All I know is that somebody was supposed to have said they wanted an opportunity to buy that property and never had that opportunity because they were told that Parks and Recreation was going to develop that and therefore wasn't available. Then the next story out was that they were selling it to Degenhardt and Degenhardt was going to put some outhouses or whatever there.

Michelle Madoff:

The point I'm making is not this particular issue. When some community group asks for a hearing, since we wait ten days before we even come to Council on it, if we could possibly, at your discretion, schedule it, and if it resolves itself in between the twenty days —

The Chair:

Those hearings are scheduled as soon as possible. After we advertise them, we schedule them as fast as humanly possible.

Michelle Madoff:

What you're saying is, it doesn't make sense to schedule it now and save a few days?

The Chair:

No, because there may be any purpose for it.

Michelle Madoff:

You can always cancel.

The Chair:

There's a similar incident where people are asking for a hearing on the PACER Project and the PACER Project, if you read the papers, is dead. These people are saying we don't want PACER down in Hazelwood, or we don't want them down in Oakland. There's really no need for a hearing because the PACER Project, by its own explanation, is dead.

Michelle Madoff:

Well PACER is going to change over to --

The Chair:

That's another story. We'll get into that later.

Which were severally read and referred to the Committee on Public Works.

Mr. Givens:

Concerning the bills that were just introduced that were referring to the 1982 Capital Budget and Code Account Budget. This Council, by law, is to have public hearings on these and at our last budget session in 1981, we indicated to the public that we are going to have public hearings on the 1982 Capital Budget. We are now into the mid-section of March, the third week of March, and noted that the Mayor has advertised in local newspaper of neighborhood revitalizations, and the development meetings, which is, again, the six year development program in our Code Account Capital Budget. I express deep concern that this Council has not had public hearings on the 1982 Capital Budget and I am still waiting.

Michelle Madoff:

What about the operating budget for '82? So we go into '83 knowing where we're going.

Mr. Givens:

Michelle, don't get off the track

please. I'm just stating a fact that this Council is, by law, to have public hearings. We waived those public hearings in 1981 so we'd take up the Capital Budget in 1982. We have not done so. There are many millions of dollars worth of programs in every neighborhood within the City of Pittsburgh that we haven't had an airing with. This Council approved that budget, the '82 Capital Budget, in a blanket approval, saying that we would have some public dialogue later on in the first part of this year. Again, we're at the end of March - we have not had it. I think it's a serious problem within this Council and I think it should be addressed, Mr. President, as soon as possible. I know you have a heavy agenda on the various hearings throughout the next of this month and the month of April, but somewhere, sometime, this Council must sit down and tell the people of the City of Pittsburgh what programs they're going to have and what programs are going to be cut out. We have to know that the Mayor put a freeze on forty million dollars, yet he never gave this Council a list of what projects are going to be cut out in our various neighborhoods, and I think that is something that must be addressed.

Mr. Stone:

I don't see it anymore serious at this point than I did in December. It would have been totally assinine for us to go through hearings on how we're going to spend money if we didn't have the money. We don't have the money today because we didn't go out on a bond issue and it would be totally ridiculous to do it now without the funds. We need a bond issue and we haven't been going out on the bond issue. It's quite obvious that the whole thing is cut back. It's quite obvious that there is no need to go into the mental gymnastics of this whole

program, making people think they're going to get something when we don't have the where with which to do it. I think that's the key. We've had people sit here and not want to go out on bond issues, and then when you don't go out on bond issues you don't have any money for your budgets and then we're blaming someone for not having something to say. I think it all answers itself. At this point, what are you going to do, say we ought to give it to Project A instead of Project B when we don't have the money to do either Project A or Project B. I don't see any fault there at this point.

Mr. Givens:

I'd like to respond to two points. One, I think it's required by public law that we have such public hearings. I'd like an opinion on that from our Law Department. On the Capital Budget and our Community Development Budgets, it's required by law, and the people haven't had their right under this section of government to voice their opinions. They only had it from the executive branch of government which is not the final on that particular budget.

Secondly, if we wait to get the money in for any appropriations or any programs we must ensue within our neighborhoods, then I would suggest the Bloomfield Bridge could have never been approved and many other major projects in the City that we did not have funds for but were hoping to get the funds from the Federal Government. Most of this, as we know, comes in from the Federal Government and bonds that we say we're going to sell at some future date. That does not preclude what the priorities of projects should be within the City of Pittsburgh. What projects are number one, two, three, four, five, six, going down. I want to have some decision making in that, and if I do not,

then I put it on the record as so declared here earlier.

Michelle Madoff:

Mr. President, we did go out for the seventy million dollars --

The Chair:

Wait, Michelle. We're not getting into that Michelle. Can I have you papers?

Michelle Madoff:

We're on a subject, Sir. I would like to address myself to the subject the Mr. Givens and Mr. Stone addressed.

We went out for a seventy million dollar budget, forty three million of which was to pay off debt service. This money available has come to my attention from various department heads and people in the departments, that projects that were scheduled for '82 for which we borrowed the seventy million dollars, are not going to be done. I concur with Mr. Givens that we better start looking at the balance of the monies left. I would like to know what that balance of that money is, Mr. Perry. What is the balance of the Operating Budget and Capital Budget? What do we have left in the Capital Budget? And I would like to have a hearing certainly with the department heads to find out what they are now not going to do, they gave us a list, I have that list, where that money was going to be spent. It certainly disappointed me. I don't think it's something we can brush aside.

And on the same matter, the Mayor gave me his word over a year ago that he would start having informal hearings and he agreed that he would start meeting with Council in a very

informal session so that we could start addressing the budget deficits before get to the hassle after the election the end of the year and we're standing the middle, we don't even know what we're going for and we vote for it. Every day a resolution is out of context.

I would like to have a letter sent to the Mayor saying, when, Sir, are you going to honor your word, as I believe you meant to do, and I very respectfully start naming Councilmen to see what I can do to generate some alternative revenue. That's the key -- generating alternative revenue so that next year we're not in the same kind of situation we're in this year. I think Mr. Givens has raised a very valuable request.

Michelle Madoff presented

MOTIONS AND RESOLUTIONS

The Chair:

There was a very unfortunate experience yesterday. I witnessed a young lady being hit over on Dithridge and I was wondering, if that would have happened five minutes later, nine or ten people coming out of one o'clock Mass would have been killed as well. I wonder if the police are going to use more discretion in the future. To chase that man all that distance to cause that girl's death is absolutely irresponsible. There's no reason in the world for that girl to be killed.

Michelle Madoff:

Sir, I think your point is very well taken and I think you have shown a lot of guts to bring it out into the open.

The Chair:

A few years ago the same thing happened where the police shot a hostage in the car to catch a robber. I don't know if they are a bunch of hopheads or what.

Michelle Madoff:

Mr. President, in line with the comment that you just made. You said

they might be hopheads. Has a bill been introduced in Council to stop the sale of paraphernalia? I know nothing has happened as yet. Has there been a bill introduced, to your knowledge, for smoking pot?

Mr. Flaherty:

No.

The Chair:

The state is making a ruling on it.

Mr. Flaherty:

It is in the Supreme Court.

Michelle Madoff:

I know, but the City of Pittsburgh has a right to pass their own.

Mr. Flaherty:

It is my understanding that until they --

Michelle Madoff:

Until they act, I know. But that doesn't mean we can't do some research on it.

Mr. Stone:

Michelle, that is part of the original bill.

Michelle Madoff:

Well, let's introduce another one on top of that. Mr. Perry, would you introduce the bill?

Mr. Flaherty:

He can't Michelle.

Michelle Madoff:

Well, then we'll have him -- DePasquale and I will work together this and we'll have Mr. Perry draw up.

On another matter. You talked about the hostage in the robb and the costs involved. Obviously, City is going to have to reimburse the people if it is proven that the alle hitting was caused by City employee. Again, we had better start think earlier in March and April and not November about where the operat budget monies are going to come from which brings me to another item.

Last week I circulated Wednesday's meeting an article that appeared in the Wall Street Journal believe about four weeks ago. What it essentially saying is the cost of do business -- if you have a law firm or accounting firm coming into downtown area, it doesn't necessar bring in more revenue, but rather oversupply of office space. My conce is that it is going to have an impact our revenue and tax base for forthcoming year. I had asked Mr. Pe to get me an update from the Treasure Office and the Law Department as to the monies accruing in the City or be contracted from the City in any laws that we have lost. I have never receive that, so would you please see that I g it.

Mr. Flaherty:

I have a point to make, M President. I would want to move in formal sense that this Council requ the information from the County on the Tax Review Commission which consis of 28 college professors, corpora personnel and also the cour personnel. It is my understanding fro

conversations that I have had with certain concerned individuals and also from the newspapers, that the Commission is going to be releasing their ideas soon and I believe that it would be of interest to this Council since they are touching upon the tax-exempt properties in this City and I think it would be helpful to Council to have that information.

Mr. Flaherty moved for approval.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Stone moved to approve the minutes of Monday, March 15, 1982.

Mr. Givens seconded the motion.

Which motion prevailed.

and on the motion of **Mr. Stone**

Council adjourned.

Mr. Flaherty:

Mr. President, could we hold Bill No. 80 until the arrival of Councilman Givens, who I understand is going to be here shortly?

The Chair:

Okay, we'll vote on it when Mr. Givens gets here.

Bill No. 80

Resolution entitled, "Resolution applying requirements to the funds which the City receives under the Community Development Act of 1974 as amended for the fiscal year 1982 and any year thereafter."

Which was read.

Mr. Flaherty:

I have a few words to say in

regards to Bill No. 80. As I'm sure all my colleagues are aware, this bill will attempt to pick up the slack that has been created by the dropping of the federal rules and regulations in regard to how the Municipality can spend Community Development Block Grants. I suppose the most controversial aspect of the bill is that it would earmark seventy-five percent of each year's Community Development Block Grant appropriations for programs that shall be used for projects and activities which principally will help to benefit low to moderate income areas and people.

I realize that there has been some criticism by certain individuals in regard to the lobbying of this bill, but I believe that it's very important to keep in mind that what we're seeing in this City is a social revolution that's going on in the streets. There are people that are going into homes because they're frustrated and because they don't have adequate housing and because they feel that the City is closing the door in their face.

Now this Council is a Democrat Council and it should be a progressive Council and a liberal Council, especially in regard to helping those who need assistance the most. So I would urge all my colleagues to continue to support this bill. I realize that there was an opinion way back on December 4th from our Solicitor's Office and in that opinion, he seems to base his argument on that this bill conflicts with federal laws or regulations. I believe it was brought out in the hearing that the exact opposite is what has transpired. The Feds are giving the option to the local municipalities to handle these Community Development Block Grants in whatever fashion they deem acceptable to the wisdom of this Council. I brought out that I spoke with Sharon Warady who is the Regional Director for HUD for the Pittsburgh area and she saw no problem whatsoever with

mandating that seventy-five percent of these funds used for Community are used for low to moderate income areas and people.

In closing, I just want to urge this Council to remember its heritage, the heritage of the Democrat Party, and it's about time that we get back to being a champion of the poor rather than a captive to the rich. I move for approval on this bill.

The Chair:

Mr. Flaherty, if I may, while under discussion, I agree with you wholeheartedly in helping ACORN and other low-income groups and that's very commendable. But I have a couple of questions and the questions I want answers to are, if money has already been allotted or projected for streets and sewers, according to what I read here, we're saying we're not going to fix the sewers and the streets in the rest of the City?

Mr. Flaherty:

No. These funds --

The Chair:

My concern is, are we going to tell the rest of the City we're not going to fix any sewers or streets?

Mr. Flaherty:

No. These funds can only be utilized for three purposes. For capital improvements in low to moderate income areas. So the streets and sewers will be replaced in those areas. It can be used to prevent slums and blight or to eliminate them, and thirdly it can be used only in need of a particular emergency such as a flood or something of a true catastrophic nature. These

funds now are not being used, or they should not be used, to repair streets or sewers in Shadyside or Squirrel Hill or some of our higher income neighborhoods. If anything, this bill is going to mandate, is going to close the door on any abuse that may occur in the future of using these funds in areas where they should not be used. This is just going to mandate -- all this is doing is just accepting the philosophy of the Democratic Carter Administration. It's just an extension. The Reagan Administration has dropped the rules and regulations in hopes that some municipalities may not use these funds to benefit the low and moderate income people. If you're in concert with helping low to moderate income people, you will support this bill. If you want to open it up and have it open-ended where, perhaps, it can be used in any such fashion, then you will oppose this bill. But as it now stands, under the Carter rules and regulations, this money is not being used. Mr. President, to fix sewers and streets other than in earmarked neighborhoods that have a predominant low to moderate income constituency.

The Chair:

How are we going to tell the guy in Shadyside that needs a new sewer, a new sewer line, he's not going to get one because he's not in a low-income area?

Mr. Flaherty:

There are other funds available. Community Development Block Grant money is for low to moderate income people.

The Chair:

If these funds are coming from someplace else then why are we stating they can't be used for sewers and streets?

Mr. Flaherty:

They can, but only in low to moderate income areas. That is a federal regulation. We can't use these funds in areas other than low to moderate income areas other than to prevent a slum or a blight that may exist, for example, in Squirrel Hill or Brookline or Shadyside or what have you. These funds are not being used at all. I hope they're not being used because if they are, they are in violation of federal regulation. I better not hear that funds are being used in Squirrel Hill or Shadyside for sewers, that should be going to the poor.

Mr. Stone:

Mr. President, if I may. The bill, as has been indicated, is useless and not necessary. It does not have a priority level. It's already been indicated to us by our Director in charge of CD, that first of all, and foremost, the federal regulations determine where you'll spend the money and since they set out the guidelines, they determine where it is. The bill itself does qualify that money shall be used for low and moderate income advancement and improvement. In addition, this bill tries to make the impression that this City is doing something other than what the bill indicates. Mr. Reggie Young has already indicated that as far as the City of Pittsburgh is concerned, it is continuing the old regulations. It has never made a change. That when this legislation first came through, it was an accusation that we were not doing it and now that it's come out that the City is staying by the old regs, now we're saying that we want it for another reason. All we're doing is surplusage here. In addition to that, Councilman Flaherty indicates to us that our City Solicitor has stated that this is in conflict with federal regs and he has word from someone else, not our City

Solicitor, that that's not so. It would appear to me unless we're prepared to challenge the City Solicitor, we ought to go with his opinion.

Second of all, the thing that I have a great deal of concern about is that under the present legislation from Washington D.C. to which I have a great difference, I am hard-put to understand how we can put something in that we'd like in the regulations and thwart what's the intent of the new Congress or the new Federalism and expect that we're not getting in violation. I say we're going to have difficulty enough getting the money from Washington under the new Federalism without attempting to put roadblocks in it, without attempting to put something there that's going to cause us a problem in the future. I would like all of the remarks that transpired or mentioned at the Wednesday meeting transcribed and included in these minutes.

(BEGINNING: MR. STONE'S REMARKS ON BILL NO. 80 FROM WEDNESDAY, 3/24/82)

Mr. Stone:

I think it is a dangerous course to add it at this time, particularly with the kind of frame of mind that the present Administration has in Washington. We are bound by it and must follow it to the letter, all of the federal laws and right now I think we are getting into a problem and I would not approve it.

Mr. Flaherty, every year in February, I'm in Washington D.C. for a federal briefing and that was such this past February when I met with HUD people and that was such when I met with the UMPTA and Transportation people. They didn't know what they were doing then and the President just spoke the day before, and they allegedly were

supposed to have input and nobody could characterize it any more than Mr. Barnhardt, the Secretary of UMPA, who said, "We had a good program. The President didn't mention it in his speech. We still want you to know we have a good program but we also want you to support the President 100 percent and we hope that you won't ask us any more questions on that damn point today".

That's the situation there and with a great deal of uncertainty, and it seems to me that we should not be fooling around with federal programs to, in any way, thwart the ability of this City to get the kind of money that it needs.

There is a use indicated and there is no emergency for this bill because, as our Planning Director has indicated, he has not deviated from the old guidelines and to take this kind of chance is not within the best wisdom of the City at this time. You need not respond any more -- you are not going to convince me.

(END MR. STONE'S REMARKS ON BILL NO. 80 FOR WEDNESDAY 3/24/82.)

I want to close with one thing that I find very paramount. Mr. Flaherty might call it a social revolution but when someone goes into someone else's house that doesn't belong to them, then you're inviting that person or persons, worse than that, you're inviting some organization who is not suffering the ills of sending someone else into someone else's house, to go into your house, and unless you're prepared to do that, you shouldn't be voting for something that permits someone else to do it. And I say that's a violation of the law no matter how you put it. When someone goes into a piece of property that is not theirs, that's a violation of the law. It should not be colored or couched in any other

language other than it is what it is. A fact is a fact and you can't change it. It's a violation of the law.

Mr. Flaherty:

As far as the Department of City Planning still earmarking these funds to low to moderate income areas, I am not going to argue that point. I believe that Planning is doing a more than adequate job. All this bill does is mandate it. It mandates it so there's not potential or no possibility for abuse in the future. It's just going to put the cap on to make sure that no one in the future should try to channel funds, perhaps, where they should not.

As far as a challenge to the City Solicitor, I'm going to reiterate what I said at Council's Wednesday's Committee meeting. It's about time that certain people, certain politicians, stop acting behind the mask of the City Solicitor. Who is the City Solicitor? It's not the Supreme Court. It's an opinion. It's about time we start challenging some of those opinions if this Council wants to be a true, separate legislative body instead of a rubber stamp for the Mayor's Office.

As far as the federal regulations, I'm going to reiterate this for about the fourth or fifth time. Sharon Warady, the Regional Director for HUD, sees no problems. That's the intent of dropping the federal regulations to give the local municipalities the discretion as to how these funds are going to be used. And just on the side about the new federalism, which I say is state's rights under a new cloak of new federalism, this is a Democrat Council, and we should try to thwart this program of state's rights which is forty years behind the times whenever we can.

And as far as people that are squatters, I'm going to say once again.

Until these people are found guilty by a court of law, I don't think this Council should prejudice their case, if it should ever come to a court of law.

Michelle Madoff:

Mr. President, I've just learned -- I had a statement prepared before I saw this afternoon's editorial in the Press, which condemns all of us for the position we took with ACORN except for Mr. Stone, nevertheless, I have the courage of my convictions and I would like to address exactly the subject before us. I tried to write it out because I have a voice problem.

Mr. President and Members of Council:

I'd like to take this opportunity to speak out on an issue which greatly disturbs me and relates to Bill No. 80 and to the issue that Mr. Stone has touched on.

Unlike some Members of Council, unless they're privileged, who feel reading the local papers is a waste of time, I personally have withdrawn symptoms if I don't get to read both daily papers cover to cover. In doing so this weekend and this morning, I learned many facts that I was unaware of. Particularly, the public form address by Mayor Caliguiri, I didn't know it was being held, which I didn't even know was taking place, and I learned from the media that the Mayor had stated he will not meet with ACORN because they are a militant organization.

I also learned in the same paper that there are 2,844 homes, and that was in the census report, boarded up in the entire County, of which, Mr. President, 2,112 boarded up vacant houses are in the City. So they're almost all in the City. The media reported that the

Mayor at the Pittsburgh Neighborhood Alliance Congress, Saturday, stated that the City Homesteading Program was designed to address this issue of providing housing to the needy. Yet he stated that homes are available for sale at only \$300.00 to those eligible to borrow up to \$40,000.00 to rehabilitate a typical abandoned home. These people in ACORN don't have that kind of money.

Point of clarification. I did not say that ACORN was barnstorming, but emulating the old concept of barn-raising, where neighbor helped neighbor when the barn burned down. When 50 to 100 members of ACORN get together and one does the electrical work and the other the plumbing and another the cleaning and painting and so on, I for one don't believe they should be discouraged, but indeed, given supportive help. No one is saying that what ACORN is doing is legal. Even they admit they are taking a big risk in doing all the repair work and they are running the risk of losing everything. Indeed, there is strong evidence that fifty percent of the squatters will lose their homes. But what is the real effect of what ACORN is doing? I understand they're going to be on national television on the Today show. All over the Country. Why? Because they're sending a message to the various administrations that most of their members can't afford the present household. Because they're not eligible to borrow \$40,000.00 for rehabilitation for that house. So what do they do? And how does the City justify 2,112 boarded-up, abandoned homes. I think it's unconscionable that we do not help those willing to help themselves. Where is the compassion in the Administration? They had no qualms about making large tracts of land available by eminent domain to the large industries. I think the Mayor is doing an excellent job of working with industry in a partnership relationship. But there should be a ripple effect. Or

indeed, a quid quo pro to help the needy, especially when they're willing to help themselves and are willing to take drastic measures. I don't think these people want to squat. They prefer to meet and get houses. Even though they are going to lose their investments, they are doing this. Obviously again, they are taking this route because nobody is listening. What is needed now is a calm meeting with the leadership of ACORN and the Mayor. I don't think it does any good to slam the door. I would like to point out again that the 2,112 boarded-up, abandoned City homes should be made available as soon as possible to all who need housing not just ACORN. It should be of interest to this Council that the City will receive a windfall of \$152,000.00 in real estate transfer fees from the sale of the Mellon Bank Building. Perhaps these funds could be set aside seed moneys to turn the 2,112 homes back into healthy, livable accommodations, especially for the people who pitch in and do a great deal of the work themselves.

Mr. Stone:

Mr. President, if I may. I'd just like, since there was an attempt to rebut what I said, let me permit myself to rebut something that stated and not leave it unanswered. When someone wants to challenge the City Solicitor, a person learned in legal expertise, they ought to use legal expertise to do it.

Secondly, I'd like to reiterate that I find it a new low when public officials publicly commend and endorse a violation of the law. Nothing can be worse from a legislative body, nothing can be worse from a public official, to publicly endorse violation of the law.

Lastly, to attempt, in logic, to state an assinine statement like "no court has ever said that someone's in

violation when they're in someone else's house" borders on idiocy.

Mr. Flaherty:

Mr. President, I'm not even going to deem that with a response. I just want to say, Mr. President, Michelle Madoff brought out a very good point about compassion. --

The Chair:

Let's get off the compassion. We all have compassion.

Mr. Flaherty:

That's the bottom line. Especially with all the cutbacks coming from the Federal Government, what this City, how it has displaced the poor in the last twenty to twenty-five years, this is just a pittance for what we have done to the poor of this City. It's about time we get this elitist bug out of our --

Michelle Madoff:

We never said they're illegal. We said they're delivering a message and we ought to hear the message. That's all.

Mr. Givens:

There's been a lot of dialogue on either side of this particular issue, some I agree with, some I disagree with. But I am voting on Bill No. 80 which is use of our CD funds in our low and moderate income areas which we have been doing. I'm going to vote aye for that.

The Chair:

Michelle Madoff:

Mr. President, I'd like some clarification, perhaps Mr. Robinson can help me. On these bills, — let' use one as an example. No. 485, just as an example. Who pays for this? Who pays for the work?

Mr. Robinson:

This work is work that the owners of the property would like to initiate and complete. The present law in the City of Pittsburgh requires them to go through our Historic Review Commission if they are in an Historic Review Area, prior to the implementation of any changes. So all the items you see listed here have been approved for initiation by the Historic Review Committee, and to my knowledge, the owners, the individual owners of the property are responsible for financing whatever improvements they want to make.

Michelle Madoff:

Thank you. You know what I was concerned about. You know that legislation with sewers, property, that we passed in the PPG area for a building to meet the Historic Landmark credentials. We pay for that. We pay by federal grant. The reason I'm concerned about this, is that I want to know whether minority and other people are going to have a chance to bid on it. And a ridiculous amount paid entirely by the person who lives in the home, is it all going to be one or two contractors or is everybody going to have a fair shot at it?

Mr. Robinson:

It's my understanding that whatever types of procedures we have in the City of Pittsburgh for bidding out work that we do attempt to include minorities and women regardless of the funding source. So I don't believe the funding source of anything that relates to Historic Review would affect our aggressiveness in the area of including minorities and women.

Michelle Madoff:

No, if you may recall a couple of years ago, I did a little back-study on the Manchester work. We found that one of the young contractors did all the work and then brought in another contractor because I raised my voice, when I could, it was somebody else to do this work. Now they have a third person, and I think that unless that is brought up, they can develop the tendency to make a deal for their own people, and I'm not too thrilled about it. Frequently, it's only one person who did it because they don't want to do anything. There are all kinds of problems that are not initiated by the City. I would like to know if any of this work is being paid under the table.

Mr. Robinson:

Let me, and perhaps the City Clerk, can send a letter to Mrs. Ivey who is the Chairperson of our Historic Review Commission relative to whether or not any state, county, federal or city funds are utilized in assisting those persons who have been given their certificates of appropriateness for work to be done on their property.

Another point of clarification. We talked about who does this historic restoration. There are only a couple companies that I'm aware of in this area that are qualified to do historic restoration. That is one of the reasons why you see some companies doing what appears to be all the work. That is not to say that there are not other companies that couldn't qualify to do the work or that the companies that are doing the work couldn't subcontract some of the work, but you have to meet certain qualifications to be eligible to do this work, and there's maybe one or two companies in this area - Mariani and Richards is one and there's a couple of others, but it's a very specilized type --

Michelle Madoff:

I thought Mariani and Richards only did waterproofing?

Mr. Robinson:

I'm sorry, that's another construction company, I had the wrong name. But there's only one or two of them that could do this work and you will see their signs, Graziano Brothers, they're one of the few that can do the historic restoration of stone buildings. They have the equipment and they have the expertise.

Michelle Madoff:

But it's to install 23 new wood, thermopane windows. I think that most every window company in town could do that.

Mr. Robinson:

All I'm saying is that in the historic areas, you have to meet certain criteria. There are some companies, as you suggested, that simply don't want to get involved in the program. They don't want to be bothered with it. But certainly there's nothing that would prohibit the companies that are involved from including minorities and women and there's probably nothing that includes a company from qualifying itself to do this kind of work.

Michelle Madoff:

During the freeze that we had with the wind chill factor below 65 and the waters - I had three frozen pipes - I was really in a jam, I didn't know what to do. I called the head of the Greater Pittsburgh Realtors Association and he called one of the major builders, one of the major builders and found me two young men with a very small company. They came out immediately. They asked me if I work in the City. They would like to do work in that area, they tried to do work there and they've been turned down. They're small contractors, they've built homes, they done a lot of remodeling, but they don't have a shot at it and that's why I'm asking the question.

Mr. Robinson:

If you give me their names I'll see what I can do.

Michelle Madoff:

They're going to come see you.

Mr. Robinson:

Fine.

MOTIONS AND RESOLUTIONS

Mr. Flaherty presents

No. 646 WHEREAS, City Council conducted a public hearing on March 23, 1982 dealing with area unemployment and plant closings; and

WHEREAS, Pennsylvania, where heavy industry was once predominant and has been weakened by high interest rates, falling sales and a shift to a service-oriented economy; and

WHEREAS, numerous plant shutdowns in the Pittsburgh metropolitan area has left thousands jobless and has created a class of people known as the "New Poor"; and

WHEREAS, the Federal Government has eliminated the Federal Trade Readjustment Assistance Program which aided the working victims of industrial foreclosure; and

WHEREAS, State Legislation, S.B. 727 and H.B. 1353 in addressing plant closings, mandates a notice of intention

to close, employer obligations to employees and the community, financial assistance, and emergency tax relief to affected local governments.

NOW, THEREFORE,

BE IT RESOLVED that the Members of the Council of the City of Pittsburgh, urge the respective State Senate and House Labor and Industry Committees to take favorable action on S.B. 727 and H.B. 1353.

Mr. Flaherty moved for approval of the resolution.

Michelle Madoff seconded the motion.

Mr. Stone:

Relative to this bill, it's my intent to vote against it for the following reasons. First of all, to require this kind of expenditure of 15% of the annual salary of an employer is to request an earlier demise of a plant. Because if he has to put up the money in advance, you're adding a financial burden which is the thing that is facing all of them today. To do that in an area less than the state of Pennsylvania is wrong. To do it in the state of Pennsylvania is to end out with the problem we are all having in the Northeast. If you add an added burden for an employer here, they're going south. In addition to that, with the added burden of 15%, they're going to close one year earlier, if not earlier, plus they'll lend out, generating the possibility of them closing two years earlier than they ordinarily would, aside from the fact of not being competitive in the market.

As far as plants are concerned, there are many, many reasons why they leave. Some say it's labor, labor costs. Others say it foreign imports. But nevertheless, when something other than

the productivity of the plant itself causes the problem and we now require, well meaning they're not, an additional expenditure of 15% of the annual salary of that plant, we are inviting a converse of what the bill itself intends.

Mr. O'Malley:

Mr. Flaherty, I have a question. I haven't read Bill 1353 or Bill 727. Is Mr. Stone correct in saying that the plants would have to put aside 15% of their —

Mr. Flaherty:

No, I'm not aware of that at all in the bill. I did not see that. That bill is was sponsored by Senator Bodack and I believe it has all the Democrat Senators from Allegheny County on it, it's being whole-heartedly endorsed by the State AFLCIO, it was brought out — there were three people, if you were at the hearing that Council had last Wednesday, that referred to these bills in Harrisburg. It was simply the request of two of the speakers last Wednesday that this Council urge our State Senate to act favorably in regard to the bills and I am just trying to help these people out with their request. It is a good bill, it's a labor bill. I believe very stongly in labor unions, I'm not afraid to say it. I feel very stongly in compassion. People that are 60 years old, 48 years old, the plant closing down — for example, a lot of these plants, there is not notice. I mean, a person walks in to work and he's told the plant's going to close down. This provides for a half-year notice of intent, a half-year ahead of time.

Mr. O'Malley:

May I suggest you hold this for one week so we can all read —

Mr. Flaherty:

No, I'm running it now. You vote for it or you vote against it.

Mr. O'Malley:

I hate to vote for something I haven't read yet.

Michelle Madoff:

Tom, there's no reason why we shouldn't hold it. I think there's support, very strong support of the bill. Everybody understands, if they've been in Council for any length of time, that it isn't who introduces the bill --

The Chair:

Excuse me a minute, Michelle, the resolution has passed.

Mr. Flaherty:

This is a good labor bill. I don't --

The Chair:

The resolution has passed. We're kicking it to death. Everyone said ave except Mr. Stone.

MR. STONE VOTING NO

MR. O'MALLEY ABSTAINING

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Michelle Madoff presents

No. 647 WHEREAS, the present system of placing candidate's names on voting machines presents a disadvantage to those candidates who, by chance, receive poor ballot position; and

WHEREAS, a system should be implemented in which all candidates would have equal opportunity for favorable ballot position.

NOW, THEREFORE,

BE IT RESOLVED, that the Members of the Council of the City of Pittsburgh hereby urge the Director of the Allegheny County Board of Elections to design and implement a system for the City of Pittsburgh in which the position of the candidates names would be rotated throughout voting districts, thus giving each candidate equal opportunity for favorable ballot position.

Michelle Madoff moved for approval of the resolution.

Mr. Robinson seconded the motion.

The Chair:

Michelle, normally I have no problem with this, but you open a whole can of worms. We get into the name similarity thing or a guy says "I'm the real Bob Casey, I'm not the real Bob

Casey", —

Michelle Madoff:

That has nothing to do with it.

The Chair:

Oh yes it does. They have every much a right to have that stated on the ballot as to rotate. Everybody takes their chances, pull those peels, if you get a bad spot you get a bad spot. I've never had a good one. If people want to vote for you, they're going to look for your name. If they don't want to vote for you, they're not going to vote for you. I don't care where your name is. I don't think you can do it over there. I think it's too much work for the Bureau of Elections.

Michelle Madoff:

It is being done elsewhere. I didn't originate it. It's not my idea. It is done in other cities.

The Chair:

You're saying, in the Fourth Ward you would be on top, in the Fifth Ward you'd be on the bottom — you're saying rotate these names.

Michelle Madoff:

No. Let me explain it. The ballot is printed as you draw your lot. It is printed in that order. So you still have the luck of the draw. There are, let's say there are 400 voting places. If they are taking it, again an arbitrary number, 40 people running, 40 into 400 would be 10 places. In 10 places scattered throughout the voting district, not necessarily all in the Fourth or all in the Fifth, they just move one name up, so it doesn't cost any more to print it. It just starts at the next name.

The reason you do it is, when I go to vote, there are many people who call me or ask me, "Say, look, I don't know anybody. Who should I vote for?" They go in, and sometimes, because of lack of experience and the ballot is overwhelming, they pull the first three levers or the first five; and I think it makes it equitable, and indeed, people will go and look for your name if they want to vote for you.

Mr. Stone:

First of all, I think we're getting into a jurisdiction that is not ours.

Second of all, if it's chaotic now, it sure would be doubly chaotic because with what's happening here, how would anyone get across a message to the voting populous with one piece of literature, that my ballot position, good or bad, is in a location. The person would have to go into expense far exceeding anything they've incurred so far which would, say in District so and so, I'm first, this is my lever, over here, in District so and so, my lever is 21, and over in that Ward, it's 32, and if that were the case, you'd have more people tempted to run just to create a mess. And I think that perhaps, maybe that's design.

Michelle Madoff:

That is a slur against me and I resent it. If you want to slur anybody let us state where the issues are. Who introduces the bill that passes here? Don't tell me how it can't be done, tell me how it can be done. If it was introduced by one of your coomps —

The Chair:

Coomps? He's Italian? Is he one of us? I thought he was a Serbian.

Mr. Stone:

At any rate, I think it's a mess, it will create a mess, and I want it to stay as a mess and I'm not voting for it.

Mr. Flaherty:

Mr. President, perhaps we should try to get the public into the idea of voting for a name instead of a number.

The Chair:

Yeah, I know what you mean.

Mr. Stone:

We're all going to save that Democratic Party.

Mr. Flaherty:

We may accrue more in that regard. But I'm aware that, for example, four years ago when they had the elections for State Committee, this was in 1978, and I believe this was the only time that for a State Committee race they had two lines. And I would just want to say that in my opinion, the problems of having an unfair position on the ballot aren't so much your position as long as you're on one line. But I believe you do run into problems when you have two lines because there is a break. There's about an inch and a half break between those two lines and being on the second line, I am sure puts a candidate at a very unfair advantage. And as I said in the State Committee race, this was in the 38th Senatorial District, there were six candidates on the top row and six candidates on the second row. And the entire top row won. There were six openings on State Committee, in fact, I believe that Councilman Givens was a candidate in that race and I'm sure that he can attest to this. The entire top row won and there was a disparity of over

4,000 votes between the first and second row regardless of the party endorsement. There were two candidates that were endorsed, but they were on that second row. So I think that's a clear indication that almost, per slot, the first slot on the first line comparing to the first slot on the second line and on through the sixth, the disparity was almost the same. They were all over 4,000 votes. So I think that's a good indication and I believe that we should make our electoral system as fair as possible and as you have said, Mr. President, a lot of it is chance, but if we can reduce that element of chance even more, I think we are going in the right direction.

Michelle Madoff:

Let's face it. Some of us are going to be running next year, and of course those who aren't running should care — what happens is, and I will tell you personally, I ran as a Kennedy delegate in the third row, didn't know I was there. And I think I have a fairly good recognition of the City. If the polls are strong I have the same recognition, in many factors, as the Mayor. But the point is, when you get down to the third row, it isn't fair to whoever's on that first row. Had I been in the first row I would have won. On the third row you don't make it. And I think there's a distortion here. The distortion being the greatest face of the candidate will be put to you. He'll have his say. That his ballot is so and so, this number, and when he's in this ward he's going to b.s. What you do is say, "I am running, look for my name. If you think I'm good vote for me. This is what I stand for. Not a number, but a name and an identity".

The Chair:

Did Kennedy know you were running, Michelle?

Mr. Flaherty:

Michelle was not the only person that I'm aware that has high name recognition. I know that Speaker Irvis ran and he was also caught on the third or fourth line and he was extremely low in the voting and that is certainly not indicative of his name recognition or support in this City.

Michelle Madoff:

Mr. President, one last comment. I had spoken to someone, the people in the Democratic Party about this and there seems to be a reception to looking at it. The bill doesn't say do it. The bill says look into it.

Mr. Givens:

I'm going to vote no on this bill. I was third from the end when I ran for Council a couple of years ago and I seemed to have won regardless. I think if your name is out there and people like you and your policies and how you vote, that they'll seek your name out. I think it's very difficult for even a young aspirant to run and have different numbers throughout the voting machine. It's tough for him to advertise if he has a small budget. So I'd rather keep it in accordance to the lottery system and sometimes you win out, sometimes you don't.

No. 648 WHEREAS, the United States Government has officially sanctioned the establishment of the South African consulate in the City of Pittsburgh; and

WHEREAS, on March 25, 1982, the Pittsburgh Human Relations Commission heard three hours of testimony from concerned citizens condemning the presence of this consulate here; and

WHEREAS, South Africa's exploitation of its black population by its white minority is an affront to the cause of civil rights, a principle that is the foundation upon which this Country is built; and

WHEREAS, the City is experiencing increasing outrage toward the consulate with numerous chanting demonstrators picketing in downtown Pittsburgh, thus presenting a threat to the safety of our citizens.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, hereby transmit to the President of the United States its opposition to the presence of the South African consulate in the City of Pittsburgh on moral, ethical, and

political grounds, and in the interest of the safety of our citizens, strongly urge the President to officially close down the South African consulate in our City.

The Chair:

Stretching the point further, the demonstrations that are going on today and they may go on indefinitely, are hurting the businesses in that area tremendously and the other is that we've had great relations, race relations in the City of Pittsburgh, and this may endanger or jeopardize it and that's why I thought we should have a resolution urging the President to close that consulate.

MOTIONS AND RESOLUTIONS

Mr. Robinson presents

Bill No. 685 WHERE Pittsburgh has produced numerous sports personalities, outstanding athletes, internationally recognized champions and

WHEREAS, World Champions World Championship teams have punctuated the sports history of Pittsburgh; and

WHEREAS, professional kickboxing has gained in status, substance and international recognition; and

WHEREAS, Pittsburgh is the home of Jacquet Leslie Bazemore, a World Champion Kickboxer, and former World Champion; and

WHEREAS, his accomplishments have been an inspiration to our youth, a credit to our City, and an inspiration to those who aspire to excellence.

NOW, THEREFORE,

BE IT RESOLVED, that this Council, on behalf of the citizens of Pittsburgh, do recognize and honor the accomplishments and deeds of Jacquet Leslie Bazemore, the 3rd Ranking Kickboxer in the World.

Robinson moved to adopt the resolution.

Givens seconded the motion.

Whereupon the motion prevailed.

Chair:

Who wants the chance to have the match with this guy? Anybody want to see? Bill you got it.

Flaherty:

Mr. President, I have a point I want to address Council on. In regard to having Paul Imhoff appear for the post agenda, hopefully on this coming Tuesday. And could we also have a representative from the Pennsylvania Department of Transportation. Why I am bringing this for the post agenda — it seems to me to be a classic case of Catch-22. I don't know if you are all aware that construction has started on the bridge house that originally caused the fire on the 62nd Street Bridge which has now been closed for close to a year. It is only now that PennDOT is in the process of awarding a contract to repair the

bridge. And just to digress, the bridge was caught on fire due to a fire that occurred at a warehouse that was under the bridge. And this is the second time that a warehouse under that bridge has caught on fire. Approximately twelve years ago the bridge was closed for three or four months because of a fire, and the cost to the taxpayers was over a quarter of a million dollars. Unfortunately, the estimate to repair the bridge now is at least one million dollars and from a report that appeared in the Press on March 28th, it says that the City has once again granted the building permit to this warehouse to start construction again. And it's my understanding from calls from people who reside in that area that the warehouse has started construction and I find it a great irony that the warehouse which started the fire, which incidentally, according to the Chief of the Bureau of Fire Inspection, says that it was arson, but incidentally, the warehouse is starting construction again and there has been no construction started on the bridge yet. The reason I want Paul Imhoff to come in is to answer certain questions why this permit was granted and what questions were asked of this warehouse because, from reports that I have read in the paper and with individuals I have talked to, the owners of the warehouse refused adamantly to put up any funds for the repair of the bridge. In fact, they even refuse now to carry any insurance coverage that would mitigate any cost if the bridge should catch on fire again. In fact, the contractor that has to repair the bridge has to carry an insurance clause in case construction on the bridge should affect the warehouse. It seems to be quite a snafu and I think it's something certainly this Council should be checking into because, as I'm sure we're all aware, the 62nd Street Bridge is a major egress center to the eastern corridor of the City from the North Side, and this bridge has been closed for close to a year now,

and who knows how much longer, so it's cause a great inconvenience plus there's the real question of a safety hazard. There have been two fires in the past twelve years. What is to prevent another fire from occurring?

It's also my understanding there seems to be conflicting statements coming from PennDOT. First that state law requires that a warehouse, even if they own the property, cannot construct under a bridge. So I would like to have Paul Imhoff in regard to this situation and also a spokesman from PennDOT.

The Chair:

Mr. Flaherty, your point is well taken with one exception. We have a rather full agenda this Wednesday. I wonder if we could hold until the following Wednesday. That will also give us more time to get these people from PennDOT here.

Mr. Flaherty:

Fine.

Mr. Givens:

Mr. President, I'd ask that that list be expanded just one more, or possibly two. That is to have our Fire Department present, and secondly, I'd like our Zoning Coordinator to be present, Jim Brown. I'd asked the same question, if you can recall, Tom, in regards to the Bloomfield Bridge. Now we tore down the old bridge. That bridge had major structural problems back when I was a young lad, and they had an old salvage place burn down there. There's a plant underneath there, right adjacent to it, that some major construction will be forthcoming. When we went to appropriate money for the piers and that for the bridge, I wondered if some way, that any company or any structure

underneath any of our major bridges were in fact, if the structure caught fire, a total involvement type fire, could we do something about it. My question was, could we force the people who have properties underneath our bridge, could this Government, either the City of Pittsburgh or the State, help them upgrade their facilities to a point where they could have, say, sprinkler systems throughout their building. In case they were involved in a fire, they would have at least a standpipe there and possibly put that fire out before it got to a point where it was uncontrollable. Especially in some of the goods that are stored in some of these warehouses. If they are a petro nature or one of an explosive nature, or one where there is a high burning content, high heat energy generated from what's burning, I think there should be some control as to what is stored underneath our bridges or warehouses going to have a repeat. I agree with you.

Mr. Stone moved to excuse Michael Madoff for absence from the meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Woods moved to approved minutes from Monday, March 29, 1982.

Mr. Robinson seconded the motion.

Which motion prevailed.

and on the motion of **Mr. Woods**

Council adjourned.

REPORTS OF COMMITTEES

Mr. Stone presented

Bill No. 713

Report of the Committee on Finance for April 7, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 490

Resolution entitled, "Resolution providing for an Agreement, or Agreements, with a professional financial adviser for professional services in connection with independent financial advise to the City of Pittsburgh for management of the City's fiscal affairs; and providing for the payment of the cost thereof."

Which was read.

Michelle Madoff:

On Bill No. 490, the first bill, I vote no. I have some great concerns about the advice we have to borrow the seventy million dollars. I had a list from each department head attesting to what those projects would be used for. The money now is not going to be used for those projects. They were emergencies

that were ready to go and ready to start. We also have Eazor bought out of that seventy million dollar bond and at the moment that seventy million dollar bond is being paid back at two hundred and seven million dollars. I don't think that's good fiscal advice. What we're really saying -- are we getting another lobbyist-type, and I cannot vote for that. I vote no.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

Also,

Bill No. 630

Resolution entitled, "Resolution providing for an Agreement or Agreements with Warner Cable Corporation of Pittsburgh to provide selection testing services and classroom training for eleven (11) CETA participants for the position of Cable TV Service Technician and providing for the payment of the costs thereof."

Which was read.

Michelle Madoff:

I vote no on Bill No. 630, which is the Warner Cable bill, and my reasons, as I stated previously, and I'll try to be succinct, is that when the four bidders, they were all good companies, bid on that contract, TCI, which I believe was involved with the Post Gazette, without knowing if they were going to get the contract, went out and set up a school to train installers.

It is true that we need jobs and it is true that people who get through this course will in all likelihood have jobs, but there's so many other avenues working with Renaissance II and with the Mayor and some leadership that we could have other jobs using that valuable dollar, to train people, the CETA dollar, that I would like to see Warner pick up its own marbles. I don't want to treat them like a charity or underwrite them. If ITC could do it and lose the contract, certainly Warner could afford to train its own people. That is not where our money should be used. When I say our money, I'm talking about discretionary dollars, even if they're federal dollars. Those dollars should be used to train people in other industry jobs.

There was a very good article in the Sunday paper about industry getting in and really trying to help. And that where we could have some kind of a liason where these dollars could be used to generate jobs picking the best and the brightest and having some other opportunities, not saying, "Well the only jobs we know are Warner, therefore, we'll go along and train them." I really have some great problems with that.

Mr. Stone:

Mr. President, if I may. Relative to that financial advisor, he does not determine how your going to spend the money or if you'll spend it. City Council determines that. Relative to his ability, as I had seen it, to get the best advantage for the City of Pittsburgh, at the time we had some financial needs, I find this man of the highest caliber and support 100% this particular contract. We are asking for talent. This man has it and he has shown evidence of it and I think it's in the best interest of the City that we continue.

Michelle Madoff:

Is that Mr. Katz we're talking about?

Mr. Stone:

Yes.

Michelle Madoff:

Well, I think Mr. Katz advised us very imprudently because we had enough money that we could have held off until a better market. We should not have gone out on the bond market at all. We should not be out at all. And I know you're going to answer by saying they're project that have to be done, but there was money sitting on other projects that we could have used. I think he's a bad advisor.

Mr. Givens:

On Bill No. 630, I made comments at last Wednesday's session that I'd like to be brought forward in regards to this particular bill and comments referred to by Michelle Madoff and my personal feelings on this particular matter.

I think what's being done here is going to compliment the City of Pittsburgh and the technical expertise that this new industry is going to need here within this City and other cities throughout the country.

(BEGINNING - MR. GIVENS' REMARKS ON BILL NO. 630 FROM WEDNESDAY, 4/7/82)

Mr. Givens:

Mr. Chairman, my point is that we use the money for exactly this purpose. I mean, there are many industries and corporate organizations where we send people to receive CETA training, etc.

There's one other exception that I

can think of in this particular area. There are no people in this country trained in cable television repairs, etc., where this computerized system that we have down there. If we don't train them, we're going to have to haul them in from some other area of the country. So, this is, I feel, a most worthy training program for the people of the City of Pittsburgh. We're employing generally our own people and I have to appreciate, Michelle, yes, we might have some people come over from Bell Telephone and other areas, but they are still unemployed and if we look at our unemployment record today, anything we can do to help our own people out is to our advantage.

(END - MR. GIVENS' REMARKS ON BILL NO. 630 FROM WEDNESDAY, 4/7/82)

Mrs. Masloff:

I want to add to that, Mr. President, I don't see any other companies coming forward and offering to put people on after they've been trained. It's been said here many, many times that all CETA trains are gophers, but in this instance, they're trained for jobs and they're promised jobs and given jobs and that's more than any other company has promised.

Michelle Madoff:

I don't disagree with that Councilwoman Masloff, but I do believe with limited CETA dollars, if we could get our major corporations to make a commitment to train other people and guarantee supervision and jobs, I think that would be a better use of our money than subsidizing and underwriting Warner Cable.

Mr. Stone:

I'd just like my remarks on that subject brought forward from the Wednesday meeting.

(BEGINNING - MR. STONE'S REMARKS ON BILL NO. 630 FROM WEDNESDAY 4/7/82)

Mr. Stone:

The federal program is designed to train people, hopefully, for employment. This thing is geared to train someone for a job. The job is there and I think every minute we spend talking is denying that person training and hopefully an earlier paycheck.

(END - MR. STONE'S REMARKS ON BILL NO. 630 FROM WEDNESDAY 4/7/82)

MOTIONS AND RESOLUTIONS

Mr. O'Malley presents

Bill No. 719 WHEREAS, April 19-23, 1982 is National Victims Rights Week; and

WHEREAS, the rights of the criminals have been scrupulously protected by the Courts while the rights of the victims have not been protected; and

WHEREAS, on the last day of the week, Tri State is holding a hearing on a kiddie porn bill, thus emphasizing this group most victimized by crime; and

WHEREAS, just prior to that week, there is going to be a moot court rape trial on April 15th.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Council of the City of Pittsburgh declares the week of April 19-23, 1982 as Victims Rights Week in the City of Pittsburgh and reminds every citizen of the particular powerlessness children and women have as victims.

Mr. O'Malley moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. O'Malley:

Mr. President, Miss Cozey is here to accept the resolution. I'd like to have her say a few words.

Pam Cozey:

Good afternoon. In a country where crime is really prevalent and part

of daily life, a growing source of fear and destruction, it's really disturbing that most of us not been really much more sensitive to the rights of the victims who suffer from the direct consequences of that crime.

I would like to thank City Council and the Mayor for declaring the 19th-23rd Victims Rights Week. It shows your continuing concern and support for the efforts on behalf of victims.

What I'd like to do now is read to you a brief bill of victims' rights that has been introduced in the past and the State Legislature has not passed, and we hope to introduce it again. It's very short.

"Victims and witnesses have a right to protection from harm and intimidation;

That victims and witnesses have a right to be informed concerning the criminal justice process;

That victims and witnesses have a right to counsel;

That victims and witnesses have a right to reparations;

That victims and witnesses have a right to preservation of property and employment;

That victims and witnesses have a right to due process in criminal court proceedings;

That victims and witnesses have a right to be treated with dignity and compassion."

These are things, I think, we all assume are part of the criminal justice system. They are not. They really need to be spelled out in the law.

Once again, thank you for your support. By the way, the moot court is going to be held at the University of Pittsburgh April 15th at 8:30. I invite you all to attend.

Michelle Madoff:

Why was the bill not passed previously?

Pam Cozey:

The bill was not passed previously, I think, because it really didn't have state-wide support and the rights that I just read you really need to be spelled out in, I think, a much more detailed manner than they were in the original bill.

Michelle Madoff:

And you've done that now and you have more hope for the bill passing?

Pam Cozey:

It hasn't been introduced yet.

Michelle Madoff:

But has it been spelled out more? You've flushed the bill out better? And the language is better?

Pam Cozey:

Yes, I think so.

Michelle Madoff:

And you have some more support from the Legislators, do you have a feeling of support?

Pam Cozey:

Some strong support from individual Legislators, but, we don't seem

to have a real ground swell right at the moment.

Michelle Madoff:

What we really need to do is let the public know who does and does not support that kind of legislation. I suggest that through auspices of the media and some of the talk shows, you better get that word out.

Pam Cozey:

Thank you all.

The Chair presents

Bill No. 720 Resolution approving the re-appointment of John Buckley as a member of the Pittsburgh Equipment Leasing Authority for a term to expire July 16, 1986.

Mr. Woods moved for adoption of the resolution.

Mr. O'Malley seconded the motion.

Which motion prevailed.

The Chair:

Ladies and gentlemen, you're all well aware that we lost our Assistant City Clerk and the position has been vacant for some time. I would like to call for a vote at this time to replace the late Billy McCray. Nominations are open to replace that job.

Sophie Masloff nominated Linda Johnson.

Mr. Stone seconded the motion.

Michelle Madoff nominated Carroll Conway.

The Chair:

Is there a second on Carroll Conway? I don't think you need a second on a nomination anyway.

Roll call vote. We have two nominees -- Linda Johnson and Carroll Conway.

Michelle Madoff:

Mr. President, is it in order to have discussion at this time or not?

The Chair:

Certainly discussion is in order.

Michelle Madoff:

I gave my word to Carroll because she's had twenty three years with the City. She's very frustrated. She's been passed over many times and that was why -- I think the job is relatively, I don't want to say simple, but it's a type of job that most people with a fair amount of intellect can do. I think that what we do is frustrate other people throughout the City when Council, by example, doesn't promote the people that have been here with us the longest, and therefore, I feel that she should be the person. She's female. Females certainly don't hold enough of the leading jobs and I think she should be the person to do the job. She's capable of doing the job.

The Chair:

Thank you, Michelle. Vote called for.

Michelle Madoff:

I have a little problem, Mr. President. Obviously my vote isn't going to carry because we pretty much decided there are not enough votes for that.

Then we get to the issue of the other alternative, and that is --

The Chair:

Michelle, we have a motion and a second.

Michelle Madoff:

I'm just a little confused. I just want to get something straightened out. It's my fault and I didn't understand how we're going to do this procedure.

Linda is the other vote. Knowing that I do not have enough support on this Council, there are not enough votes for Carroll, then my recommendation will not stand and will be defeated, I would like to point out that we have two people that are going to be promoted to two jobs that are vacant. One for Mr. Rush, which you're going to talk about in a moment, and one for the position of Assistant City Clerk. Are we going to take them separately, Mr. President?

The Chair:

We're not going to vote on the other job anyway. We're voting on the one job.

Michelle Madoff:

Why is it not necessary to vote on the other job?

The Chair:

Because it isn't proper to vote on it.

Michelle Madoff:

You mean we just appoint without nomination?

The Chair:

Right.

Michelle Madoff:

Well then I better finish my comments. Since there seems to be a majority vote to support and promote Mr. D'Alessandro and Linda, it would appear to me that those roles should be reversed because I think Linda with two years background of college would stand a better job of picking up a very serious role in the area of dealing with Mr. Ed Albert in the Capital Budget. Mr. Albert informs me that he had a number of years of training, including two years of college, in engineering and in construction. And I think we would all agree, if we had our druthers, and my position would be that we should have somebody in that department with experience.

That sort of puts me in a very funny position because, in retrospect, I think if I had to choose between Linda and Mr. D'Alessandro for the position of Assistant City Clerk, I would have to pick, if that were the only job available, Linda because she's female and a minority, and I think they have not had the opportunities for promotion.

Unfortunately, I think that of the two, Linda would be, perhaps, better suited to work with Mr. Albert and Al D'Alessandro would be better suited to stay where he is working today. He has been pinch-hitting.

So I have a great confusion with this, I really have great misgivings about it. I think we're going to have some problems. If anything, God forbid, happens to Eddie Albert, if he should quit or get ill, we're going to be in a bind. And I know that the feeling is that we're just going to assign somebody and see if

it works out. But I think we just can't take the chance that at the last minute we go into budget hearings and we don't have that information that we need.

The Chair:

Your comments are well noted and --

Michelle Madoff:

The vote we're voting on right now is only Linda, is that it?

The Chair:

Yes.

Michelle Madoff:

Well, obviously I'm going to withdraw my recommendation. There are not enough votes for her. I have nothing against Linda. I think she'd very competent.

The Chair:

Is there any further discussion on the appointment?

And on the question, "Shall the appointment pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Michelle Madoff	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

AYES 8

NOES none

And a majority of the votes of Council being in the affirmative, the

appointment passed finally.

The Chair:

Linda Johnson is the new Assistant City Clerk.

Mr. Stone moved to approved the minutes from Monday, April 5, 1982.

Mr. O'Malley seconded the motion.

Which motion prevailed.

And on the motion of Mr. Woods

Council adjourned.

Municipal Record

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Monday, April 19, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Michelle Madoff	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

ABSENT:

Mr. Givens

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

Normally our first order of business is the presentations of papers, but we'll dispense with that for the time being for the very pleasant job of swearing in a young lady as the new Assistant City Clerk.

Linda Johnson, I wonder if you'd come up here, please, and we'll officially swear you in as the new Assistant City Clerk.

Do you solemnly swear, Linda Johnson, that you will support the Constitution of the United States and of this State and the Charter of this City, and that you will faithfully discharge the duties of office to the best of you ability?

Linda Johnson:

I do.

The Chair:

Congratulations, Linda.

Linda Johnson:

I would just like to say thank you to everybody. I'm very nervous right now and I don't mind saying it.

First I want to thank all those who supported me. Mr. Fielder, and all the black Ward Chairmen. Thank you very much. Councilmembers, Mr. Flaherty, Mr. Givens, Michelle Madoff, Mrs. Masloff, Jim O'Malley, Mr. Robinson, Mr.

Stone, Ben Woods and Mr. DePasquale. My family, I thank them, also, for going through this with me and for supporting me. I'd like to, also, recognize those who are in the room here. All the Committee Members from the 12th Ward, Edith Gloster, Tommy Martinelli, Tom Adams. I also see Mrs. McCray in the room. Thank you very much for being here. I'd like to also recognize Judge Little and, of course, all the black Ward Chairmen, Joe Parker, Zack Winston, Frank Williams, Director of Supplies, Eddie Tibbs, J.P. for the 12th Ward, Justice of the Peace, excuse me for the initials there, and everybody. Thank you very, very much.

If I don't call names, please excuse me, I'm very nervous right now, but I intend to do my best for City Council and representing the City also. And, also, to represent the women, the women's position in this. Thank you very much.

The Chair:

As I said earlier, it certainly was a pleasure to swear Linda in, but obviously, whenever there's good tidings, there's bad news, and the bad news is we lost the long time Assistant City Clerk and a great friend of all of Council of the City of Pittsburgh, Billy McCray. I understand Mrs. McCray is here. I wonder if Mrs. McCray would stand and take a bow. Also, the Director of Supplies of the County of Allegheny, Frank Williams. Frank, stand up. I see Magistrate Little in the back. Magistrate Little, would you stand and take a bow, please. Eddie Tibbs, our County Paymaster, Eddie will you please. There's also a young gentlemen here that's running for State Legislator from that area, Mr. Preston, would you stand and take a bow. I see Bill Robinson's uncle, Hubert Smith is here. Isn't that Hubert next to Tommy

Adams? I'm sorry. I thought that was Hubert. Otis Lyons, and Secretary from the 6th Ward, Otis. Jim Wade, Pete Joyce's right hand, Jim Wade, and the one guy the whole County couldn't do without, Lukie, Lukie Owens. And this other guy, he used to be a friend of mine years ago, but he says he's not allowed to talk to me anymore because Doc Fielder said so, Tommy Martinelli. I believe Linda introduced her family and we have one other, we'll save it for the last, the kingpin himself, Doc Fielder.

Glad to have all of you here, believe me.

Which was read.

Michelle Madoff:

Councilman Woods, do you know
whether this is for special equipment? If
memory serves me well, they needed
some particular equipment that is only
indigenous to a law office. It's not desks
and tables, is it?

Mr. Woods:

It's furniture. Just what it says,
furniture.

Michelle Madoff:

Well, I asked the question once
before.

Mr. Woods:

Well, I'm giving you an answer. If
you remember when it came up in
Committee, you asked the question, why
couldn't he go out and buy used furniture
and he told you that if he wanted used
furniture he'd keep it. He wants new
furniture. That's what this is for. New
furniture.

Michelle Madoff:

May I respond, Mr. President?

The Chair:

Certainly.

Michelle Madoff:

When I asked the question originally, I was told there was some special files that they needed for setting up some special equipment in the Law Department. As such, I was willing to, of course, let the Law Department get what it needs. I still maintain, while it's very funny for the crack to be made, if we want old furniture, we keep what we have. We don't need new furniture. Unfortunately, as all of us are only too well aware, there are so many business going bankrupt, even brand new companies that have expanded new offices that are going into bankruptcy. There are several steel mills that have just put in brand new equipment, that have brand new offices with brand new thousand and two thousand dollar desks that can be bought on twenty cents on the dollars, so that certainly the equipment would be acceptable to the finest taste and certainly acceptable to our office of the Law Department. I just think it's important to point out that we've got to look at alternative sources of revenue and saving money, biting the bullet in this Council. One of the ways we can do it is to go out and buy, somehow or other, set up a mechanism. I've talked to the Supplies Director, Larry Yatch, I'm talking to Richard Cosentino, he's going out with his experts now to look at some backhoes and some other equipment that he needs. He's so short of equipment that if we could buy three pieces second hand as opposed to one at the original price, we could get a lot more work out of our men and certainly I see no reason why, if we could buy for twenty cents on the dollar equipment for our Law Department we ought to be buying it new.

And of that case, I'm going to vote no when my turn comes. Thank you.

The Chair:

Is there any further discussion of the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

AYES 6 NOES 2

(MICHELLE MADOFF AND MR. ROBINSON VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mrs. Masloff presented

Bill No. 785

Report of the Committee on Parks and Recreation transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 662

Resolution entitled, "Resolution providing for the letting of a contract of contracts, or for the use of existing contracts, for the furnishing and delivery of Stump Cutter for the Department of Parks and Recreation and for the payment thereof."

which was read.

so,

Bill No. 663

Resolution entitled, "Resolution providing for the letting of a contract or contracts, or for the use of existing contracts, for the furnishing and delivery of a Grimmer Schmidt Compressor and a Line Paving Breaker for the Department of Parks and Recreation and for payment thereof."

which was read.

so,

Bill No. 664

Resolution entitled, "Resolution providing for the letting of a contract or contracts, or for the use of existing contracts, for the furnishing and delivery of a Asplundh Chipper for the Department of Parks and Recreation and for the payment thereof."

which was read.

Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken respectively to law, and were:

es:

Mr. Flaherty	Mr. Robinson
Michelle Madoff	Mr. Stone
Mr. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale
	(Pres't)

AYES 8

NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Also,

Bill No. 665

Resolution entitled, "Resolution providing for the letting of a contract or contracts, or for the use of existing contracts, for the furnishing and delivery of an Intermediate Turf Tractor for the Department of Parks and Recreation and for payment thereof."

Which was read.

Michelle Madoff:

On Bill No. 665, I'm going to vote no for the same reason. As you know, when we Mr. Natoli here he explained that on the other items that the Parks and Recreation Department has requested, we can't buy second hand because they're not readily available, they don't come up for sale. But certainly, I believe this is a grass, a turf tractor. There are a lot of corporations that are going bankrupt who have turf tractors that would love to sell them to us for twenty cents on the dollar.

And on that basis I'm going to vote no, but I also want to point out that I have the prettiest office in this Council. I moved out of Chambers, and I'm in the hallway. I don't have some of the benefits of having people kept out and people being buzzed in, but my lamps were bought at the lowest possible price. They were bought on sale. They went out to bid to see if they could beat the sale price and they couldn't. I bought two chairs which are very attractive, and they were bought at the lowest bid because nobody could beat the sale

price. I have two of the cheapest desks you can get. Typewriter desks. We both type in our office so that we do a lot of our work. And all I'm saying is that, when you have to spend money for a typewriter, you have to spend money for a piece of equipment, fine. But when we don't have to do it, Lord knows, I think Councilman O'Malley has made a heroic effort to try and get us some space, and I think that's really more important than going out and buying some of this equipment that I think we ought to be --

Look at your office, Mr. President. It is not pretentious at all. It is an old sofa. You have a simple desk, it's not gaudy. You haven't gone out and got the finest. You don't look like U.S. Steel's President of the Board, do you? And I see no reason why other departments can't take an example, perhaps, from you sir. And I will vote no on this one bill. Bill No. 665.

The Chair:

Is there any further discussion on the bill?

MOTIONS AND RESOLUTIONS

J. O'Malley presents

Bill No. 787 WHEREAS, small business is the backbone of the American economy; and

WHEREAS, when small businesses are destroyed, the ripple effect hurts the entire economy; and

WHEREAS, independent service stations are one of the best examples of all business; and

WHEREAS, their independence is being threatened by the oil companies taking them over; and

WHEREAS, several states, including Maryland, have enacted divorce legislation to protect the independent service stations; and

WHEREAS, there are bills in both the Houses in the State Legislature on divorce.

NOW, THEREFORE,

BE IT RESOLVED, that we of the Council of the City of Pittsburgh urge the House of Representatives to pass HB #426 and the Senate to pass SB #1226 which would mandate divorce in this state.

Mr. O'Malley moved to adopt the resolution.

Mr. Stone seconded the motion.

Mr. O'Malley:

I'd like to make a comment on this, Mr. President. First of all, I would urge the passage of this resolution, and I know there's a lot of concern on this Council for the survival of the independent dealers. Many of them are caught in a dilemma because the oil companies are forcing them out of business and some of the oil companies are trying to monopolize the market and as we all know, an independent dealer or even their association is no competition or no match for a large oil company.

In Pittsburgh, our dealers are caught in a Catch-22 situation. Many of them are afraid that if we go to self-service gas stations, like the legislation I proposed, that the oil companies will force them out of business. I have a petition with over fifty percent of the independent dealers in the City of Pittsburgh that they're afraid that if we don't go to self-service, that they'll be forced out of business by competition by

the suburbs. The only way to protect the dealers and resolved this situation would be to work with our State Legislators and our State Senators for enactment of a devorcement bill.

What the devorcement bill means, is that any oil company or any company that distributes oil products in the state of Pennsylvania would not be allowed to own a service station. I feel that if this resolution and this bill is passed by the House and the Senate, that the argument in Pittsburgh, whether we should go self-service or not self-service, would not be important because what we would be doing in reality is protecting the dealers from the oil companies. As it is now, we have the dealers fighting each other. That shouldn't be the case.

So I urge the passage of this resolution.

Michelle Madoff:

Mr. O'Malley, what are the chances of this bill passing?

Mr. O'Malley:

The hearings are going to be set, I think May 4th the hearings start on this bill. Every dealer, including the ones in Pittsburgh who are against self-service and the dealers that are for self-service, both of them agree on this devorcement bill. This is one place where they're united.

There again, they're fighting big oil companies. They're fighting big money.

Michelle Madoff:

I'm not arguing, I'm asking what the chances are that it will pass.

Mr. O'Malley:

I would like to see it pass. I've been working very hard to pass it.

Michelle Madoff:

I think we all would, but what do you think the likelihood of it passing would be?

Mr. O'Malley:

I have no idea.

Michelle Madoff:

The reason I asked is, I have no problem with supporting the bill, I didn't know what the word devorcement meant. Having just gone through one, I thought maybe it was similar. Are they going to separate?

Mr. O'Malley:

They separate the oil companies from the --

Michelle Madoff:

I wondered. I though I had the same kind of thing. But I have no problem with this, but I think the confusion among the rest of us --

I always like to give everybody a little giggle. Would you like a poinsettia down at the other end? Listen, I'm giving up poinsettias as my -- you've heard of the national flower and the local flower, mine is the poinsettia.

The thing I'm concerned is that really, while this is very worthwhile, Councilman O'Malley, and I certainly think, I don't know why anybody would not support protecting the small businessman, I still think we really run

to the big issue, and I hope you won't back off of your position, because I have been doing some research, too, with the individual gas station owners. Mine, for example, cannot go to a combination, though he use to have two pumping stations because he was too close to the street and he was shut off. But he feels it's going to make very little difference and the reason he feels it's going to make very little difference is that, there will not be a lowering of prices even if we go to self-service. He thinks it's going to have no impact.

I've also learned some very interesting things -- that most of the money today in gas stations is not being made of the gasoline, but on the service. They've now expanded. Gulf, particularly, has decided that they missed a good bet and they are now pushing for giving full service, meaning fixing tires and doing repairs and inspection, whereas they were sort of discouraging that before.

One of the other bits of information that I learned that I thought was interesting is that some of the marginal stations that are saying, we're losing money and we're selling it to, you know, the one having the price war. I understand a lot of these stations are not making their money on gasoline and that or taking a loss or breaking even, but making their money in the money market. They put their money into money, make it within thirty days and pay their bills, having used their funds to make money.

So it's a much broader picture than, should we go to self-service or full-service. My own personal position is, as you know, and we've discussed it is, there should be a combination of both. I personally don't want self-service. My friends do want it. I know when I lost two tires recently and barely made it

with the rims into two different stations and tipped two different young men five dollars each, as they were both leaving, to fix tires. Somebody fixed my battery. I was grateful to have that station there. On the other hand, my friends want the right to save some money to pay for milk for their kids and I can't deny them that right.

I'm with you on the bill, but I hope this doesn't negate your bill, that you're not going to back off.

The Chair:

As far as lower prices on gasoline, that's a fallacy. There's no lower price on gasoline in self-service stations. That's a big fallacy. You're not going to save any money on self-service stations. There's no such thing as lower prices at self-service stations.

Michelle Madoff:

Well that's what I've heard. That there's not going to be a lowering of prices.

The Chair:

People in the suburbs will tell you that they're paying as much as we are here in Pittsburgh with self-service stations. And neighboring Ohio and West Virginia it says higher, higher.

Mr. Stone:

Mr. President, if I may on this particular bill, I like to separate issues. I think the issue before us is not self-service gas stations. I think the issue before us is one that is a little deeper than that. I don't think everybody totally realizes what the effect of this particular act is. I happen to know of a young man who enters exercising the great enterprise system of America,

develop the gas station, it was nothing, into a very good and going concern, only to have his lease expire and the gas company raise his rent. Not according to the CPI, not according to a reasonable kind of increase, but rather \$1,500.00 a month, which took off the whole benefit of his efforts.

I think the thing that you see here is, that at the present time, if you have a gas station, you need a mechanic if you're going to make any money. You need someone who know what they're doing out in the field and what's behind all of this, if you go into a self-service concept, then all you need is someone to sit at the cash register and ring the bell. Then you take the gas station over and it becomes part of the company, so you wipe out all those people and you reduce, at this time, not only the lack of service, but as well, the ability for somebody to earn a living who heretofore has been doing it.

But I think on this issue, and Mr. O'Malley is correct, this is a common denominator to all of them and I don't think that we should leave it by giving it assist here where they can wipe out totally those particular people who have been working in these stations. I think it's very sensible and that's why I've seconded this motion.

Mr. Flaherty:

Mr. President, I am also supporting the resolution, and I also concur with what Councilman Stone has said, that we shouldn't confuse this resolution with the issue of self-service stations, but I know that earlier Councilman O'Malley seemed to imply that if these bills were to be enacted in Harrisburg, that this would pave or this would tend to loosen the opposition to self-service stations. I spoke with approximately eight independent station

owners a few hours ago and I spoke with them also in regard to these bills that are pending in Harrisburg and they were supportive of the bills in Harrisburg, but they said that it would have no impact and it certainly would have, it would have any influence on them standing strong opposition to self-service stations in the City of Pittsburgh.

Mr. O'Malley:

I'd just like to make a comment on that. I appreciate that Mr. Flaherty took the time to speak to eight dealers. I've taken the time to speak to 46 dealers. The 46 dealers are not afraid of competition from each other. They believe in the free enterprise system. They're afraid of competition from an oil company, where an oil company has to sell them the gas at a dollar and sell it to their competitor for ninety or ninety-five cents. The dealers that I've talked to, if this devorcement bill would go through, would still be in favor of self-service for the City of Pittsburgh because they feel they have the right to choose. Many of them just want to go to a split island where they'll have a full service island for the handicapped and people who don't want to pump their own gas and they also want to have self-service for those of the population that are on a fixed income or on a budget and saving eight cents a gallon of gasoline means a lot of money to them. So most of the dealers I've talked to just want the option to go to self-service because they want the choice to provide self-service and a full service at the same station.

The Chair:

Rather than disparity between you and Mr. Flaherty or anybody else here, as Mr. Stone said, really what we're voting on is something entirely separate from self-service. Once the bills are passed in Harrisburg, if these dealers then say the

nt it or don't want it, that's something
e. But I have to agree with Mr.
aherty to the extent that I haven't
lked to one dealer in the City of
Pittsburgh that wants self-service. I
n't dispute with you that the 46 have
d you so, but they haven't contacted
e.

c. O'Malley:

I just gave you a petition.

Chair:

But they haven't contacted
ybody yet. The other guys have.

r. Woods:

I agree with Mr. Stone and Mr.
aherty. Let's separate the issues.
e'll hear the vote on the resolution on a
vorcecement bill and I call for the vote.

Chair:

Is there any further discussion on
e bill?

And on the question, "Shall the
l pass finally?"

The ayes and noes were taken
reeably to law, and were:

es:

Mr. Flaherty	Mr. Robinson
Michelle Madoff	Mr. Stone
Ms. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale
	(Pres't)

YES 8 NOES none

And a majority of the votes of
ouncil being in the affirmative, the bill
assed finally.

The Chair presents

No. 788 WHEREAS, on March 30,
1982, the City Council of Pittsburgh held
a hearing on the effects of a nuclear
attack upon the City; and

WHEREAS, the unanimous opinion
of physicians who testified was that a
nuclear attack would destroy the City
and immediately kill or seriously injure
most of its citizens; and

WHEREAS, radioactive fallout
and other environmental effects would
contaminate or destroy the air, food,
water and other life-sustaining resources
in a wide area surrounding Pittsburgh and
thereby lead to radiation sickness,
malnutrition and epidemic infectious
disease in survivors for months following
attack; and

WHEREAS, medical facilities and
personnel would be helpless to aid the
overwhelming numbers of ill and injured
immediately and in the months after
attack; because hospitals, health workers
and supplies would be destroyed both in
Pittsburgh and, simultaneously, in the
numerous other U.S. cities; and

WHEREAS, nuclear war is
mutually suicidal for participants, and
portrayal of it as winnable or survivable
in any degree is dangerous because it
fosters false complacency and obscures
the catastrophic consequences of nuclear
attack.

NOW, THEREFORE,

BE IT RESOLVED, that this
Council urges President Reagan and
Pittsburgh's federal legislators to initiate
negotiations between the United States
and the Soviet Union and other nuclear
powers to mutually and immediately
freeze development of additional nuclear
weapons and to mutually and eventually

dismantle all nuclear arsenals, for the future of mankind.

The Chair:

If I may, I understand that the two words "at paraty" have been scratched out, so therefore, if we get a motion to amend --

Michelle Madoff:

Motion to remove the two words. As Mr. DePasquale and I were just discussing, you can be wiped out with one atom bomb, you don't need twenty.

Michelle Madoff moved to amend Bill No. 788 by deleting the words "at paraty".

Mr. Robinson seconded the motion.

Which motion prevailed.

Mr. Stone:

Mr. President, I have another amendment, if I may.

Michelle Madoff:

Could we deal with this one first, Mr. Stone. At paraty. Do you want to vote on this? Do you want to vote to remove those two words?

The Chair:

We're under discussion. Are you discussing at all?

Mr. Stone:

No, I'm assuming that we're taking those two words out.

Michelle Madoff:

Let's vote on taking the two words

out.

Mr. Stone:

I just want to add some more things in the amendment. If you want to separate them, go ahead.

Michelle Madoff:

I'd like to separate them, please because --

The Chair:

Wait a minute. Mr. Stone has the floor.

Michelle Madoff:

Mr. President, we just want to get those two words out, then we'll go on.

Mr. Stone:

Take out "at paraty". I was going to take it out anyhow.

The Chair:

Okay, we okayed the amendment.

Mr. Stone:

Okay, now I want to make an amendment. I'm assuming now the two words "at paraty" are taken out. Here's my suggestion. Originally the way there was an attempt to make these kind of resolutions I didn't agree with, but what here I think we can make this kind of for everybody. Let me just say this at the outset. Anyone who is for war, let alone nuclear war, has got to be an idiot. But I think that sometimes with good intentions we tend to try to tell our Government in Washington, who has superior knowledge than we, that the ought to do this or that to which I find problems. In addition to that, telling

mebody to do something unilaterally and hope that the other will do the same. I'm not so sure I subscribe to that kind of theory. It's like, your friend, you're holding his arms while the other one is kicking a couple of punches at you because nobody is holding onto them. I think that it needs that kind of understanding, but the kind of basic thought that exists. I'd like to make the following amendments and I think that perhaps it should be able to fly.

I'd like to remove the first "be it resolved" completely.

Michelle Madoff:

What is it you'd like to take out, Mr. Stone?

Mr. Stone:

The first "be it resolved".

Michelle Madoff:

There is no protection against nuclear attack for the citizens of Pittsburgh other than preventing the —

Mr. Stone:

I don't care how many times you read it, the first "resolved" I'd like to take it out.

Michelle Madoff:

Well since you didn't understand we were voting on the last two words, I thought I should ask you to clarify. Thank you.

Mr. Stone:

Then change the second one to read as follows:

Be it resolved that this Council

urges President Reagan and Pittsburgh's federal legislators to initiate negotiations between the United States and the Soviet Union and other nuclear powers to mutually and immediately freeze development of additional nuclear weapons and to mutually and eventually dismantle all nuclear arsenals, for the future of mankind.

The Chair:

I have no problem with the last paragraph, but the "now, therefore", you say drop "be it resolved". "Now, therefore, that there is no protection ...". Why do we drop "be it resolved"?

Mr. Woods:

You have two of them in there.

Mr. Stone:

I'm just taking the first "resolved" out. I don't want to play with the thing, but you can. If you're lucky to get to the other one before he gets to you, it makes that one not so. I don't want to argue that thing. I think what we're after is an attempt here to get the superpowers to settle on what's out there and I'm trying to find something that will fly.

Michelle Madoff:

Mr. Stone, would you clarify why you want the first "be it resolved" out?

Mr. Stone:

As I just got done saying. If you get to the other one before he lets his off, it could make this an error, and I don't want to play with that thing. I think what we're after is to get the powers to be to look for a mutual effort for disarmament and that is laudable. And that's all I'm trying to say. I think that's all we ought to say, frankly.

Michelle Madoff:

Okay.

Mr. Stone moved to amend Bill No. 788 by deleting the first "be it resolved" and by changing the second "be it resolved" to read: Be it resolved that this Council urges President Reagan and Pittsburgh's federal legislators to initiate negotiations between the United States and the Soviet Union and other nuclear powers to mutually and immediately freeze development of additional nuclear weapons and to mutually and eventually dismantle all nuclear arsenals, for the future of mankind.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Stone moved to approve the resolution itself, as amended.

Mrs. Masloff seconded the motion.

Which motion prevailed.

The Chair:

Dr. Paradise and Dr. Michaels are here and I wonder if they would come up here please. Dr. Paradise?

Michelle Madoff:

We are all going to Paradise.

Dr. Paradise:

I hope so. I hope it isn't prematurely though. I appreciate very much that the Council has passed this resolution even with the deletion, although the phrase that was deleted would have added a little strength, but I think the punchline is in the bottom paragraph and I think that's the

important message to be conveyed.

I think we are all convinced that the only defense is prevention and that we're sort of in a situation that was described by somebody that I heard the other day in which, and I think it was broadcast on the national media, that there are two men standing in a basement in gasoline up to their necks and one man has seventeen matches and the other man has nineteen matches. It doesn't make a whole lot of difference who's ahead, and I think that the situation is analogous to that at the present time.

The Chair:

Thank you Doctor. Thank you very much.

Mr. Robinson:

I'd just like to ask that the City Clerk make arrangements this Wednesday to have Melanie Smith and her staff who are working on a summer job program, come up for a possible agenda. I think it is getting near the time when we have to address what, anything, we can do for youth this summer in the City of Pittsburgh. I think that, perhaps, there are some areas in which we can strengthen the program we had last year, and of course, we are going to be suffering a funding cut from the Federal Government. Perhaps there is something we can do to make up the difference in terms of what Council and the Administration can do. I think it would be fruitful to talk to her about that issue this coming Wednesday.

Mr. O'Malley:

I'd just like to have it enter into Council's record that I received a petition from the Mount Washington residents Friday night for a police

abstention in Mount Washington and that I'll just look into the feasibility of it with Superintendent Coll, write a report, and I'll get back to the residents.

Mr. Flaherty:

I would just wish to commend this Council, because I believe it was approximately six or eight weeks ago that we unanimously supported a resolution urging the Congress to extend the Voting Rights Act. I don't know if any of you saw the article that appeared Saturday in the Post Gazette which states that we, here, in this City of Pittsburgh are one of the twelve cities that opponents of the Voting Rights Act are circulating saying that if the Act is extended, we, along with such mainstays of progressivism as Savannah, Georgia, and Mobile, Alabama, and if you go to Birmingham and Fort Lauderdale, Florida, that we will probably have to change how our members of Council are elected. I have the article right here because we have a history of strong discrimination against minority representation on Council. I just wanted to have that on the record.

Michelle Madoff:

Mr. President, on another matter. Mr. Woods delivered to all Members of Council, dated April 12th, I just got it so I just read it this morning, with reference to the Steam Heat Plant, and he has some very strong opinions, which I respect, and I think he goes on to say he's researched the issue for some time and information he's received feels the compelling argument in favor of converting the City to its own natural gas fired heating plant. I believe we have wasted enough time and taxpayer's money and should now act decisively to convert the City to its own heating system.

He also closes with "I'm available to discuss this issue with each of you. I feel Council must have information and dialogue to reach the proper decision". Well, Mr. Woods, I'm not going to make a mistake the second time and say I'm not an expert, because I was being gracious the first time when I said fifteen years I wasn't an expert. I would say, compared to you, I am an expert. My investigation over two years, sitting with the Allegheny Conference and going to Washington and talking to people in the field, to wit, the story that appeared in the Post Gazette on April 16th. I contacted the gentleman and tried to buy stock in his company, invest. He doesn't need my money.

With reference to turning garbage into kilowatts, I had a long discussion with him. I am a little distressed, as I hope a number of other members of Council would be, that when Mr. Flaherty, I believe, it's his committee, tried to untable the bill and have Mr. Smith come to the table to give us some more information, this Council would not hear it. And I don't believe that is your intention. Is it, Mr. Woods? I believe we are going to have a hearing and air out all the viewpoints, not just meet with you privately. Is that correct?

Mr. Woods:

Michelle, I'll reply to you when you're done, okay?

Michelle Madoff:

Well I'm just saying I would think it would be a good idea to have everybody come and talk about it from all perspectives because I looked at your material and Mr. Limbach, who was here at a hearing once before when we talked about closing down the Steam Heat Plant when we had a public hearing before you were in Council, is the one going around

trying to convert everybody because he makes the money in the engineering. The Gas Company makes the money because they say, "We don't care if we give it to the Steam Heat Plant, we sell them gas or sell it to the individual building owners". The truth of the matter is that when they sell it to the Steam Heat Plant, it's a bulk rate, which is cheaper, but they don't lock them in, and when they sell it to the individual owner or City Council, they convert —

The Chair:

Michelle, we're going to have a full scale hearing. I understand that there's a petition on it's way and when we get that petition we'll schedule the hearing and we'll air the whole thing out.

Michelle Madoff:

Mr. President, I did not know there was a petition. That's why I'm asking the question.

The Chair:

Well I'm telling you there's a petition on the way.

Michelle Madoff:

And we're going to have a hearing on this matter and it's going to be aired out?

The Chair:

Yes, we are.

Michelle Madoff:

Then I'm happy. Thank you.

The Chair:

Mr. Woods, do you have something

to say?

Mr. Woods:

You just answered her.

Michelle Madoff:

Do you know when it will be, Mr. President?

The Chair:

As soon as I get the petition we'll set the hearing up as soon as possible.

Mr. Stone moved to excuse Mr. Given for absence from the meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Woods moved to approve the minute from Monday, April 12, 1982.

Mr. Stone seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Flaherty**

Council adjourned.

Mr. Givens:

Mr. President, I know I was absent last week, but I would recommend that Bill Nos. 702, 703, and 704 be held. What is happening, in my estimation, is that I'm aware that \$2.5 million come up short in the 1982 CD Budget. However, although some of these bills I don't have any great concern with them, I'd feel that this Council should be aware of the total impact of what this \$2.5 million reduction is to our various communities. We're being fragmented with two or three bills. I would assume that within another week or two we'll have other bills before us that will constitute the remaining amounts of money right here. I think this should be looked into very scrutinously by this Council to be sure that we're in agreement with all this transferring of funds, and especially, the cancellation of these particular projects. I think the people in these neighborhoods — are they aware of what's happening when we say we're going to cancel some \$2.5 million of projects. And that's what we're doing.

Mr. Stone:

Mr. President, if I may. Dick, I don't think you're catching on what's happening here. All this is is taking the money that's not spent, that was appropriated to a project and moving it back. We're not into what you're talking

about yet. All this is is taking the unexpended monies from a particular fund. There's no cancellations out of here.

Mr. Givens:

Well, Bob, I could say that that was the same thing that happened to the Pennsylvania Avenue Bridge and other things and we saw what happened within this Council --

Mr. Stone:

No, the job was completed and this is the excess money. This is a different deal. This is the excess money in those projects. I know what you're talking about. This has nothing to do with that one. This is just clean-up which my budget staff and I worked on. We're the ones who generated this thing.

Mr. Givens:

You're talking about a clean-up but I see that they're decreasing, for example, in the Garfield design and construction, some seventy-five thousand.

Mr. Stone:

Yes, the reducing is from a amount to another amount which is the actual amount expended.

Mr. Givens:

That project wasn't even completed. They're taking the money from it before it was ever even done. That's my point. And I'm not going to do this until I feel I get good review and I would caution Council --

Mr. Stone:

Well, we're going to be doing that

whole thing because I've asked for all the Directors to come in here with coverage on the entire Capital Budget, but this is not what he thinks it is. This is only a clean-up program.

Mr. Givens:

Well, clean-up on a program that has not even been instituted is not considered, to me, as a clean-up. It's a clean-up because the Administration has made a decision that they're not going to do that particular project that was funded in the various years so indicated. I make a motion that these bills be held or put back in Committee until all the bills containing the total amount of \$2.5 million comes before this Council and, hopefully, it can be done in one bill, that we not have fragmented ten, twelve, fifteen bills. We don't really have the total picture and until I see that total picture, then I'd be reluctant fearing that the neighborhood communities would come back to us saying that we have done something that they had not had previous notification on.

Mr. Stone:

Dick, the reduction is CD. This is CB. This is Capital Budget as opposed to Community Development money.

Mr. Givens:

Okay, Capital Budget, Bob.

Mr. Givens moved to recommit Bill Nos. 702, 703 and 704.

The Chair:

There being no second to recommit, the motion fails.

MOTIONS AND RESOLUTIONS

Mr. Givens presents

Bill No. 840 WHEREAS, on May 22, 1982, the annual picnic of Vietnam Veterans Incorporated will be held at the Athletic Shelter in Schenley Park; and

WHEREAS, this day honors all Vietnam Veterans who served faithfully and with dedication in America's longest war; and

WHEREAS, when the United States of America needed these men and women they were there, ready and willing to defend our country. The Vietnam Veterans gave their all; some their lives and some came back home disabled; and

WHEREAS, this organization has been in the forefront of the effort to establish a local memorial to Veterans of the Vietnam War.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, on behalf of the citizens of Pittsburgh, hereby declare May 22, 1982 as Vietnam Veterans Recognition Day in the City of Pittsburgh.

Mr. Givens moved to adopt the resolution.

Mr. Stone seconded the motion.

Which motion prevailed.

Mr. Stone presents

Bill No. 841 WHEREAS, on May 5, 1982, Arsenal School will be celebrating its 50th anniversary; and

WHEREAS, the site of this school dates back to 1814, when the Federal Government deemed it necessary to construct an arsenal in Pittsburgh because the western frontier and Lake Erie were vulnerable to enemy attacks; and

WHEREAS, at the outbreak of the Civil War, the arsenal employed over 800 people, and on several occasions received national attention, and the arsenal continued to play an important role in the lives of many for several years following the Civil War; and

WHEREAS, as the need for arsenals diminished, arrangements were made for the construction of a school on this site, and in 1931 the cornerstone was put in place, containing a box of historical items, and on September 1, 1932, the school was opened for 1100 students in the area; and

WHEREAS, through the years the educational program experienced many changes, including the opening of the Arsenal Middle School in 1971, which remains today; and

WHEREAS, this site evokes a deep sense of history and heritage for the residents of Lawrenceville and for the entire City of Pittsburgh.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, hereby recognize and honor Arsenal Middle School on its 50th Anniversary as an institute of learning, and for enhancing the cultural heritage of our nation through its rich and profound history, thus adding to the dignity and pride of our City.

Mr. Stone moved to adopt the resolution.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Givens:

I'd like to make some comments on that beautiful resolution that Councilman Stone put in. It is very historical in nature. I was very fortunate to live most of my young adult life in this particular area and I have gone to that particular school so I'm glad that you so recognize it, Councilman Stone. It's very unique that when that school was built and a child was killed that was the start of our school crossing guards in the City of Pittsburgh, wherein the mother of the child volunteered to cross the children to that Arsenal Middle School, therein starting the program of the school crossing guards within the City of Pittsburgh.

The Chair:

Thank you very much, Mr. Givens.

Mr. Woods moved to excuse Michelle Madoff for absence from the meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Woods moved to approve the minutes from Monday, April 19, 1982.

Mr. Stone seconded the motion.

Which motion prevailed.

and on the motion of **Mr. Robinson**

Council adjourned.

ONE-HUNDRED

TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Monday, May 3, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

Mr. Givens presented

Bill No. 874 WHEREAS, it has pleased Almighty God, in his infinite wisdom, to have removed from our midst, by death, Bob Rush, on Tuesday, April 23, 1982; and

WHEREAS, Bob was employed by the City of Pittsburgh for twenty-one years, rising to the position of Budget Controller for City Council; and

WHEREAS, he was a conscientious, energetic and reliable employee who gave generously of his wisdom in his days with city government; and

WHEREAS, he was a loving husband and a devoted father, dedicated to his family; and

WHEREAS, the Mayor and the members of the Council of the City of Pittsburgh who were associated with him desire to formally record upon the minutes of the Council of the City of Pittsburgh, a tribute to his memory.

NOW, THEREFORE, BE IT RESOLVED, that the Mayor and the members of the Council of the City of Pittsburgh do hereby express their grief and sorrow over the death of Bob Rush; and BE IT FURTHER RESOLVED, that the Mayor and the members of the Council of the City of Pittsburgh do hereby express their sincere sympathy to the bereaved family; that this resolution be spread upon the minutes of Council and that a copy be forwarded to his family.

Mr. Givens moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Stone:

Mr. President, I'm going to ask that the remarks from Wednesday's meeting be brought forward.

(BEGINNING OF REMARKS FROM WEDNESDAY, 4/28/82)

Mr. Givens:

Mr. Chairman, if I could, I would like to, at this time, think in remembrance of Bob Rush, who has passed away from Council. I don't think anyone mentioned it Monday, but I think it would be most appropriate here this morning, with the fact Bob passed away last weekend and was buried this Monday, that for him and his family of six boys that we have a moment of silence.

Chairman:

Mr. Givens, I thank you for that reminder. I think it was an oversight.

Having worked in the budget portion of this Council, I think that we owe a debt of gratitude to Bob Rush, and I think that for his service to this Council and to this City we publicly acknowledge that and acknowledge as well our sympathies to his family on his passing. I think the point is well taken.

At this moment we will pause for a moment of silence. Thank you.

(END OF REMARKS FROM WEDNESDAY, 4/28/82)

The Chair:

I wonder if we could have a moment of silent prayer. Thank you.

MOMENT OF SILENCE

Mr. Robinson presented

Bill No. 875 WHEREAS, the

Federal Government has substantially reduced the funding for CETA eligible youth employment opportunities for the summer of 1982; and

WHEREAS, Pittsburgh, like most major urban areas, is experiencing adverse economic conditions relative to unemployment and especially for the youth of the City, and

WHEREAS, the City of Pittsburgh CETA summer youth employment program has assisted in easing the unemployment problems over the past few years by putting young people to work during the summer months; and

WHEREAS, the Council of the City of Pittsburgh has been in the forefront of efforts to develop substantial and adequate numbers of summer jobs for Pittsburgh youth, and

WHEREAS, several efforts are underway in both the City of Pittsburgh and the County of Allegheny to develop summer employment opportunities and include such organizations as the Allegheny Conference on Community Development, Urban Youth Action, Private Industry Council, Urban League, United Black Front, and the Pittsburgh Youth Movement for Jobs.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh supports the development of adequate and substantial summer youth employment opportunities in 1982 and offers encouragement and assistance to both the private and public sectors in this regard.

Mr. Robinson moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Robinson:

I'd also like to indicate that I have had occasion to meet with representatives of the Private Industry Council as well as persons representing our City CETA Program. I have talked with them extensively about what we can do this summer for our summer youth. I'm encouraged that the Private Industry Council will be working with the Allegheny Conference to attempt to develop as many summer opportunities as possible and that our CETA staff would be doing the same.

I believe it is necessary and very important that we provide some employment opportunities this summer for our young people, perhaps at a higher level than we have in the past, not only because they are needy, but because, unfortunately, many of our young people don't adjust quite as well to economic diversity as some of the rest of us, and often times become victims of our criminal justice system.

So I would hope that this Council would use whatever influence it has with the administration here in the City of Pittsburgh and with the Commissioners of Allegheny County to help the Private Industry Council help the young people in our city and in our county.

Mr. Flaherty:

Mr. President, I just want to add a few comments also. I whole heartedly support this resolution and I feel that it's incumbent that we in the City, and especially in view of over the eighteen percent cut in the summer youth employment from Washington, I believe that it is incumbent that we here in the City, it has been estimated that close to twenty-two percent of all of our youth is

unemployed and perhaps up to over half of our blacks are unemployed in this City. I feel that it's extremely important, especially in view of the U.S. Conference of Mayors recently putting the priority of trying to find employment for our youth as a top priority in their conference. I feel that we here in the City of Pittsburgh should take the leadership role in the City in trying to fill that void which certainly is not occurring in the so-called social safety net. We are hurt drastically by the cuts from Washington and I'm sure that there are very good intentions from the private sector, but I think that this Council should also consider in view of the twelve million dollar surplus that now exists, that we should give serious consideration to making a true and substantial commitment to providing employment this summer for our youth.

Mr. Robinson:

Mr. President, if I might, there is a representative here from the Pittsburgh Youth Movement for Jobs, Mr. David Ector, who would like to have a few words before Council. Over the last five years, Council has been kind enough to support a resolution spearheaded by this organization to provide for summer CETA jobs. This resolution that we passed today is a continuation of that effort and if Council would give us a few moments, Mr. Ector would like to share a few comments with us.

Michelle Madoff:

Mr. Robinson, don't you think it might be better if we had all our comments before, or do you want to let him speak and then we have comments after?

Mr. Robinson:

It doesn't matter. I didn't know

anyone else wanted to comment.

Michelle Madoff:

I did want to say something. If that's alright with the President of Council.

The Chair:

Certainly.

Michelle Madoff:

Mr. President, I've only been here almost four years, and at least fifty times, at least, you've heard me say, and other members of Council, I've got into somewhat of an argumentative kind of dialogue with Melanie Smith of the Employment Office on the basis of Renaissance II, that if the Mayor and the Administration have such a wonderful arrangement with Renaissance II, where we have taken land for PPG, and I think that's a very good thing - it will help the tax base of the City, we voted unanimously for that in Council, we voted to help on the Dravo site, we've done many things with industry. This is a city which is unique in that the administration and private industry has a great working relationship. But everybody knows that the reason industry has not provided jobs in the private sector is that they didn't want Government looking over their shoulder into their books. Well, if you read this morning's paper, you know that the State is now going to make an effort to subsidize jobs in the private sector. The same way your father and, maybe I'm assuming something, but my father didn't go to college, Jeep, I don't know if your's did, and he was an apprentice - he learned his tailoring on the job. And there's no reason why people, young people who want to go to work, all they want is a hand-out, and they want jobs, shouldn't be given jobs in the private

sector, and we should be subsidizing that kind of effort as opposed to this five years and another resolution which is a lot of rhetoric, we all sound great, we all sound like we want to help, but we're not doing anything. If we really want to do something, then we have to sit on the Administration.

If you want to help yourselves, folks, just remember - we only propose, the Administration disposes. If you want something done, you get hundreds and hundreds of letters getting to the Administration say, please, we want you to exercise your relationship with the private industry in the City and you get us jobs, pick the brightest and the best, and those of us who want to work and supervise us and give us a chance at a job for life.

I think this is what we need. We can't ignore this and pretend it's going to go away. The higher rate of unemployment on the Hill is something like forty percent. It's not eighteen percent. And it goes on and it is a disgrace.

Mr. Flaherty:

It's an eighteen percent cut.

Michelle Madoff:

I'm sorry, I'm not criticizing. I'm just saying, we both agreed, Tom, it's a very serious problem.

When Melanie Smith comes before us repeatedly, Mr. President, and says, "You're right, Mrs. Madoff, you're right, our programs are going to gopher jobs because that's how our hands are tied". The jobs are being given to the city so that we can fill in our payroll, they're given to working in charities where somebody says go for coffee, and go for the paper, and go for this and go for

that, but they don't learn any skills. I want people who have learned skills. I want those people who were in the CETA program who worked in the Water Department and know how to fix those pipes. I want them hired. And I want them hired in the private sector and I think this is going to have to come from the Administration working with the leaders of industry with the Allegheny Conference and there's no other way it's going to happen because it just isn't going to happen and we're lying if we say it's going to happen any other way. We'll support you one thousand percent, but you've got to make it happen by sitting on the doorstep.

The Chair:

I think it goes without saying that we'd all like to see kids who care to work employed for the summer, especially those going back to school. Certainly Council will do everything they can do. I think some of you are not aware, I just found out today myself, I don't know about today with conditions being what they are, but I understand Industry does a lot of hiring of young kids in the summertime, especially those going back to school. I just found that out today. I don't know how you can go about contacting these companies or how they go about employment, but there are some jobs out there to speak of in industry.

Michelle Madoff:

Mr. President, because of the economy and because they're laying off, and I happen to know for a fact because I deal with some of the corporate people at top level, they're laying off tremendous numbers of jobs in some of our major companies. But those jobs where they're laying off are top echelon and retirees. They're replacing with lower-level, lower-paying jobs. What a

perfect opportunity for a youngster who wants to come in as an apprentice and learn on the job, especially when the company, while it's going through this rough period, the economy can get subsidized while they're training an employee.

We've got to do it, and unfortunately, you and I can't do it. The only thing I can ask you to do is to talk to the Mayor. You're the President of Council and we back you.

Mr. Givens:

Mr. President, I'd like to add some comments and thank Councilman Robinson for bringing this resolution before us here today. I think all of us in our youth have to look back and see what jobs we had coming up, at least, through high school and in some cases, the college area of our education. I know I was assisted and without that assistance I could never have made it through college.

I think that what it does for the youth and what it did for me as an individual, I think this Country stands for something. It stands for work. That any one of us go out there and if we put our efforts forward that we're going to get returns from that work, satisfaction from doing the work and the monetary awards that one will get for doing a good job. I think this instills something in our young people of America and I would be more than happy to enjoin Councilman Robinson on this particular endeavor because results, if we do not do it, is to tell our youth to do nothing and I think all of us have to appreciate, at least in my youth, if I wasn't 100% occupied, I was out doing things on my own. When a youth is not supervised, that can lead to many areas or walks of life that are not in their best interest.

So I support this and I hope the whole Council will and that we just not, as some other speakers have so noted, just vote for the resolution itself, but carry this through in a concerted effort and I encourage you, Mr. President, to do that.

Michelle Madoff:

Could we have a meeting with the Administration? What happens is, we meet and we talk to ourselves, Mr. President, and the Administration meets and it talks to itself. But we don't talk to each other. And I know that there's supposed to be a meeting on Monday morning, but there's a very tight agenda, it's called the Mayor's meeting. I used to go. I never missed one. I stopped going because the Mayor doesn't go. He promised me faithfully, he gave me his word of honor, that we would have informal meetings with this Council so that before the end of the year, when we had budget problems, we would start looking at innovative ways of correcting problems. This is the problem we should be sitting down and thrashing out together. We shouldn't be against the Administration or accusing or attacking and they shouldn't be saying that we're not helping. What can we do to help. Let's sit down together. Would you set up a meeting like that with the Administration?

Isaac Saxon:

There's been times that I've come before this body to thank them for passing resolutions. But as I look at this resolution today, I can't thank anyone for this resolution, they passed it 100%, because there's no specific number, so you're not committed to do anything but pass something on paper. This weekend, New York was announcing, during the Yankee game, asking merchants and people to help them absolve 16,000

summer jobs for disadvantaged youths. Now, I'm not saying this in disrespect to Councilman Robinson, but I know how politicians work. What I am saying is the fact that the City of Pittsburgh has surplus monies. We have identified \$21,000,000.00. That's a hell of a lot of money. And black youth in the city of Pittsburgh is only employed at the rate of seventy-five percent between the ages of sixteen and twenty. And this has been since 1978. This didn't just happen. But what is more critical this year than in the past, is that their parents are unemployed. Some kids told us their parents have received a last unemployment check.

The other problem is you've got a Governor in Harrisburg that's throwing people off of welfare. We will take care of the mothers that have kids, but the single welfare recipient, able-bodied, is not entitled to welfare.

It makes me wonder, when I was pushed in the Army some thirty-five years ago, what the hell I was fighting for. Was I fighting to keep myself segregated against, is now the same fight is to help practice genocide against my kids.

Now anytime a city can come up with \$21,000,000.00 of surplus funds and at a critical time as it is today for unemployment in this Country, and it's no different in Pittsburgh, and you cannot commit yourself to a specific number of employment. CETA is going to cut back to about twenty-one or twenty-two hundred jobs. We talked to Miss Melanie Smith and she told us she wasn't accountable to us because she was appointed and not elected. These are the type of people we've got to rid from City Council. We've got to rid City Councilmen that you can't talk to unless it's an argument. I feel stronger and stronger and I'll campaign this fall and

next election and as long as God gives me breath to get rid of this form of City Government and come with a district councilmatic election, because we have too many people —

The Chair:

Your remarks are completely out of order. If you want to talk about summer employment, —

Isaac Saxon:

I don't know whether it's political, but when you're hungry and you see a defeat of summer jobs, and that's what this whole thing is, not one have stood up and said we will amend the resolution to read one thousand summer jobs. Now if that bothers you as President of Council, so be it. The people will be disturbed as this thing goes on. Because I mentioned Council district election, it shouldn't bother you because you're the president of the body. You are to move the agenda as it's to be moved. And I am getting sick and tired of paying wage tax, property tax and only getting in return about two percent of my money.

I looked at the investigation of the Post Gazette last week, and that's when I realized who gets the summer jobs. Now if I was a person making thirty to forty thousand dollars a year, I wouldn't care whether my kids worked or not. But I have always been on the bottom. Always been on the bottom. That's why I have been trying to do what I could to increase summer jobs. They say long, hot summer. I'm not advocating a long, hot summer, but I'll tell you one thing — don't any of you come looking for me if it turns all hot because the people are hungry, because I am not going to try to discourage anything that happens.

All I'm saying to you today is that Pittsburgh is no different. The only

difference I see is, it may be number one for the racist element goal. And I definitely feel that way is because you're afraid to speak out and take care of all the citizens. And that's all I'm asking is that all citizens be treated equally as citizens. Until government officials learn it, we're going to continue to have problems in this city. Thank you.

David Ector:

My name is David Ector, I'm a member of the Pittsburgh Youth Movement for Jobs, as everyone knows.

First of all, I want to thank Councilman Bill Robinson for bringing this issue before Council and I want to thank Michelle and Tom Flaherty for some of their comments on the issue of youth unemployment.

Within the last two weeks we've been actively lobbying Councilmembers around the Summer Employment Program and at the end of last week we had a pretty good feeling that there would be something positive and something direct that Council was going to do to deal with the youth unemployment situation in this City. Last week we called for a march on Council, we went out to the schools, put out five thousand leaflets and asked for kids to be down to support a resolution which would ask for one thousand summer jobs from this Council. Unfortunately, the School Board saw fit to stifle, to stop the kids from coming down today, but I want to say that we're going to be back with kids and we're going to continue to come to Council until we get at least, at the very least, one thousand additional summer jobs which would cost approximately \$703,000.00 for the one thousand summer jobs. At the most I could see it costing \$800,000.00 with administrative costs. We do understand, though, there's at

least anywhere from ten to twenty million dollars in the City budget that could be used and reprogrammed to make employment for summer youth employment.

Michelle Madoff:

May I interject. Let's be productive. You made a statement. The Finance Chairman is here. Ask him if it's true.

David Ector:

If Councilman Stone wants to answer that question he'll answer it. He can deal with it whatever way he wants to deal with it. All I want to say is we'll be back next week, and we'll be back in two weeks with two hundred kids in this Council. We're going to continue to come down until we get at the very least, \$800,000.00 for summer youth employment because the money is there and if we don't receive any response from City Council, our organization which hasn't been political in the past will become politically active this year in all of the low-income neighborhoods of the City of Pittsburgh and we're going to target local representatives, not only Republicans but local representatives because the money is there and there is no reason on the face of the earth why Council can't appropriate that money.

Michelle Madoff:

Stay where you are. Mr. Stone, as Finance Chairman, is the money there? I'd like an answer to the question. Is the money there? Mr. Stone, do you choose not to answer?

Mr. Stone:

Mr. President, are we letting other people speak yet?

The Chair:

I think there is only one speaker left.

David Ector:

We have a petition for a public hearing, too.

Priscilla Thomas:

Thank you. My name is Priscilla Thomas and I am with Pittsburgh Youth Movement. I am going to keep my remarks short. All I wanted to say is that these youths have the right to earn, learn and live. And when you take those rights then you have, hell, talking about a long, hot summer, it's going to be worse than that. These kids are out here starving. The parents don't have any jobs. You have the money. You have the money and you won't give it to the kids.

They want me to ask you about the money. Is the money in City Council? Do they have the money. And they want a reply from it. And I would love to know.

Mr. Stone:

Mr. President, if we're finished with all the remarks I'm prepared to respond, but I'll be the last one to speak on the issue.

Patricia Stubbs-Hannon:

My name is Patricia Stubbs-Hannon, I was born and raised in this town and as far as summer youth jobs are concerned, we wouldn't have this problem right now if it hadn't been from someone in City Government chopping down Project Forward, which was a good program. We are starting Project Forward II. We want to know, are you all going to let it be a long, hot summer?

Do you want to see another 1968 here? Because that is what's going to happen. I'm telling you. You are putting these people against the wall. They don't have anywhere to go, but down here, they see Renaissance II going up, but what is down here for them? They don't have any future, some of them.

I don't have to do this. My child goes to Carlow College Campus School and before that she went to Carnegie Mellon Children School. But the children that she plays with are going to be affected. We want to know what is going to go on here in this city. Are we going to continue to be tricked by mis-media information or what? Come on Pittsburgh. We're No. 1 now, corporate city in the nation. Let's do for all of our people. That is why I'm the coordinator of the All People's Congress and that is why I'm supporting David and any other youth group in this city. And I will be behind this city as far as youth projects are concerned. Now let's get with it, and that's all I have to say.

Doris Bailey:

I am Doris Bailey and I am from West Moreland County. I'm here to support David with the Summer Youth Program because we are very concerned about the Summer Youth Program because the same thing is happening within our county. If these kids do not receive jobs for the summer, Pittsburgh is a big city where crime can really, really be hurting the area. Within the City Council, City Council can do something about it. We are approaching our own City Council about it because we are looking for a bad summer and if nothing happens within the unemployment line, you're looking at a bigger problem besides the youth. And your talking about welfare, unemployment, job seeking, there are no jobs out there, but I think you can create

something for the youth program. That's all I have to say.

Mr. Stone:

Mr. President, too often when people attempt to do what is well meaning, everybody is wrong but that person who is speaking. And I think therein lies some of the problems. Mr. Robinson did a good gesture today in putting this resolution up and as a reward for it, he gets criticized for doing a well meaning thing. This is not the first time Councilman Robinson brought the subject up. It was brought up two weeks ago, a week ago this past Wednesday, and at that particular time this matter was discussed. We indicated, at that time, that through Melania Smith, our CETA Director, we would attempt to work with the various corporations to see if we can't now get some cooperation with them about doing something about the youth program. We indicated as well that we were looking into those matters as to whether or not the City, if it had the money, can do anything about it. Namely, can the City, after a budget is closed, create jobs or create a fund for jobs. That problem still needs answered and we're looking into that as we said we were. The additional factor --

David Ector:

What have you done to look into it?

The Chair:

You are out of order

Mr. Stone:

Mr. President, it's always been my habit to listen to others and if I'm interrupted once more I will quit talking. So everybody understands me. I don't mind helping, but I'm nobody's goat.

I think if less venom were used here in Council which has, in my opinion, probably been one of the most responsive and receptive groups to Washington, who made the cut, we might be better off. And I think if this City Council, in this City, were working with this group to try to do something about Washington's attempt to cut, we will find out that that's where we need some of our effort rather than here. Washington D.C. has not only cut out the work program, they've cut two million dollars out of our Community Development funds. There is going to be some additional cuts into the State which will have a ripple effect, not, perhaps, what President Reagan had contemplated and indicated, but another cut indirectly to the State to us. It is true that there is some surplus money from last year. There is however, on the other hand, that our revenues, because of economic conditions, are down this year. As I indicated two weeks ago when we were talking budgets, one must now understand that budget considerations are no longer a one year contemplation. It is a two year involvement. We are going to have, obviously, increases that come even if we keep — in order to maintain the same effort. We must be looking at that situation. We must be looking at it. We can't afford to go out on bond issues at this particular time and the reason being is because we've got to watch what our financial situation is. It's in a most unpredictable state.

There's no way that the city of Pittsburgh or any metropolitan city in this country is ever going to be able to pick up every program that the Federal Government cuts off. And I think the only way to do that is to put some pressure on Washington, not those like Allegheny County which is trying to save the Kane Program for our senior citizens, where the Federal Government and the State cut them, and then Allegheny County because they're acting

responsive is going to get more heck than those who are cutting out the program.

We are looking into the program and if we can, we'll try to do something. But I think at this time, I think we ought to wind down the heat and look for a little more logic for all of our benefits.

Michelle Madoff:

Mr. Stone, I think that you have summarized the state of the country, but the people that are here today ask the specific question for which I do not know the answer. I predicted in last year's budget, when I did my critique of the budget, that we would have at least a fifteen million dollar surplus and I was told I was crazy. Obviously I wasn't too crazy. The question now, is whether that money should have been used for this year or be used to hedge against next year's budget. The fact was that we do have the surplus. Now you're saying the surplus cannot be used for anything else because we're going to be even further in debt next year.

So the question I'm asking you, sir, and there are two specific questions. Is there money in the Unspecified Local Options to put some summer programs into effect, and any of the surplus money, can they be used for summer jobs? Can you give me a yes or no, or don't you know yet, and if not, when will you know?

Mr. Stone:

First of all, let me tell you that I'm conducting an investigation into this matter and when my report is complete, I'll give you a report at the same time.

Michelle Madoff:

Approximately, when will that be,

sir?

Mr. Stone:

When I get it, you'll get it.

Michelle Madoff:

That is not a satisfactory answer to the people sitting here. Would you give me a framework? Would you give us a framework? Could you give us two weeks, a month? Just so they have some idea.

Mr. Stone:

I will get it when I get it, and I hope it's as soon as possible.

Michelle Madoff:

May I just make one comment, Mr. President? As we sit here speaking today, with the priorities in our community, our Mayor is in China, paid for by Industry. His staff was in Europe not too long ago paid for by Industry. I'd like to see the tab on that and see if some of that money couldn't have been funneled into jobs for the unemployed people who need jobs.

The Chair:

Thank you. Mr. Robinson, you have another resolution to introduce.

Mr. Robinson presented

Bill No. 876 WHEREAS, Mrs. Homer S. Brown has contributed to the growth and development of the City of Pittsburgh for more than fifty years; and

WHEREAS, she was a distinguished student in the school system of Richmond, Virginia and at Oberlin College; and

WHEREAS, she developed young minds as an instructor at Fisk University, Nashville, Tennessee and Virginia State College, Petersburg, Virginia; and

WHEREAS, she served with distinction on the Board of the Metropolitan YWCA and the Fair Employment Practices Commission; and

WHEREAS, she has been in the forefront of the Civil Rights and Human Rights Movements and worked cooperatively with her distinguished husband, the late Honorable Homer S. Brown, in many human rights efforts; and

WHEREAS, her tireless service on behalf of the Pittsburgh Branch of the NAACP is reflected in the annual Human Rights Dinner.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh, on behalf of its citizens, does honor and recognize the life and accomplishments of Mrs. Homer S. Brown and gives honor and praise to her efforts in civil rights and human rights during the week of May 3, 1982.

Mr. Robinson moved to adopt the resolution.

Michelle Madoff seconded the motion.

Which motion prevailed.

The Chair:

Is Mrs. Brown here, Mr. Robinson?

Mr. Robinson:

No, she isn't. I'd just like to indicate that I'll be presenting this resolution to Mrs. Brown at the NAACP Human Rights Dinner this coming Thursday. I think there's no finer person

in this City to be honored for her efforts on behalf of civil rights and human rights. Mrs. Brown has been honored on several occasions, but I think it does this Council and the city proud to recognize her tremendous efforts on behalf of all the citizens of the city. She is a very modest person, one who is in the background most of the time, and I'm sure she would be somewhat embarrassed by giving her this recognition. But when we talk about leadership in the Pittsburgh community, particularly leadership in Pittsburgh black community, I think Mrs. Brown stands head and shoulders above all of us and certainly she is a person who's example many of us should follow and I think she is, indeed, a credit to our city.

The Chair:

I've been a close personal friend of Mrs. Brown for the last twenty-five years and she deserves the recognition. There's no person in the city of Pittsburgh who is more worthy. Thank you.

The Chair presented

Bill No. 877 WHEREAS, on April 17, 1982, Norman Kevan was walking home from work along Carson Street in Southside when a woman drove beside him in a car calling for help because her boyfriend had jumped from the Birmingham Bridge; and

WHEREAS, Norman rode with the woman to the middle of the bridge, and upon seeing the victim struggling in the water, did not think twice about disrobing, and jumped 75 feet into the current and frigid waters of the Monongahela; and

WHEREAS, although Norman was unable to rescue the victim, the fact remains that he gallantly overcame fear

and apathy and risked his own life in the pursuit of saving the life of a total stranger.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Members of the Council of the City of Pittsburgh, on behalf of the citizens of Pittsburgh, hereby recognize and honor Norman Kevan for the fortitude and courage he displayed in his gallant attempt to save the life of a total stranger.

BE IT FURTHER RESOLVED, that the City of Pittsburgh expresses gratitude to this brave man for exemplifying, through this heroic effort, the dignity and value of human life.

Mr. Robinson moved to adopt the resolution.

Mrs. Masloff seconded the motion.

Which motion prevailed.

The Chair:

If I may, before we call Mr. Kevan up to accept this resolution, I think it goes without saying that it's certainly a pleasure when you of such an unselfish act. In this day and age you don't hear too much about these things. You hear so much about all the other trash, and when you hear about a fellow risking his life for his fellow man -- he could have died, he came very close to it. But he didn't, thank God, but the other poor guy didn't make it. But Mr. Kevan tried to save his life. It doesn't happen too often. I know if I was on that bridge and someone asked me to jump in for somebody, I'd have to give it about ninety-nine thoughts.

I do want to add that in the act of heroism, apparently, Mr. Kevan was

believed of some money, or he lost about \$175.00. I haven't heard of any fund to recoup that money. I would think it would be a nice gesture on the part of City Council to dig into their pockets and come up with an appropriate amount of money and return that \$175.00 to Mr. Kevan.

Mr. Kevan, would you come up here, please?

Mr. Kevan, I present this to you on behalf of City Council. Would you like to say a few words?

Norman Kevan:

I don't know what to say. I was driving by and a guy needed help and I wanted to help him. I was a lifeguard and I never got the chance to use it so I just couldn't stand there while other people stood there and did nothing. That's all I can say.

Mr. Givens:

Norman, I'd just like to ask you a kind of personal question. Have you ever jumped off or dove off of an obstacle that high in your life?

Norman Kevan:

No, I never did.

Michelle Madoff:

Mr. DePasquale, would you like to appoint someone to take the collection? You've got the cash right here.

The Chair:

That concludes the resolutions, we will now go on with the regular Order of business, Presentation of Papers, Mr. Flaherty please.

Which was read.

Mr. Robinson moved to recommit Bill No. 183.

Mr. Woods seconded the motion.

Which motion prevailed.

Michelle Madoff:

May I make a comment, Mr. Robinson? I read the letter that President Lauff sent from Community College that Mr. Stone was kind enough to intercede and try to work something out and even the community felt that Mr. Stone was acting in their best interest. However, it appears that while Mr. Stone may have been acting in their best interest, they felt there were no community meetings and that was one of the reasons they've approached a number of members of Council, to try to make sure the community is aware of what's happening. I also read the letter that President Lauff sent, and what it says, in effect, is that at the moment we are not doing anything, but we do have plans to expand. And there a KDKA editorial that came across my desk that all of you, I'm sure, received, all members of Council, that says that Community College, like all other public entities, has to draw, if not anything else, just an imaginary line about where they're going to stop. They have to have a stopping point. I'd say at this point we think we're not going to, but in the future we may, but we don't think we have anything, but we're not going to lie to you. We're

going to have to say this is where it will stop. And I just think that before we meet again, the reason I'm bringing it up now, is that those issues ought to be addressed. Both the issue of the community feels that they've been bypassed and that indeed, the Community College has to make a commitment that they will stop at a certain point firmly and that the community would be willing to accept that.

The Chair:

Surely that letter is saying when they were stopping —

Mr. Stone:

I think you're not reading it correctly. The community and the college both pretty much agree on the same line. That so called expansion you're talking about is in the area that the community has no objections to them expanding, even recommended some of those areas. I think basically they agree it's a matter of how they procedurally handle it.

Michelle Madoff:

Mr. President, Mr. John Stove is in the audience today. He came to see me before the meeting. I was out ill last week, and he stopped by to see me today, and he says that he is a member of the citizens group and he feels that Mr. Stone and the group feels that Mr. Stone acted, perhaps, in very good intentions. But they feel they are not in agreement with Community College. Perhaps, Mr. Stone, you'd like to speak with the young man after the meeting.

Mr. Flaherty:

Mr. President, it's also my understanding from conversations that I

have had with the leaders of Allegheny West that there was no agreement established between them and the Community College and also, they said that they had no meeting whatsoever with spokespeople from Community College in regard to it.

I would also want to comment, in regard to the letter —

The Chair:

We had a hearing for it —

Mr. Flaherty:

No, they told me they have had no communication with the college in regard to what the line would be, the boundary line.

In regard to the letter from the Allegheny Community Colleges president, he has four points in there as to what the intentions of the college are and I believe that points two through four really do not say anything. For example, in two of those four points he uses the word etcetera. In the one point he uses in etcetera and in the other one he uses e.g., for example. So I would also hope that this Council would act along the lines to get a more specific commitment from Community College outside of the negotiations that they are going to have with the representatives from Allegheny West. I concur wholeheartedly with Michelle Madoff that the letter we received is not addressing the question.

Also,

Bill No. 236

Resolution entitled, "Resolution providing for the implementation of a Pilot Residential Sticker Parking Program in the Lawrenceville-Bloomfield

communities pursuant to Pittsburgh Code, Chapter 549."

Which was read.

Michelle Madoff:

On Bill No. 236. On the Pilot Residential Sticker. I hate to be redundant but I think it proves my point. In the days that we were looking at group homes and Planning Department, Mr. Lurcott, came to us and said, "These are the dots of where the homes are". I said, "Have you seen them", and he said, "No I haven't". I said, "You've got a week, come back to us and tell us what you've seen, what really is a home, or what really isn't occupied". He came back and we still didn't have any information. We finally voted but we still didn't have the information. The people in the Community went out and got over 700 or something like 1,000 signatures saying that they don't want the Sticker Program. He says they do want it. I think there's something really sadly wrong. I have known Lena Hotejak and her sister Rose for a very long time. They really walk their shoes off. They don't get paid. They're dedicated public servants who want a good city. Her son is buying a car and, as such, would want a place to park, and they're opposed to the Sticker Program. I think it was not thoroughly researched. It was not done properly in the Planning Department, and because of that I'm either going to abstain or vote against it. I'm going to think about it a minute.

Mr. Givens:

Mr. President, I'd like to make a comment on what she had to say there. That's her personal feeling. It's my personal feeling and it was brought out, I talked, after six or seven neighborhood meetings where everyone was involved, I

don't think Michelle was here last Wednesday, those seven hundred some people that she's mentioning, I think only a handful live within the affected area. I'm talking about two and a half to three blocks around the hospital itself. They are the people that are affected. It's only on a trial basis for six months and it's to be understood that this Council will be looking over everyone's shoulder in regards to this as to how effective the program really is.

Michelle Madoff:

Mr. President, I did ask, as you recall, I asked the people when they went out to get their new petitions because they objected, to get several petitions, to get one for the streets right close to the hospital as they went away. Then, fortunately, they mixed them all up and we Xeroxed it and turned it over to Mr. Lurcott, and as you know, I was not here. So I do not know the results. It would seem to me that that Sticker Program might very well go in right close to the people who are not getting their parking, but not extending it into the other areas.

So, I think what I'm saying, it's not so much that I'm opposed to the Sticker Program or not opposed to it, but I think it was a sloppy job. When you go out and get seven hundred people saying they don't want it and it isn't broken down in the areas where, perhaps, that Sticker Program should be restricted.

Mr. Robinson:

On Bill No. 236, I'd like to have my comments from last Wednesday included in the record as well as the communication Director Lurcott sent to Council concerning the petition in question.

Mr. Stone:

Likewise on the remarks around that bill.

Mr. Givens:

I'd like my remarks brought forward on Bill No. 236 also.

COMMUNICATION FROM DIRECTOR LURCOTT

10 February 1982

President and Members of Council
City-County Building
414 Grant Street
Pittsburgh, PA 15219

Dear President and Members of Council:

Section 549.04 of the Pittsburgh Code which authorizes the establishment of Residential Parking Permit Programs throughout the City requires that the Planning Commission submit to the City Council a report setting forth evidence of need as a result of parking studies discussing any concerns raised at the public hearing and, finally, setting forth the Commission's findings relative to designation requirements.

Attached is a report in response to this requirement justifying the Planning Commission action recommending a Residential Parking Permit Program for the St. Francis Hospital area in the Bloomfield/Lawrenceville section of the City. The report also contains a letter from the Director of the Department of Public Works concurring in the recommendation as required by the Law.

Please contact me if you have questions.

Sincerely,

Robert H. Lurcott
Planning Director

PITTSBURGH CITY PLANNING
COMMISSION REPORT TO CITY
COUNCIL REGARDING A PILOT
RESIDENTIAL PERMIT PARKING
PROGRAM IN THE LAWRENCEVILLE-
BLOOMFIELD NEIGHBORHOODS OF
THE CITY

I. STATEMENT OF NEED

The following indications of need are based on studies conducted by the Pittsburgh Parking Authority and also by BKI Associates under contract to the City to prepare a transportation system management plan for the eastern end of Pittsburgh. Based on this work, there have been 370 on-street parking spaces identified within the Pilot Program boundary. On weekdays between the hours of 9:00 a.m. - 6:00 p.m., 332 of the 370 on-street spaces are occupied resulting in an average occupancy rate of 90%, clearly in excess of the required 75%. We feel that this is a result of a densely settled neighborhood without off-street space and the pressure generated by the adjacent St. Francis Hospital staff and visitors.

II. PUBLIC HEARING

The City Planning Commission held a public hearing on February 2, 1982, at which residents of the affected area testified on the Program. There was no opposition to the program expressed at that time and those persons with questions appeared to be satisfied after further explanation of the program.

Residents of the community, in fact, were urging speedy action to implement the program and indicated their willingness to participate in evaluating this pilot effort. While representatives of St. Francis Hospital were not at the public hearing, they are completely aware of the progress of the pilot program and have gone on record indicating their support for it.

III. PARKING MANAGEMENT PLAN

A. Boundaries

Starting at the intersection of Penn Avenue and 45th Street, along Penn Avenue to its intersection with Cullen Street, along Cullen Street to its intersection with Carroll Street, along Carroll Street to its intersection with Friendship Avenue, along Howley Street to its intersection with Main Street, along Main Street to its intersection with Government Way, along Government Way and Bruce Street to its intersection with 45th Street, and along 45th Street and Penn Avenue.

B. Enforcement Period

1. One hour parking limit for vehicles without a sticker;
2. 7:00 a.m. - 7:00 p.m.
3. Monday - Saturday

C. Visitors Permits

1. One free permit good

for one year to each person qualifying for a residential sticker;

2. One permit good for one year at a cost of \$1.00 for a resident without a registered automobile.

V. At their meeting of February 2, 1982, the City Planning Commission unanimously recommended to City Council the adoption of this pilot program.

VI. EVALUATION

There will be three major aspects to the evaluation of this pilot program:

- A. The perception on the part of residents with respect to increased availability of parking near their homes.
- B. Increased usage of the St. Francis Parking Garage.
- C. Administrative capacity of the City to institute and enforce the program.

END OF COMMUNICATION FROM
DIRECTOR LURCOTT

MR. ROBINSON'S, MR. STONE'S AND
MR. GIVENS' COMMENTS ON BILL NO.
36 FROM WEDNESDAY, 4/28/82:

The Chair:

Is Bob Lurcott here?

Mr. Robinson:

Mr. Chairman, if I might, last week we had a petition that was submitted relative to this issue where some residents felt that they wanted another hearing on this matter. I had requested at that time that Director Lurcott look at that petition and see if we could accommodate them. He did forward a report to Council on the 28th. Each member should have a copy. I would just like to read a couple things from this, from what he sent us, so it will be in the record, and I would like to have a copy of this eventually put in the record.

He indicates the petition contains a total of 448 signatures. The second point is, based on the analysis of the addresses, only 52 reside in the area immediately surrounding St. Francis Hospital that proposed the sticker parking program. That was the key issue before as to whether or not the persons petitioning were in the affected area. His last paragraph says, "Therefore, it cannot be inferred from the petition submitted last week that the people in the affected area are opposed to this program but rather that the overall majority of those in the area support it. Accordingly, I recommend that Council take favorable action on the legislation before it so that we can have a true test of the effectiveness of the sticker parking in the area impacted by institutional parking."

Also, Director Lurcott indicated that last week when he originally set up the hearing and went through formal procedures that 70 percent of the people in the affected area wanted some kind of sticker parking, and we sort of got the same impression from the hearing we held. What I suggest we do is, I suggest the President of Council transmit a copy of this letter to the petitioners and that Director Lurcott get in direct contact

with them to see if his efforts accommodate their concerns. I don't see that the petitioners on this last petition are inconsistent with what we want to do, but I think all the procedures have been followed, and it really would be improper for us to have a hearing, because only seven percent of the people on the petition are in the affected area.

The Chair:

You and I are on the same track, but I thought the charge to Mr. Lurcott was that you check out your 70 percent.

Mr. Lurcott:

I understood that we were —

The Chair:

How many people are in the so-called affected area?

Mr. Lurcott:

Households? Seven hundred forty-five by our count.

The Chair:

The thing I'm trying to find out was whether or not our 70, because I got the impression that some of them didn't understand what was happening. That is a quote, so what I thought we were trying to check out whether or not the one we took, the 70 percent, was now standing up or whether it wasn't, and that is what I thought we were doing. Its passing is one thing, but I think if there has been some change, we ought to be knowing that. That is the only concern I have, frankly.

Mr. Lurcott:

We didn't get back and get another reading on that.

The Chair:

Is there any easy way to do that?

Mr. Lurcott:

Short of doing another round, I'm not entirely sure. We did have two meetings in the community. They were well attended. We had a public hearing at the Planning Commission.

The Chair:

The only problem I have with that, in fairness, I got the impression from the time of our hearing until now that there were people who didn't understand the way it was. They thought they were getting a parking spot in front of their house, which, as I understand, is not the concept. That is the only question I have. I don't come with any vehement objection.

Mr. Robinson:

I don't see how anyone got that impression. From all the changes we had to make and all the material and the law we got authorizing the City to set up a pilot program, I don't see how anyone could understand it.

The Chair:

Have you gotten any complaints from the community?

Mr. Lurcott:

No.

The Chair:

They are all supportive?

Mr. Givens:

They are sitting here in the front

row. I think they are all supportive. This is a six-months trial period. This is not cast in concrete.

The Chair:

It will be for six months.

Mr. Givens:

Six months, and the people are going to look at it.

The Chair:

Mr. Robinson just told us about concrete coming up in less than a year.

Mr. Givens:

The Allegheny River is right down there. If we don't like anybody, we'll put them in it. I think this community wants it. I think the majority of the people want it there. I think this is an effort, and, as depicted by the analysis of our Director, he so indicated they are people from without. I think the problem lies in here is the St. Francis Hospital accommodating 700-some workers, accommodating those workers wanting to go up to that hospital and park. They still didn't do anything with that north parking lot. They are not doing anything to relieve what I can see is the congestion of that area with their own employees. I think that should be addressed. St. Francis I heard when I was on vacation came in here and indicated they were not opposed to it, but I didn't hear anything about St. Francis trying to accommodate their own employees.

Mrs. Masloff:

They said they had a study.

Mr. Woods:

In fact, the study is done. I talked to them today. The study is done. They are going to re-stripe the parking garage, plus do something in the back and accommodate another 400 cars.

Mr. Givens:

They are building another large unit of the hospital there.

Mr. Woods:

I'm just saying what they said they're going to do.

Mr. Givens:

Even with the existing parking, I don't think they can accommodate in the public parking garage all the people that work in the hospital and want to visit the patients in that hospital. Along with that, they are going to construct a new facility. A large facility is going to bring additional people in. They have a long-range problem with parking.

The Chair:

That is the reason for the concern, not to slant this one way or the other. It is a pilot program, and we are trying to see whether this can work elsewhere, so what you want to do is get as much of the bugs out of it as you can.

Mr. Givens:

St. Francis, in my conception, is not addressing the total parking problem for their employees and the patients and the people that are coming to visit those patients. They are going up on another expansion program at the hospital, and I would have to say on the record right here that if I don't see some additional parking for this facility up there, that I can't see how this Council or the Planning Commission can approve any

new facilities at that particular St. Francis Hospital. West Penn was confronted with the same thing. West Penn went in and built additional parking spaces.

Mr. DePasquale:

You are 100 percent right. They definitely reneged on their promise to supply parking in regards to the latest addition we approved. I stepped out for a minute. I hope that has no bearing on the sticker progra, which is all the more reason I think we ought to go through with the sticker program, to protect the residents.

Mr. Givens:

If people can come up and not be able to park on the surface streets, then where are the people that are going to visit the patients in that particular hospital, where are they going to park? We have to watch this very closely in the six-month period. If that parking garage is parking over capacity, otherwise they cannot take all the people that want to visit that particular hospital, then we have a problem. We can't expect elderly people who are going in to see elderly people to walk two and three blocks to get to that hospital. THis has be be watched. Mike, send a letter to the St. Francis Hospital and to our Parking Authority. once this is instituted, I want a weekly rport of the occupancy of that parking garage, and if I see that that parking garage is going to be over capacity, then I think we have a problem.

END - MR. ROBINSON'S, MR. STONE'S AND MR. GIVENS' COMMENTS ON BILL NO. 236, WEDNESDAY, 4/28/82

The Chair:

Is there any further discussion on the bill?

And the majority of the votes of Council being in the affirmative, the bills passed finally.

Mr. Woods presented

Bill No.

Report of the Committee on Supplies for April 28, 1982 transmitting one resolution to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 742

Resolution entitled, "Resolution repealing Resolution No. 1102, approved December 5, 1979, effective December 10, 1979, entitled, 'A Resolution providing for the letting of a contract or contracts for the furnishing and delivery of a motor boat and trailer for the Department of Police, and for the payment thereof'."

Which was read.

The Chair:

Does this have anything to do with the article that was in the paper?

Mr. Woods:

Mr. President, this is repealing the old funding source from 1979.

Michelle Madoff:

This is not on the issue of the boat, correct?

Mr. Woods:

Right.

Mr. Flaherty:

I have a question. Why are we repealing it then?

Mr. Woods:

Well, because originally, the police were going to buy it out of their funds, but you sit on that Leasing Authority, and that is who bought it.

The Chair:

What authority?

Mr. Flaherty:

The Leasing Authority is who it was purchased through.

Mr. Woods:

Don't you sit on that Tom?

Mr. Flaherty:

Pardon me?

Mr. Woods:

You sit on the Leasing Authority, don't you?

Mr. Flaherty:

Yes I do sit on it. But why is this only coming before Council now? I mean, why the delay?

Mr. Woods:

They repealed it. They had the money set aside in 1979, that is what the bill says, and they didn't need it because the Leasing Authority bought it, so that money is back into the Police -- their Code Account.

Mr. Flaherty:

Okay.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

Mr. Givens:

I would like my remarks in the Public Safety Committee on Police, I would like those remarks to be brought forward to today's minutes.

MR. GIVENS' REMARKS ON BILL NO. 404 FROM THE MEETING OF APRIL 28, 1982:

Mr. Givens:

I am opposed, and my opposition is to the fact we are doing here to individuals who are the most trusted officers within the City of Pittsburgh, and we are denying them the opportunity to fully participate in the democratic process of our government. I vote no for that reason.

Mr. DePasquale comments.

Mr. Woods comments.

Mr. O'Malley comments.

Mr. Givens:

I would like to comment on that the fact we are entrusting these officers with the most delicate responsibility in our nation, yet we are denying them full participation in that process.

Chair comments.

Mr. Givens:

Why give them the authority to enforce the law the way they do - You give them that much power and authority and try to deny them to participate fully in that process. How many police departments of 132 municipalities in this county of ours are doing what we are doing and have restrictions on their police officers from participating in their democratic process? I think there are about two. The County Police do not have it.

I was "No" on the amendment. I was "Aye" for the bill.

MOTIONS AND RESOLUTIONS

Michelle Madoff:

I would like to address Mr. Stone if I may, particularly because I think he helped with this. Mr. Stone, I had a complaint in my office about someone who's car was towed from a private parking lot and he questioned whether there was any fee that could be set, in other words, could the owner, who arranged with a private tower, charge any number of dollars at all, I mean, could he charge whatever he felt like charging, and indeed, were there any signs that had to be put up; and we had had a bill before Council that we addressed, particularly, you and I were concerned about the Station Square situation, do you recall? Well, I got a letter dated April 29th from Danny Pellegrini, it says,

"In response to your memo of April 16, 1982, concerning the status of Bill 2746 of 1981",

the bill automatically died at the end of 1981 because we never followed up on it — it doesn't say that, but I'm just ad libbing.

"As the law now stands, towing companies can charge any amount they desire for towing, and no signs are required to be posted. Bill 2746 of 1981 would have set fees for towers as well as requiring signs in certain circumstances."

I think it is time we re-introduced this, what do you think?

Mr. Stone:

Where do we need it now?

Michelle Madoff:

Well, for example, the lots near some of our watering holes. Lots near various restaurants, particularly, we

ought to be addressing the situation in Market Square, you know there are no meters, you can't park, it is an impossible situation. Mr. Passadellis was in today, he's got some real problems up on the mountain, his business has deteriorated, he tells me everybody up there is going down about 50%. We've got to address this towing problem, particularly during this crisis of nowhere to park with construction going on. And in the downtown area, I don't want to particularly name names, I'll be happy to tell you after the meeting, there are just lots where people do not put a sign, they make a private arrangement with the tower and they can charge \$200 if they want to.

Mr. Stone:

Well, they can have a reasonable towing charge, I don't think they can charge \$200.

Michelle Madoff:

Well, the point is you have to know where your car is too, and if you are here from Ohio and you are here to see your sick child over the weekend and you can't find your car, that is not exactly cricket.

Mr. Stone:

Yes, but in answer to your statement, the owner can't charge anything.

Michelle Madoff:

Well, the fee that the tower is charging has been whatever he feels like, I understand.

Mr. Stone:

Yes, well that is the tower's charge and it should be payment for the service he renders.

Michelle Madoff:

Well, I agree with you but according to the Law Department there is no bill. Furthermore, I had a call from someone this weekend who told me that last weekend, her husband could not get out of his house if he had had a heart attack, and he has a bad heart, and that someone was parked in front of the driveway so that they would have no way out. The police were very, very upset, it was Sunday, and we don't tow on Sunday. Why don't we tow on Sunday? Could we have a post agenda on that Mr. President?

Mr. Flaherty:

Wait a minute -- I have a question for Councilman Stone. Bob, what recourse would an owner have if they felt that the towing charge is exorbitant?

Michelle Madoff:

None.

Mr. Stone:

Well, I think the ax is if they get charged for a service they are performing, and if they are charging an exorbitant fee, it seems to me they are not entitled to it.

Mr. Flaherty:

Yes, but who would they file that complaint with? It seems very open-ended to me.

Mr. Stone:

Common Pleas Court.

Michelle Madoff:

Excuse me Mr. Stone, I am not a

lawyer, but the Law Department says any amount can be charged.

Mr. Stone:

Well, I don't think he really means that, what he means is that they can charge ten or fifteen or twenty or twenty-five, but can they charge \$500? No.

Michelle Madoff:

It says, "as the law now stands, towing companies can charge any amount they desire". Do you know what they charged him? Fifty dollars. And also, I want to know why we are not towing city cars on Sunday. May we have a post agenda on both items and I would like Danny Pellegrini here to see what he needs in a bill, because we let it lag, we were going to study it and see what we could do and whether it was fair for people -- and we just let the ball drop and we've got to go back to that ball. Mike, I want Danny here and I want -- I think it -- who is in charge of the towing? Is it still Larry Yatch? Is that right Mr. President, its Yatch, isn't it, at the towing pound?

The Chair:

Yes.

Michelle Madoff:

Let's have Yatch and let's have Pellegrini here and let's get a bill before us that will work. And I'll give you this and would you give it back to me, I'd like copy. Its my only copy.

The Chair:

Any further motions or resolutions? Approve the minutes.

Mr. Woods moved to approve the minutes

of Monday, April 26, 1982.

Michelle Madoff seconded the motion.

Which motion prevailed.

And on motion of **Mr. Stone**

Council adjourned.

Municipal Record

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Monday, May 10, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
	(Pres't)

ABSENT:

Mr. O'Malley

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

The Chair:

For the first Order of Business today, Mr. Robinson has a resolution.

Mr. Robinson presented

No. 919 WHEREAS, the Pittsburgh Public School system has produced numerous persons of distinction and high merit over the years of its illustrious history; and

WHEREAS, under the direction of its Board members and Superintendent, the Pittsburgh Public School system is committed to excellence in the classroom; and

WHEREAS, the roots of that excellence is to be found in the young fertile minds of the school system's Elementary Students and in the talents of the Elementary School Principals and Teachers; and

WHEREAS, A. Leo Weil Elementary School participated in WTAE-TV's KIDS QUIZ on April 3, 1982 and distinguished themselves and their school with a team of fifth graders composed of Thomas Boyd, Stacy Taylor, Todd Williams, Ama Baltimore, and teachers Ms. Wilkes and Ms. Reynolds.

NOW, THEREFORE,

BE IT RESOLVED that the Council of the City of Pittsburgh on behalf of its citizens, does honor and recognize the accomplishments and success of the fifth grade KIDS QUIZ team and their teachers from A. Leo Weil Elementary School and does praise the guidance and support provided by Mr. Willie Ellard, principal and furthermore, does

congratulate the teachers, staff, support personnel, as well as the parents of A. Leo Weil students.

Which was read.

Mr. Robinson moved for approval.

Mr. Stone seconded the motion.

Which motion prevailed.

The Chair:

Council would certainly like to congratulate the students of A. Leo Weil Elementary School on their great achievement and obviously their teachers who have instilled such great confidence in them. Is the Principal here?

Mr. Robinson:

Mr. Ellard the Principal is not available to be with us this afternoon, but Miss Venisa Wilkes, the coach, would like to come forward and accept the gold seal copies of the resolution for the youngsters who participated in the program, and say a few words.

Before she does that, I would just like to say that I think often times we do not look at the positive things that are going on in our school system, particularly those things that relate to academics. The primary purpose of the public school is to educate the public. I think these youngsters are a testament to the notion that young people still want to learn, still can take advantage of our school system, and that there are dedicated principles and guidance counselors and support staff, as well as parents, are willing to work along with these young peoples, and I think the accomplishments of A. Leo Weil School are just another example of the fine tradition that our school system has, and the fact that our school system can be

one of the finest in the country.

Ms. Wilkes:

I don't know what to say. The members of Weil School would like to thank you very much for awarding the students that I know that are capable of doing great things, and I just want them to realize that this is just a stepping stone to greater things, and that you can do much more than this. Thank you.

Mr. Stone:

I would like to read this next resolution with your consent. Here we have a rather unique experience that happened in our City, and I have been asked to present this. So, with your permission, I would like to read it. Thank you.

Mr. Stone presented

No. 920 WHEREAS, Hilda Friday Weiss of 4601 Fifth Avenue, Pittsburgh, PA, one of the City's oldest citizens, was born on May 12, 1882 in the Hill District of the City of Pittsburgh and was baptized in Holy Trinity Church, since renamed St. Benedict de Moor, located at Center and Crawford Streets; and

WHEREAS, Mrs. Weiss was married to the late Dr. Edward Weiss who was on the staff of Mercy Hospital and died in the year 1926; and

WHEREAS, Mrs. Weiss gave generously of her time and energy in doing volunteer work at Mercy Hospital; and

WHEREAS, Mrs. Weiss will celebrate her 100th birthday on May 12, 1982,

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and Members of the Council of the City of Pittsburgh, hereby extend best wishes to Hilda Friday Weiss on her 100th birthday, and express sincere gratitude for her many years of dedication, devotion and service to her fellow man, thus enriching the dignity and pride of our City, and wish her many, many more years of health and happiness.

Which was read.

Mr. Stone moved for approval.

Mr. Masloff seconded the motion.

Which motion prevailed.

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Stone
Mr. Givens	Mr. Woods
Michelle Madoff	Mr. DePasquale
Mrs. Masloff	(Pres't)

AYES 7 NOES none

And there being two-thirds of the votes of Council in the affirmative, the bills passed finally.

Also,

Bill No. 831

Resolution entitled, "Resolution providing for an Agreement or Agreements for specialized professional

services in connection with conduct of negotiations and arbitration proceedings including labor relations advice; representation at negotiating meetings and economic and job evaluation advice, and related personnel matters; and providing for the payment of the cost thereof."

Which was read.

Also,

Bill No. 832

Resolution entitled, "Resolution authorizing the City of Pittsburgh to enter into a lease together with the County of Allegheny and the Public Auditorium Authority of the City of Pittsburgh and County of Allegheny from the Commonwealth of Pennsylvania for the lease of the Pittsburgh Convention and Exposition Center for a term of 30 years, at a rental of \$1.00, upon certain terms and conditions."

Which was read.

Mr. Givens:

On Bill No. 832, I think all of us received a flyback from our Solicitor in regards to that, wherein if the Convention Center falls apart, the state will be responsible for it. That is very commendable, but --

Michelle Madoff:

Better than us.

Mr. Givens:

I would like to send our Solicitor's copy to the State Attorney General, or whatever the case might be, to find out, in fact, if the thing does fall apart, who is going to be responsible for the demolition of the building.

But getting back on track, I think I am going to have to appear before the authority down there to encourage them to try to set up some type of a capital fund. I think if we look at our Three Rivers Stadium out there, that if such a fund were raised, it would be fine. Now, this Council, on many occasions, always have ribbed the people coming in from out of town and using our facilities. Well, here is a good example, where the people who use our Convention Center, as well as our Stadium, I would have to assume that many of them are from out of town, and that if we are to own part of this structure, in this particular case, the County, is also involved in it, so it reads the base out much larger than maybe our own Stadium, but the content still there.

When any major renovation or construction has to be done with our Convention Center, it must come from, in this case, half the money, from the taxpayers of the people of the City of Pittsburgh. All I am trying to establish here and I would hope that this Council could go along with it, and that is that there be some type of a fee put on all admissions to our Stadium and to our Convention Center, and to our Civic Arena. In this case they have turned it down, but the Authority still has, I think, within their purview, up there, to put some type of assessment on those tickets to help get some type of capital monies to help these particular structures, when in fact, they need major repairs, and any building that is built is going to need it in time, sometimes a little bit sooner than what we anticipate.

Again, the bottom line is to have the people who use that facility, pay for that facility. If you don't use it, then you don't have to pay for it. I would estimate, five, ten, fifteen years from now, that the people of the City of Pittsburgh are going to have to pay half the repairs

on all these major structures.

Michelle Madoff:

May I get a clarification? Mr. Givens, people do pay for admittance now. You are saying add on a small fee for maintenance. Is that what you are saying?

Mr. Givens:

Yes. They put all kind of fees on to the various tickets, but what they don't do is set a few pennies, like three cents on a ticket, would have built up a kitty over a period of time, to where you would have a sizeable -- within a four or five year period, of a million or so dollars, built on up to use for capital improvements, or just major renovations of a particular facility. I mean, we are looking right now, at \$11 million that the taxpayers of the City of Pittsburgh, depending upon how the agreement comes out with Three Rivers Management, might have to fork out.

Mr. Flaherty:

I have a question Dick. I concur in a broad sense, with your ideas -- which structures, specifically, are you referring to?

Mr. Givens:

I am referring to the three major structures that we have in the City that are used for this purpose, the Three Rivers Stadium, the Convention Center, which is jointly owned and also the Civic Arena, which is also jointly managed between the County and the City.

Mr. Flaherty:

Well, we don't own the arena --

Mr. Givens:

Well, yes we do — we are leasing it to DeBartola. We are leasing it to him.

Mr. Flaherty:

Okay.

Mr. Givens:

We are leasing it to him. If any major problem comes up or any major renovation that must be done in order to accommodate the visitors to these facilities, then that burden is going to be done by the taxpayers, in many cases, full amount on the Stadium and half that amount on the other two facilities.

I guess my question with this particular bill — you know, we are receiving it jointly with the County, but there is still a punch list that they are talking about, and even though the state has given us this money, it is still our money, the people of Pittsburgh's money, state money, that we pay each year, being returned to the City, and even though the state has the ultimate responsibility for that structure, and that in fact is still half belonging to the taxpayers in the City of Pittsburgh, and we on this Council, I think, must look with a little more scrutiny when legislation comes up like this in a blanket. You know, we haven't had anyone come up here from any authorities or anyone to tell us how serious the situation was down there, and maybe this bill should be held. I really don't know, there is a time fuse on it, that the state indicates, that within the 15th of May, that if we do not accept it, we are going to have to be thrown out. Maybe that could be extended a little bit, but we have a responsibility, I feel, on this Council, if we don't approve it, or if we do approve this particular bill before us today, that we are saying to all the taxpayers of the City of Pittsburgh, we accept that structure as it is.

Mr. Stone:

Mr. President, if I may, Mr. Givens has given some bad information and we ought to correct the record. First of all, the Convention Center was built by the state and they are turning over ownership at this particular point, and as the agreement calls for, and as our City Solicitor is supporting, there are some things that need to be done, and they will be the responsibility of the state.

Relative to any matter of capital improvements, in that particular instance, that is part of a budget that should be worked out. You can't by analogy, use the Three Rivers Stadium, because that responsibility was taken over by the Pirates. They did not do it that way, and as a result the problems developed. In this instance, we don't have the third party, relative to the Convention Center, and that will be part of the budget. But relative to this point, and at this particular stage of things, the question is, whether we accept the Stadium, or they shut it down. In which case we would suffer more.

On the other question, if there is anything else to be done, it still needs a joint agreement, cooperative agreement, between Allegheny County and the City of Pittsburgh. But I think it would not be in the City's best interests at this time, to reject an agreement that gives us a Convention Center that we can now use, as opposed to a closed down one at this particular point. If somewhere in the future, there is a desire to start some additional, which might be necessary, I'm not so sure that I see it now, if they are handling their budgetary matters right, it would appear to me that that would need to be done with the joint cooperation of Allegheny County, but again as I say, it is wrong at this point to reject it and I think that we are creating problems for

this City by not accepting it.

Michelle Madoff:

Mr. President, I don't think, and I would like to clarify with Councilman Givens, I don't think he is suggesting that we reject it. I think what he is -- he just said he was not, and I think he spoke very clearly. I think what he is saying is that all of us are concerned, that we are legislators and leaders; for example, the mess that we are in with the Stadium, once it is straightened out under the litigation, there should be a provision made to have some funds set aside on the ticket for further maintenance. Because no matter who owns it, whether it is the State, Galbreath, or DeBartola, if for some reason they go bankrupt and it falls back on us, we then have to maintain it, so there should be a built-in fund, kept in escrow, for maintenance of any of these facilities. And all he is saying, and I think Councilman Flaherty said the same thing, that in principle, he agrees, and I think his point is very well taken, I don't think any intelligent person could disagree with him. And he never said to reject this acceptance of the Stadium and I don't think it should be twisted to imply that.

Mr. Stone:

Then call the question.

Michelle Madoff:

There is no problem with the question, he stated something he thought was important, and I would like to further say, Mr. President, that on the Three Rivers Festival, we've never had any input in keeping that pigsty clean. This year, because I recommended that we do so, and a letter went off from our Law Department to the Three Rivers Arts Festival, they have built in a mechanism for keeping it clean so the

City doesn't have to do it. So, what Mr. Givens, I believe, is doing, is he is staying way up front, there is going to be a problem, obviously, let's address it. I did the same thing with the Three Rivers Arts Festival, and the problem is being addressed, and I think he should be complimented, not an implication that he is fighting it.

We now can call the vote.

The Chair:

Is there any further discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

MOTIONS AND RESOLUTIONS

Michelle Madoff:

Mr. President, I have been talking to all of the members of Council, and there seems to be an overwhelming support for this bill, but unfortunately since Mr. Robinson and Mr. O'Malley are not here and they have indicated that they would support the bill, I would ask that we hold it another week until they are here, but I just wanted to point out that I have just distributed an additional packet to the — I really hate to keep running this Xerox material off, but it seems when we talk about it, nobody remembers it and they don't remember that I gave it out to them.

What I am asking is that we have a grants person that would help groups such as the one I just submitted the letter, the Ozanam Summer Basketball League, who are pleading with us. A gentleman arrived in a wheelchair and he asked me if I could help him get some money from foundations. I told him the book was in my office, there also were other sources available, Councilman Woods has done an outstanding job, when he helped a group run a night at the races to raise money for what they needed, I helped Officer Friendly, raise some money for a baseball team, but on a one to one basis, we cannot service or help all of these hundreds of groups, and because I am afraid there are not five

votes here today, I am going to hold until we have all of the members of Council, but I would urge you please to look at this bill, and please to consider it.

Sophie has pointed, and rightfully so, that we have people on the payroll who are supposed to be doing this, but they are not doing it. Every city has a grants person. When industry pays for our people to go to Europe for whatever reason, that doesn't affect our vote here in Council, how could it possible affect our vote if a grants person goes out to a foundation and raises some money for some handicapped people in Ozanam to have some kind of a program. How would that affect our budget, it wouldn't affect it at all. But would you please consider it and we will re-introduce that next Monday.

I have another item Mr. President, I have two items. This morning's paper had a rather lengthy detail on the upcoming election, and did a story on Councilman Flaherty's amendment and the referendum vote, with reference to salaries.

I unfortunately predict that the public are going to vote no on the basis that the misunderstand. They think that it means get a raise, or not get a raise, and they are saying, "Those bums don't deserve a raise". I think it is important that the media understand, that somehow or other, I understand that you have been doing a lot, from that article, that you have been doing a lot of radio, I have been ill and just haven't kept abreast of it, a lot of talk show type of things, to let people know that it doesn't mean an automatic ten thousand dollar raise, as the last one, and a five thousand dollar raise the previous time before, but that indeed, from my perspective, and now I am not talking for anybody else but Michelle Madoff, I have had a resolution before Council that we have our offices

available 40 hours a week. Not that Councilmembers are in our office 40 hours a week, because as Councilman, and our President, Mr. DePasquale says, we put in probably a lot more than 40 a week, that we are on call all of the time, wherever we go, but just to show the public that indeed, we are not a part time job, even though some of us have other sources of income and employment, that we really do operate a full time operation, that our offices are open 40 hours a week. That failed. I am sorry that it failed, it would have given the public a little confidence in this Council.

Speaking for myself, certainly, the salary of \$32,000, if I am elected, and I understand that the word out on the street is to "get her", so I am going to have a very tough battle on my hands, but even at \$27,500, for the job that we take, if we are committed to our work, that is a very ample salary for anybody. And I pledge, that if I am elected, unless the economy takes a tremendous head for the better — unless the economy is so inflated, with an improvement, so that the inflation is not — excuse me — we are really in a recession and for people not working, a depression — unless we are back to normal, the economy is in better shape, and at that point, inflation would indicate an increase in salary, I personally will vote against every single increase in salary until that time, and that is a pledge that I am making.

Mr. Stone:

Mr. President, I am lost for a minute — less than two years ago she wanted \$28,000, and I told her as Finance Chairman I wouldn't recommend that kind of increase, and now we are talking here — I don't know what we are doing here. Talking out of both sides of our mouth —

Michelle Madoff:

No Mr. Stone, you listen out of one and it goes right through the other because you've got a vacuum.

Stone:

\$28,000, three years ago.

Michelle Madoff:

This is not three years ago. This is , and steelworkers are taking cuts in salaries, and other people are cutting back their salaries. We should vote to cut back our salaries. Are you willing to do it Mr. Stone? I'll go along with you, you've got a job as an attorney. How about cutting back on our salaries five thousand dollars, do you want to vote for it? I'll second it.

Stone:

Well, when you are asking for 40 percent in, I think you are talking about the people who put some time in it, not put some room there.

Michelle Madoff:

Well, I'm sure we're speaking for the room then, just putting the room in, half the time you are not at most of the meetings and everybody knows what you're saying anyway.

Stone:

The demagoguery you get in this room, you know it is worse than —

Michelle Madoff:

Mr. Stone, nobody has to say anything against you, because when you come to this hearing, they listen to you and they shake their heads and go out and tell other people.

The Chair:

He got a pretty good vote though.

Michelle Madoff:

He sure does.

The Chair:

Do you have another motion or resolution Michelle?

Michelle Madoff:

I'm just addressing -- we're not going to do the resolution today, we're going to hold it until next week until we have more people here, but I think it is important that the public understand that this is not a vote for or against a raise, it is a matter that under the new amendment, if it should pass, on the ballot, we would have the option not to take any raise at all, and I don't think the public understands that.

Mr. Flaherty:

I don't have anything to say, I think everybody knows —

The Chair:

We had a hearing on that, we thrashed that thing out, it is now up to the —

Michelle Madoff:

Unfortunately, people do not understand it. They think it is either a raise or not a raise.

The Chair:

Well, you're always so quick to agree with the newspapers, now you are disagreeing with them.

Michelle Madoff:

Oh, well they take me on frequently.

The Chair:

All of a sudden the newspapers are wrong? The Post Gazette and the Press are wrong? I don't believe that.

Okay, any further motions or resolutions?

Michelle Madoff:

One question Mr. President. You have a letter addressed to you, The Honorable Eugene DePasquale, President, from Manchester Corporation — there are two letters, well, I guess it is the same one, dated May 5th where — there was another letter, I don't have both of them, where they are trying to talk to you about the bridge in the area — I'm not familiar with that, could you brief me on that?

The Chair:

Yes, I got a letter from Mr. Lowe, asking me to set up a meeting with certain parties, the Mayor and other interested parties, I never got around to it because I really didn't have the time. I intended to look into it when I got back, but he had decided to go to the Mayor and ask the Mayor to set the meeting up and that is good enough for me.

Michelle Madoff:

The reason I am concerned Mr. President, is that, to refresh the memory of our esteemed Finance Chairman who encouraged us to vote for the \$70 million and \$10 million bond which we needed at the time to pay off some of our refunds on the decrease in taxes. I asked every department head to please give me a list

of every project that they would be using the money for and that it was imperative, that we couldn't delay and that was ready to to. Unfortunately, many of those projects have been cut, Eazor for example, has been replaced, and I want to know whether, perhaps, this bridge, is one that has been cut off, and yet this Council voted for the \$70 million with the understanding that that's where the money was going to go. I want to know whether we were flimflammed or bamboozled. I want to know if what we voted for is where the money went, and I have it on very good authority, and I have a list showing what has been cut out. And I want to know if this is one of the projects, sir, that perhaps you are being hassled about, that you have no say over, because some other administration, the people who run this city said, "No, we are not going to do it". I don't know that, and I was just asking for clarification, on this particular item. But on other items, we voted for a \$70 million bond, the money was to go to special projects, it is not going to the special projects.

Mr. Stone:

Mr. President, the Pennsylvania Avenue Bridge is where we are matching funds, and without those matching funds, having our share is not sufficient. Therein lies the problem, and that has also been questioned, whether or not that amount of money that is there, since it doesn't have anything to match with, ought not to be transferred over to complete, presently, so that we don't engage in escalation costs on the Fire House on the North Side. Now, somewhere along the line that has not been brought across to the people, it is not an attempt to abandon Pennsylvania Avenue, it is that it does not have the matching funds, Pennsylvania Avenue is on a priority list to go ahead, and will go ahead when those funds are available.

to just let funds idle when some other project can go, doesn't seem to be good sense and that was where some of the questions came up on that issue. But I think someone has indicated that if that money is released, Pennsylvania Avenue over. Pennsylvania Avenue Bridge is a difficult proposition, it needs done, it is the priority list, no one has abandoned it in it, the only problem is that it does not have the necessary matching funds which is the key to it all.

Chair:

In all fairness, if I may, I think where it was left, and you may correct me if I am wrong, was that the people from Manchester were saying it was a must, and the bridge had to be fixed at the present time, or replaced or whatever, and we were told if it is that much of a must or priority, there is a possibility of doing the bridge and deferring the other project. They didn't want to do it that way, they said it was easier to do it the way you are saying, but I think they left it open to the suggestion --

Mr. Stone:

They're going to move as soon as they get the matching funds.

Mr. Flaherty:

I just wanted to add that it seemed apparent to me that a lot of the frustration from the people from the Manchester area stemmed from the fact that the bridge was on the drawing boards and was approved prior to the fire house and I don't think that this Council the representatives from Planning adequately answered that question to the community as to how the fire house received priority over the bridge after the fire house was put on the drawing board, after the bridge.

Mr. Stone:

It's not a matter of one over the other. It is a matter that one is ready to go and the other doesn't have the matching funds.

Michelle Madoff:

Well, where's the money going to come from?

Mr. Stone:

We cannot fund 100%, so that matching portion, temporarily, is to be moved over so that the second project can move, and then when we go out for the money, then you come in and fill that up and hopefully by that time you have your matching funds. There is no underhanded situation here, it is a total up-front kind of proposition, it is not pitting one project against the other, but as it is right now, the fire house at Lineal and Chestnut cannot go forward because it needs some monies that we would fund 100%.

On the other one, on Pennsylvania Avenue, it needs our money to be matched with others. The matching funds are not there, so the question is, should you not transfer at least now, temporarily to move the monies over, and then as you are getting money and you get your match you put them together. It is no loss, it is still trying to move it, but rather than just let two projects stay stagnant.

Mr. Flaherty:

Well, I believe that everyone realizes no one has charged that there is anything underhanded, but it seems, why is the fire house ready to go when that was put -- when the commitment to the fire house came, I believe it was two years --

Mr. Stone:

No, no, no, no. The fire house was there six years ago?

Mr. Flaherty:

Was the fire house after the bridge?

Mr. Stone:

Six years ago and I put six hundred thousand dollars for it into the budget.

Mr. Flaherty:

Was the fire house after the bridge.

Mr. Stone:

No it wasn't.

Mr. Flaherty:

Well, then, this is a new fact for me because I thought it was —

Mr. Stone:

Yes but that's beside the point.

The Chair:

I know the fire house was definitely around a long time, I don't know —

Michelle Madoff:

Mr. President, I think this is getting out of hand, let me get back to my point.

Mr. Stone:

Let me finish. So that we clearly understand, it is not a matter of favoring one over the other, it is a matter of using available funds to complete. The

Chestnut fire house situation, we did our Water Department work there, we did our Public Works projects there, we have opened up that intersection for Troy Hill, Spring Hill and that lower North Side portion there, making the intersection more easily for traffic to move, and right now it is a matter of putting in the fire house which is overdue, a safety factor. Now, they are both safety factors, but I want to again say, this is not a over b or b over a, it is purely a matter of, can we complete, with the amount of money available, if we take this money for this now, until we can get the matching monies and at that time make a decision to move. There is no desire to move it back.

The Chair:

In the final analysis, I stand corrected, they under no circumstances, are ready for the Pennsylvania Avenue Bridge because they don't have the matching funds, and if we don't transfer the funds we are only going to hold up the fire station.

Mr. Flaherty:

Mr. President, I am going to cease after this — it was just my understanding from the hearing that the City gave a commitment to the Pennsylvania Avenue Bridge project before giving a commitment to the Chestnut hill. Now, if that is not true, then I believe that there was misinformation offered at the hearing because I think the hearing will prove that out.

The Chair:

You are going back about two or three years on the Pennsylvania Avenue Bridge and Bob is saying you are going back about five or six. I know there have been so darn many of those fire stations, and I don't mean to say it that way, but

are confused as to which one, but I know we have kicked fire stations around for the last 10 years.

Mr. Stone:

I'm not sure which came first, all I can tell you is that the fire house has been there when Mayor Caliguiri was a councilman and I think it is roughly six years ago.

Michelle Madoff:

Mr. President, we are off the subject, we are talking apples instead of oranges, let's get back to the subject. Mr. Stone, did you not, either last year or the year before, recommend that we change the way we do our capital spending, out of our Capital Budget because when projects weren't ready to go, we would have a general fund in which to draw from for those projects that were ready to go, that's why we made a change. Is that correct sir, yes or no?

Mr. Stone:

That is what was done, yes.

Michelle Madoff:

Right, thank you. With that in mind, I did not know the story on Manchester because I was out and all I did was say, "Mr. President, could you clarify this", and he has so done that and have you, by saying that we're just not ready to go on this project, therefore, we're ready to go on some other project. The point I am making has nothing to do with the Manchester Bridge. It only leads me to the issue and the issue again, for those who may not understand, and I would like to ask Mr. Eddie Albert, and I'm sure he won't be happy that I'm going to ask him this question. We took a \$70 million bond, we took a \$10 million

bond. The \$70 million bond will be paid back at \$207 million. We had an itemized list, it is in my office, of every project from every department that had to go, that could not wait, and was ready to start within several months, because if it didn't start it would be a catastrophe. Now, I have a new list that shows that these catastrophies have been pushed aside and one of the catastrophies was pushed aside so we could buy Eazor.

Now, I would like to ask Mr. Eddie Albert, how much money do we have left of the bond money? Say in Public Works, is it \$28 million? Approximately?

Mr. Albert:

Approximately.

Michelle Madoff:

And if we spent, how much on the Bloomfield Bridge to match, what kind of dollars are we talking about?

Mr. Albert:

Well, they are different —

Michelle Madoff:

But if we spent that money we have no money left at all, is that correct?

Mr. Albert:

Well, there are a number of projects that are done —

Michelle Madoff:

Very quickly, am I right? So that very few of the list that were presented to this Council as projects that were mandatory and were ready to go, for which we borrowed \$70 million, there is no money. I hope the media understands

what I am trying to say, I am not eloquent, and maybe I'm getting it bogged down in detail. We were given to understand we were borrowing \$70 million for specific projects. Not true. Get a copy of the list, I'll give it to you, and see what projects have been cut, and let the public know, it is time the public knew what is going on around here.

Mr. Stone moved to excuse Mr. O'Malley for absence from the meeting.

Michelle Madoff seconded the motion.

Which motion prevailed.

And on motion of **Mr. Stone**

Council adjourned.

(\$18,000.00) Dollars."

Which was read.

Michelle Madoff:

On Bill No. 848, to recall that we discussed that they were going to get back to us with an answer as to whether the community, you know, what they discussed with the community, the change of zoning. What happens is they come in and ask for one change of zoning and then they don't tell us as the project goes along that something else has happened. I get the feeling that the people were not informed but that the planners seem to feel that it will help the community.

I have very mixed feelings about this because we had the people from the community coming in and, well they don't pay taxes in the City. There's going to be a time when we're going to need help from the budding community. I really have some great concerns that we bring this in piecemeal, and I hope in the future we will watch this very carefully.

I guess we can't hold it up so I'll vote for approval on that particular bill.

Also,

Bill No. 850

Resolution entitled, "Resolution repealing Resolution Number 1403, approved December 31, 1981, entitled: 'Providing for the letting of a contract or contracts or the use of existing contracts, for the furnishing and delivery of Three (3) Aurora Series 410 Horizontal, Split Case, Single State Centrifugal Pumps for the Department of Water and for the payment thereof.'"

Which was read.

Also,

Resolution entitled, "Resolution amending Resolution No. 1445, approved December 29, 1981, entitled, 'Resolution adopting and approving the 1982 Capital Budget and the 1982 Community Development Block Grant Program; and approving the 1982 through 1987 Capital Improvement Program', by reducing funding for line item WD-82-05 and adding a new line item WD-82-11."

Which was read.

Michelle Madoff:

I have some concerns about another bill. Could you tell me, the Finance Chairman is not here today, on Bill No. 851, Mike, is that the bill for the backhoe? We're putting monies aside because we need to buy a backhoe? Is that the heavy equipment bill?

Mr. Perry:

Yes.

Michelle Madoff:

I got a letter that I cannot believe that I'd like to share with this Council. This is from the Department of Water. I hate to do this, but I'm going to ask that the bill be held a week.

"Purchase of heavy equipment. We've been advised by the Department of Supplies that the subject purchased by auction can only be consummated when no responses have been received through the bidding process after two such attempts. If the statute is unacceptable to you then Council should endeavor to amend the ordinance."

Everybody understood clearly and

concisely what I said and this is just a matter of playing. I do not understand.

Mr. President, did you have a chance to read this morning's paper?

The Chair:

No I didn't.

Michelle Madoff:

There's an article "It Could Be a Long Hot Summer in Inner Cities Perspective". They talk about what the people came here and talked about the other day about summer jobs. About the fact that we are going to have tremendous unemployment and there's no longer going to be the riots that we saw where they destroyed their own cities, but now they're going to destroy, because there's nothing left to destroy on the hill, they're going to come and destroy the rest of the city. And that's essentially what this article says. And it says that we better start to look at ways of creating jobs and Reagan better change the way he's thinking.

Mr. President, you're a very bright man who's been out with heavy equipment a lot longer than I have in dealing with the community and dealing with purchasing of items. You worked in various departments. You know and I know that Crucible is going out of business. You know and I know that they've shut down many, many operations. And you know that Crucible just put in two new electric arcs. If they put in two new electric arcs, they probably have several new trucks. They probably have new offices that were equipped. They probably have IBM typewriters. A truck with 5,000 or something miles on it, 50,000 miles, is just being broken in. What I am saying is that this Council, in light of the fiscal problems we're going to have, and have

already gotten, the fact that we can't provide jobs for people in this community. And the CETA program have been shut off, and we really have a problem raising money even for charities. Why shouldn't we be buying every conceivable piece of equipment in this city, such as, heavy trucks, some cars that could be used by the detectives when they have to change off cars not to be identified, by Council chauffeurs, Parks and Recreation, the Water Department backhoes. We could buy them for no more than forty cents on the dollar when we could be buying them cheaper. And if we took the total budget allocated to this city for expenditures, for buying equipment, and cut that by sixty percent, look what we could do for this community. And for me to get a memo that the Supplies say that if we don't have two qualified bidders, then we can go to an auction, is a bunch of B.S. They don't make decisions for this Council. Larry Yatch is probably one of the most qualified people and I bet some day he'll be Mayor of this City. And I certainly would support him for his office for City Council.

The point is irrelevant. You can go out and hire a Supplies Director for \$25,000.00. That's a big salary. You can get a Councilmember for \$25,000.00. Today there are people not working and I'm saying we've got to start supporting the kind of bill where we don't --

This is serious and it's not a joking matter. I said that I would be willing and I'm firmly committed to not raising our salaries myself, on Council, but it isn't enough to just say that. I'm saying, Mr. President, we can save, and our members of Council -- Ben, you ought to know, you deal with this all the time. Your union deals with this all the time. You can get equipment that is second hand, that is in mint condition and especially when you buy it from auction you can put

it back up for re-auction again, so that you're not taking very much risk and remember, you have experienced people going out and looking at the equipment.

We're not competitive. We're not competing with another industry in this city. We're trying to save the taxpayers some money. And that applies to the issue we talked about the other day. It's all the same ball of wax, overruns on contracts. It's all the same thing.

What I'm saying is where can we save some money? Now when the Water Director tells me he can't buy a backhoe that may be in perfect condition, and we need three backhoes, and we're going to buy a new one when you can get three for the price of one because we can't go ahead unless we change the law, there's something wrong with the way we're doing business.

And I'm going to try to introduce an ordinance to amend the legislation. Obviously I don't know what to do. I'd like to hold it a week just to get the message across, but no bill will pass in a week.

Mr. Woods:

Michelle, we very seldom agree with one another. I don't like that letter you got from the Supplies --

Michelle Madoff:

I agree with you quite frequently. I think you do a good job.

Mr. Woods:

I don't like that letter you got from the Supplies Department and I'm going to check into it. In a way, there are a lot of businesses going out and we could send them a letter saying we need this piece of equipment, just as we do

with a new dealer, can you give us a price on it? And I'm going to check into it with Larry Yatch and see if we can do that.

Michelle Madoff:

Ben, it's more than that. You see the auctioneers will let you look at it weeks in advance. And you can see if its good, and if it isn't good they take it back and they re-auction it.

Mr. Woods:

The point is, under law, you have to let them bid on it. So let them bid on it and if it's a used piece of equipment and they come in forty cents on the dollar, like you say, and if we go out and look at it and it's worth it then we should buy it.

Michelle Madoff:

Ben, would you help me look into this and perhaps we could introduce an ordinance together?

Mr. Woods:

I don't think we have to introduce anything. We should just direct it to start putting these people in the mills.

Michelle Madoff:

We can't do it without changing the ordinance. Sophie's right. The law says we must go to bid. We want to change it so that we don't have to go to bid.

Mr. Woods:

You're misunderstanding what I'm saying. When you see a business that is going out, or is in bad shape, or they have extra equipment, you send them a letter just like you send to a dealer, we

need this piece of equipment, would you please bid on it. Whether it is new or used.

Michelle Madoff:

Ben, unfortunately I know a little bit about that business. That's how I happened to stumble on it. I won't work that way.

Mr. Woods:

What I'm saying is that you have to change the law for that.

Michelle Madoff:

Ben, you're right, if it would work. But it won't work, and let me tell you why. The only reason I happen to know about these heavy pieces of equipment, I know by accident. The reason I know is the people that the Mayor bought their house from, Harry Davis, the auctioneer, deals in this. I've tried to get them to warehouse, or get someone to go into business and buy even desks for our Law Department. You know, my office, I have two lamps that were on sale. They went out for bid, but nobody could underbid the price. I have two chairs that were on sale. Nobody could underbid the price. We did it legally, but we bought it on sale. I have the prettiest office. You can get a desk that's a three thousand dollar desk cheaper than what we're paying for a new desk in Council that will last twenty times as long.

The reason it won't work, Ben, to say "We want to bid on it" is they give, the auctioneer won't take it if you're piecemealing it away. They come in and take over the whole project. So what we need to do is change the ordinance and we can look into this together. If we can do it your way, super. That could be one way of doing it. But it should be broader

than that. It should be a matter of going to the private sector even encouraging the private sector to create an industry where they buy used equipment. Get lists of what government people need. Do we need new desks in CETA? Do we need a new bench downstairs? Could we use a second hand bench? My house is a beautiful home. It's a \$200,000.00 home. My bedroom is furnished with two end tables that I bought from somebody's apartment. I have a headboard from somebody else's apartment. I have two armoires from somebody else's apartment. Second hand. They will last longer than something I would buy new. It's not innovative. It's just a matter of we in Council saying, "Do we want to save the people sixty percent of the dollars that we're spending right now to buy equipment which would go a long way to providing jobs to keep riots from happening in the streets."

Mr. Woods:

Michelle, I think, and I'll check it out further, I think we can do it the way I said we can do it because we just did it with a boat. A lot of used boats and they send out for bid and it happened to be a used boat that met the specifications, so I'm sure we can do it.

Michelle Madoff:

Ben, I think you make a very valid point, but I think if you would do me the honor of calling some of the auctioneers, you'll find out it doesn't work that way. And if you call even some of the companies going bankrupt — call the auctioneer, find out who they're representing at the next sale, and call the sale person. And you'll find the way the deals are set up is they get the whole package. I'm not improvising. I only know by accident.

Mrs. Masloff:

It seems to me that the whole process of bidding and the law was set up so that there would be little way for — Anyway, it seems to me that this is the law and it was set up because it's the best way. Isn't that so?

Michelle Madoff:

Yes, but this is 1982, Sophie.

Mrs. Masloff:

That's the law. If it was good then, it's good now.

Michelle Madoff:

You see, what's happening, Sophie, is people don't even want to bid for even doing work for the City or even supplying us with uniforms. Do you know why? Because we don't pay our bills on time. Lord knows, Mr. DePasquale has screamed about this enough. Therefore, only one person bids. The next time, they add on a higher fee. When they go to bid, they're the only bidder. And why do they do that? Because they have to go to the bank and borrow at seventeen percent. And I'm saying that we are not in competition. I would like to include in the bidding process items that we could buy second hand, used, like new, in good condition, evaluated by an expert, and we already have those in the City. And with a rider that says that if the equipment is not any good it gets resold.

We're going to make mistakes and we're going to get a piece of equipment and they're going to say, "See, Michelle, you didn't know what you're talking about, that motor failed on that car". But I bought a new car and the motor failed at nine thousand miles. I had to sell it. But on the law of averages, we are going to come out saving sixty

percent of the budget of buying supplies for this city. I can't imagine that this Council would not support that.

The Chair:

You make a point in regards to paying our bills. I don't know why, but it seems that we just can't pay those vendors within a reasonable amount of time. It's a shame. Some of them are close to going out of business because they just couldn't meet their payroll.

Michelle Madoff:

Jeep, do you agree with the point I made? This is important. Do you agree, Mr. DePasquale, that if we could buy fifty percent of the equipment that we need, like a lawyer's desk from some big executive corporation that would be magnificent, for forty percent of what we paid for it going out to bid, that we shouldn't be doing that? Wouldn't you agree?

The Chair:

I can't agree with you because I'm not sure of the facts.

Michelle Madoff:

We need to change the law. The law says we can't. The law says we have to go to bid. But I'm saying let's amend the law. The law once said that we should have slaves but somebody freed them.

Mr. Givens:

I'd like to bring out one point. The City does many unique jobs where I don't want them going out and buying any second hand equipment. I can think of the Fire Department, Police Department, our Medicals, even our Water Department, we have special,

unique type of equipment right there that has to be maintained on an up to date status. Any time you go out, and even though it sounds like forty cents on the dollar, you're still buying somebody's extra junk. If we're going out of business or going out of business for a damn good reason, they probably haven't been able to buy the equipment for some time, and most people, when they go out of business, you'll find a couple good buys, I have to agree with you, but we're not trying to go into a business right here. We're trying to run a first class operation. Before you came here and while you were here, this Council had one heck of a time trying to update our present fleet of over some 1,300 vehicles. We have now done that. And I think what you're talking about here might have some merit in specialized cases, but never across the board.

Michelle Madoff:

I agree with you completely, Mr. Givens, and I think you make a very good point. However, the thing that we want to be concerned about is where we can save money, we should. And where this Council would approve going out to bid in special cases, it should be going out to buy, and not going on the bid process, buying through auction, but it should come through this Council. I agree with you completely. But you also made a point that we ought to be running a first class city in a business like way. If any business ran the way the city of Pittsburgh did, they'd be bankrupt in two weeks.

The Chair:

Michelle, I believe you made your point. We were calling for a vote, I believe.

Michelle Madoff:

I'm going to vote aye. I'm not going to hold the bill because it's a no-win situation. I think I've made my point. Since Councilman Woods has been kind enough to say he'd help me look into it, I would ask that Councilman Givens also help us look into it to make sure we don't go out on items that we should not be going out on, and I will waive it.

Mr. Givens:

Excuse me, Mr. President. I'd like some comments from the Chairman of Supplies. If Michelle wants to put it back into Committee and if Ben and her want to study the issue, fine. I think it's equipment that they're not needing right now.

Michelle Madoff:

We need it. It's an emergency. It's an emergency piece of equipment.

Mr. Woods:

I said that I would look in to see about sending the same notices out to people that sell used equipment. But we have to move this bill. They need the backhoe.

Michelle Madoff:

Right, but you'd also take it beyond that, wouldn't you Ben? You'd look into the whole package with me wouldn't you? The whole ball of wax?

Mr. Woods:

Right. I will.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Woods
Michelle Madoff	Mr. DePasquale
Mrs. Masloff	(Pres't)

AYES 7

NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Mrs. Masloff presented

Bill No. 960

Report of the Committee on Parks & Recreation for May 12, 1982, transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 811

Resolution entitled, "Resolution repealing Resolution No. 205, effective 3/6/81, as amended by Resolution No. 754, effective August 10, 1981, entitled, 'Amending Resolution No. 205, effective 3/6/81 entitled, 'Providing for a contract or contracts or the use of existing contracts for Engineering Services within the Department of Parks and Recreation and providing for the payment of the cost thereof', by clarifying the uses of the contracts'."

Which was read.

Also,

Bill No. 812

Resolution entitled, "Resolution repealing Resolution No. 501, effective 6/11/80, entitled, "Providing for a Contract or Contracts for Electronic Building Security Systems for various City Park Facilities and providing for the payment of the costs thereof."

Which was read.

Also,

Bill No. 813

Resolution entitled, "Resolution repealing Resolution No. 707, effective 8/10/79, entitled, "Providing for the purchase, in lieu of condemnation for park and other public purposes, certain property designated as Block 39-J, Lot 3 on Glendon Street in the Twenty-Eighth Ward of the City of Pittsburgh; and providing for the payment thereof."

Which was read.

Also,

Bill No. 814

Resolution entitled, "Resolution amending Resolution No. 1220, effective 12/16/77, entitled, 'Providing for a Lease or Leases and/or License or Licenses for the use of certain property for Senior Citizens in an amount not to exceed \$46,000.00,' by reducing the amount provided."

Which was read.

Also,

Bill No. 815

Resolution entitled, "Resolution

amending Resolution No. 243 effective 4/11/80 entitled, 'Providing for an Agreement or Agreements for professional services in connection with the design of Southside Park and providing for the payment of the cost thereof', by reducing the amount provided."

Which was read.

Also,

Bill No. 816

Resolution entitled, "Resolution further amending Resolution No. 979, effective 12/23/76, as amended by Resolution No. 413 of 5/16/77 entitled, 'Providing for the letting of a contract or contracts or the use of existing contracts for the construction of the Schenley Park Swimming Pool, in the Department of Parks and Recreation, and providing for the payment of the cost thereof in an amount not to exceed \$396,000.00' by increasing the authorization to \$455,411.00, by reducing the amount provided."

Which was read.

Michelle Madoff:

On Bill No. 816, I want to remind this Council that the original contract for the Schenley Pool was for \$390,000.00. We're spending \$452,000.00. That's a \$62,000.00 overrun, and that didn't include the sewers.

I asked Louise Brown whether she is having every available expert go over any contract in the future before they start building and she said on some of them. Sometime. And I asked Mike Perry whether he would follow through on that, I believe, and send a letter so that we have a record.

I want to start seeing these contracts before they go to bid. I want Council members to see that, indeed, people have looked at these so that we don't go through these overruns, and that gets back to what Mr. Woods has said again. Isn't this a crime? \$62,000.00 overrun and that didn't include the sewers. I think it's probably like \$150,000.00, Ben. And this goes on all the time.

I would like my comments brought forward from the Wednesday meeting. Intact. Every pearly word.

(BEGINNING - MICHELLE MADOFF'S REMARKS ON BILL NO. 816 - WEDNESDAY, 5/12/82)

Michelle Madoff:

Director, how much money, off the top of your head, ballpark figures, was allocated to this particular project?

Director Brown:

Around \$452,000.00.

Michelle Madoff:

I'm talking about the first dollar figure allocated to this project before we kept having add-ons and add-ons and add-ons and add-ons?

Director Brown:

I think it was about \$390,000.00.

Michelle Madoff:

We are \$62,000.00 over?

Director Brown:

Over what was originally estimated and that was because we were having problems.

Michelle Madoff:

In the future we had discussed at that point in time that anytime you had a plan for a facility such as a pool, that we would have not only the consultants but several other departments look at it as well. Lands and Buildings, Planning, etc., any department that might have some input so you don't have a sandbox next to the deep end of the pool and the mother in a shallow swimming pool six blocks away. Are we doing that now, are we having —

Director Brown:

Yes, we are trying to do that.

Michelle Madoff:

That isn't good enough. As good as we can isn't good enough. I want to know how many signatures we are now getting on those plans before they go out for construction?

Director Brown:

Signatures?

Michelle Madoff:

Yes. I want architects, the Planning Department to look at it, I want your department to have looked at it — go back and look in the old days when they had some of the pools built, there five, ten, fifteen signatures of everybody they could think of. Maybe the ground is going to slip, maybe the sewer isn't going to work, like Public Works, because that's what happened here, isn't it?

Director Brown:

Yes.

Mr. Givens:

Wait a minute.

Michelle Madoff:

What about it? They found a sewer there that was plugged up with garbage and the sewer wasn't even there and they had garbage coming out of the hillside and that's why we are \$62,000.00 over and I know that \$62,000.00 is just on the pool alone. If you start adding all the other problems, we are probably way over \$100,000.00.

Now, I want to ask you a question and I want a direct answer. I would like to know and I would like a memo from you, that in the future, anything that is going to be constructed in your department, and it should probably be a rule that Mike, maybe we ought to do it as a resolution, every department that could possible be involved with projects, would look at the schematics, the plan, before it goes out for construction.

Director Brown:

I have no problem with that.

Michelle Madoff:

But we haven't been doing that. Is that correct?

Director Brown:

We have been working with Public Works and the Water Department and the Planning Department and involving the community on all the projects that we are working on.

Michelle Madoff:

Are there signatures on the plan from all of these departments?

Director Brown:

No, they aren't required.

Michelle Madoff:

I may not get re-elected and it is very conceivable — Mr. Stone is throwing a big party — but somebody sitting here may not know what we have heard in the last four years that we had probably \$150,000.00 overrun on that particular pool because of all the other problems because we didn't go to Public Works on sewers, because we didn't drill and we didn't know about the shifting. So, Mike, I would like to make that an ordinance that we go back and do business like we used to do.

The Chair:

On the bill?

Michelle Madoff:

Opposed.

(END - MICHELLE MADOFF'S
REMARKS ON BILL NO. 816 -
WEDNESDAY, 5/12/82)

Mr. Givens:

Mike, Mr. President, if I might. On this same issue, Mike, I would like to have Council, either through its Finance Department or otherwise, either through your department, to research all bills that have overruns by department heads. Otherwise, Water, Works, etc. To do this going back, say over a two or three year period and come up with each department and see how these particular overruns are running. Otherwise, I want to look at a department head and see if he's doing something about this. And if we see a trend, which I think the trend is an upward trend, which would be an inflationary trend maybe, also, so what

we're looking for is real dollars minus inflation that we can come up with such a figure to show are the directors addressing this particular issue. One that has been raised many times by this Council and this Councilperson personally. And I have concerns in this area. Is there a lack of engineering? Is someone not doing their job in a particular department. I think if we keep a kind of a box score arrangement as to what's happening, and make this a monthly report, or a quarterly report to Council, by a graph, that we can just look at one particular sheet of paper and see exactly what each department is doing by the number of overruns they have.

I'd be more than happy to sit down with somebody and draw up a little schematic of how it should work and looking by one eight by ten piece of paper with one ten second glance, I'll be able to know exactly how the various departments are doing. And then, I think, at budget time, when we come into our budget, and I think we have some serious questions, then, to ask these individual directors as well as doing it on a day in day out basis.

Also,

Bill No. 817

Resolution entitled, "Resolution amending Resolution No. 1198 effective 12/16/77, entitled, 'Providing for the letting of a contract or contracts or the use of existing contracts for the construction of a new swimming pool and community room in Banksville, and providing for the payment of the cost thereof in an amount not to exceed \$500,000.00, in the Department of Parks and Recreation' by reducing the amount provided."

Which was read.

Also,

Bill No. 818

Resolution entitled, "Resolution providing for a contract or contracts or the use of existing contracts for repairs to various swimming pool facilities including Leslie Pool and Homewood Pool; and providing for the payment of the cost thereof."

Which was read.

Also,

Bill No. 819

Resolution entitled, "Resolution providing for an Agreement or Agreements or the use of existing Agreements for professional services in connection with the design, fabrication and installation of Art Work for the Nortgate Swimming Pool and providing for the cost thereof."

Which was read.

Also,

Bill No. 820

Resolution entitled, "Resolution providing for an Agreement or Agreements or the use of existing Agreements for architectural, engineering or other professional services in connection with the Renovation of Mellon Park Service Building and providing for the cost thereof."

Which was read.

The Chair:

Is there any further discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Woods
Michelle Madoff	Mr. DePasquale
Mrs. Masloff	(Pres't)

AYES 7 NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Also,

Bill No. 847

Resolution entitled, "Resolution providing for an Agreement with the Arsenal Board of Trade for performance of services in connection with their 1982 Independence Day in Arsenal Park, and transferring the aggregate sum of \$2,000.00 from Code Account No. 42, Council's Contingency Fund to Code Account No. 1838, Department of Parks and Recreation."

Which was read.

Mr. O'Malley:

Mr. President, I'd like to ask Mr. Givens to bring me up to date on Bill No. 847.

Mr. Givens:

You weren't here were you?

Mr. O'Malley:

No.

Mr. Givens:

This is the bill that was discussed in Council and it's primarily funding for the Arsenal Board of Trades and the conducting of their Fourth of July ceremony down there. Naturally, the business community down there was very generous over the years, Jim, but you have to appreciate that even the business people were being curtailed dramatically right now. Much of this ties in to the entertainment down there with the senior citizens and the youth. Many ballgames and other things. There's quite a bit of outlay with inflation and everything else. Times are tough and people need to sometimes, to forget. You have to appreciate that Heppenstall's and many other businesses have gone out of business in that particular community within this last year, putting extreme burden on the Arsenal Board of Trade to come up with additional money. We can think of, in recent years, Point Park now, through the city, puts on a fairly good fireworks display. Primarily that's done through the business community. And I don't know if that's going to be able to continue or not.

Along with that two thousand dollars, some of that money will go to the —

Mr. O'Malley:

Dick, that's not the point.

Mr. Givens:

You asked me to explain it to you so I'm explaining it to you.

Mr. O'Malley:

It's a very worthwhile cause, but we have hundreds of little leagues, basketball teams, football teams. We

have parades. How can you justify giving taxpayers' dollars to this and not give the taxpayers' dollars to a hundred others?

Michelle Madoff:

Meals on Wheels.

Mr. Givens:

Well, I think if you'd go down and see the several thousand, probably five, ten thousand people that view that little

Mr. O'Malley:

It's a worthwhile cause. I just don't think that we can justify giving them two thousand dollars and not giving it to the Fourteenth Ward Little League or the Twelfth Ward basketball team. I just don't think it can be justified.

Mr. Givens:

We talk about giving things to our people in the neighborhoods. I think we've done a lot for Downtown. This is trying to return a few tax dollars to the people in the City of Pittsburgh. If you can remember, when the City of Pittsburgh when I had a map out here, when Mr. Flaherty had his Councilman by district, I brought out a map that showed where our money was going within the city as far as our CD projects and others. It was noted on that particular map that the Ninth Ward had not received one dollar in almost a five or six year period, how many years I went back.

So this is trying to return a little bit of money to that particular area down there for the enjoyment of the people who live in the surrounding Bloomfield/Garfield, Lawrenceville, Polish Hill, and even those in our borough of Millvale that can look over and see

those enjoyable fireworks.

It's just not the firewords, Jim.

The Chair:

Mr. Givens, what are you specifically earmarking the money for? What cause?

Mr. Givens:

The cause is to put on, this Fourth of July, fireworks. It costs somewhere around four thousand dollars to put this event on. That's paying officials, getting trophies for the games. And I might submit that almost all of our neighborhoods in the City of Pittsburgh, we have done something for.

The Chair:

If I recall, I'm talking about ten, twelve years, haven't they depended on the business in the area and other contributions to put this on? Hasn't this been the procedure; that they got contributions from business establishments and other people?

Mr. Givens:

Yes. I know each of the Councilmen receive a letter asking for --

The Chair:

That's totally immaterial. They say now they don't have the money, they're not getting the contributions and they need money. Have they made the request?

Mr. Flaherty:

Yes they have.

The Chair:

Well that's something else. I think we have to agree it's a very worthwhile cause. It's been going on for as long as I can remember and I'd hate to see it cease because of a lack of our participation.

Mr. Flaherty:

I would just want to add that this is a tradition that this year will be close to the 38th year, I believe, consecutively that the Arsenal Board of Trade has put on this very worthwhile ceremony and I know that I have attended for the past few years and I can personally say that this is an event that draws from just not all over the city, but it pulls from all over the county. I know that even when I was young, when I was eight years old, or eight to twelve years old, when I would go and see the fireworks, my parents would always take me to the ceremony at Arsenal Field. So I believe that it is a tradition that is ingrained for all of the people of the city of Pittsburgh as to how a lot of them celebrate the Fourth of July and it isn't an appropriation that's only going to one select community organization or one select team from a specific neighborhood.

Therefore, since it is on a special occasion, the Fourth, I think we in Council should wholeheartedly support it. And incidentally this is the first time out of all the joy and celebration that the ceremony has extended for close to the last forty years to the city, this is the first time that the city has offered to do anything.

The Chair:

I think Mr. O'Malley, in all fairness, may be confusing this with Little Leagues and other ventures. I believe, Jim, and I'm not sure, that this

is probably the only community in the city that does this on the Fourth of July, or any holiday for that matter. The only other one I ever remember is the Fifty Ward. I participated in that one. My late good friend Davy Roberts would ask me to give him a hand. But that since has gone by the wayside I don't know how many years ago. They just quit those races and ballgames up in the Fifth Ward and the picnic and what have you. So really the Lawrenceville and Strip area is about the only ones left that are doing that and it would be a shame to see it go down the drain.

Mr. Givens:

Hundreds of thousands of dollars out which are divided among all the communities in the city of Pittsburgh for Parks and Recreation, for music groups to come in. That's what this is for, but they just ran into a little bit of a problem this year, and I think all of us have to just look at our economic climate and can appreciate that.

Michelle Madoff:

You know that we were asked to give money to East Liberty so they could advertise, and I objected to that, although I supported East Liberty and other projects. I said if they needed it for some specific piece of equipment, like a water hydrant or a fire station, I would have supported them and I could not go along with East Liberty getting money to advertise. Mr. Stone brought up the issue and said that if we do this, we're going to be hit again, and sure enough all of us got a letter again from East Liberty this week asking us for some more money.

The Chair:

We gave them that originally.

Michelle Madoff:

No, this is another one. They need something more. And Mr. Stone has made the point once we open the flood gates it will go.

I think this is a very worthy cause, and I think we have to give them the money. However, this gets back to the grants person. As Mr. Woods has said, he went out and helped a group that asked him to help, and he went out and he raised two thousand dollars for the Night at the Races. How much did you raise? Three thousand. Officer Friendly came to me about some of the baseball programs they have and I said I would show them how to raise some money by doing some projects. By going to the merchants.

What we need desperately in this city is a grants person, and everybody is passing the buck and saying, "I don't want to have the buck stop with Council". I don't want to say that Council should pass an ordinance that wherever possible, wherever possible, practical and logical, that we go out and buy our equipment slightly used so that we can save sixty percent and then we can have money to give to these groups. We don't want to do things like that. We all want to be loved by everybody. Everybody wants to buy the world an ice cream cone.

Obviously, had we had a grants person, they wouldn't be sitting here now asking us for the money and I hope you'll vote for the grants person.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

UNFINISHED BUSINESS

Mr. Givens:

I'm very distressed with a newspaper article that I've seen written here by the Post Gazette on May 11, 1982 of last week, on page four called, "Madoff Vows to Vote Against Council Raises", and down, about one third up from the bottom of the sentence, it indicates that one of our Councilpeople, mainly that of Madoff, said the matter of voting to give the bums a raise or not to give them a raise, Madoff said, referring to this Council.

I take exception to that.

Michelle Madoff:

That's not what I said.

Mr. Givens:

This is what I want to clarify.

Michelle Madoff:

I'd be happy to. I'll give you a copy of the press release. The last time I tried to give you a copy of something I sent out as a public mailing to inform the

people of the budget, you said, "I don't want to read it because I don't want to be a co-conspirator". You didn't even know what it was you were voting against.

What I sent out, Mr. President, was a press release saying that the public, not Michelle Madoff, but the public, was going to look at the bill and say, "I'm going to vote no because they're going to say it's only a matter of whether we're going to give the bums a raise or not give them a raise". That the public was saying that, and that, indeed, it would be misconstrued and, therefore, I wanted to clarify the position. The press release is very simplified. It says that I support it because if we amend the Home Rule Charter, we then can take no less than —

It's a difference of opinion. I was supporting Mr. Flaherty's position as opposed to Mr. Woods' position. I think they both have some good points on both sides, but I think we really get to a point by holding the line until 1984 that we could even say let's not take raises.

I did not call Councilmembers bums.

Mr. Givens:

Michelle, I'd like to just get down to one bottom line. Are you saying that this was not your quote?

Michelle Madoff:

My quote was that the public would say that. I will give you a copy of the press release.

Mr. Givens:

Okay, you're saying here that the paper is saying I am convinced the public will vote no because they believe it's a

matter of voting to give the bums a raise or not to give —

Michelle Madoff:

That's what the public will say. That's what the public will think and say. It was said in many, many articles, many editorials —

Mr. Givens:

Where do you make that assertion that the public, you think the public consider all the members of Council bums.

Michelle Madoff:

Mr. President, do you take offense at that comment?

The Chair:

I think she's clarified the quote. You have to be fair about it. She's saying all of us are bums including herself.

Michelle Madoff:

That's right. They're going to say I'm a bum for taking a raise.

Mr. Givens:

She's saying the public is saying that we're a bunch of bums.

Michelle Madoff:

I think your nitpicking on semantics.

The Chair:

They've called me a lot worse than a bum.

Mr. Givens:

Mr. President, I'm still not finished. I would like to see a copy of that press release and I would like to have comments, in writing if we could, from the writer of this particular article. In fact, was it said this way or not?

What you and I say to one another personally or to our dear friends or in a private cocktail party is one thing. What we say in the media and to the media, and that be both the newspapers, the Press, and radio. And with radio I had heard, Michelle, were you on the Roy Fox show this past week or two?

Michelle Madoff:

No, but I would have like to have been. Can you arrange it?

Mr. Givens:

Were you on another show this past week or two?

Michelle Madoff:

I read the press release on one of the late night talk shows. I couldn't sleep at two o'clock, I was thinking of you, Dick, and I really thought that it would be appropriate for me to try to do something productive for the public, and I called in on one of the late night communications and read the press release. Verbatim. Which I'm going to give you a copy of. Unless you don't want to be a co-conspirator.

Mr. Givens:

I heard some of those remarks. Being that I sleep very well every night because I have a free conscience.

Michelle Madoff:

I just have the weight of the people's problems on my mind because we haven't voted to buy the stuff at sixty percent off and I worry about the people and I guess I just am a little more concerned.

This is nonsense. I'm sorry I yielded. I take my yield back.

The Chair:

A guy called in one night and called Roy Fox a pervert and he never corrected the guy. I don't know the guy so I can't comment. I only know what the guy said on the air.

Michelle Madoff:

I've also said that when City Council gets on the Cable we're going to replace the Gong Show and this is a perfect example of what I mean.

MOTIONS AND RESOLUTIONS

Michelle Madoff presents

Bill No. 962 WHEREAS, the City of Pittsburgh is one of the largest institutional and corporate headquarters in the world; and

WHEREAS, David M. Roderick, Chairman of U.S. Steel Corporation, said in his recent address before the supporters of the arts and cultural program that although charitable funding by corporations was up by four percent last year, half of all corporate support comes from only one percent of the Nation's corporations; and

WHEREAS, there are many well-deserving non-profit, educational, and/or cultural groups which have previously

relied on government monies; and

WHEREAS, these groups have not fully explored the possibility of obtaining funds from the private sector; and

WHEREAS, the reason that these groups do not fully explore these possibilities is that they do not have an experienced individual to solicit from corporate and private sectors; and

WHEREAS, many other cities in the United States employ individuals to solicit funds for these purposes, thus setting a precedent for other cities to follow; and

WHEREAS, other major cities have been assisted by their corporate community in providing jobs and training for these primarily due to the federal elimination of the CETA program.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh hereby creates a position in the 1982 Budget for an individual whose sole duty will be to solicit funds from the corporate and private sectors, and will be paid either a fixed salary or on a commission basis, thus exhausting every possible source of revenue for many deserving groups and services, including but not limited to those listed above.

Michelle Madoff:

Mr. President, I have an amendment to my bill.

"BE IT RESOLVED that the Council of the City of Pittsburgh hereby creates a position locating funds from the 1982 Operating Budget. The Code Account to be determined by the Finance Chairman.

I want to amend it because I didn't say where the money was coming from and I just wanted to clarify that.

Michelle Madoff moved to amend Bill No. 962.

Mr. Flaherty seconded the motion.

Michelle Madoff:

I think it needs discussion. Mr. O'Malley said he had an amendment to the bill. Mr. Robinson said he was for the bill.

Mr. Flaherty:

I have an amendment for the bill, too. What it has to do in relation to is the complete cutback of the CETA program and I agree with you, Michelle, that we should provide all we can to cultural educational and community organizations, but I also feel that we could include in the resolution another whereas, and we could add that whereas at the end and it would read:

"WHEREAS, other major cities have been assisted by their corporate community in providing jobs and training for these primarily due to the federal elimination of the CETA program."

I am sure that we are all aware that when we take into consideration how CETA has also affected or impacted summer employment, we are talking in the neighborhood of close to two thousand jobs that we will not have as of this past fall due to almost a complete elimination of CETA. County-wide we're talking about the elimination of three hundred thousand jobs and there are some other cities that have received very sufficient help from the corporate community as far as training and placing former CETA employees.

I just want to add one more thing for the record. Wall Street Journal had an article a few days ago that said that only thirty eight percent of those people that were axed because of the CETA drawbacks have found employment and a vast majority of them had just been placed on the municipal payrolls that they have already been cut back on. So I believe these people are in very poor straits and I would appreciate a second on the motion.

Mr. Flaherty moved to amend Bill No. 962.

Michelle Madoff seconded the motion.

Which motion prevailed.

Michelle Madoff:

Mr. President, on the same subject, and I would like to hear from Councilman O'Malley, but I would like to read you a letter if I may.

This letter is from a young man who came to see us, a minority gentleman in a wheelchair. Do we all remember the gentleman who came here in a wheelchair? And the letter reads:

Dear Ms. Madoff:

At the hearing about the city grants for Ozanam summer basketball league, you mentioned that there were a few companies whose owners you knew that might be approached for support of our program. We would be very grateful if you would provide us with the names and mailing addresses of these persons who should be contacted at Wendy's and Giant Eagle, if you could intercede with these persons on our behalf."

I'd like to, but I've got to be put through a machine to be cloned or xeroxed.

"We've begun to send letters to every major business in Pittsburgh asking support of our program. If there are any other specific companies that we should contact, I would appreciate a listing of the businesses. We are ten thousand dollars short in the funds from the City alone and we need all the help we can get to make up the difference.

Any help you can offer will be deeply appreciated.

Carl Coleman"

This is a man who came to us, a human being in need, in a wheelchair, representing other people. And I don't want to hear, I will listen respectfully, but it hurts me to hear "we have one hundred thousand dollars and we ought to be using this money", or "I don't want to do it this year, I'll do it next year", or "I'll ask the Mayor to do it". The point is, do we have compassion in the Council or do we not have compassion? The point is that a grants person — there is money already available. I think Mr. O'Malley is going to speak to that. The point is that if the Mayor is going to appoint it, we don't have to wait until next year when they come before us for budget.

We need someone to start writing proposals and helping them do exactly what you've done on a one to one basis. I've done on a one to one, run a Night at the Races or call up Giant Eagle. Every member of this Council, like Councilman Givens today, has asked for money for a very important cause in the Arsenal District. We have to have a grants person.

Unfortunately, Mr. Robinson is not here. He said he supported the bill. I don't know how we vote in absenteeism. I'm really distressed. I rest my case.

Mr. O'Malley:

May I make a suggestion, Michelle? If I'm not mistaken we already funded Technical Assistance Program for \$100,000.00.

Michelle Madoff:

I don't know that and our Chairman isn't here.

Mr. O'Malley:

The Director of that is paid \$26,000.00 a year to write or to draft proposals for community groups to solicit funds from the Federal Government, State Government along with the city of Pittsburgh. Why don't you set a post agenda, ask the Technical Assistance people to come in —

Michelle Madoff:

Who are they? Who do they work for? I understand every department has a sort of a grants person. But nobody's doing anything.

Mr. O'Malley:

We fund them for \$100,000.00 a year. I'll get you the names. We'll ask them to come in on a post agenda and see if they can act as a grants person for us.

The Chair:

Can I interrupt for a second, Michelle. I have to agree with you. You bring out a good point. This morning I met with some people who represent Steam Heat, when I say represent, these are people from community groups and these are people from the Chamber of Commerce and the Golden Triangle, what have you. They have no ax to grind, they're representing the business

in the City of Pittsburgh. They want what's best for the businesses and what's best for the City, as you and I do. But the problem that they created today when they said that George Whitmer was to handle this for the Mayor's Office, and to the best of my knowledge Whitmer has talked to nobody on Council, but one of the most important issues ever to face the city of Pittsburgh as to which direction we're going, steam heat or gas.

Now, here we have people who are paying, you say, twenty six thousand every year, I don't know if they're doing the job. They're not doing a good job.

Mr. O'Malley:

That's what I'm saying. They're already in place and they certainly have the capabilities and the knowledge to handle this and we're already donating \$100,000.00 a year. I suggest we call them in on a post agenda and see if they can expand their realm of —

Michelle Madoff:

May I make a comment? Could we agree, in principle, right now, once and for all, that that's what we want to do and then find out who should be doing it, Mr. O'Malley? Maybe it's the people that you say are getting the \$26,000.00.

Here's the problem I have. When I got to Council and the bills weren't being paid, Mr. President, and you know some of the Ward Chairmen would come to you and come to me and we walked the bills through? You know who I'm talking about because they don't get paid. The people who don't get paid are the poorest and the ones that are hardest up.

We were told that Mr. Whitmer was hired to be an expeditor to walk the bills through. Mr. Whitmer is not an expeditor. He doesn't have time to be an

expediter. So they hire a grants person. That person isn't a grants person.

What you're saying, if I hear you and I hear you clearly, Mr. O'Malley, is let's have a post agenda and find out is he, is she, are they, will they, won't they and where can we do it? But you agree we should have a grants person? That's all I'm asking now.

Mr. Woods:

If I understand correctly, we're going to pull this resolution off now until we have this post agenda to see who is supposed to be doing this job, if it's supposed to be done at all.

Michelle Madoff:

No. What I'm saying, Mr. Woods, is that if the Mayor says, and we should invite the Mayor to sit with us and if Mr. O'Malley is correct, that there is a person in line to do it, and we can get that person, instead of washing floors or whatever, I hope I didn't offend anybody, Mr. Givens, we should have a grants person that what we ought to do is move in principle that we need a grants person to help people because Mr. Woods can't be cloned, he can't go out and have a Night at the Races for everybody and I can't go out and call everybody, but we should have in principle a grants person. Then we have a post agenda to decide where that grants person will come from - whether the Mayor will appoint somebody, whether we take money out of an Unspecified Local Option, I don't care where it comes from.

Mr. Woods:

That's what I'm saying. Why don't you pull this resolution off until we have a post agenda the week after next because I don't think you can have one Wednesday, but have it the following

week and to see if these things are already there.

Michelle Madoff:

But they're not and I have been doing this for two years, Ben. This isn't something I just looked into. I'm telling you.

Mr. Woods:

What I'm is that maybe they're supposed to be doing that and they're not. Let's find out.

Michelle Madoff:

No, they weren't supposed to be doing that. They're supposed to be writing proposals. Period.

Could we agree in principle that we should have somebody helping the people who need somebody to write grants? That's all this bill says. I will take out the source of funding. I will withdraw the source of funding and where it should come from and we will sit down after the post agenda and say this is where it will happen, but let's at least say we want to help these people.

Mr. Flaherty:

I would just want to add that if Council should enact this, this is only a resolution. This is not mandating anything. This will just serve as a reminder to Council at the end of the year perhaps. This is not saying that we have to have a grants person. I don't see any harm in it. I think all it is is an idea that in a very broad sense we are condoning.

Mr. Givens:

I'd like to say that when I have to vote on something, it has to be in

writing, it has to be before us, and there's been two amendments and many words about what we're going to do and what we're not going to do. I would submit that the thing be turned back to Committee until I get something that's in writing and I know exactly where it's coming from. The concept is a good one, but we can't use 1982 budget funding monies —

Michelle Madoff:

I took that out, Mr. Givens. I removed that. I'm just leaving the principle of having a grants person. Do you agree with that? I've taken the source of funding and who the person should be out. I've removed that.

Michelle Madoff:

I have a problem, Mr. President, and I need some Parliamentary advice. One of the people who said they were for it is not in the room because they're tied up in an emergency meeting. That's Mr. Robinson. I think I would have enough votes for it if that person were here. I may not have enough votes if they're not here. What do I do? What is the Parliamentary procedure? Do I have to continue with the vote or can I withdraw?

Parliamentarian:

You started the voting process —

Michelle Madoff:

And that's after the fact. So if it fails because somebody abstains —

Mr. O'Malley:

Re-introduce it.

Michelle Madoff:

You can't re-introduce it this year. I did last year. I keep re-introducing it and meanwhile the people are suffering, and I think that's a disgrace.

Mrs. Masloff:

We have enough people on the payroll to do this job and I can just see a professional beggar telling people to go call companies up and how much service they're going to get from these companies that they call. I vote no. We have enough people to do the job on the payroll now.

Mr. Woods:

Mr. Chairman, I asked Michelle to hold it until we had a meeting to see where this other money could come from. Presently the way it is, I have to vote no.

The Chair:

I was going to vote aye either way, but at the same time I'm a little concerned. I have to agree with Mr. Flaherty. I don't think we really would be passing anything here especially when we're talking about no funding. At least we could look into the matter a little further. I vote aye.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Flaherty - AYE
Givens - ABSTAIN
Michelle Madoff - AYE
s. Masloff - NO
O'Malley - AYE
Woods - NO
DePasquale - AYE
Pres't)

Michelle Madoff:

Mr. President, may I ask
liamentary procedure? Is it correct
ask a member to change their vote?

liamentarian:

A member can change his vote
ore the final tally.

Michelle Madoff:

They haven't tallied it yet, so I'm
asking Mr. Woods, and I'm asking Mr.
Givens not to abstain because all we're
ring, in principle, is that we should
ve somebody to help and we'll have
ur meeting and if it doesn't fly and we
n't get anybody and it's reasonable, you
ow I'll support you. I'm asking you, for
e good of the public, to change your
te to aye.

s. Masloff:

I am just as interested in the good
the people as any other member of
ouncil and I say this is not a good
olution. We have enough people on
e payroll. Let's utilize them first.

Michelle Madoff:

We agree with you Sophie. We
reed that if they're here we will use
ose people. We're just saying let's use
em. They're not being used that way.

Would anybody change their
te? Ben will you change you vote?

The Chair:

Mr. Woods, do you want to
reconsider, and change your vote?

Mr. Woods:

Why does everyone pick on Ben
Woods?

Michelle Madoff:

You're so handsome, Ben. Will
your wife shoot me for this?

The Chair:

You know we're not going to get
Mr. Givens and Sophie to change their
votes. If you put a gun to their heads
they're not going to change their votes.

Mr. Woods:

Mike, do you have a post agenda
scheduled for two weeks? And by
changing it doesn't mean — this is a
resolution, so it's not a law? But I would
like to look into it further. I'll change
my vote for Michelle.

Michelle Madoff:

Hooray for Ben Woods. A first in
Council.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the
bill pass finally?"

The ayes and noes were taken
agreeably to law, and were:

Ayes:

Mr. Flaherty
Michelle Madoff

Mr. Woods
Mr. DePasquale

Mr. O'Malley (Pres't)

AYES 5 NOES 1

(MRS. MASLOFF VOTING NO)
(MR. GIVENS ABSTAINING)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

The Chair presents

Bill No. 963 WHEREAS, when new business and financial techniques were developed and refined in the 17th Century, letters of credit and finance exchange led to the founding of public banks which broke the old monopoly of private banking families; and

WHEREAS, the economic stability depends largely upon its banking facilities and the men and women who capably manage the business of the exchange of money; and

WHEREAS, Pittsburgh and Allegheny County are blessed with numerous banking institutions whose assets total billions of dollars; and

WHEREAS, the National Association of Bank Women was founded in 1921 as a forum for women bank executives to develop and exchange ideas and professional skills that would further their careers, and permit them to make meaningful contributions to the banking industry, and who generously grant 18 scholarships annually in management training programs and career development; and

WHEREAS, the Western Pennsylvania group with headquarters in Pittsburgh will host the first State Conference in Pittsburgh, June 6 through 8.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Pittsburgh recognizes the week of June 6 through 12, 1982, as "National Association of Bank Women Week" in Allegheny County, and commend the officers and members of the local group for hosting this important assembly, and welcome to our community all the delegates so dedicated to this noble profession.

Mr. O'Malley moved to adopt the resolution.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Woods moved to excuse Mr. Stone for absence from the meeting.

Mr. Flaherty seconded the motion.

Which motion prevailed.

Mr. Givens moved to approved the minutes from Monday, May 3, 1982 and Monday, May 10, 1982.

Mrs. Masloff seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Woods**

Council adjourned.

Which were severally read and referred to the Committee on Planning, Housing and Development.

Mr. Stone presented

No. 1002 Resolution providing for the issuance of a warrant to Denny-Mills Co., Inc., Light Brothers, Inc., Delatorre Orthotics, Inc., J. Spokane, Inc., and Leonard Frank, c/o Reuben Fingold, Esquire, 1225 Frick Building, Pittsburgh, PA 15219, in the amount of \$40,000.00 in full settlement of claim for water damage, and providing for the payment thereof.

Also,

No. 1003 Resolution amending Ordinance No. 217, approved April 27, 1951, as supplemented and as amended, entitled, "An Ordinance - authorizing and directing the Mayor ... to enter into an agreement with the Public Parking Authority of Pittsburgh to provide for the loan - assignment and payment by the City of Pittsburgh of the receipts from certain parking meters ... "By authorizing the Mayor ... to amend the agreement ... by extending the said agreement for a period of 26 years ... provisions permitting authority to apply moneys to the credit of the Meter Fund ... financing cost of acquisition and construction of an off-street parking facility in the Central Business District.

Also,

No. 1004 Resolution providing for an Agreement or Agreements with American Technical Institute to provide classroom training for ten (10) CETA participants for the position of Computer Aided Drafting Operator and providing for the payment of the costs thereof.

Also,

No. 1005 Communication from Ronald Schmeiser, Director, Department of Finance, requesting permission for himself to attend and testify at a

Committee meeting of the House Finance Committee regarding House Bill 1006 in Harrisburg, on May 11, 1982, cost not to exceed \$275.00, payable from A.A. 1063, Misc. Services, Department Finance.

Which were severally read and referred to the Committee on Finance.

REPORTS OF COMMITTEES

Mr. Stone presented

Michelle Madoff:

Excuse me, Mr. President. I had the list of the chart that was put before me today, not the one I had reviewed at home. I would like to amend my vote on Bill No. 909 in Finance to a no vote.

Mr. Stone, Chair Pro Tem:

You weren't even here when we voted on that so you don't vote either way.

Michelle Madoff:

Pardon me?

Mr. Stone, Chair Pro Tem:

You weren't here when we voted on Finance.

Michelle Madoff:

I was. I came in at the end of the vote. I'm voting no.

Mr. Stone, Chair Pro Tem:

How do you have her on Finance?

Assistant City Clerk:

No vote.

Michelle Madoff:

I am voting no on Bill No. 909. And would you bring my comments forward from Wednesday as to why I'm voting no. That we don't do social work among the rich.

(BEGINNING OF MICHELLE MADOFF'S
REMARKS ON BILL NO. 909 FROM
WEDNESDAY, 5/19/82)

Michelle Madoff:

Excuse me. I don't want to go too fast on that. Is this the one where we're doing the joint venture?

Ms. Smith:

Melanie J. Smith
Director
Dept. of Personnel & Civil Service
Commission

This is joint venture.

Michelle Madoff:

This is the one where Sargent Electric is going to train people with Warner?

Ms. Smith:

No, the training is done by O.I.C., and the joint venture has made a commitment to hire all graduates for cable installation.

Michelle Madoff:

Who is paying?

Ms. Smith:

CETA is paying for the training.

Michelle Madoff:

It said Warner and Sargent.

Ms. Smith:

Sargent is a sub-contractor.

Michelle Madoff:

We are again paying to subsidize the rich. We are going to train people for Warner, because they will guarantee to hire them.

Ms. Smith:

These will be employees of the joint venture, not of Warner.

Michelle Madoff:

The point is, Warner has been getting money from O.I.C., from money for CETA projects. We train people that nobody hires, and here they are guaranteed a job. My argument is, when Warner trains people, they are still going to hire them, whether we pay or they pay. I don't think it should be the taxpayers' dollars.

Ms. Smith:

These will not be the employees of Warner. They will be employees of the joint venture. They will install the City system or any other project the joint venture has, whatever contracts in this field the joint venture has.

Michelle Madoff:

It said Warner in my mailing. I am not subsidizing the rich. Warner can go out and pay Sargent and do the O.I.C. training program and pay for it themselves, and I vote no.

Ms. Smith:

If I could explain to Council, the joint venture, if they hadn't made a commitment to hire these people, other area county residents for these jobs. This has nothing to do with Warner as an employer.

Michelle Madoff:

Could we hold this a week? My letter said Warner, Mr. President.

The Chair:

I get the impression of Council that they don't want to hold it.

Mr. Givens:

Is this class ready to go?

Ms. Smith:

Yes, and if it doesn't start quickly, we will pass the time that the joint venture —

Michelle Madoff:

My letter said Warner.

Ms. Smith:

And the letter you have must not be a letter from me.

The Chair:

First of all, we have already passed this now. If the maker of the motion wants to rescind and the seconder wants to rescind —

Mr. Givens:

I have a point.

The Chair:

We still may be in discussion. Michelle said she wanted to hold.

Michelle Madoff:

We can't hold it, according to the director.

The Chair:

We have a motion on the floor, and the motion, apparently, has passed. Now Michelle wants a motion to hold, and I'm saying the only way we can do that is if we rescind the first motion. If there is not going to be somebody rescinding, whoever made the motion, I don't know, then we are presuming this motion has passed.

Michelle Madoff:

And I'm going to —

Mr. Givens:

There was not a vote on that motion.

Michelle Madoff:

Yes, there was, and —

The Chair:

We all voted aye.

Michelle Madoff:

Just change my vote to abstaining, because I don't want to vote in a vacuum. I don't understand it. My letter was different from what the Director was telling us.

Mr. Givens comments.

The Chair comments.

Mr. Robinson comments.

The Chair comments.

Michelle Madoff:

I had made arrangements before all this dialogue, and I thank you, Mr. Robinson, for the clarification, that I

would meet with the Director, the fact I had two different bits of information to get straightened out. I am abstaining.

(END OF MICHELLE MADOFF'S
REMARKS ON BILL NO. 909 FROM
WEDNESDAY, 5/19/82)

Mr. Stone, Chair Pro Tem:

I'm sorry, we've passed that time. Go on Mike.

Mr. Givens:

Mike, when a particular Councilperson is not here for the calling of the vote, if that person would arrive later on during the session, that we would honor that person's request. Are we still doing that?

Mr. Stone, Chair Pro Tem:

Mike, proceed.

Michelle Madoff:

You did not answer Mr. Givens' question. I think that's discourteous.

Mr. Stone, Chair Pro Tem:

The time when a vote is called for, the vote is called for. You can't change a vote when you didn't vote initially.

Michelle Madoff:

Can we have a Parliamentary ruling, please?

Mr. Givens:

Excuse me. I ask for this Council, then, to make a vote on this. It was an understanding since I've been here, that anyone who comes in late can, while the session is in session, ask that their vote

be so recorded, and we have done this to everyone involved. Now, if we're going to change that policy, then I make a motion on this floor to have a role call vote if, in fact, as acting as President Pro Tem, you do not want to carry out the tradition of this Council.

Mr. Stone, Chair Pro Tem:

To my knowledge, that is not a rule of Council. I don't know how you can have a vote when someone's not here on a particular bill.

Mr. Givens:

I didn't say rule. I said the traditions of this Council.

Mr. Stone, Chair Pro Tem:

I don't know that's been our tradition.

Mr. Givens:

It has been our tradition.

Mr. Stone, Chair Pro Tem:

I don't agree with you.

Michelle Madoff:

Before the end of the meeting people have had the option to change their vote.

Mr. Stone, Chair Pro Tem:

When you addressed the Chair, you asked to change your vote.

Michelle Madoff:

Yes.

Mr. Stone, Chair Pro Tem:

The Chair is mindful that, at the time the vote was taken, you were not here. Since you were not here I don't know how you can change your vote that you did not make initially.

Michelle Madoff:

I apologize because I was doing city business that was urgent. I'm asking the Parliamentarian whether I have the right to go back and vote on the bills when I was present at the opening of the meeting, I had to step out for a moment on City business.

Mr. Givens:

Excuse me, Michelle. I had put that in a form of a motion. There is a motion on the floor that this was a addition within this Council. We can have discussion, but before you put another motion on the floor, I'd like for that to either be voted on, up or down, or discussed.

Michelle Madoff:

I agree with you, Mr. Givens, but I think it would be helpful to have a Parliamentarian ruling. That's why we have the Parliamentarian here.

Mr. Stone, Chair Pro Tem:

Let the vote be as it was. We'll proceed.

Michelle Madoff:

Excuse me. I don't understand.

Mr. Stone, Chair Pro Tem:

Your vote is being recorded.

Michelle Madoff:

What vote is being recorded?

Mr. Stone, Chair Pro Tem:

The vote you made is being recorded.

Michelle Madoff:

As voting no?

Mr. Stone, Chair Pro Tem:

Yes.

Michelle Madoff:

Thank you very much.

The Chair:

MOTIONS AND RESOLUTIONS

Mr. Givens presents

Bill No. 1010 WHEREAS, the City of Pittsburgh recognizes that the American Steel Industry is the backbone of our national defense; and

WHEREAS, the steel industry is the dominating force in the economy of the Tri-State Region; and

WHEREAS, steel imports have had a devastating effect on employment in the industry causing five local steel mills to lay off approximately 14,000 employees; and

WHEREAS, the steel industry has always favored the development of open, fair, and mutually beneficial world trade, does not support nor feel it equitable, a policy which requires American steel producers to compete in this country with foreign steel producers which receive substantial assistance from their governments; and

WHEREAS, while we value highly our trade with foreign nations, it is the feeling of the Council of the City of Pittsburgh that the United States Government should develop a policy of steel import limitations which allows domestic steel producers to compete fairly in the American marketplace.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh memorialize the President of the United States and Congress to impose steel import limitations under the provisions of the Federal Trade Act of 1974; and

BE IT FURTHER RESOLVED, that copies of this resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the House of Representatives and each Senator and Representative in Congress from Pennsylvania, and the Congressional Steel Caucus.

Mr. Givens moved to adopt the resolution.

Mr. Woods seconded the motion.

Mr. Givens moved to amend Bill No. 1010 by adding "and the Congressional Steel Caucus" after Congress from Pennsylvania.

Mr. Flaherty seconded the motion

Which motion prevailed.

Mr. Stone, Chair Pro Tem:

And on the bill itself, as amended?

Mr. Givens moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Robinson:

Mr. Stone, some time ago, several weeks ago, this Council passed a resolution relative to the establishment

of a South African Consulate here in the City of Pittsburgh. As Council is aware, our Human Relations Commission addressed this issue in a public hearing and then issued a report offering some suggestions to Council and other governmental bodies relative to this matter. Their basic concern was that the establishment of such a consulate in this City was not in the best interest of the City of Pittsburgh and they urge Council and other governmental bodies to do what they could to have the authorization revoked.

I spoke with Congressman Coyne on Sunday concerning this matter and he indicated to me that a resolution was being introduced in the United States Congress today to revoke the authorization given to the Republic of South Africa to establish consulates here in the United States that would, indeed, cover the City of Pittsburgh.

I think it would be appropriate for us to enter into our records, a copy of the findings and report from our Human Relations Commission and to also forward to the members of our Congressional Delegation from Western Pennsylvania as well as our two Senators, a copy of the Human Relations Commission report. I think it also would be appropriate to send a copy of this report to the President of United States and also to Secretary of State, Alexander Haig, both of whom were directly involved in the authorization process. I would seem to me that it's rather queer that more and more persons in public office are feeling that the establishment of these consulates here in the United States of America are not in the best interest of this Country. Again, I do not believe it's in the best interest of the City of Pittsburgh to have a consulate from the Republic of South Africa in this City, whether it be honorary or otherwise.

Michelle Madoff:

Do you want that as a motion, Mr. Robinson, or are you going to introduce one? A resolution or is that just general information?

Mr. Robinson:

Well, general information, but making a request to have these items done. If it has to be done in the form of a resolution or a motion, I'll be more than happy to do that.

Mr. Robinson moved to forward a copy of the report from the Commission on Human Relations regarding the South African Consulate to the Congressional Delegation from Western Pennsylvania, Senators, the President of the United States and the Secretary of State.

Michelle Madoff seconded the motion.

Which motion prevailed.

(BEGINNING OF REPORT FROM THE
COMMISSION ON HUMAN RELATIONS
REGARDING SOUTH AFRICAN
CONSULATE)

COMMISSION ON HUMAN RELATIONS

CITY OF PITTSBURGH

Findings of Fact, Opinions and
Recommendations

CR 1862

Establishing a Consulate of the Republic
of South Africa in the City of Pittsburgh

HISTORY

On Wednesday, March 10, 1982,
the Pittsburgh Commission on Human
Relations voted unanimously to initiate a
complaint regarding the establishment of

Consulate of the Republic of South Africa in the City of Pittsburgh. A public hearing to investigate the matter was scheduled for Thursday, March 25, 1982. A copy of the complaint and notice of public hearing was served on Mr. Gui Leite-Ferraz, the Honorary Consul Representative; on Donald B. Sole, Ambassador from the Republic of South Africa; and distributed to other interested parties and the general public.

This action was taken because of reports received by the Commission of acute community tensions and isolated acts of violence that have resulted from the opening of a South African consulate in the City. The Commission believed that the welfare of the whole community could best be served by publicly airing these tensions and complaints so as to get at their causes and possible solutions.

On Thursday, March 25, 1982, at 10:00 p.m., the Commission held a public hearing in the Allegheny County Bar Association Conference Room, Ninth Floor, City-County Building. The hearing was conducted by a five-person panel consisting of the Community Relations Committee. The panel was chaired by Commissioner Michael Cover, and included Commission members Constance Wellons, James Dallas, Donna Nardini and Oshea Perry. Twenty-three (23) persons came forward to give testimony. (See Appendix A.) The witnesses included representatives of Pittsburghers Against Apartheid, and representatives of civil rights, civic, governmental, labor and religious groups, as well as individuals speaking solely for themselves.

Despite notice and follow-up invitations from the Commission, no representative of the South African Government or individual speaking for them, came forward to give testimony;

nor was any written testimony submitted in their behalf.

In addition to direct testimony, written statements were submitted by Mayor Richard S. Caliguiri (See Appendix C) and by Congressman Bill Coyne, who is a member of the Congressional Ad Hoc Monitoring Group on South Africa (See Appendix B). The Commission also had access to other information obtained in its investigation. Included is the "Declaration of Conscience on South Africa and Namibia" prepared by the 193rd General Assembly of the United Presbyterian Church in the United States of America, 1981 (Exhibit 2).

JURISDICTION

The findings, conclusions and recommendations of the hearing panel as adopted by the full Commission are reported herein. The Commission's jurisdiction to deal with this matter arises from Section 653.05(e) of the City Code which provides the Commission with the power and duty to "Study and investigate by means of public hearings or otherwise, any conditions having an adverse effect on intergroup relations in the City and to study the problems of prejudice, intolerance, bigotry and discrimination as it affects the public safety and general welfare of the City".

FINDINGS OF FACT

1. In mid-August 1981, the establishment of an honorary consul for South Africa was announced by the Western Pennsylvania Black Political Assembly and reported in The Pittsburgh Press.
2. In late February 1982, news of the visit of South African Ambassador Donald B. Sole, to celebrate the March 9 opening of the consulate at 610 Smithfield Street, spurred the creation

of a coalition — Pittsburghers Against Apartheid — to oppose the opening of a consulate in the City.

3. Mass picketing and demonstrations were held on March 9 at 610 Smithfield Street and at the Hyatt House, Chatham Center, where a reception for Ambassador Sole was being held.

4. Daily picketing has continued at noon-time at 610 Smithfield Street (T. 14, 32, 35, 74).

5. While there has been no violence associated with these demonstrations or other activities, tension has been and remains very high (T. 6-7, 9, 11, 14, 27, 34, 56, 74, 154).

6. The republic of South Africa has as its official policy, a system of institutionalized racism called apartheid (T. 20-25, 29, 88-90, 96-97, 113, 117, 119-20, 124, 125, 135-138).

7. That the system of apartheid is repressive in the extreme is attested to by the following:

While Blacks, Asians and those of mixed race comprise over 80 percent of the population, they have no right to vote or participate in any meaningful way in their government (T. 21-22, 96, 119, 124, 136).

No Blacks have the right of free access without a pass (T. 22, 135).

The government spends approximately \$65 a year per Black child, and \$750 per white child for education (T. 23, 119, 135).

A Black woman can be arrested if she is caught in her own home without her identification badge on her person (T. 23).

Nearly 45 percent of all Black children between the ages of ten and twelve are found to be suffering from malnutrition (T. 22).

As the recent death while in detention of Dr. Neil Aggett, a white union organizer, attests, even for its white citizens, apartheid severely limits the exercise of free speech, assembly and petition which are recognized in the Universal Declaration of Human Rights (T. 30, 31, 96-97, 136-137).

8. A wide cross-section of citizens of the City, both black and white, including community and civil rights leaders, clergy, public officials and individuals have acknowledged the tension, resentment and anger, and have called for its removal from the area (Entire record).

9. The potential for a violent response to the operation of such a consulate is very real, and grows the longer this matter remains unresolved. The consulate is seen not as a politically neutral business office, but rather, as an out post in our City of the racist policy of apartheid (T. 6-7, 10, 14, 53, 130-131).

10. The existence of a South African Consulate has had no demonstrated positive effect on the availability of jobs in the Pittsburgh area (T. 12-13, 31, 34-35, 38-39, 117, 125, 131-134, 153).

11. On a regular basis, advertisements making questionable claims relative to South Africa and its importance to the United States have appeared in local newspapers and have further intensified the issue of a consulate in Pittsburgh (T. 63, 69-71, 123-124, Exhibit 1).

12. On September 14, 1981, the United Nations General Assembly adopted a resolution which states that the South

African government should be isolated politically, economically, militarily and culturally". The operation of a South African Consulate in the City provides that government with tangible and symbolic support and grants the appearance of legitimacy to their policies (Statement by William J. Coyne, attached as Appendix B, Statement by United Presbyterian General Assembly), see Exhibit 2, T. 67, 100, 129).

3. Neither the Congressional Ad Hoc Monitoring Group on South Africa, nor various independent church and public investigations have found any demonstrable recent improvements in the policies of the South African government that would justify the expansion of its diplomatic mission to the City of Pittsburgh in defiance of the United Nations resolution (See Appendix 2, Exhibit 2, T. 98-99, 114, 117).

4. The intransigence of the South African government regarding the policy of apartheid and its increasing reliance on arrest, detention and violence to exercise control and suppress dissent, increases the likelihood that the country will continue on a collision course with a catastrophic mass uprising by the majority population who may see a race war as the only path open to them for change. (See Exhibit 2, T. 28-29, 77, 87, 102-103).

5. Perceived shifts away from a commitment to the civil and social rights of all in this country by the current federal administration makes the Reagan policy of "constructive engagement" with South Africa, which includes State Department permission to open honorary and full consulates in various American cities such as Pittsburgh, particularly threatening to many citizens - raising the specter of a second "Jim Crow" era in this country (T. 27-28, 147-151).

OPINIONS

It is clear to this Commission that the issue of the South African Consulate has pricked the conscience of many Pittsburghers, including public and elected officials. What is present is not merely a controversy over a specific policy, but rather a complete moral repugnance to the system of apartheid. This blatant system of racism, which denies basic human and political rights to more than 80 percent of its population, continues to be the official policy of the government of the Republic of South Africa. Although the government claims to be "liberalizing" this system of apartheid, there is no credible evidence of substantial progress in providing any political or economic justice to non-white South Africans. The policy of bantustanization, which assigns Blacks to "homelands" is proceeding with its devastating effects on the lives of those forced into isolated, unviable geographic units. This bantustan policy reinforces the status of Black South Africans as a permanent migrant labor pool, forces extended separation of males, and often females as well, from the family unit, creates fragmentation of Blacks along ethnic lines, and increases the dependence and economic impotence of Blacks in relation to whites.

It has been argued that United States investments and commercial bank loans (now over two billion dollars each) are helping Blacks by providing jobs and represent a progressive force for change by adopting the Sullivan Principles which are a voluntary code of fair employment practices and workplace conditions for United States companies doing business in South Africa. This Commission sees no evidence that the Sullivan Principles or other effects of United States investment in South Africa have brought about meaningful change. Economic gains have been minimal and there has

been no substantial attempt to address the issue of denying basic human and political rights to all non-whites. The major effect of United States corporate investment in South Africa has been to provide increasing support for the minority regime which allows it to consolidate its power over the majority population. To maintain this control, the government relies increasingly on tactics of systemic and overt violence.

While this Commission normally addresses human rights questions which are international in scope solely by means of communication with our national government, the issues before us here have serious local ramifications as well. Opening a South African Consulate here has serious implications for race relations in our City. We are, therefore, not constrained in making any or all recommendations in an effort to remove this consulate from our City. To do less would be an insult to the principles of justice and fair play which must accompany our own efforts in our own country to work towards these goals.

RECOMMENDATIONS

Actions to be initiated by the Commission on Human Relations:

1. The Commission strongly urges that permission to operate a South African Consulate in Pittsburgh be withdrawn, and this position will be communicated to the following government officials:

President, Ronald Reagan
 Secretary of State, Alexander Haig
 United States Ambassador to the
 United Nations, Jeane Kirkpatrick
 South African Ambassador,
 Donald B. Sole
 United States Senator, H. John Heinz, III
 United States Senator, Arlen Specter
 United States Representative,
 William Coyne

United States Representative,
 Doug Walgren
 United States Representative,
 Joseph M. Gaydos
 United States Senator, Charles Percy,
 Chair, Senate Foreign Relations
 Committee
 United States Senator,
 Nancy Kassenbaum, Chair,
 Senate Sub-Committee on African
 Affairs
 United States Representative,
 Clement Zablocki, Chair,
 House Foreign Affairs Committee
 United States Representative,
 Howard Wolpe, Chair,
 House Sub-Committee on Africa

2. The Commission demands that in view of the overwhelming testimony received at its public hearing of March 25, 1982, opposing the opening of a South African Consulate in Pittsburgh, and in consideration of the statements by many elected officials supporting the same, Mr. Gui Leite-Ferraz formally and publicly resign the post of honorary consul in Pittsburgh for the Republic of South Africa in a letter to Ambassador Donald B. Sole.

3. The Commission shall contact churches and religious institutions in the City to elicit their support and to request that, drawing on their rich and varied traditions of theological ethics, they make public statements opposing the system of apartheid and the opening of a South African Consulate in the City.

4. The Commission shall contact business and financial institutions in the City to convey our conclusion that investments in South Africa contribute to the support of the brutal system of apartheid and to request that they join with this Commission in urging the removal of the South African Consulate from the City.

5. The Commission shall communicate to the United Nations its support of the General Assembly's resolution calling for the isolation of South Africa, politically, economically, militarily and culturally, and shall communicate to the appropriate legislative officials in the Congress its support for legislation banning trade with South Africa.

Action: the Commission on Human Relations requests of others

6. The Commission requests that the Mayor and Pittsburgh City Council, with the advice of legal counsel, vigorously pursue any and all legislative and judicial approaches available to block operation of a South African Consulate in the City.

7. The Commission shall notify the appropriate licensing and regulatory bodies and request that they conduct an investigation to determine whether any laws, rules or regulations are being violated by the employment in a brokerage firm of a consular representative whose presence is a source of community tensions.

8. The Commission requests that the mass media be especially cognizant of its role in shaping public understanding of this highly emotional set of issues. Extensive and objective coverage should be given concerning the facts and effects of the policy of apartheid. While this Commission recognizes that care must be taken by the media of the rights of persons seeking to purchase advertising space or time, we do suggest that the responsible individuals have a duty to exercise care in the formulation and execution of advertising policies so that media outlets will not be exploited as instruments of this well-financed South African government's public relations effort. This Commission also hopes that broader research will be done beyond the claims of local corporate statements

regarding the benefits to Black, Asian and mixed-race South Africans of United States corporate and financial investment in South Africa.

9. The Commission strongly urges public and elected officials at all levels to continue to speak out in opposition to the presence of a South African Consulate in Pittsburgh, to demand that Mr. Gui Leite-Ferraz resign from his consular position, and to communicate these statements to appropriate Federal officials.

STATEMENT FROM CONGRESSMAN
WILLIAM J. COYNE

RE: SOUTH AFRICAN CONSULATE IN
THE CITY OF PITTSBURGH

I protest, in the strongest possible terms, the establishment of a South African consulate in the City of Pittsburgh.

South Africa, by continuing its policy of apartheid, is pursuing a morally reprehensible and politically injudicious course of action. On September 14, 1981, the United Nations General Assembly adopted a resolution which states that the South African government should be isolated "politically, economically, militarily and culturally".

By opening new diplomatic doors for that country, we create the false impression that the American people seek broader, closer ties with this repressive government.

As a member of the Congressional Ad Hoc Monitoring Group on South Africa, I have found no visible improvement in that country's racial policies in recent months that would justify the expansion of its diplomatic mission to the City of Pittsburgh. Certain occurrences lead me to believe that these repressive actions may be increasing.

In the last three months of 1981, arrests of opponents of apartheid in South Africa reached a new peak. On November 27 alone, Security Police arrested 17 people in the Johannesburg and Durban areas. All were leader of labor unions, student organizations or journalists. They were detained under a law which permits indefinite detention without charges or trial.

In early February, one of those detained, Dr. Neil Aggett, was found hanged in his cell. The circumstances of the death of Dr. Aggett, who gave up his medical practice to work as the secretary of a black trade union, are all too similar to those surrounding the death of the courageous leader of the black consciousness movement, Steve Biko.

In view of the South African government's longstanding policy of racial oppression and in light of recent developments, I find it shocking that the United States would allow the opening of a South African consulate in the City of Pittsburgh.

Mrs. Marsha R. Bingler,
Chairperson
Mayor's Commission on Human Relations
9th Floor
City-County Building
Pittsburgh, PA 15219

Dear Mrs. Bingler:

I followed very closely last week's public hearing of the Mayor's Commission on Human Relations

regarding the recent opening of the South African Consulate in Pittsburgh and would like to correct an erroneous impression that has been created with respect to my position on that subject.

The South African policy of apartheid, which separates the races in that country, is immoral, outrageous and utterly repugnant to all this nation stands for. It offends our sense of justice and equality and has no place in this country or this city.

As Mayor, I boycotted the recent ceremonies marking the opening of the consulate in Pittsburgh and have not and will not meet with its officials. The consulate is not welcome in this city; its officials are not welcome in my office. Finally, I support the recently adopted City Council resolution which calls for the closing of the consular office in Pittsburgh.

I trust the above information will clarify my position where any misunderstanding exists. Let me commend you for your quick and decisive action to ease the community tensions created by this situation. I strongly encourage you and your colleagues to continue your fine work on behalf of us all.

Very truly yours,
Richard S. Caliguiri

CONCURRING OPINION

By virtue of the Charter of the City of Pittsburgh, the Commission on Human Relations is charged with the responsibility of investigating and attempting to correct any condition which might have an adverse effect on intergroup relations within our City. In

accordance with this responsibility, the Commission has assumed the task of reviewing the situation created by the establishment of an Honorary Consulate within the City of Pittsburgh by the Republic of South Africa. As a part of said review, the Commission has sought to define the problem and identify the community tensions which have resulted therefrom; to uncover the causes of the community tensions; and to seek advice from all available sources as to possible solution.

The Commission has not taken its charge in this matter lightly. To the contrary, it has attempted to proceed in a cautious, diligent, fair and honest manner in addressing all issues at hand. At the public hearing on Thursday, March 25, 1982, the Commission heard testimony from many community and relations leaders with respect to their feelings on the presence of the South African Consulate in our City. The Commission made every attempt possible to solicit testimony, oral or written, from Mr. Ferraz, the Honorary Consul, or any other representative of the South African government headquartered in Washington, D.C., or elsewhere, in an effort to provide them with a forum to address the concerns raised by residents of Pittsburgh as to their presence in our City. Our requests were not acknowledged and no response was received.

All evidence and testimony in this matter have now been thoroughly reviewed by the Commission. Based upon this review, the Commission has properly and justifiably concluded that the Consul must be asked to leave our City and not return until the proposed representative of the South African government can clearly show that the system of apartheid and blatant racism which the testimony has shown to prevail in that country has been forever

abolished. However, in this endeavor, it must be made clear that the Commission recognizes that it has no jurisdiction or authority to dictate to the South African government as to what its policies should be. The jurisdiction of the Commission extends only over the City of Pittsburgh, and as such it has full authority to state that the official presence in our hometown of a government with such repressive policies, as the evidence presented to us indicates exist in South Africa, is something we cannot and will not tolerate.

The course is clear. The presence of the Consulate is an insult to the principles of democracy, justice, equality and equity which too many people have labored for too many years in this, our hometown, to foster and achieve. We have come too far since the inception of this Commission in 1955 to retreat upon or compromise these principles.

I do, therefore, concur in the recommendations made by the Commission in an effort to foster the removal of the South African Consulate from our City.

(END OF REPORT FROM THE
COMMISSION ON HUMAN RELATIONS
REGARDING SOUTH AFRICAN
CONSULATE)

Michelle Madoff:

Mr. President, one of the great concerns of a number of members of this Council is that it appears that when they want our opinion, it is given to us, that we deal with hundreds and hundreds and thousands of pieces of resolution each year, and we deal with them out of context, meaning, we get a bill, for example, dealing with the Greentree

area, on the City borderline, for some housing, and we vote on it because it sounds like a good thing, and six months later we go to something else in the same area and it sounds like a good thing, and three months later we get something else in the area and it sounds like a good thing, but we never look at it as a whole, and then we find out that the sewer line can't accommodate all three packages.

In the same vein, and what I'm trying to point out, is that we vote without really knowing the overall picture. When it came time to vote, and I'm being redundant, but it leads to an issue that has just come to my attention. I think we've all agreed, or many of us, I can't say all of us, many of us agreed that we've got to be innovative in this time of inflation, recession, unemployment and in many cases, depression, to try to be as fiscally responsible as possible. I know you've said that yourself.

When we went out for the original bond issue of seventy million dollars, I requested, as you know, from every department, and I have that folder, I'm in the midst of a re-training program in my office, but I have from every department head a list of the projects that could not wait, that had to go out immediately and therefore, we were going to borrow the seventy million dollars. It has come to my attention that many of those projects have been deferred and other projects have been substituted.

It has also come to my attention, and it may or may not be fact, I do not know so I am asking you, are you aware that presently there is either discussion or underway already, a general obligation bond for another fifteen to sixteen million dollars that will be handled by Bayer-Sterns of New York, Mellon in Pittsburgh, Merrill Lynch and Morgan

Guarantee and the advisor was Mr. Sam Katz. Is that true or not true? Are you aware of that?

Mr. Stone, Chair Pro Tem:

We have some obligations that we have to meet, but I don't know that that's new money so to speak.

Michelle Madoff:

You don't know if we're going out for an additional bond of fifteen to sixteen million dollars?

Mr. Stone, Chair Pro Tem:

No, I think that there was a commitment we had to meet a certain deadline and it's just a matter of refinancing to meet that particular obligation.

Michelle Madoff:

Has Council been informed of that? I think Mr. Givens has repeatedly requested some kind of hearing to address the Capital Budget.

Mr. Stone, Chair Pro Tem:

But that's a different point, Michelle. You started off with the Capital Budget and once — I have out how inquiries to all the directors and once we get that information we'll supply everybody here with it.

Michelle Madoff:

I just am distressed to learn it on the street. And I think you would be as Finance Chairman. Perhaps you knew about it and you weren't quite ready to are that with us and it may be very innocent.

Mr. Stone, Chair Pro Tem:

We have been probing that and yet it's not down to the final form.

Michelle Madoff:

I hate to find out after the probing goes on as opposed to while we're thinking about it, that we've now decided we're going out for another sixteen million dollar bond because when we went out for that seventy million, I said let's wait for a window and there was a window for a very short time. A very short period. And we're paying that seventy million back at two hundred and seven million which concerns me and I know it concerns you and when we have a three hundred and thirty million dollar unfunded pension and forty million disability, this city has some problems.

We also have some problems on some rulings with the Supreme Court of Pennsylvania with reference to the legality of the parking tax. It appears that we have been ruled, the twenty five percent tax is illegal. Are you aware of that? So if somebody charges eight dollars for a parking fee, two dollars of it is illegal, and that affects our ability to borrow money. Are you aware of that situation?

Mr. Stone, Chair Pro Tem:

If you're talking a decision of the Supreme Court it depends on what date.

Michelle Madoff:

Not the Supreme Court, it's the Commonwealth Supreme Court.

Mr. Stone, Chair Pro Tem:

As of what date?

Michelle Madoff:

I don't have that, but I can obtain it for you.

Mr. Stone, Chair Pro Tem:

If you get me the date I'll tell you.

Michelle Madoff:

I would be happy to do that because it is now pending, there was a case before the Supreme Court handled by Mr. Lynch, which was a similar but unrelated matter where they said it was legal. But it now appears the Supreme Court can no longer rule on the Supreme Court of the Commonwealth, and that indeed, that will be an illegal ruling. It will be illegal for us to charge the twenty five percent parking tax which affects our ability to borrow. So that I would wonder if you would check into that and I will get you the information.

I have one other item. Mike I retyped the letter myself. Mr. Pellegrini was to send a letter and he says that Councilmembers generally do their own so I have done it. It's a letter to Mr. Danny Pellegrini.

"Councilwoman Michelle Madoff has requested that you research the viability of legislation concerning the purchasing of used equipment in excellent condition as determined by City experts.

Michelle would like to know if it is possible to place the question of purchasing suitable used equipment on the ballot as a referendum question.

Presently the Home Rule Charter provides only for a bidding process. The Home Rule Charter does not permit purchasing of items directly from bankruptcy sales without first seeking

two bids. Companies could be contacted requesting availability of a specific item, such as a slightly used back-hoe or automobile that has few miles on it and is being sold only because the company is going out of business.

Furthermore, it is fact that few vendors bid with the City on many items because of slow pay, and subsequently add their cost of borrowing interest from the bank to cover their day to day operations which result in the City paying even higher prices for materials on their next bid.

The City spends in excess of \$10 million dollars a year on this type of equipment. This could mean a savings of at least \$6 million."

I am on the very, very low side because the figure was not available to me. We do have over \$20 million in purchases, but some of them would be paper and pens which we would not go out to buy — we might buy them in bankruptcy sales, but I doubt it.

"Of course, emergency vehicles and special equipment such as sewer cleaners which are indigenous to City use only would have to be the best and purchased new, as would other items that fall into this category, fire trucks, paramedic equipment, etc.

Director Yatch's position is that we are not a private business which cannot write off equipment and should buy equipment for best life use only.

I strongly believe he is mistaken because a truck with low mileage or a gently used back-hoe (sold for bankruptcy reasons) are practically new and will give the same service as a lemon which is purchased new," I've bought three cars in the last five years, two were lemons; got rid of them at 9,000

miles. Maybe if I'd bought a second hand one as Director Gaetano does from Avis, maybe I'd gotten something better," not to mention that it is possible to set-up an arrangement whereby an auctioneer can resell our mistakes.

Your cooperation in this matter will be greatly appreciated."

I wanted to share that letter with Council. I'm asking Danny Pellegrini for a legal opinion as to whether we can do that. I understand we would have to change the Home Rule Charter and therefore would have to be a referendum question.

Mr. Flaherty:

I have a question in regard to the resolution that we passed here in Council approximately weeks ago, in regard to the higher than anticipated surplus that we have for the possibility of using unspecified Local Option Grants to employ more of our underprivileged youth and I was wondering, Mr. President, in your capacity as the chairman of the Finance Committee, if you have weighed the possibilities of, perhaps, utilizing some of these funds for that purpose.

Mr. Stone, Chair Pro Tem:

Relative to the Tax Operating Budget, we factored into 1982 most of that surplus. That was a carry-over line item. Our revenues in 1982 in the Tax Operating Budget are lower than were anticipated obviously because of economic conditions. I spoke to Mr. Robinson before this meeting and I spoke to the Mayor's Office this morning relative to the possibility from CD, which is where we are now, at least right now I think we're talking about 150 new jobs potentially under keeping Pittsburgh alive, and I'll be able to talk more about

that when Mr. Robinson and I and the Mayor's Office meet on it and I'll be able to come back to you. But that's where we are with it right now.

Michelle Madoff:

Clarification please. When you asked the question were you referring to the fact that if we did go out and do this we might save some money which could be used to help create summer jobs and employment? Is that what you were referring to? Are you on another subject that we never got an answer to?

Mr. Flaherty:

No, I am just referring to the resolution we passed three weeks ago and Councilman Stone said that he would check into the possibility of perhaps utilizing some of the surplus or the ULO funds.

Michelle Madoff:

So you were on another subject.

Mr. Flaherty:

I suppose so.

Mr. Stone, Chair Pro Tem:

In addition, Melanie Smith is likewise trying to work with the corporate phase to see whether or not we can do anything there. Those are joint ventures at this point.

Mr. Robinson:

Point of clarification for Mr. Flaherty. When that resolution was originally passed, an issue came up of the number of jobs that should be made available. At that time, the resolution, which I introduced, did not specify a number. But I had said publicly and will

say again, that I think we ought to try to develop roughly one thousand additional summer jobs. With the 150 to 200 that Mr. Stone is referring to and the 500 that I understand the County is going to make available, we're only 300 short. The 150 to 200 Mr. Stone is making reference to will bring us up to last year's level as far as the City of Pittsburgh is concerned because we were down roughly 200 jobs from last year because of budget cuts. So hopefully, in the private sector we can find maybe another 300 jobs which will be the thousand that I felt would be necessary to carry us through the summer.

Michelle Madoff:

Mr. Robinson, how many unemployed youth are there now, do you think, if you took a figure off the top of your head, just in the Hill alone?

Mr. Robinson:

I haven't the slightest idea.

Michelle Madoff:

A lot more than a thousand.

Mr. Robinson:

Definitely.

Michelle Madoff:

So my point again, and the reason I raise this issue all the time is the Government can no longer be run by bureaucracy. We don't have the luxury during the Flaherty where the tap was flowing in Washington, but we really have to be innovative. If indeed, we could buy a backhoe second hand, we need three backhoes. We're going out and buying one at top price. If we could buy one from some of the companies that have gone bankrupt, that was just

purchased, some office equipment, it was just purchased, better than we could afford here even at top price, perhaps there would be some dollars there to do just what you want to do.

Mr. Givens:

Mr. President, three items. One, I read an article in the Pittsburgh Press this past Sunday on page A-6. The topic was "Lansberry Shakes Up Dems" wherein it referred to the past primary election here in May, William Coyne and Mr. Robert Lansberry. The article one can take for what they want, but as an individual Councilman, I resent the fact of the last part of this particular article that was written by Mr. Al Donalson, who I think we all know.

"The election was fixed" he said, this is Mr. Lansberry. "Some Grant Street operatives are secretly hoping to decide to run for City Council because with almost 14,000 votes he might win," this is in quotes, "and one of them added he would blend right in."

Michelle Madoff:

Why are you bringing it up before Council? Why do you bring up what the newspapers say that I said before Council?

Mr. Givens:

I have the floor. I have not relinquished the floor to anybody.

The fact remains that it's poor reporting as far as I'm concerned. It's a reporter that's making an accusation that is, in my estimation, just poor reporting.

I would like a letter, Mr. Chief Clerk, to go to the Editor of the Pittsburgh Press asking that his reporters somehow, someday, just caution the type

of reporting that they do in this particular piece of paper.

As I indicated, anyone can make an opinion. I think a reporter, in reporting objectively the news to all the people within the City of Pittsburgh and the Tri-State area, that one has to be responsible in doing this reporting.

The bottom line, as I read this particular article, is it's giving Council a particular image. An image that I do not appreciate. An image I don't think most of the people in this City do not hold, because if they do, we are the ones that are responsible for two hundred and some million dollar budget. I don't think they would want the type of people that this article is referring to sitting within this Council. That is why I would like that letter to go to the Editor.

Also, an individual reporter, when he makes a report of this nature, I want the Chief Clerk to send a letter to our Legal Department asking what actions, if any, this Council can take. Not against the Press, not against the media, because they have a right, they have a right to come to a public building, but against the particular writer, to caution him on what he's doing down there. That's all I have in this particular item.

Mr. Stone, Chair Pro Tem:

We have two alternatives. One, we could put him out at high noon in front of the City-County Building and shoot to kill. Or we could just smile. And I would suggest the latter.

Mr. Woods:

Mr. Chairman, whenever I read something in the newspapers that I don't like, I write a letter to the Editor. I don't want any letter coming out of this council, and I'll put it to a vote, where it

says this Council was writing a letter. It's not proper. I have all respect for you, Dick. If you want to write a letter to the Editor, you do it and sign it Dick Givens, Council of the City of Pittsburgh. As long as I'm sitting here no letter is going to the Editor chastising any reporter or any situation as a joint effort.

Mr. Flaherty:

I just have a few comments in regard to this, Mr. Givens. I cannot agree with you at all, and it seems to me that the article is completely in order where the reporter is quoting a Grant Street observer. And I'm sure there are a lot of people out there that would believe that Mr. Lansberry would blend in very well with this Council. That is an individual opinion. It seems to me, you referred a few times to the particular image that seemed to upset you, that this Council was associated with a particular image. Well it's important to keep in mind that Mr. Lansberry has as much right to run for office as anyone else in this room and I don't think any of us would campaign as hard as he did in the sense I understand he walked around for six weeks with a sign on his back campaigning. And though he campaigned in his own way, I think that was quite a campaign effort for him. It is also reported that he spent all of his earnings

Mr. Stone, Chair Pro Tem:

Tom, let's stick to the point.

Mr. Flaherty:

The point is, Mr. President, that it seems to me that my colleague was casting aspersion upon a citizen, a constituent of ours, and I believe that that was entirely out of line and for all we know, his intellect may be

comparable to ours or even greater. Who knows? And if he wants to run for Council, more power to him. I think he is entitled to run for Council.

Michelle Madoff:

In keeping with Councilman Woods' position, I believe we must all speak for ourselves. I would never want to infringe on the First Amendment, the freedom of speech, the freedom of the news media to say whatever it wishes to say. Nobody has taken greater lumps or a beating from the media than I have. I get reported on poinsettias and bathrooms, but when I meet for three days with the representatives of all the hospitals to be sure that there will be no backflow, that there will be backflow protectors so that the water will not be contaminated, a reporter does not even cover it. It never makes the media. The only person who has done anything on the fact that I was probably the primary negotiator for the sale of the interludes so the Dravo building could be built, and I can document that, I've done it on the air, was Sam Spatter, and unfortunately, I come across as dealing only in trivia and not in substance of issues, and if anybody should have a complaint, it's me. And when I complain I write a letter to the Editor, Ben, and then I go on talk shows and take every opportunity I have to rebut. But no matter what the media might say about me, no matter how horrendous, I would want the freedom of speech and not to infringe on the First Amendment.

Mr. Givens:

I would like to respond, and if I misled some Councilpersons, I'll apologize. But in regards to Mr. Ben Woods' statement that he does not want his name to go on this, I did that on behalf of Council, Ben. Only in legislative session can we ask the Chief

Clerk to write letters on behalf of Council. For example, I've battled the Legal Department and any other department where we want to take action. As an individual Councilperson, Mike does not have that particular authority. That authority must come from this room right here. And a Councilperson has that right, in this session, to ask the Chief Clerk, on behalf of Council, whether you agree or disagree with it, to go forward with any type of motion or any type of recommendations or comments he might have. I think the fact that you have stated what you have here is part of that Municipal Record.

As far as Mr. Flaherty taking the overtones that I indicated that Mr. Robert Lansberry and the picture depicts the type of individual he is and what he stands for, I do not want to sit here and say that I infringe on anybody on their First and Fourteenth Amendments to express themselves as they might see fit. However, I feel each reporter has a responsibility that if he reported everything that someone told him, desires or otherwise, a reporter has the responsibility to the public to educate them as one gets most of their information from reading the local newspapers. If a reporter is to take that particular responsibility that he has to our society and negate it by making a ragsheet, a scandal sheet out of a particular newspaper that I feel has reported very worthy since I've been on this Council and the many years that I have read it in many areas of this country and the world. I think that the reporter has to know what is good news and what is not good news. I felt that this was somewhat of a slap at this particular Councilman. That is all I have to say.

Mr. Stone, Chair Pro Tem:

On that subject, needless to say, this is a rather unique but rare body.

Mr. Woods:

I'd like to say one thing. If I asked the City Clerk to do something, it does have to pertain to City business or City policy, whatever, not letters to the Editor. And that is not City business, writing letters to the Editor. And as much as you can request it, I request you not to do it.

Mr. Flaherty:

Are we going to have the letter? I don't think that's been answered.

Mr. Givens:

I think on that, Ben, as far as your concerned, I'm just asking from this floor that the Chief Clerk do it.

Michelle Madoff:

Are we voting on it?

Mr. Stone, Chair Pro Tem:

There's nothing before the Chair.

Mr. Givens:

The letter will be on Mike Perry's stationery.

Mr. Flaherty:

Well I don't want my name on it. Put it on your stationery.

Michelle Madoff:

Put it to a vote.

Mr. Stone, Chair Pro Tem:

Hold on here. It's about time some people start asking for the floor here.

Michelle Madoff:

May I have the floor? Would you put it to a vote?

Mr. Stone, Chair Pro Tem:

If you keep your animalistic habits outside and we won't get chastised the way we do.

Michelle Madoff:

Who are you speaking to Mr. Stone?

Mr. Stone, Chair Pro Tem:

Whoever it fit.

Michelle Madoff:

Well then it fits you, sir, because you treat people beneath contempt and beneath dignity and if anybody does that they are an animal.

Mr. Stone, Chair Pro Tem:

There is no motion before the floor.

Michelle Madoff:

I asked that it be put before the floor because he's asking to have it put on and we're saying no.

Mr. Stone, Chair Pro Tem:

In absence of a motion there is nothing to --

Michelle Madoff:

Are you making that as a motion,
Mr. Givens?

Mr. Givens:

I am not making it as a motion.

Michelle Madoff:

Fine.

Mr. Stone, Chair Pro Tem:

Proceed with the second subject.

Mr. Givens:

On my second point, Mr. President. I would like a post agenda meeting this coming Wednesday. This post agenda will address the Allegheny Steam. Mike, I'd ask you if you get in contact I'll provide all the names. I think there's been a lot of dialogue going back and forth on this. Some people, including this City-County Building, must make a determination very shortly if we're to go one way or another. I don't know if all the facts are in. I have been presented facts on both sides of the spectrum; I'd like to sit down and have dialogue on these facts —

Mr. Robinson:

Point of order. I believe that there is a bill present before Council which has been tabled, but I don't believe we could have any discussion on that issue unless the bill itself is untabled.

Mr. Givens:

A post agenda is a post agenda. It has nothing to do with the bill, pending or otherwise.

Mr. Stone, Chair Pro Tem:

So far he's correct, but let me see where's he's going.

Mr. Robinson:

That's my only point. That it would be inappropriate for us to have a post agenda item while a bill is tabled on the same item.

Mr. Stone, Chair Pro Tem:

I think you're correct on that.

Mr. Givens:

I disagree wholeheartedly with that. I think any Councilperson has a post agenda item which is an informal, informal, function of the Council. It is not a part of the orderly meeting of the Wednesday Finance session, and a Councilperson can call that. It's an alerting of the public and any of the Councilpeople, I think, choose to stay there after the regular agenda meeting is there. We treat it somewhat formally, but it can be informally, and it is informally.

Mr. Stone, Chair Pro Tem:

I think that the fact that there is a bill, the fact that the bill is tabled until it comes off the table, you wouldn't be going around that. If you want it off, you bring it off the table.

Mr. Givens:

I need, then, certain information and I ask the Chief Clerk, then, to so mark in the post agenda that we have a post agenda this coming Wednesday. I don't think we can delay it any longer, regardless if there's a bill pending or not pending, you can stay there or you can leave.

I need certain questions to be answered and I want the public to be aware of what is happening. I've been reading memos back and forth. I know certain Councilpeople are working on this very diligently. They have been working on it and gotten certain facts and figures. I have reviewed those facts and figures. I agree with many of what's said on both sides of the spectrum. I think it's fish or bait in this particular. We must act. If you think you can go down there and build a furnace in this particular office and have it working by September, I guarantee you we've got some problems in store for ourselves. We are not going to be able to do it unless Allegheny Steam can remain on for another year or so. It's going to take that long before we can put in a steam boiler, hook it up, get people to work it. If we don't make a decision early soon, we're talking about ninety days from now, May being almost over, we're talking June, July, August and September, I believe a lot of people turn their heat on in this City.

Michelle Madoff:

I would like to ask the Parliamentarian whether it is proper to add a post agenda for briefing of the public through the media because they will be here, even though the bill has been tabled. I would just like clarification. Could the Parliamentarian press that please?

Parliamentarian:

The bill has been tabled. You can't have any pending legislation. If it comes from the table then you have pending legislation.

Michelle Madoff:

I'm asking a question. Don't beg the question. Can a Councilperson

request a post agenda even though a bill is tabled.

Parliamentarian:

There is nothing that I can see that says you can't have a hearing on anything. But the bill is tabled.

Mr. Flaherty:

So it's not on the agenda. It's off the agenda.

Michelle Madoff:

But a Councilmember can request a post agenda if they wish. You're giving us two answers. Yes or no.

Parliamentarian:

I'm trying to make it very clear that you don't have pending legislation. But Council can have hearings on anything.

Michelle Madoff:

We may not have legislation on the bill that I read today to make an inquiry with Dan Pellegrini, but I might want to hold a post agenda to have a bunch of people here who are in the auction business or the bankruptcy business who say, "Yes, I can supply people with equipment".

So the question I'm asking, I'm not sure that it's the right thing to do, I'm just saying, does Mr. Givens have the right to ask for a post agenda on any subject he wishes, and the subject he wishes to ask on is on pack. And as he says, there are many points of view going back a long time. I served on the Committee since it was PACER for two years. I'm probably as knowledgeable or more knowledgeable than anybody in this room. And I gave my word I would not

discuss it until the time was due. And the time is now. June 1st is when we better have a decision. What's the date today? The 24th? We don't have much time. I think Mr. Givens' point that we better discuss it quickly is a very valid one.

Mr. Givens:

I'll put it this way. I don't want to be sitting here in September when everyone is chilly, I don't think that would ever happen, but I don't want to be found guilty of saying I did not make a determination. I think, hopefully, that we have most of the facts before us. I think we can go on and on and on in this particular issue. We must cut bait. I'm not saying I'm for it or against it. What I'm saying is we've got to get the dialogue moving, we've got to make decisions on this, and I'm trying to get information I need to make an intelligent decision. I would hope that other Councilmembers would see likewise to sit in and add their comments to it. I think all it is is a fact finding, informational type of post agenda. A post agenda, again, is not a formal part of the Wednesday Finance session. It's there to do what we intended to do. That is to get information that won't tie up other Councilmembers if they have other things to do.

Mr. Robinson:

I believe Mr. Givens was present several weeks ago when Councilman Flaherty made a motion to untable the legislation that we are discussing. At that time, I seconded his motion to untable the legislation, to do precisely what you are now requesting. The record will reflect that this is what Mr. Flaherty had requested, that we untable the legislation so we could have a substitute discussion. At that time, Council was not disposed to untable the

legislation. I believe Councilman Flaherty and myself were the only two members of Council, at that time, who voted to untable. I think that perhaps what we're getting ourselves into, what we're getting into is a situation where we are not clear what the rules are. On several occasions I have asked the President of this Council and the Parliamentarian to give us some clarification as to which set of rules this Council is operating under. I think the rules are rather clear as to what we should do in this situation. I think if we begin to deviate, to begin to hold public hearings, begin to hold post agendas, on items that have been dealt with through our normal process, that we're asking for legislative disaster.

If this Council would like to discuss the pack proposal in these Chambers, I think the appropriate thing to do is to make a motion to untable the bill so we can have a discussion. It's rather obvious to me that a majority of this Council are not interested in having a discussion on this issue and certainly are not prepared to vote on it. To try to circumvent that, I think is asking for disaster later on down the road when other bills are tabled or when we decide that we don't like the rules that we set up and we'll just change them ad hoc.

If there's a serious question about the rules that govern this issue, I would suggest that the President of this Council sit down with the Parliamentarian and the members of this Council, in a private session, and hash out those issues and if there's a necessary change in the rules, that we bring that change before this body in public, and change the rules. I don't think we ought to be changing the rules from day to day to fit particular circumstances.

I agree with you that the issue needs to be discussed. That's why I seconded Mr. Flaherty's motion. But it was obvious to me that only Mr. Flaherty and myself, at that particular time, were willing to have the bill untabled. And the record will reflect who voted for and against that. I only mentioned that as point of information.

Mr. Woods:

Bill said it much better than I could ever say it. That's exactly what happened. Tom made a motion to bring it back on the table, he seconded, we all voted it down, I was one of the ones that voted it down. The vote was 5-2 or whatever it was, to keep the bill tabled. No one could discuss it after that point. Am I right Mr. Parliamentarian? And that's the way it should be now. If you want it brought up on the table, if you want a post on it, Wednesday in the Committee session, someone can make a motion to bring it back up, then second, and see if it passed, and then schedule a post. We did it one way one time, why do it another way another time?

Mr. Givens:

When I had come back from vacation that bill was under discussion, Mr. Chairman. I don't know if you were here, I think you were even gone then. What had happened, what transpired is, I asked what happened to that bill. I asked that we discuss it and in order to discuss it at that particular session I had to make mention of the bill itself. I asked that it be, not brought off the table, but put a motion before the Council. It was then discussed. I'm talking about not the original bill, Ben, I wasn't here then.

Mr. Woods:

You missed the meeting before that.

Mr. Givens:

But we discussed it then and you had some very strong points that you had not received information, etc., etc., which I also, if you can remember on our original post agenda on this, where we brought these people in and we had a good session with them, I thought, and we asked pertinent questions. All of us.

Mr. Stone, Chair Pro Tem:

To see this thing, no matter which side of this issue you side with, I think Mr. Robinson makes a very cogent point. If that is where the bill is, the bill ought to be moved and at that point you go up or down with the bill. But you shouldn't be jumping all over the place on the bill. When you bring up that bill, at that point, resolve it one way or the other. It seems to me to be the most logical way.

Mr. Givens:

I'd almost have to agree with you, Mr. Stone, on that, but the fact is that, I feel, we have a very crushed time-table on this. If the vote is yes or it's no, fine. We've got many people downstream here, there are 150 some customers that are waiting, wondering if we're going to do it. The Commissioners across the street are waiting to know if we're going to make a decision or not make a decision on this thing.

I think it's just like the Convention Center. We made a decision in this Council. The Commissioners did not.

In this particular case, the Commissioners made their decision, we did not. I think it's incumbent upon this Council to come to a decision.

I have received all the information that I think I need to make an intelligent decision. I think it should be brought up.

Mr. Stone, Chair Pro Tem:

Since that issue is there, it would appear to me if you want to talk about it, you ought to bring it up on Wednesday and get it off the table.

Michelle Madoff:

We have a problem with that, Mr. President. I don't know how you feel, but I have a very great desire to go to the capping off of the PPG Building which is a week from Wednesday. I think it's one of the high points of the City. There were many, many months of discussion and a lot of work this Council put into it, and I think, here's a chance to witness a little bit of the fruits of our labors as Councilmembers. That will be on the 9th, on a Wednesday. As you know, the U.S. Steel topping off was last Wednesday.

If we untable it, Ben, this Wednesday, I don't know why it has to be a post agenda. Why couldn't it be a hearing? Why couldn't it be a Thursday? We have hearings Monday, Tuesday, Wednesday and Thursday and Friday, as a matter of fact, of this week. If we untable it on Wednesday, would it be possible to have the briefing of all parties, which is what you wanted, all sides to be heard, on Thursday, because we are running into the time frame of June 1st, which is the due date in order for the City to get its contracts out and its engineering worked on so that we can have the conversion. I don't know the answer to that.

Mr. Stone, Chair Pro Tem:

No matter how we do it, we still

have to bring it up from Wednesday, as I see it. And I think what we ought to do is to resolve that issue one way or the other on Wednesday.

Michelle Madoff:

What do we do time frame-wise? Does it have to be a post?

Mr. Stone, Chair Pro Tem:

It depends on what you want to do on Wednesday.

Michelle Madoff:

My question is, does it have to be a post or can it be a hearing?

Mr. Stone, Chair Pro Tem:

Judging from where this thing is going, it would be my recommendation there ought to be a public hearing if we decide that that's what we want. We can't handle it as a post. You ought to invite those people that are important to the issue.

Michelle Madoff:

This is the Memorial Day weekend; a lot of people will be leaving town.

Mr. Stone, Chair Pro Tem:

Mr. Givens, your third point.

Mr. Givens:

My third point, Mr. President, if I might. There's been a poem, I think most of the staff within Council, has probably heard it in regards to my Pittsburgh home. It's very complimentary of Pittsburgh; it has some good lyrics to it. It was presented to us by a Mrs. Alice R. Cunningham of Bolivar, PA, and I

would like it to be part of today's minutes. To be incorporated in today's minutes.

Mr. Stone, Chair Pro Tem:

Well, with the way things have been going, I'm kind of super cautious about putting things into the minutes I haven't heard about.

Mr. Givens:

As I indicated, it's very complimentary. I think most of the staff has heard it and it would help the staff. The staff requested me to do this.

Mr. Stone, Chair Pro Tem:

Are you going to sing this thing?

Mr. Givens:

I think you might want to sing it, Bob.

Mr. Stone, Chair Pro Tem:

I'm afraid I don't know the melody.

Mr. Woods moved to excuse **Mr. DePasquale** for absence from the meeting.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Givens moved to approve the minutes of Monday, May 17, 1982.

Mr. Flaherty seconded the motion.

Which motion prevailed.

Mr. Woods moved to adjourn this meeting and meet again on Tuesday, June 1, 1982, at 2:00 p.m.

And on the motion of **Mr. Woods**

Council adjourned.

VOL. CXVI

No. 22

Municipal Record

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Tuesday, June 1, 1981

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

ABSENT:

Mrs. Masloff

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

We're going to go a little out of

order and take Bill No. 556 first.

Mr. Flaherty presents

Bill No. 1048

Report of the Committee on Lands and Buildings for May 26, recessed and resumed June 1, 1982 transmitting one resolution to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 556

Resolution entitled, "Resolution providing for an Agreement/s with Pittsburgh/Allegheny Central Thermal Ltd. (PACT) for the purpose of becoming a member of the Cooperative that will provide steam for the City-County Building and the Public Safety Building."

Mr. Flaherty moved to suspend Rule 8 on the bill providing for the mailing of printed copies of all ordinances and resolutions to each member of Council at least 48 hours previous to their consideration by Council after the return of such are the papers from Committee.

Mr. Robinson seconded the motion.

Which motion prevailed.

Mr. Flaherty:

I vote aye and request that my remarks be brought forward.

(BEGINNING OF MR. FLAHERTY'S
REMARKS ON BILL NO. 556, 6/1/82)

Mr. Flaherty:

Aye. And I just want to explain it. I will be extremely brief. I believe that this is an ideal situation for the City Hall to enter into the partnership with the Downtown community. I wholeheartedly agree with what the President of the Chamber of Commerce said earlier. There has been too much quibbling over the small amount of the fees that we're talking about. I don't buy the argument at all that this is going to have any impact on the taxpayer, nor is it going to have any impact, as it now stands, on our communities. I have not received one phone call from a community organization, from a taxpayer, that has asked me to oppose PACT because it's going to have an impact on their tax rate. I believe that the infrastructure is in place, and I believe that it would be tragic for this Council just to throw, for that reason alone, this infrastructure out. Therefore, I wholeheartedly support PACT.

(END OF MR. FLAHERTY'S REMARKS
ON BILL NO. 556, 6/1/82)

Mr. Givens:

I vote aye and request that my remarks be brought forward.

(BEGINNING OF MR. GIVENS'
REMARKS ON BILL NO. 556, 6/1/82)

Mr. Givens:

I vote yes. And I would like to frame that, and the thing that, if we would go -- I think Ben brought out some very good points. But I have to expand upon that to go into cogeneration if we were to go into gas-fired boilers.

Secondly, I have to look at the long term potential of the system that we have in existence and what it would take capital expenditures to put this system in this City, or any other City for that matter. I would like, also, the independence from being able to convert a central system more quickly than 150, 250 within the City. And looking at the business community out there, to convert it into other fossil fuels.

I think what we have in the world situation today is something that I don't personally want to be boxed in. I don't think the business community here in Pittsburgh wants to be boxed in. For that reason I vote yes.

(END OF MR. GIVENS' REMARKS ON
BILL NO. 556, 6/1/82)

Michelle Madoff:

Before I vote, I would like to respond to a statement made by our Finance Chairman. I think there are so many other innovative ways that we can save money like buying much of our supplies for the City, which we now spend \$85 million for. Call me Second Hand Rose, but I would like to see, say, \$15 to \$30 million. I've been checking it out, doing a paper on that and having someone give a report. I don't think that that would be the only reason we are voting on this particular issue, and I, of course, vote for the bill.

Mr. Stone:

I vote no and request that my remarks be brought forward.

(BEGINNING OF MR. STONE'S
REMARKS ON BILL NO. 556, 6/1/82)

Mr. Stone:

No. For the following reason.

First of all, it has come to me, as Finance Chairman, while others might engage in a heart or in some sympathy or other reason, I'm stuck with financial decision. I'm responsible for the City of Pittsburgh's residents who I must tax every year, whom I must ascertain whether we should tax them every year. And this is an opportunity for us to save a minimum of \$50,000.00 on one building alone. And I don't even see where the facts clearly indicate that we should convert at least that one building. If there is even any consideration to convert and save \$50,000.00 per year for the next 10 years, which means a half million dollars. In addition to that, the facts are not clear otherwise, that we could go in the direction we're now going. To go into a partnership is not good. To go into marriage is not bad, as long as the terms and conditions are favorable to us so that you do such with your eyes totally open. I don't think that that has been happening here, as Mr. Woods has indicated, and as I have indicated earlier. We are prepared to listen to the facts, we came here to listen to them. As he said, the credibility stinks. The facts are worse, and as I see it here today, perhaps the most cogent statement made was by the gentleman from Allegheny West who indicated I have no objections to my public official acting as long as he knows what he is doing when he is voting. And it seems to me today that they are not the kind of facts that have been at this table which would make — have anyone make an intelligent financial decision on behalf of the City of Pittsburgh. I, therefore, as Finance Chairman can not possibly, in good conscience, do otherwise.

END OF MR. STONE'S REMARKS ON
BILL NO. 556, 6/1/82)

Mr. Woods:

I vote no and request that my

remarks be brought forward.

(BEGINNING OF MR. WOODS'
REMARKS ON BILL NO. 556, 6/1/82)

Mr. Woods:

I vote no. For all the reasons I gave here today. I've done a lot of work on this. All the numbers come out saying that we can save the taxpayers money. I don't think that everyone looked at the facts, but I will promise everybody one thing. I'm going to watch this thing as closely as I worked on it, and every time this rate goes up, I'm going to tell you about it, and then one of these days all of you are going to say that you're sorry we did this. And you're the people that are going to have to go out and answer to the taxpayers because we're not talking about \$50,000.00, we're talking about \$220,000.00. When you start adding up — everyone says that they want to run this place like a business — when you start adding up \$220,000.00 savings here, \$50,000.00 saving here, \$1,000,000.00 here, maybe we wouldn't have had that \$40 million raise that we got to tax all these people.

And one other thing. You're not only voting this City's tax dollars. These people in this audience got to pay double tax. They pay County tax, they are also paying City tax. So, they're paying for this steam heating system twice, and I urge you, you have already voted this in favor. We got one more vote. Take that into consideration. Look out there. Look at these people they don't even get the chance to speak. Throw one out to the public. Have public hearings. This thing was not aired well enough. We have all these pin-stripe suits come in here and tell us how great it is for the Golden Triangle. That's fine. But the people in this City, in the neighborhood are the ones that have got to pay this bill. We already get blamed for coming

down and doing Renaissance II. All that is done just for Downtown Pittsburgh. Well, it's about time that we started doing Renaissance II in the neighborhoods. And believe me, I will keep track of this. No.

(END OF MR. WOODS' REMARKS ON BILL NO. 556, 6/1/82)

Michelle Madoff:

Mr. President, may I respectfully request that this particular tape of this hearing, because that would normally not be in the printed form, be made up for everybody to have copies of because I think there was so much discussed that we're going look back on in later years, as Mr. Woods said, that I think we should have a record of it.

The Chair:

I don't know if I want to hear it again. It's a six hour meeting. I'd rather play a Nat King Cole album.

Michelle Madoff:

Mr. Woods, wouldn't you agree with that? Normally, the Finance meeting is not in a printed form. I think the meeting was so important that I think it ought to be put together so we have it just for the points that you made today.

The Chair:

We'll make that a matter of record.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Robinson
Michelle Madoff	Mr. DePasquale
	(Pres't)

AYES 6

NOES 2

(MR. STONE AND MR. WOODS VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

The Chair:

We're going to suspend the reading of the rest of those bill in Lands and Buildings and get back to the regular order of business, the Presentation of Papers.

Mr. Flaherty presented

No. 1011 Resolution providing for the issuance of a warrant in favor of Pitt Industrial Diamond Products, Inc. in the amount of \$278.00 in payment for material furnished for the benefit of the City without previous authority of law, chargeable to and payable from Code Account 1363, Materials, Department of Lands and Buildings.

Also,

No. 1012 Resolution providing for the issuance of a warrant in favor of ABCO, Inc. in the aggregate amount of \$487.00 in payment for ice melting chemicals, chargeable to and payable from C.A. 1362, Supplies, Department of Lands and Buildings.

Which were read and referred to the Committee on Finance.

Also,

No. 1013 Resolution providing for the filing of a petition or petitions for the sale of certain property or properties acquired at tax sale in accordance with Act No. 514 of 1947 as amended.

Also,

No. 1014 Resolution providing for the filing of a petition or petitions for the sale of certain property or properties acquired at tax sale in accordance with Act No. 514 of 1947 as amended.

Also,

No. 1015 Resolution providing for the filing of a petition or petitions for the sale of certain property or properties acquired at tax sale in accordance with Act No. 787 of 1937 as amended.

Which were severally read and referred to the Committee on Lands and Buildings.

Mr. Givens presented

No. 1016 Resolution further amending Resolution No. 1229, approved 12/29/79, effective 1/1/80, as amended, entitled, "A Resolution adopting the 1980 Capital Budget and approving the 1980 through 1985 Capital Improvement Program," by redefining the funding sources.

Also,

No. 1017 Resolution further amending Resolution No. 1073, approved 11/29/79, effective 12/5/79, as amended by Resolution No. 24, approved 2/3/82, effective 2/12/82, entitled, "Providing

MOTIONS AND RESOLUTIONS

Mr. Givens presents

Bill No. 1049 WHEREAS, it has pleased Almighty God, in His infinite wisdom, to have removed from our midst, by death, William J. McCann, on Monday, April 26, 1982; and

WHEREAS, Mr. McCann, a 1942 graduate of Central Catholic High School who had a B.S. and B.A. degrees, in commercial education from the University of Pittsburgh and graduate work at the University of Pennsylvania and UCLA, began his career as head of accounting for the Blaw-Knox Co; and

WHEREAS, he moved to Santa Fe

Springs, California in 1952 and was one of the original members of the Homeowners Association and the Recognition League that was responsible, along with leaders from business and industry, for winning incorporation of the City; and

WHEREAS, he was a Councilman who later served six terms as Mayor of Santa Fe Springs and the Director of the California Museum of Science and Industry for fifteen years; and

WHEREAS, as an infantryman in World War II, he was the first American in Dachau and one of the first to cross the Rhine River on the Ramagen Bridge, and later he was to become General Omar Bradley's private secretary; and

WHEREAS, the Mayor and the Members of the Council of the City of Pittsburgh desire to formally record upon the minutes of the Council of the City of Pittsburgh a tribute to his memory.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the members of the Council of the City of Pittsburgh extend their deepest sympathy and condolences to the family and friends of William J. McCann in their hour of bereavement, and that copies of this resolution be sent to the immediate family.

Mr. Givens moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Givens:

I would like to say one thing on behalf of one of my staffers, Margie McCann, who worked for the Council

here, that I'm sure she would much appreciate it and Mike, who has also been very close to the political system here within the City of Pittsburgh and Allegheny County. I'm sure if we were to not recognize the late Bill McCann, that we would be doing a disprivilege, noting that he had some firsts. And the fact that he never forgot Pittsburgh, even out in his particular duties in the state of California as the Mayor and as the person who ran the industrial exhibit out there. He would always keep the museums of art and science here in the Pittsburgh area also informed of what was going on. He was a true ambassador, we might say, for the City of Pittsburgh out in the California area. And for that purpose I'd like him to be so recognized.

The Chair:

Thanks for those nice words, Mr. Givens.

Mr. Stone moved to excuse Mrs. Masloff for absence from this meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Woods moved to approve the minutes of Monday, May 24, 1982.

Mr. Flaherty seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Givens**

Council adjourned.

Michelle Madoff:

On Bill No 1002, I wish to abstain

for the same reasons that I mentioned on Wednesday, and would you bring my comments forward please.

(BEGINNING OF MICHELLE MADOFF'S REMARKS ON BILL NO. 1002, 6/2/82)

Michelle Madoff:

Mr. Schmeiser, is that the \$40,000.00 you are holding?

Mr. Schmeiser:

No.

Michelle Madoff:

I would like to point out that this goes back to 1977. I don't have the papers now but this gets back to Mr. Gaetano and whoever is concerned, the fact that we had better start conserving some money somewhere so that we have money to repair our sewers. He asked for \$95,000.00 and had he gone to court he could have gotten it and that's why I want to start buying some of the \$85,000.00 worth of supplies, second hand and slightly used and slightly worn, to repair some of our sewers so we don't get \$95,000.00 claims.

There's been a denial from the Administration's office that we are going out for bond. I know who the bankers are and I bumped into Dave Matter last night and I asked him and he said that he doesn't know anything about it. I spoke to a young woman in the printing office and she was told not to give any more information and not to talk to me. I said I was Councilwoman Madoff and that it was perfectly all right to give me the information. I went down to get the papers and they (employees) said that they were not allowed to give me any information. What's happening is that this Administration is going out on a \$15 million bond and has not bothered to

come to Council about it.

We went out on a \$70 million bond and Mr. Gaetano, Louise Brown and everybody else gave us a list of items that could not wait. They must be met by that certain date and now I have a list of the items that must be deferred and now you're coming back and doing exactly what I said you were going to do — you are going to hit us later. The thing that offends me more than anything else, you are the President of this Council, did you know about the \$15 million bond?

MR. DEPASQUALE COMMENTS.

MR. GIVENS COMMENTS.

Michelle Madoff:

What does it cost, about \$20,000.00 for the initial printing? That's not the point. That \$20,000.00 could put the kids to work in the summer.

How can they spend money without our knowing about it? Is that right Mr. Schmeiser? Would you like to deny it, is there a bond out?

Mr. Schmeiser:

We are working on the bond issue. I have worked closely with Robert Stone, Chairman of the Finance Committee.

Michelle Madoff:

Do you think it would be nice if Mr. Stone told us about it?

Mr. Schmeiser:

This will be totally explained to you Mrs. Madoff. At the appropriate time we will explain it to you.

Michelle Madoff:

Mr. Schmeiser, did you have to pay the printing company at all?

Mr. Schmeiser:

No, we have not paid anything.

Michelle Madoff:

Will you have to pay them for the intital printing?

Mr. Schmeiser:

We would have to.

Michelle Madoff:

Do you think it would have been nice to come and tell this Council about it?

MR. DEPASQUALE COMMENTS

Michelle Madoff:

It all ties in Mr. President. We vote on a bill and you say that it doesn't have anything to do with anything else. Every dollar we spend has to do with the budget. Here we have a \$40,000.00 claim to pay because we are not conserving money in other ways. Something is going to have to change and drastically I might add.

Do you understand what I am saying, Mr. Woods?

MR. WOODS COMMENTS

Michelle Madoff:

Thank you. I abstain on the bill.

Bill No. 1075

Report of the Committee on Planning, Housing and Development for June 2, 1982 transmitting two ordinances and sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendaton,

Bill No. 574

An Ordinance entitled, "An Ordinance amending the Pittsburgh Code, Title Nine, Zoning, by defining and providing regulations for Personal Care Residence under the Special Exception category in certain districts by authorization of the Board of Adjustment and by redefining the present Rooming House/Boarding House categories into a Lodging House category with elimination from certain residential districts." (AS AMENDED IN COMMITTEE)

Which was read.

Mr. Robinson:

On Bill No. 574, in looking through my legislation, I did not see a copy of the letter from Director Lurcott, our

Planning Director, relative to the amendments that we made, and I would suggest that our Assistant City Clerk include that and that when we vote, we vote with the recognition that that letter should be added. The amendments were made, but I think that as far as the public record is concerned, it should reflect that that letter is attached to the legislation and is a part thereof. That has been the process in the past and I assume it was just an oversight in that regard.

Also, on No. 574, I think Council should, again, be aware that the Zoning Administrator, Mr. Brown, and City Solicitor, Mr. Pellegrini, and our Planning Director, Mr. Lurcott have been instructed by this Council by way of letter, to prepare for Council's consideration, legislation that would include "R1" and "R1-A" areas in those zones that would be able to accept Personal Care Boarding Homes. At such times, that legislation is forwarded to Committee. I'll make the appropriate recommendation that we have a public hearing so that we can address the issue of Personal Care Boarding Homes being in all zones.

Michelle Madoff:

Mr. Robinson, I think you've done an outstanding job on this bill and I would hope that when you introduce your, whatever, amendments or clarification, you would perhaps, stress, particularly with the media, that we've had a number of people come before us and testify that when you have a facility for caring for senior citizens, nobody even knows they're there. But when you talk about a group home, say for wayward girls or boys, then it's a different ball of wax. And I think the public understands there's a difference. There won't be as much resentment or obstacles or not as much time with Council fighting about it.

Mr. Robinson:

If I might make another comment, I think it would be appropriate to include in the record, the letter that Mrs. Johnson sent to Mr. Lurcott and Mr. Pellegrini and Mr. Brown, requesting that they prepare the necessary legislation for it. Council should be clear, as I'm sure most of the members are, that when we pass this legislation, it does not provide for Personal Care Boarding Homes in all zones. "R1" and "R1-A" are removed, and that when the legislation is forwarded to us, the new legislation, we will, by law, be required to have a public hearing and I personally will make every effort that I can to make sure that all sides on this issue are heard before Council takes any action.

(BEGINNING OF LETTER REGARDING
PERSONAL CARE RESIDENCES)

June 2, 1982

Robert Lurcott, Director
Department of City Planning
City of Pittsburgh

Dear Mr. Lurcott:

At Council's Finance Meeting of June 2, 1982, Councilman Robinson requested (with consent of Council) that you, along with Zoning Administrator James Brown, prepare legislation authorizing Personal Care Residences in "R1" and "R1-A" Zoning Districts similar to that which is presently under consideration in Council for other residential districts.

The Councilman requested that you arrange to meet with the City Solicitor and the Planning Commission to evaluate this proposal. You are also requested to meet with community organizations and any agency that specializes in this type of residence.

A public hearing conducted by the Commission should provide useful information prior to preparation of appropriate legislation.

Your cooperation in this matter is appreciated.

Sincerely,

Linda Johnson
Asst. City Clerk

Mr. Givens:

Mr. President, I enjoin Councilman Robinson on his remarks on that particular bill. I have great concern with the "R1" and "R1A" areas.

Also,

Bill No. 1033

Resolution entitled, "Resolution providing for an Agreement or Agreements with the Pittsburgh Clean Cities Committee, a non-profit corporation, for the purpose of employing economically disadvantaged youths to clean up and/or landscape City neighborhoods."

Which was read.

Mr. Robinson:

On Bill No. 1033, I think it might be appropriate to include in the record, if Mr. Givens has no objection, the question that he asked relative to this legislation and the response that both

myself and Mr. Young provided to him on that matter. I think it gives a little more clarification to the direction we're trying to go with No. 1033.

(BEGINNING OF COMMENTS ON BILL
NO. 1033, WEDNESDAY, 6/2/82)

Mr. Givens:

Discussion. Why Unspecified Local Option? Why could we not have used the line item in our budget which comes under the General Vacant Property Review Committee and I believe there's quite a bit of money in there. I just want to know if that money has been expended for the purpose of cleaning lots within the City of Pittsburgh.

Mr. Young:

I can't speak to line items but we requested to look for available funding sources and this was the only available one.

Mr. Givens:

Well, I'll show you a line item there and I'd like to know — Ed Albert, do you know which one I'm referring to? The Bloomfield-Garfield project has come under it a number of years.

Mr. Young:

I think it is the PMP Program.

Mr. Givens:

That is Property, Maintenance and Management and this is over and above that program. Now the PMP Program, is that operated by in-house City work force?

Mr. Young:

It is operated by the relocation agency and the Urban Redevelopment Authority. They clean up various lots and because of the amount of debris they have gone out to bid to various contractors.

Mr. Givens:

I think the purpose of a bill like this is to try and get some youth to be employed. I think the fact that we have money in our line items to do this, I think it is incumbent upon URA and upon this City to carve that type of money out for exactly this type of a program. Why have we not done that? You just indicated, Reggie, that we are sending that out to be contracted out, fine. But I think we have a unique problem in the City of Pittsburgh of our youth not being employed, especially during the summertime. It's been traditional over the last ten years anyway that they have some type of employment.

In using Unspecified Local Options we try to keep that for emergencies and I'm sure this is an emergency.

One other question I have. If there is any money in that PMP I would like to use that type of money if we can if it's not expended. Let's use it because it is still for the same purpose of cleaning up our City lots. How is this program to be managed? I read the article in last night's paper on it, but I would like to hear from you. How are we going to select these 200 young adults and --

Mr. Robinson:

If I might, I think one of the things that has to be made clear is that the contractual relationship between the City and the Pittsburgh Clean City

Committee is indeed a contractual relationship with a non-profit organization. They have submitted a proposal to the City, as other non-profits have, where they had detailed the process to be used. The Pittsburgh Clean City Committee has a number of sub-committees, one of which specifically deals with neighborhood groups and organizations. There have been a number of neighborhood groups and organizations that have made application already to hire youngsters to perform these duties, these are city-wide community groups and organizations. From the community groups and organizations we will have 34 work teams in various communities and organizations.

Mr. Givens:

That's what I want to get down to. Which communities and which organizations are we talking about? I know of 200 viable community organizations within the City of Pittsburgh. If we say 34, which 34 are going to get this?

Mr. Robinson:

I think what we have to look at is that our contractual relationship is with a non-profit organization that has the responsibility to select the community groups and organizations and those community groups and organizations will be selecting the youngsters who are CETA eligible. So these are youngsters throughout the City of Pittsburgh who have to be eligible for the CETA program to start with, which means that we have control of that as the CETA eligibility is based on income level, not neighborhood. So this program is available to youths across the City of Pittsburgh. As I understand it, the sub-committee of the Pittsburgh Clean City Committee which specifically deals with

neighborhood groups and organizations, has been working with Mr. Young and his staff and we are going to be working with those groups and organizations that have traditionally been working with. Any other groups or organizations that want to make application, one thing that has to be clear on is that -- this is a summer program.

My point is that hopefully the Clean City Committee will be able to continue this program and that the City will make a commitment to this Committee to continue to fund their efforts to keep our neighborhoods clean. This is, in a sense, a pilot effort which serves a number of purposes: 1) I think the Pittsburgh Clean City Committee a demonstration project of what can be done with community groups and organizations. First and foremost, it puts our young people to work this summer and lastly it is a very wise use of community development funds because it does address a very serious problem which is the problem of employment.

I have every confidence that this committee, along with Mr. Young, will be fair in their selection of those groups and organizations and I would encourage anyone that has a group or organization that thinks they would like to have some young people work under this proposal, to contact either Ms. Salley, who is the Executive Director of this committee, or Mr. Young in our Planning Department.

Mr. Givens:

I'm wholeheartedly for this Clean City Committee and I introduced legislation on this Council for many years trying to make the fines more appropriate to the offense and I would hope that from the track record of other cities where this is employed that it's a pretty good record. We have, in the past, sent people out to clean up lots and

we have used community organizations to do it, we have paid them out of C/D funds but one just has to go back into the neighborhood again after a short period of time and find it in the same situation as it was before. It is just not individuals doing this, but I'm talking about people that are dumping and until we catch those culprits and start arresting until the neighborhood people start turning them in. They are very reluctant to turn these people in for whatever reasons, but I would have to say, give the Clean City organization time to develop the total concept to clean up our City. It's not going to happen overnight.

(END OF COMMENTS ON BILL NO. 1033, WEDNESDAY, 6/2/82)

Mr. Givens:

On Bill No. 1033, which is a resolution on agreement with the Pittsburgh Clean Cities Committee and our \$150,000.00 contribution into that. All of us have received a letter dated May 28, 1982 from Community Action Pittsburgh wherein they had a request for a works program for 240 of their youth between 14 and 15 years of age wherein they were turned down. I see that we're with the Clean City want to appropriate \$150,000.00. I would like, and the Executive Director, Joe Jackson, so indicated that he would like to get with Council in regards to the turndown on this, which was turned down by, apparently, our Department of Personnel and Civil Service Commission and the reason they gave, one was verbal, said there was no money. The other one was turned down because CAP had poor monitoring and felt the scope was too broad, that the CAP Board had submitted. Mr. Jackson wants to meet with all the Councilpeople and I as that we have a post agenda on this this coming Wednesday, wherein we'll have people from our Department of

Personnel and the CAP people present for that.

I don't know if there's any way that we can work Mr. Jackson's problems with trying to employ some youth in that particular program with the Pittsburgh Clean City Committee, but I think there might be some dialogue there where we can tie the two of them together.

Although we're approving this bill today, Bill No. 1033, I would like for it to be kept open in the eyes of the Administration to see if we can help out the CAP people, possibly at the same time, and kill two birds with one stone.

Michelle Madoff:

I would like my comments brought forward from the other day, but I would just like to say that when my time comes to vote, I will abstain on the basis that when we went out for the \$70 million bond, I asked the major directors, all directors, but particularly the major directors, Parks and Recreation, Water Department and Public Works, to give me a list of the project that could not wait, where we could go out, perhaps, on a \$30 million bond and then take the 40 when we had a window, and there was a window when the interest rates dropped for a very short period of time, and they

said that these were projects that absolutely had to go. Now many of the project have been deferred. Eazor was bought with that money and we're now going out for another fifty dollar bond. I might add, and I would like this for the record, that my aid was with me when I bumped into Mr. Dave Matter the day before I brought this up in Council last week. Mr. Matter denied there was bond. I thought there was only a \$15 million bond, it's a \$50 million, which Mr. Schmeiser confirmed here last Wednesday. I guess it was Tuesday when I saw Mr. Matter at 5:00 - 5:30, going out of the building.

I spoke to Herbeck and Held. I got a young woman on the line and said my name was Councilwoman Madoff, she started to give me information, but she went down to get the actual bond; she wouldn't come to the phone. I called back. Someone else came to the phone and said, "We not allowed to give you any information". I deeply resent the Administration going out and arranging for fees to be paid to lawyers, to advisors, such as Sam Katz, and to the printers for the preliminary printing because I don't think anybody in this Council would have voted against that. We would all have supported to go out and look and we would, at that point, have undertaken to pay those bills. But I don't think the Administration should go out and then come back and tell us, now, because we want you to pay for it and we looked at it, Council should vote this bill. It's sort of, when they want our opinion, they'll give it to us.

This City is in a very serious financial, fiscal situation. Not, perhaps, any different than many of the northern cities. I think that all of us, including the Finance Chairman, are looking at ways of economizing. My only point is that as Council we're not window dressing. You heard a rumor of it, Mr.

DePasquale, through perhaps, Mr. Stone, I don't know. Mr. Stone admitted that he was aware of it and the Administration said they had spoken to Mr. Stone. What's wrong with Mr. O'Malley or what's wrong with Mr. Robinson or Sophie Masloff or any of the rest of us? Why should we hear it second hand? Why should I hear it from somebody in New York and think it's \$15 million and find out it's \$50 million when in the 1984, which is the year after next, the debt service for this City is presently \$74 million. And they're going to try to refinance \$20 million of it. That still brings it to \$54 million. And we were told we took the \$70 million bond that we're paying back at \$207 million, that that would be used to pay off the debt service to date. Now we have the three year bond to pay and there are many things we have to meet. Things that we don't want to do, but we're forced to do.

The point I'm making is that I think we're too far in debt. I think the City cannot handle this debt service and we should not be going out without at least Council being notified that they're going out to look. Would any member of Council dispute that? And for those reasons I will abstain.

(BEGINNING OF MICHELLE MADOFF'S
REMARKS ON BILL NO. 966, 6/2/82)

Michelle Madoff:

Would you like to say so? What's the secret? Linda, put Eazor in there the next time just so we know what we are talking about.

ON BILL NO. 967

Michelle Madoff:

Excuse me, I would like to change my vote. On both of those bill on the Eazor payments, I want to abstain on the

basis that we were given false information on the \$70 million bond and I'm going to abstain because the money was not allocated on the \$70 million bond and we were told it was. Both bills I would like to abstain.

(END OF MICHELLE MADOFF'S REMARKS, 6/2/82)

Mr. Givens:

Mr. President, whether I like something or not, when we have a vote on a particular bond issue, might not like it, but this bond issue has already been negotiated and paid for by the citizens and we want a first rate city garage down there and this is the method and means that we're going to get that particular garage. And for that reason I vote aye on that bill and all other bills.

Michelle Madoff:

Excuse me. These moneys are not for the garage. The garage was purchased out of the first \$70 million bond. This is an additional \$15 million for the projects that were deferred and all I'm saying is that we should have been consulted. We're not voting on a bond today on this. What we're voting on — mine is just a protest vote. That's why I'm not voting no, Mr. Givens. I think you're right. If there weren't enough votes, I would be voting aye with you. But I'm voting to abstain to send a message to the Administration that we are not puppets, we are not window dressing, we are duly elected officials, we're legislators, and before permission is given, or authorization would be more like it, to incur debt, authorization to incur debt, I'll say it again, authorization to incur debt, for attorneys, for the printing at Herbick and Held, for the lawyers' fees, we should have been asked. And this is my only way of protest — to abstain on these votes.

Mr. Robinson:

I'd just like to comment. I think that some of the questions that Mrs. Madoff had raised are legal questions relative to the authority of the Administration to take certain action to help Council approve this. As Mrs. Madoff knows, this is not the first time this issue has been raised in this Council and I would assume that our City Solicitor could give us some direction in that regard. I think it, perhaps, would be helpful if the President of Council convened some sort of meeting to try and resolve this issue as best we can, not just in terms of this bond issue, but in terms of the question. I think it goes without saying that the Mayor does have the prerogative of running the City from day to day. I'm sure that somewhere within that prerogative he and those on his staff will justify their actions. I think rather than extend and expand this debate in public, we need to get some clarification from the Administration and perhaps answer for our own selves some very serious questions about what our role, if any, will be in activities of this type in the future, particularly in light of your comments about the fiscal problems that our City is facing like others, and the fact that there is an involvement for Council. Perhaps this involvement is not quite clear enough, given the nature of some of the problems that the Administration is wrestling with from day to day.

Michelle Madoff:

I don't know if you heard, Councilman Robinson, but President DePasquale allowed me to hire an attorney who is looking into it from our point of view because very frequently, as you've experienced and many others of us have, with City legal opinions you get a biased opinion. There's an old joke, if the request comes out of the right

pocket it's a no, and if it comes out of the left pocket it's a yes. We're having somebody who is an expert in government law, who has done a lot of government research, worked for K. Leroy Irvis, and with Mr. DePasquale's approval, look into exactly what you're saying. Maybe we don't have that prerogative. Maybe the Mayor, on a day to day basis, can go ahead and incur debt. I don't think so. I can't imagine that he'd come before us or introduce the bill saying, "We want to go out and look at what the market is today", that we would have said no. We would have said yes. We may not have voted on the bond, but we certainly would say, "What is the situation today?" But we've now incurred, I'm going to take a guess, and I would like, Mr. President, if I may, for Linda to send a memo to the appropriate agency, I don't know who it is, I guess Mr. Schmeiser. I want to know what the total cost of the initial indebtedness for which we're going to vote, whether we want the bond or not, and I'm going to guess the figure to be something like \$54,000.00. I think the printing will be — if it's a \$15 million bond it was supposed to be 23, so let's assume, since it's 50 it's a little more and I forgot the lawyer's fees and Sam Katz' fee. So I'm just taking a guess. We're talking about \$50,000.00, which incidentally, Mr. Robinson, would put a lot of youngsters to work this summer.

MOTIONS AND RESOLUTIONS

Mr. Givens presents

Bill No. 1079 WHEREAS, at the public hearing before City Council on Thursday, June 3, 1982, residents from the New Arlington, Beltzhoover, and Allentown sections of the City of Pittsburgh expressed concern over the inclusion of these neighborhoods in the Light Rail Transit system; and

WHEREAS, these three neighborhoods are comprised of low-moderate income residents and the only predominantly black neighborhood directly served by the LRT system; and

WHEREAS, if these three City neighborhoods are deprived of inclusion in the system, the City will have a 1/2 billion dollar transit system that directly serves only one City neighborhood - Beechview; and

WHEREAS, in April of 1980 the PAT Board passed a resolution to retain streetcar transportation on Warrington and Arlington Avenues.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the members of the Council of the

City of Pittsburgh hereby echo the sentiments of the residents of these three neighborhoods and urge the Commissioners of Allegheny County and the Executive Board of Port Authority Transit to keep their promise and retain these three City neighborhoods in the LRT system.

Mr. Givens moved to adopt the resolution.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Stone:

On this particular issue if you will recall, I've been working on this particular street program for some time. At the last Executive Board Meeting of the Port Authority I was there and requested that the Port Authority maintain the promise it made to us previously and if you will recall, that's been holding up the improvement of the New Arlington Avenue for the reason that they indicated they need that escape route in order to get around the tunnel problems if that ever came up. It was my understanding at that meeting that they would re-look at that thing although there was no motion to change. There was just some inquiry into it. It's now my understanding that will be taken up and within one month they'll have a decision for us.

Mr. Givens:

In passing this, it's noted that it will go to the Commissioners and also the Board of the Port Authority with the Mayor's signature on it. Knowing that this meeting of the Port Authority was going to transpire on the 25th of June, that we have a post agenda in this Council on the 30th of June, that's a Wednesday, wherein at this particular

public hearing that we had on the 3rd of June, several questions were raised. At that time we'll try to deal into them. One was transportation to and from that particular area of the City, especially along Arlington. Will or will not Arlington be closed? I don't think that can be answered until after the PAT Authority Board meets.

There are some crumbling secondary roads coming off of Arlington. They're in bad shape. That question must be answered.

Thirdly, it was the desire of the people in the community to have some type of a committee set up, Mr. President. I don't know if you want to do that or just leave it within my Committee as the Department of Public Works wherein, to sit down with these people on a monthly or quarterly basis, depending upon how smoothly the operation goes to inform the people in that particular area of what is happening. This would be akin to what we have in the Golden Triangle right now with all the construction going on in this particular area. So people have a focal point to come to and know exactly what is happening.

Mr. Stone:

We set up that Committee over at the Brashear Association and called the three groups. Southside Community Council, the Arlington group and the Allentown/Warrington Avenue group. Bob Kress and Dorothy Mead and New Arlington Avenue has their individual there. That thing is already in progress.

Mr. Givens:

Well these people appealed and I was at the public hearing and it's in my Committee so I would like to continue on with these particular groups wherever they might be or come from. They had

asked that this Council so form that particular committee.

At this post agenda on the 30th of June I would like to have the Department of Public Works, the City Planning Department, the Urban Redevelopment Authority, PAT and their Executive Director, the County Planning Department, be present at that particular meeting so we can really — and the community leaders, that they be here, so they can hear what dialogue goes back and forth.

I hope when we leave that post agenda meeting everyone will be somewhat appraised of the time schedule, the maintenance schedule, the transportation and some of the other problems that were brought out at that meeting on June 3rd.

Along with that, Mr. President, I think we almost had a serious situation last Friday wherein we went right up to the twenty-nine minutes and fifty-five seconds before a fifth Councilperson came in. It would have been very embarrassing for this Council had that meeting not gone on. I submit very strongly to all the Councilmembers that they must give either you, Mr. President, or our City Clerk or Assistant City Clerk, information if they cannot make a particular hearing. We must have five people present for these meetings and I hate the thought of what would have happened had we not had the fifth person walk in seconds before the meeting had to be called off legally.

The Chair:

Mr. Givens, if I may. I checked with the City Solicitor in regards to the rule on a quorum. The City Solicitor told me that we could only wait a half hour and at 10:30 I had to call the role and if the quorum wasn't present at 10:30 the

meeting would have been called off and those members who weren't present would have been fined \$10.00. I waited, obviously, until the last second and I think Mr. O'Malley walked in just before we called the role which was very fortunate. Nobody wants to see this happen, but I've said before, and I think I sent a letter out to each Council Member, when you're going to be off, please let us know where you are. If we need somebody for a quorum, maybe if they're still around we can grab them and get them over here and have that quorum. I know a couple of times before I was the President they had called me, I was somewhere, and I got back for the quorum because, fortunately, I was in the area. But if we have everybody out of the area we have a problem. But we should know so that we'll know we have a quorum going into the meeting.

Michelle Madoff:

It has been my policy to give you the courtesy of generally giving it to you in writing. I have my administrative assistant generally hand it to either Mike Perry and ask her to give you a copy when I know in advance I will not be here.

The Chair:

In all fairness, Michelle, everybody that takes off usually informs the Clerk where they're going to be and when they're going to be off. That day, I believe, three of them were out of town. Obviously it was impossible to get them in and one other who was in town came in just in time.

Michelle Madoff:

I'm making a point, sir. I, for example, have a doctor's appointment tomorrow morning and I was going to tell you about that. I know you had one last

week that you had postponed a number of times. I have to go to the doctor tomorrow. I did not know that the appointment would be changed until tomorrow and I'm just letting you know in advance. I think it might be a good idea if others let you know in advance so if we find that three people are going to be at doctor appointments, those that can change them might change them to another date or if they're going to be out of town at the same time we could change the date. I think Mr. Givens has a point well taken.

Mr. Robinson:

In reference to Mr. Givens' resolution, the issue of Port Authority keeps cropping up and I suspect at some point Council will probably get more involved, if for no other reason, some of the persons that they serve and some of the same people that we serve, particularly in the City of Pittsburgh.

On May 14, 1982, we had a hearing concerning the Hill/Oakland Loop Bus and at that time you indicated that you would be meeting with Senator Romanelli, the Chairman of the Port Authority Board and Mayor Caliguiri to: 1) to address the immediate concerns of those residents who felt that this project was going to be terminated, and 2) to see what, if any, long term solution we could have. It was my understanding that Mr. Young in our Planning Department who has operational responsibility for this project, felt that by May 21, 1982, he could inform us of some progress. I have not seen any communication from Mr. Young and I was wondering, if you had attended the meeting, if he had anything to share with us on this matter.

The Chair:

He was to get back to me and I felt that maybe we could have him on

the post agenda this week, but Mr. Reggie Young hasn't, but I'll call him as soon as the meeting is over.

One other thing, Mr. Robinson, the meeting over Brashear, we brought out that Port Authority held up this project, their uncertainty, for a year or a year and a half. It was reiterated at the hearing the other day. Apparently Port Authority has fouled this thing up from the word go. A tragedy, but it's happened.

Michelle Madoff:

They're the bottom link, Mr. President.

Mr. Robinson:

Let the record be clear, I'm specifically referring to it now, the Hill/Oakland Loop Bus. I don't think the President's last comments or your comments relate to the Hill/Oakland Loop Bus.

The Chair:

I was talking about your earlier comments.

Michelle Madoff:

The Port Authority is still involved.

Mr. Robinson:

You're talking mainly about the questions raised in Mr. Givens' resolution?

Michelle Madoff:

I'm trying to say that in order to get the Port Authority involved, whether it's the Bus Loop or anything else, you almost have to blast them out.

Michelle Madoff presents

Bill No. 1080 WHEREAS, in these dire economic times, the city should be exploring alternate methods of competitive bidding thereby reducing extravagance and trimming costs; and

WHEREAS, "(S)tatutory requirements for competitive bidding, and the ordinances enacted thereunder, do not exist solely to secure work or supplies at the lowest possible price, but also have the 'purpose of inviting competition, to guard against favoritism, improvidence, extravagance..."; and

WHEREAS, the City could be purchasing high-quality second-hand equipment which can give approximately the same time-life of newly-purchased equipment; and

WHEREAS, the City of Pittsburgh already employs experienced buyers who can evaluate conditions of supplies; and

WHEREAS, special equipment such as emergency vehicles, including, but not limited to fire trucks, paramedic equipment, etcetera, would best be purchased new and therefore exempt from this resolution, and

WHEREAS, the City of Pittsburgh spends in excess of \$85 million a year on equipment and supplies.

NOW, THEREFORE,

BE IT RESOLVED, that the Members of the Council of the City of Pittsburgh, hereby strongly urge and recommend that an additional commodity listing should be created for second-hand and bankruptcy vendors with competitive bidding because the present request system does not incorporate these categories.

Michelle Madoff moved to adopt the resolution.

Mr. Flaherty seconded the motion.

Mr. Stone:

I don't know what you're trying to do with this thing, but if you're asking that we should try to encourage them to buy some second hand equipment where possible, I might agree with you. But the way you have the resolution written, I have some problems with it frankly.

Michelle Madoff:

Would you like to rewrite it? I am not married to the words, I am only married to the concept.

Mr. Stone:

I think you ought to say it very simply; that you want the City to explore alternate methods of competitive bidding, whether it be new or old equipment. Now that seems to be what the City Solicitor says we now have the ability to do. If that's so, then you can say in line with his legal opinion that we should look into that where possible.

Let me just give you a slight idea here. I think you just go too far as far as I see it. Your third whereas, where you can buy second hand equipment that get the same time life of newly purchased equipment. I'm not so sure that I agree with that. If you're buying at a Sheriff's Sale or a bankruptcy sale, you're not going to get the guarantees you get on new equipment. That bothers me. The one that I think the City ought to be looking into, for instance, Iococca with his Chrysler people are saying five year guarantee. We ought to be looking into that thing as far as I'm concerned.

The other one is paragraph four of

the whereas. I'm not so sure that we have the kind of experienced buyers who can evaluate conditions of supplies and equipment. And that bothers me particularly if it's a heavy piece of equipment.

Your No. 5 there seems to be saying there's some exemptions and I don't know what that means.

Michelle Madoff:

It means fire trucks and it means paramedic vehicles and oxygen masks.

Mr. Stone:

Then why would it not likewise mean big vehicles from Public Works or the cranes where we spend hundreds of thousands of dollars and I don't think we have the buyers on location to be able to look at them with some expertise after they've been used or abused for a while.

In it's present form I'd be disposed to vote against it, but if you're just asking that they look for the possibility of going into second hand equipment, I have no problems with that one.

The Chair:

My only problem in the letter received from the Solicitor today, the Department of Supplies has that prerogative now to buy second hand equipment. If they chose not to that's something else.

Michelle Madoff:

Let me tell you what the problem is. We have many, many ordinances on our books. We have ordinances about having fire extinguishers that function. We had a fire in the Georgetown. The fire extinguishers didn't function. The Inspection Department says it's humanly

impossible.

The Chair:

With the case of the fire extinguishers not functioning, there was no fluid in the fire extinguishers.

Michelle Madoff:

The point I'm trying to make is the wheel that squeaks loudest gets greased. We have many, many ordinances on the books that are not enforced. When I got to Council, long before I got to Council, this Council had passed an ordinance to have back-flow protectors for hospitals so we would not contaminate the potable water from say tuberculin waste and so on. But it was never enforced. I sat down with the representatives of all the hospitals of Western Pennsylvania within our jurisdiction and within a year it was all done.

What I'm saying is that while the ordinance is on the book that, indeed, we can buy second hand — and as a matter of fact, we just bought a second hand boat — the fact still remains that — let me give you the problem and why I came to this conclusion. Mr. President, if this does not pass in some form or other, you know when I set my mind to doing something, it gets done. It took me ten years to achieve the SO2 standards in this community, and it's a miracle.

I will work as hard as I have on the other to make this a reality because when I meet with the men who work in the Water Department, and they supply us as Mr. Stone well knows, with a list of one million dollars, nine hundred and some hundred thousand, almost one million dollars, of supplies that they need. They're working with broken spades, they're working with broken equipment and we have over a thousand

leaks in a year. And we're going out this year to buy one new backhoe. And they're going to be in the 1983 budget for two more backhoes. We could be doing the work faster, better, cheaper by having some backhoes. Anybody knows, you know, you can buy a second hand back-hoe that isn't in bad shape and you could have it re-auctioned or repaired and we do, according to our Director, and if you have faith in your Director, you fire him. And our Director, Mr. Yatch, who I have a tremendous amount of faith in, says that, indeed, he now, for the first time has qualified people who are purchasing agents who know how to evaluate. I've talked to our Director Cosentino. He says his people, after all the years they've been with the City, they're equipped to go out into the field and to look at a backhoe and to look at a dump truck.

I had two brand new cars that I had to get rid of at 9,000 miles that were lemons. All I'm looking for is exactly what you said, the concept of looking into it and doing it. I don't want to just take a look at it and let it drop. But I want it to be the will of this Council that we do, indeed, buy second hand office equipment.

For my office, I bought two lamps and two chairs. They were on sale in a store. In order to buy them legally, Carroll had to go out and ask for bids from two new bidders. This was new equipment, this were new chairs. Of course the couldn't compete with the sale price. And I bought I'd be proud to have in my home and two chairs I'd be proud to have in my home, and I bought them for thirty cents on the dollar.

If this bill passes, we could save the City somewhere between \$6 and \$30 million a year. And we're talking about going out on a \$50 million bond, and I can't see how this Council can possibly

not support the concept when our Director says we have qualified people to do the investigating. This is not binding. It's not an ordinance or resolution. It's the will of Council.

I would strongly urge that it pass in it's present form.

Mr. Flaherty:

I wholeheartedly agree with what Councilwoman Madoff has said. As you have stated, the opinion from the City Solicitor empowers the Supplies Department to purchase second hand equipment and I believe that it's incumbent upon us as the elected officials in this City who have to vote on any increase in the taxes who have to vote for the budget of supplies, which the resolution states, is eighty five million dollars, approximately one third of the total allocation for this City. This is just a strong recommendation, especially in light of the dire financial times that we are experiencing, that the City further explore the idea to purchase good quality, second hand equipment. I agree wholeheartedly with the fourth whereas. I do believe that we have experienced personnel in the Supplies Department who can evaluate the conditions of supplies. And if we don't have experienced people then this Council should start to be critical of that. But I have not seen any criticism to the contrary and I believe that the language is very concise in the bill and this Council would be wise to support it. We can't hurt ourselves at all.

Mr. Givens:

After working in government for some almost thirty years, I'd have to disagree with this resolution. My main point is the liability that now Government has ensued upon by any equipment failure that we have, any

roads that we maintained, any fire equipment, you name it, even a backhoe. We had a nice piece of equipment here not too long ago that went over the bridge. And that was a new piece of equipment. If it had been second hand, we might have not had that problem.

Government liability is something that I think we have to keep foremost in our minds. The City of Pittsburgh now can be sued. And we've seen some pretty large suits come through out Law Department to us where we had to pay up to where it's almost one million dollars. I see that increasing in the future. I have to look at all of our City workers, some five thousand people, that have to work with second hand equipment. I don't think they would appreciate it and I think we have to have their concerns paramount in our minds.

We might be able to get a fair deal on a used piece of equipment, but I must look further down the road into trying to maintain that equipment. We have minimum personnel right now in our own City garage to do the vehicles that we have that we buy brand new and only keep for a year or two and must get rid of them because of the cost that vehicles take in both manhours and materials to keep on the road.

The other thing that I'd have to look into very earnestly and hear from the Department of Supplies and other agencies within our own City government and that is the cost of screening this type of equipment. It's going to take manpower and manhours and much expertise. I don't know if we can do that along with all the other procurement. I doubt very much that we could save some \$30 million.

Mrs. Masloff:

I believe in the theory of competitive bidding and I believe that all big companies and big organizations do that and I believe in the wording that we got from Mr. Pellegrini who says that the purpose of inviting competition is to ride against favoritism, improvidence, extravagance, fraud and corruption. I think that's important and I think that's why we ought to stay with competitive bidding.

Michelle Madoff:

Having spoken to Director Yatch, we will still be with competitive bidding and I think Sophie is absolutely right, especially when she says the word extravagant. And we can no longer afford to be extravagant. We can no longer afford to have office equipment for our Legal Department that is brand new, desks and chairs, or for any member of Council. We are going to be responsible to the public.

Now you tell me, Mr. Givens, how a desk that could be easily approved to see if it's in mint condition. It could have a little scratch on it, if it's from Crucible, just bought it last week when they redid their electric arcs and are now going out of business. We can get cars that were bought for the executives. They probably just have a few thousand miles on it. I agree we can agree that we cannot have fire traps, we cannot have vehicles where we can possibly endanger life, but there are a lot of areas where we can protect ourselves. And as far as the expertise within the department, the specific department, particularly Public Works and Water --

Mr. Givens:

Michelle, you're violating one of the major principles of purchasing and buying from a large organization such as

the City Government and that is called bulk rate buying. When you purchase in bulk rate, that reduces the cost sometimes almost to the cost of the item itself. And to go out and try to find this in other areas would be very difficult.

Michelle Madoff:

How many bulk rate fire engines are you going to buy?

Mr. O'Malley:

Call for the vote, please.

Michelle Madoff:

I'm not through. I was interrupted and I am not through.

I don't care if you call me Second Hand Rose but I have already spoken to the Director of Supplies, Larry Yatch, and he thinks it is feasible, and he thinks it's a good idea. And he thinks it would be done only where applicable and not where it is not applicable.

Mr. Stone:

\$30 million out of \$85 million —

Michelle Madoff:

I said that is my estimate of what I think. Maybe we'll save ten dollars.

The Chair:

Why don't we close it off because if the Director said that then the Director has the prerogative to buy the second hand goods when the occasion arises. But the resolution itself is going to —

Michelle Madoff:

But the resolution is only the will of this Council.

The Chair:

With regards to the items you have pro and con here, they're not going to follow that resolution if they don't want to, yet on the other hand they can if they want to.

Michelle Madoff:

But isn't it your opinion that we should try to save some money wherever possible? That's all I'm asking.

The Chair:

I think everybody is trying to save the City money. I'm not trying to argue I'm just saying that I agree — Mr. Flaherty's comments were very well taken. But obviously if we pass the resolution and continue to buy only first hand stuff there's nothing we can do about it.

Michelle Madoff:

Call the vote.

Mr. Givens:

I vote no and I do it with the intent of having a good, modern purchasing type of first line operation. And that's not going out and buying junk.

Mrs. Masloff:

I vote no because I think we have to stay with competitive bidding.

Mr. Stone:

I vote no in it's present form.

The Chair:

Wait a minute. Sophie, you made a remark. You said competitive bidding. A resolution of this type isn't going to stop competitive bidding. Any item over \$3,000.00 is going to be competitive bidding.

Mrs. Masloff:

No, I think we're defeating the whole purpose of competitive bidding and I believe —

Mr. Stone:

If you're dealing with a second hand item, what she's saying is, you're less likely to have the competitiveness.

Michelle Madoff:

I checked that with the Law Department, Mr. President. Exactly the question you asked. And they said that we must have competitive bidding, but what he'll do is go out and ask for second hand items. Instead of asking for a new backhoe, we'll ask for a '79 backhoe.

The Chair:

I'm going to abstain.

Michelle Madoff:

You're not voting? It fails?

The Chair:

I'm told on one hand it's going to stop competitive bidding on the other hand —

Michelle Madoff:

Mr. President, I would not lie to you because you could go and check me.

The Chair:

I didn't say you're lying. I don't think Sophie's lying.

Michelle Madoff:

I don't think she is either. I'm just saying that I did speak to the Law Department.

The Chair:

My inclination is to vote for it, but it really doesn't mean that much difference if they don't want to buy second hand equipment.

Mr. Flaherty:

The law states that any item that costs over \$3,000.00 must be put out to a competitive bid if it's new or used. There isn't distinction in the law. If this were to be enacted I can't see the language in the law that said that it's going to have any infringement whatsoever on competitive bidding.

Michelle Madoff:

I went back and asked exactly that same question, the one that you're asking about the bidding. And I was told that, for example, instead of requesting one backhoe, brand new, and spending our \$600,000.00 or whatever it is this year for the Water Department, we could have requested '79 backhoes and they have people in the Water Department equipped to judge whether they're good, and other people would have bid besides the one source that they, perhaps, knew about. And we could have had three backhoes this year for the men who are breaking their backs.

It is only the will of Council and your vote is very important. I wish you would change it.

The Chair:

Based on the facts that even if the resolutions passes, the Supplies Department is not forced into buying used equipment and competitive bidding will still continue with \$3,000.00 or more, I believe, I'll vote aye.

Michelle Madoff:

Thank you, Mr. President. I appreciate it.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Michelle Madoff	Mr. DePasquale

AYES 4	NOES 3
--------	--------

(MR. GIVENS, MRS. MASLOFF AND MR. STONE VOTING NO)

And a majority of the votes of Council not being in the affirmative, the bill was defeated.

Mr. O'Malley presents

Bill No. 1081 WHEREAS, in 1981, over one million children in the United States and over 2,000 children in Pennsylvania were physically injured, neglected or sexually or emotionally abused by their guardians; and

WHEREAS, over 2,000 of the children in the United States and 45 children in Pennsylvania died; and

WHEREAS, millions of dollars are spent in treating these children; and

WHEREAS, June 6 through June 12, 1982 is Child Abuse Prevention Week; and

WHEREAS, the Parental Stress Center, Parents Anonymous/Parents United, Women's Center and Shelter of Greater Pittsburgh, Pittsburgh Action Against Rape, Allegheny County Children and Youth Services Center, Center for Victims of Violent Crime and Children's Hospital of Pittsburgh has united to sponsor Child Abuse Prevention Week in the Greater Pittsburgh Area.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh designates June 6 through June 12 as Child Abuse Prevention Week throughout the City of Pittsburgh and urges all adults to look into their hearts during this week to see how often they have, either intentionally or unintentionally, abused or neglected the children in their lives.

Mr. O'Malley moved to adopt the resolution.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. O'Malley:

I'd just like to say a few words. I'm sure we all know that child abuse is a very serious problem that faces all of us. I'm sure all of us, or many of us, find it hard to understand how anyone could abuse a small child. Having a seven month old daughter myself, the majority of us were raised to love —

The Chair:

May I interrupt you, Mr. O'Malley. If you would have had my grandson in New York over the weekend, you would have abused him.

Mr. O'Malley:

But that's with love though. We were raised to love and protect our children but unfortunately in this society today, child abuse is a reality and every responsible adult has a responsibility, a personal responsibility to help solve this disgusting abuse of our children.

I would like to have Barbara Schultz come up now. Barbara is president of Parental Stress Center. I'd like her to say a few words and receive the resolution.

Barbara Schultz:

President DePasquale, Mr. O'Malley and all the members of Council, I want to thank you very much for taking this time out of your obviously very busy meeting to present this resolution to us. I would like to take just a moment to introduce three of my colleagues who represent seven of the cosponsoring organizations on the list. Elizabeth Elmer who is with the Parental Stress Center, Smokey Jack who is with Parents Anonymous/Parents United, and Mona Strausberger who is also with Parents Anonymous/Parents United.

We're very pleased with this action on the part of Council and now know that you believe that children in Pittsburgh are our most valuable resource. Thank you very, very much.

Michelle Madoff:

Could you put an addendum on that for female Councilwomen.
Barbara Schultz:

I think that would be out of order. I'm here to speak for kids today, Michelle. Thank you. Hopefully we're all kids at heart. Thank you very much.

The Chair:

Seriously, we'd like to thank Ms. Schultz and all the ladies that came here today to receive this resolution. It was a long time coming.

Barbara Schultz:

Hopefully it added a little bit easier thing to do in your business today. The other things sound pretty difficult. Thank you.

Mr. Stone presents

Bill No. 1082 WHEREAS, the Fraternal Benefit System - comprised of 100 non-profit fraternal societies - is a major movement within the United States of America, comprising Ten Million fraternalists, nationally; and One Million fraternalists within the Commonwealth of Pennsylvania, with the City of Pittsburgh, as the national headquarters of many Fraternal Societies; and

WHEREAS, The Serb National Federation, the oldest fraternal organization of Americans of Serbian and Slav descent was organized on June 15, 1901 to unite Americans of Serbian and Slav descents; and

WHEREAS, The Serb National Federation has during its many years of existence, offered and provided insurance protection in the event of death, sickness or disability to its members, as well as, to preserve and perpetuate the high ideals, customs and culture of the Serbian people throughout the United States of America and Canada; and

WHEREAS, the Serb National Federation is marking another milestone of its history, and is celebrating its 80th Anniversary year from June 15, 1901 - June 15, 1982,

NOW, THEREFORE

BE IT RESOLVED that the Mayor and the City Council of the City of Pittsburgh acknowledge the great contribution of the Serb National Federation to this City and its citizens; and congratulate the Serb National Federation on its 80th Anniversary year, and extends its best wishes and warm regards.

Mr. Stone moved to adopt the resolution.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. O'Malley moved to approve the minutes of Tuesday, June 1, 1982.

Mrs. Masloff seconded the motion.

Which motion prevailed.

And on the motion of Mr. O'Malley

Council adjourned.

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Monday, June 14, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

ABSENT:

Mrs. Masloff

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

Mr. Robinson presents

Bill No. 1130 WHEREAS, Albert

LaVerne Mills was born and reared in the Hill District of the City of Pittsburgh, and a product of this City's public school system, and

WHEREAS, he has worked, served and developed in the Pittsburgh community, as well as being a devoted husband and loving father to his wife, Mrs. Hilda Parks Mills and his daughters, Barbara and Stephanie and his son LaVerne Edward Mills; and

WHEREAS, he has served the Grace Memorial Presbyterian Church as member and officer for more than forty years; and

WHEREAS, he is a Thirty-Three Degree Mason of the Prince Hall Masons F & A.M., Saint Cyprian Consistory and a member of Shrine, Sahara Temple Number 2, as well as numerous other community and civic organizations; and

WHEREAS, on June 15, 1982 Albert LaVerne Mills will retire after thirty-nine years of distinguished service to the City of Pittsburgh in the Bureau of Police; and

WHEREAS, he has distinguished himself, his family, and friends, as well as the citizens of our City, while serving in all areas of police service, and is presently serving in the capacity of Assistant Superintendent.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Council of the City of

Pittsburgh, on behalf of its citizens does recognize and honor Albert LaVerne Mills on the occasion of his retirement and wish him and his family success and God's blessings as he continues in service to others and the enjoyment of his retiring years.

Mr. Robinson moved to adopt the resolution.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Robinson:

I'd just like to add a word to the resolution that was read. Assistant Superintendent Mills has served in the Police Department longer than anyone who is on active duty now and certainly has distinguished himself in many respects and I think that's been a true testament to good police work and has been a credit to this City. I think that certainly he will be sorely missed in the Department.

The Chair:

Is there anyone to come up to get that plaque?

Mr. Robinson:

No, he's unable to be here today.

The Chair:

Okay. Thank you for you comments Mr. Robinson.

Also,

Bill No. 1131 WHEREAS, the Opportunities Industrialization Centers of America have made an outstanding contribution to developing the untapped human potential of America with their

indepth training programs; and

WHEREAS, the current demand in the United States of America for additional training and skills development in education, the crafts and clerical fields is in dire need by thousands of unemployed and underemployed people, and

WHEREAS, O.I.C. has accepted the awesome challenge to be in the forefront of retraining and reindustrializing America and her people; and

WHEREAS, the wisdom and vision of its leader Dr. Leon H. Sullivan, Founder and Chairman of O.I.Cs of America has given purpose and substance to O.I.C.'s endeavors; and

WHEREAS, the O.I.Cs of the Pittsburgh area have served us well and with high distinction.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh, on behalf of its citizens, does honor and recognize the accomplishments and community service of O.I.C. and does designate the week of June 13 to 18, 1982 as Opportunities Industrialization Centers' Week in the City of Pittsburgh.

Mr. Robinson moved to adopt the resolution.

Mr. Flaherty seconded the motion.

Which motion prevailed.

Mr. Robinson:

Mr. John Bullock, the Executive Director of Pittsburgh O.I.C. is here to accept this gold seal copy of the resolution and to have a few words to say

before Council.

The Chair:

John, would you come up please.

John Bullock:

It seems like I've waited all my life to get up here and have a few words to say.

This is one of the most pleasant occasions that I've ever had before City Council and I'd really like to thank each and every individual member.

As you know, Dr. Sullivan will be here on Thursday to speak at our annual awards banquet and probably among minorities, is the greatest minority industrialist in this country.

In the eighteen years since O.I.C. was founded, it is the largest community based organization in the world. It's annual budget in the first eighteen years exceeds one hundred million dollars. It is also on four different continents with eleven O.I.C.'s in Africa, seven in South America, one in Manila and presently we are negotiating with Prime Minister Thatcher to establish an O.I.C. in Great Britain.

So even though the country may be in a period of hiatus, O.I.C. is still trying, and continues to try to serve the people that it seems that America and a lot of people have forgotten.

Most people think of O.I.C. as a minority or a black program, which is also a falsehood or a myth. In the City of Pittsburgh, fifty percent of all of our trainees are non-minority. Throughout America, we average better than fifty percent of our students who are non-minority. We serve Hispanic, American Indians, Browns, Africans, people from

all over the world. And we're really proud, one, for where we're located, to be as close to the heart of the City as we are, and during these times when a lot of people think that non-profits will be going out of business, to say that we are thankful for being allowed to continue to thrive.

One of our long and trusted friends, I'd like to say thank you to Jeep and to Councilman Robinson. Thank you very much on behalf of Pittsburgh O.I.C., it's Board and it's followers. And most of all, it's students. Thank you.

The Chair:

After hearing Mr. Bullock speak, it's easy to understand why O.I.C. has been so successful. He's been the real driving force there, and a long-time friend and again, congratulations, John.

Mr. O'Malley presents

Bill No. 1132 WHEREAS, Stanton Heights remains one of the most valuable integrated neighborhoods in the City; and

WHEREAS, for five years the Stanton Heights Festival has been the start of their summer program which includes day camp and many other recreational activities; and

WHEREAS, June 19th is the day of this festival.

NOW, THEREFORE, let it be known throughout the City that the Council of the City of Pittsburgh declares June 19th as Stanton Heights Day and urges all citizens to attend that festival between 1 p.m. and 5 p.m. at Sunnyside School.

Mr. O'Malley moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Flaherty presented

No. 1083 Resolution repealing Item B of Resolution No. 390, approved 4/30/82, which repealed Resolution No. 217 of 8/17/73, for the sale of a Lot on 1518 N. Lang Avenue (13th Wd.) to William E. Ellis for the sum of \$625.00. Resolution is to repeal Resolution No. 390 and to reinstate Resolution No. 217.

Also,

No. 1084 Resolution providing for the filing of a petition or petitions for the sale of certain property or properties acquired at tax sale in accordance with Act No. 514 of 1947 as amended.

Also,

No. 1085 Resolution providing for the filing of a petition or petitions for the sale of certain property or properties acquired at tax sale in accordance with Act No. 514 of 1947 as amended.

Which were severally read and referred to the Committee on Lands and Buildings.

Mr. Givens presented

No. 1086 Resolution further amending Resolution No. 150, approved 3/3/82, effective 3/11/82, as amended by Resolution No. 323, approved 4/15/82, effective 4/23/82, entitled, "Providing for an Agreement or Agreements, or Supplemental Agreement or Agreements with a Consultant or Consultants for Professional Engineering Services in connection with the preparation and design of contract plans for the Duquesne Incline Footbridge over West Carson Street; and providing for the

payment of costs thereof," by increasing the project allocation by \$6,500.00. Funds are available in PW 81-16, 4-01-05-0001-81.

Also,

No. 1087 Resolution further amending Resolution No. 782, approved 8/17/79, effective 8/22/79, as amended by Resolution No. 831, approved 8/19/80, effective 8/25/80, entitled, "A Resolution providing for a Contract or Contracts for the Rehabilitation of the Larimer Avenue Bridge (PW 79-12); and providing for the payment of the cost thereof," by increasing the allocation from \$1,400,000.00 to \$1,725,000.00.

Also,

No. 1088 Resolution further amending Resolution No. 1067, approved 10/2/78, effective 10/4/78, as amended, entitled, "Resolution providing for a Contract or Contracts for the reconstruction of the Greenfield Bridge over the Penn Lincoln Parkway, PW 77-16, providing for the payment of the costs thereof; and providing for a Reimbursement Agreement or Agreements with the Commonwealth of Pennsylvania, Department of Transportation," by increasing the maximum authorized amount from \$2,118,800.00 to \$2,280,937.90.

Also,

No. 1089 Resolution providing for a Contract or Contracts for the Reconstruction of Crane Avenue from Saw Mill Run Boulevard to the Norfolk and Western Railroad, including work on private property and other work incidental thereto; and providing for the payment of the cost thereof. Funds are available in the Liquid Fuels Tax Trust Fund - \$800,000.00.

Also,

Michelle Madoff:

Mr. President, the Clerk has just read the first bill that's being introduced on the Bond Issue and I think it would be appropriate to address it at this time. I'm asking your permission. Is it alright to have your permission to proceed?

The Chair:

Go ahead.

Mr. Stone:

Point of order. We are presenting papers today, not matters for debate. It's only presenting papers. It's been the practice only to take those papers. If there's some unfinished business, it will come up under Unfinished Business. But when you put papers in, you don't put some other thing with it. What you do is just present the papers today.

Michelle Madoff:

I would like a ruling from our

Parliamentarian. Is it correct to discuss a bill that's being introduced?

Parliamentarian:

The bill is introduced and is then referred to the Committee and that is the time the bill is reviewed.

Michelle Madoff:

And there can be no statement or discussion made on a bill that's introduced?

Parliamentarian:

The President desires to make his statements but the real decision on the bill occurs after the meeting.

Michelle Madoff:

I understand that, but I'm asking that I be heard because the bill was introduced and much took place this morning, and I think it needs to be addressed and it cannot wait.

The Chair:

If you want to comment on that let's do it in Motions and Resolutions.

Michelle Madoff:

Well I would then like to respectfully ask that my colleagues do not leave right after the meeting and they stay for a very serious matter that Mr. Robinson and I were present at with the Finance Department, Fiscal Officer of the City, Mr. Schmeiser, and others this morning. I think it's important, it's incumbent that you stay and hear what has happened, what has transpired. Thank you, Mr. President.

The Chair:

Okay.

Mr. Givens:

In regards to this bill that was introduced, will there be a public hearing on it?

The Chair:

Again, Mr. Givens, we'll take that up at the end of the meeting because we're not going to comment on the bill until Wednesday. But if you want a public hearing, you can discuss it at the end of the meeting.

Also,

No. 1115 Resolution authorizing the issuance of a warrant in favor of the Municipal Finance Officers Association in the amount of \$400.00 in payment for a fee to review the Controller's Annual Report.

Also,

No. 1118 Resolution authorizing the Mayor to issue and the City Controller to countersign a duplicate warrant to the same payee and in the same amount to replace the following warrant which was lost, stolen or inadvertently destroyed.

Also,

No. 1119 Resolution authorizing the Mayor to issue and the City Controller to countersign a duplicate warrant to the same payee and in the same amount to replace the following warrant which was lost, stolen or inadvertently destroyed.

Also,

No. 1120 Resolution providing for an agreement or agreements with a consulting firm for professional services in connection with the Municipal Pension Fund, the Policemen's Relief and Pension Fund and the Firemen's Relief and Pension Fund, and providing for the payment of the cost thereof.

Also,

No. 1121 Resolution providing for the filing of an application by the City of Pittsburgh with the Allegheny Conference on Community Development in connection with a Private Industry Council Employment Project for City of Pittsburgh residents and creating a Special Trust Fund in connection with the Project.

Which were severally read and referred to the Committee on Finance.

REPORTS OF COMMITTEES

Mr. Stone presented

Bill No. 1122

Report of the Committee on Finance for June 9, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1003

Resolution entitled, "Resolution amending Ordinance No. 217, approved April 27, 1951, as supplemented and as amended, entitled, 'An Ordinance - authorizing and directing the Mayor and the Director of the Department of Public Safety, on behalf of the City of Pittsburgh, to enter into an Agreement with the Public Parking Authority of Pittsburgh to provide for the loan - assignment and payment by the City of Pittsburgh of the receipts from certain parking meters upon certain terms and conditions as to the use of such funds and the repayment thereof, 'by authorizing the Mayor and the Director of the Department of Finance to amend the Agreement of June 15, 1951, as supplemented and as amended, between the City of Pittsburgh and the Public Parking Authority of Pittsburgh entered into pursuant to said Ordinances, by extending the said Agreement for a period of 26 years from the Effective Date of this Resolution and by adding to said Agreement provisions permitting the Authority to apply moneys to the credit of the meter fund for the additional purpose of financing the cost of acquisition and construction of an off-street parking facility in the Central Business District of the City of Pittsburgh."

Which was read.

Michelle Madoff:

On Bill No. 1003, I believe we

have a scheduled a post agenda. Miss Johnson, is that for this coming Wednesday, on the parking meters? I would like to hold this bill until after the post agenda.

Michelle Madoff moved to recommit Bill No. 1003.

Mr. Givens:

Mr. President, I tried to get a reading from that last Monday and the parking meters, I think, as described in this bill, unless I hear differently, are those that are on the street. I think what Michelle was referring to is those people who have parking facilities downtown and we put a surcharge on them.

Michelle Madoff:

You may be right, I just don't know. And I don't want to vote in a vacuum.

Mr. Givens:

That was answered Wednesday.

The Chair:

Is there a second to recommit?

Michelle Madoff:

Just one moment. Do you feel that, Mr. Givens, will there be other bills which will address the other issue. We ought to go with this and just wait until the post agenda and apply it where it is applicable?

Mr. Givens:

It makes no difference to me, but I had assumed that —

The Chair:

I'll ask one more time, is there a second to recommit? If there's not, then we'll all --

Mr. Givens:

I asked the same question Wednesday, and I was assured it was meters on the street. If it's meters on the street, then it doesn't pertain to what --

The Chair:

There being no second, there's no recommittal.

Michelle Madoff:

I don't know whether it applies to meters on the street. Is there a surcharge for meters on the street?

Mr. Givens:

No.

Michelle Madoff:

Nobody's been able to answer that question for me. I thought we would have an answer by today.

Mr. Givens:

The surcharge is on the tax on the gross receipts of a particular parking lot anyplace within the City of Pittsburgh, but primarily in our Downtown lots that are owned by, I think, other than the City. Maybe Councilman Stone might be able to elaborate on that.

Michelle Madoff:

I'll tell you what. Why don't we vote on it today, and we're going to have a post agenda, is it Wednesday, in any

event, and then we'll see how it applies. If it's illegal we won't be paying it --

Mr. Givens:

The Mayor has to sign this and I think if there's any wrongdoings, that we can probably correct it by then.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Mr. O'Malley
Mr. Robinson

Mr. Stone
Mr. Woods
Mr. DePasquale
(Pres't)

Stack, Roy F. and Margaret J. Ashworth, Donna Boles, Robert P. Swartworth, situated on Lanark Street in the Twenty-fifth (25th) Ward of the City of Pittsburgh."

Which was read.

Mr. Givens:

Mr. President, I had asked for a report from most of the Departments, especially out of the Department of Public Works on overruns. If you can recall on the Wednesday session, Ben Woods had brought this up, Michelle Madoff has so been concerned about it

over the years. For two years I've sat in this Council and never voted for a cost overrun to try to bring emphasis to that particular point. I'm glad to see now that Councilman Woods is now doing that. I asked for this report. We do have some cost overruns. I think some of them are justified, but still, I think there's a lot to be desired in this particular area within the City and I'm to go on record again, if I do not receive that report, and Linda, if you could please check with the Departments, it came from this Council to all the Department Heads, asking to go back for about a three year period on all cost overruns. And cost overruns would be anything to do with what the original specs of the project and if the scope was enlarged or if they found something down there that wasn't in the proper specs, or they did extra work. And we ask for a rundown on this and my only concern is that it be reduced. Otherwise, if we have good engineering beforehand to write up our specifications, I don't think we'll find as many overruns. If we do find them, I think it's incumbent on the contractor that he pay the cost. If he's going to go out there and bid on something, then he's bidding on the total contract and I think we should write it up for that purpose.

As a result, this is the last time I'm going to vote again on cost overruns, and I will join my other Council colleagues, hopefully, to put some brackets of restraint in the number of bills that come before us in regard to this overrun.

The Chair:

I want to answer Mr. Givens if I can. My Dad was a contractor and my Dad went busted because of overruns. In those days, if you ran into something that was unexpected, that was it. It was your problem. That was the contract.

There was no such thing as overruns. Whatever you bid, you did the job within that bid or it was your loss. They've changed it over the years where when you run into unusual circumstances, I think it's fair. You could put a guy out of business if you run into, say, some rock, and he just can't get through and it costs maybe fifty thousand more to get that rock out that nobody knew was there.

It works both ways. Some of them get a little out of hand, I admit. Some of them, every time you turn around, someone said there's a new spigot they didn't figure on, and stuff like that. But under some circumstances it could put a contractor in a very tough spot.

Mr. Givens:

My observation has been in the fact that our engineering is somewhat lacking. Otherwise, if we go out and give them a scope of work, then they go out there and find that the soil is no good, the walls are caving in —

The Chair:

I understand, from the word go. I understand it. But these things usually happen after they start the job.

Michelle Madoff:

Mr. President, may I address the subject? I have a two and a half page letter that we worked on most of last week and the final draft was made today. The letter is going out to the media world addressed to predominantly Lands and Buildings, Public Works and the Water Department.

The letter addresses every facet of what you've addressed, which is, what happens when you run into unforeseen things you couldn't possibly know about,

and the fact that, perhaps, we haven't had the contractor walk the site and discover, for example, that we had subterranean caverns that everybody in the world knew. If anybody walked on the site they would have known that and we shouldn't have awarded a \$336,000.00 additional contract without bid.

It also addresses, as a glaring example, the Schenley Pool. That there were not borings made, nobody bothered to check on the sewer conditions. However, as you've stated, what happens if on the map the sewer is supposed to be in one spot and it's somewhere else, or if you find a bootleg mine that was developed during the Depression and is on no map? Those are the things that should be arbitrated. You know, you come to some kind of a settlement.

But by and large, the way contracts should be written is that we ought to have better communication between the various departments wherein, for example, Parks and Recreation would take advantage of the expertise in Public Works so that we don't run into some of the problems. Having served on the Pennder CAC, that's the Pennsylvania Department of Environmental Resources for five years, I still am bombarded with literature that gives me a list of every mine, the type of surface, the kind of rock, we have old maps, they're not always 100% perfect, but they give us enough of a basis, give us sufficient basis, that we should be able to have better contracts drafted.

I've sent that out to all the Departments. They're getting them today, they were hand-delivered. Every member of Council will be getting a copy and it addresses that.

I've also asked Ms. Johnson if she would send letters to those three major departments to come before Council, the

dog and pony show, and present to Council all the projects, the priority projects, how they were determined they were priorities, which ones have been deferred, why they were deferred, and why the Pennsylvania bridge, for example, was deferred even though it didn't have matching funds when we had matching funds for other things and we gave our solemn promise to communities over ten years.

I want to have a big chart, and this Council understand that when we go out on a \$70 million and a \$55 million bond, we know what we're voting for, because we're told that that money is going to be used for one thing and then it's used for something else. And we vote in a vacuum, and we act as windowdressing. And those letters will be going out today, or perhaps no later than tomorrow, and I hope that you, Mr. President, set up the appropriate time for either a post agenda, if you think it can be handled that way, or a morning after a quick session to have those three departments tell us. Those projects that they claimed they could not wait on the \$70 million and they cannot wait on this proposed bond. What's coming first, why, when, where and how, and that we just look at it visually, not some written draft, and perhaps we ought to have the public invited to also see what is happening, those community groups, to see what projects in their communities are being affected.

The Chair:

Is there any further discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Michelle Madoff
Mr. O'Malley

Mr. Robinson
Mr. Stone
Mr. Woods
Mr. DePasquale
(Pres't)

AYES 8

NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Mr. Robinson presented

Bill No. 1124

Report of the Committee on Planning, Housing and Development for June 9, 1982 transmitting one ordinance and two resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 183

Resolution entitled, "Resolution approving a Conditional Use under Section 993.01(a)A9 of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993 to Community College of Allegheny County to use the existing structure located at 719 Brighton Road for administrative and clerical related uses and the rear building for campus day care center on property zoned "R4" Multiple-Family Residence District, and identified as Lot No. 145, Block 8-A in the Allegheny County Block and Lot System, 22nd Ward."

Which was read.

Michelle Madoff:

I would like to add an amendment

to Bill No. 183, Mr. President. "The Community College of Allegheny County agrees that beyond 719 Brighton Road, it would not acquire, will not lease, and will not seek to occupy or use, any land or building north of a line extending as follows: Beginning at the intersection of Brighton Road and Ridge Avenue, thence westward along Ridge Avenue to Galveston Avenue, thence northwestward Galveston Avenue to North Lincoln Avenue, thence westward along North Lincoln Avenue to Allegheny Avenue".

This is in keeping with the fact that we decided, many of us felt there should be some parameters set. This was not prepared by myself, but by the citizens group in that area. They're afraid that, they've heard of another building that was purchased outside of the immediate parameter and they tell me that they will be in, (they meaning the Community College) by the end of the summer asking us for another variance.

I have no objections to this particular bill. I've talked to the people and they have no objections to this bill. But they want to stop this from being perpetuated. They want that border established once and for all so there is no further encroachment into the community.

The Chair:

Well, the amendment is out of order to the extent; we have to be a little consistent. There was a request made at the Council table last Wednesday and if we set up a meeting, myself and all the Councilmembers and Trustees of the Community College to discuss the very matters you're talking about. If we're going to put that amendment in there today then there's no reason for us to meet with the Community College people because it's

what we want and this is what we're going to talk to them about.

Michelle Madoff:

The Community College gave us their message. They gave us their message. They said, "We cannot tell you. We do not know, we will not make a commitment". They put it in writing, and we agreed that a strong —

The Chair:

Put it this way. If there's a second and it passes, alright. But that makes the meeting moot because there's no sense having a meeting on something that's already been resolved.

Michelle Madoff:

I agree with you, but I think it's moot because they're going to be recalcitrant in any event. I may offer this as an amendment to the bill.

Mr. Flaherty:

I will second it solely for the purpose to open it up for debate.

The Chair:

I don't know if we have that legal right.

Mr. Robinson:

I was just going to raise the question — I'm not quite sure, at this point, that we can legally alter this bill. I think if we attempt to alter this bill by way of the amendment that Mrs. Madoff is suggesting, it will have to go back to Committee, possibly back to the Planning Commission, and certainly we'd have to have another public hearing on this matter. That's one concern I have, the legality, and I don't think we'd lose to

do that at this point.

The other concern is that Council did, by voice vote, indicate that they supported my motion that the President of Council send a letter to the Chairman of the Board Trustees of Community College indicating our concerns about future expansion and development into a range for a meeting so that we could discuss that. And I believe the record will also indicate that I indicated that I would be the first one, the first one to try to protect the integrity of the neighborhood, and I thought that we ought to develop some sort of working process whereby future plans, future problems could come about. And I think if we were to pass this kind of amendment, even if it were legal, that we would be tampering with our own credibility and our own integrity, which I think, is on the line now, both with the College and the Community.

The Chair:

But to that respect, I believe that we don't have the right to tell someone that they can't apply for a zoning change. If we turn them down it's something else. I don't know how you can turn them down if they just came to apply. If we have the meeting and we get them to agree, then there's no problem with that.

Michelle Madoff:

And if they don't agree?

The Chair:

You can't stop them from applying for a zoning change. You can't stop anybody in the City from doing that. But you certainly can vote them down when it comes up to that table. If they're made aware of this maybe they'll go along with some kind of commitment

that they're going to stop.

Michelle Madoff:

I stated that this was drafted by the community group. They felt very strongly, and I offered to introduce it for them, and I think it is the intent of this Council, I think Mr. Woods talked about supporting the issue of having some boundaries. I'd ask Mr. Woods to prepare the boundaries. Perhaps he needs some to look this over to see if that meets with his approval. Do you like the boundaries, Mr. Woods?

Mr. Woods:

I think what Bill said, that we had all agreed on voice vote, that we would meet with the Community College and force them into an issue, either agree with this or the next time you come up for Council, that we will vote you down. I think that's the way we ought to go.

Michelle Madoff:

But why would we —

Mr. Woods:

I shouldn't say we. That's the way I'm thinking.

Michelle Madoff:

I understand the point of we said we would meet with them, but I think they had stated their case very succinctly when they gave us a letter saying, "This is the way it is, folks".

Mr. Woods:

I think if we stated our case very succinctly —

Michelle Madoff:

I'm not married to this amendment. I offered it because I was asked to offer it. And I think the gentleman in the audience understands that. However, I will go on record, that the new building that they had outside of this territory that they are coming back to by the end of the summer, asking us for another variance, unless it's some extenuating circumstance —

I will go on record as opposing that.

Mr. Woods:

I know I said it Wednesday and I think most everybody else here voted for this, we all went on record that this is it, —

Michelle Madoff:

Ben, the community feels that they were bypassed. Their representative is sitting here in the audience and they feel that they did a lot of work, they came up with the boundaries and they figured these are reasonable boundaries, there's enough that can be built within the boundaries. Even in the Oakland area, you know, when we pushed the issue of the parking lot, they suddenly developed their development right within the boundaries that we finally were able to find some curtailment. I think I'll use this as my guideline in the future in voting. I guess that's what you're saying, and if you don't want to do it today, I'm not married to it, I'm only presenting it because the community wants it.

Mr. Flaherty:

Mr. President, I believe that the amendment is extremely admirable, but I feel on the other hand, that this Council

has not the power to straightjacket any actions that Community College would care to take in the future as far as their expanding.

The only, or the primary group or organization that can put restraint on Community College is Community College itself. Therefore, I agree in the spirit, in the sentiment of the amendment, but I feel that it would be superfluous and it wouldn't ever hold up in the legal sense.

Therefore, unfortunately, I have to oppose it. I believe that there is a more proper way to deal with Community College and I will address that once the question of the amendment is off the table.

Michelle Madoff:

I will withdraw the amendment on the basis that the concensus is still to have some curtailment on Community College and to be, perhaps, more of ladies and gentlemen and to meet with them and to get further than they're willing to go with us to show good faith.

The Chair:

All comments noted, still we have no second so the amendment fails.

Michelle Madoff:

I've withdrawn it so it doesn't fail.

The Chair:

Okay, the amendment is withdrawn.

Mr. Flaherty:

In regard to the bill, I'm going to try to put my opposition in more concise terms than I did at our Committee

Meeting. I still am very much opposed to the bill. I believe that we are all aware on this Council, of the ever encroaching problem of the tax exempt land in this City. Just in, approximately, the past twelve years, tax exempt land has increased from approximately twenty-nine percent to forty-three percent in the City. In the last thirty years we have lost exactly a quarter of a million in population. We're from 670,000 down to 420,000. So in very simple terms, as far as our problem with tax exempt land, we have the decreasing tax base and ever shrinking tax base which is carrying an ever increasing tax burden as far as the tax exempt land.

We are all aware of what has happened to Oakland. Seventy-six percent of Oakland is now tax exempt. We ask ourselves why. How has it happened? It happened because nobody was watching the store. There were no safeguards in the system. It's about time that this Council, if we cannot in the legal sense, institute safeguards without approval from the State House and State Senate, that this Council start to scrutinize any applications that will be taking property from the tax rolls off of the tax rolls.

Community College, I feel, does not deserve this Council's approval on this application. Not that Community College has not committed itself to a most laudable service to this Council. There is no doubt about it that it deserves a real vote as far as educating a great percentage of youth in the City and in the County. But nevertheless, this services has to be balanced against the crisis that we are facing as far as tax exempt land. In the last two and a half years, Community College has taken approximately \$4.5 million worth of property from the tax rolls.

But it is just not the problem of

the crisis of tax exempt land which really seals my opposition to this problem. It is the arrogance that Community College has shown toward the Allegheny West Community. This bill was in front of Council, the time expired, if I'm correct, it was returned again to the Planning Commission and still there has been no agreement, from my understanding, there has not even been a spirit of cooperation or a sense of cooperation.

But most importantly, I would like to say to my colleagues, it just isn't an arrogance toward the Allegheny West Community, it's an arrogance towards this Council. Because what they're doing — they're throwing their problem in our lap and we're taking the heat from the community on this issue. We are doing Allegheny Community College's dirty work. Work that they should do. And I resent that as a member of Council.

I think it's also important that if at all possible that we send this bill back to the Planning Commission with our strong recommendation that they grant another hearing on this matter. It is my understanding that the Planning Commission strictly rubber stamp the application when we sent it back and shot it back over here without granting the community's request for a hearing. It is further my understanding that the community has vital new information in regard to this application which, in all proper forms, should be aired in a hearing. It's also my understanding that, perhaps, the College has further intent to expand. I don't know this for sure.

In summation, I think that in the past, this Council has been more than generous with Community College and it's about time that they start to live up to what should be their intrinsic commitment to the community and to this Council.

In closing, I just want to say that I think it's extremely naive for this Council to think Community College is going to sit down and come with a nice, pat negotiation with the community when they are not in front of this Council seeking anything. I think Community College's past actions have shown the only time that they will react is when they want something. Well, it's unfortunate often times that the Government has to operate in this fashion, but this is the time when Community College is probably most prone, most susceptible to a compromise and we shouldn't let them off the hook because I'm afraid that if we don't try to hold this application until there is a veritable compromise, then we will not see it in the future. What does this Council have to lose by holding it up? I guarantee you, I think Community College will come up with a compromise if they can't get approval on this. And we should test them on it instead of talking.

Mr. Flaherty moved to recommit Bill No. 183.

The Chair:

Is there a second to recommit?

Mr. Givens:

I have a question on that, Jeep. If we recommit, it's at it's ninety day point right now, which means that if this Council does not act upon it —

The Chair:

I heard you right. You did say send it back to Planning and ask for another hearing?

Mr. Flaherty:

Right. I did recommend that. Can we send it back?

Mr. Givens:

We're up to ninety days right now, Parliamentarian. If the bill comes before us and it's not it's statute of limitations as far as time, well it's ninety days, and we've reached that ninety day period this week.

Mr. Flaherty:

Can we send it back to Planning, Bill? We can?

Mr. Flaherty moved to recommit Bill No. 183.

Mr. Givens seconded the motion.

Michelle Madoff:

Is there a time frame? Time frame restraints? Somebody's mentioning ninety days.

Mr. Flaherty:

Wait. There's an oversight here. We have already sent the bill back to Planning. Planning has just returned the bill to us, so I imagine that we have ninety more days. So actually Council could hold the bill, I imagine, for two more months approximately.

Mr. Stone:

Point of order, Mr. President. Do we have a second to the motion?

The Chair:

Mr. Givens seconded the motion.

Mr. Stone:

Okay. Relative to this bill, the key is the advertising. You have ninety days afterwards. This bill would have to be, if it went back, would have to be re-advertised and brought back up. That's where the time level happens.

Michelle Madoff:

Does anybody object to having it re-advertised?

Mr. Givens:

On this bill and other bills that are going to be coming before this Council, and Mr. Flaherty has hit on some of the hard issues, and that is of taxation, we're going to be looking at millions of dollars that we're going to have to tax again, the people of the City of Pittsburgh. Last year we increased their taxes by some twenty to twenty-one percent. Just think about it. Twenty to twenty-one percent we increased the people who live in the City of Pittsburgh's taxes primarily. And we just cannot go on continuously without some relieve from the County Legislators and those Legislators throughout the whole Commonwealth. If they do not appreciate what the hub of a major metropolitan area does for that major metropolitan area, I think it's time they start looking inward to our inner cities and find what we do. And the fact that it was thirty some percent, thirty-five percent when I came on this Council, it is now apparently approaching forty some percent of non-taxing use within this City. I think we have to do something and do it mighty damn quick. And I suggest here, and Mr. President, that we write a letter again, Linda, to all of our Legislators within Allegheny County, both the Senate and the House, that we write to all the leadership within both the House and the Senate and the Commonwealth of the State of Pennsylvania, and express to them the

desires that I think Mr. Flaherty put in very good brackets, our tax concern. If we don't hear from them by the time this bill comes back up again to this Council, or any other bill, I am of the demise to hold any bill until we get some type of action from our State Legislative body. They must give this City relief in some way or the City must take the bull by the horns and start taking our own actions as to how we're going to raise money for our up and coming budget and knowing damn well that the Federal budget is being cut back, there even is going to be additional string put on our existing budget.

Later on in this session today we'll be bringing up other matters concerning our borrowing and some of our indebtedness.

The Chair:

Wait, Mr. Givens. Let's not get off the track.

Mr. Givens:

All of it adds in together. It all adds in together. This bill is bringing it to a pinnacle.

Mr. Flaherty:

I would just want to add that also, in addition to sending a letter to Harrisburg that this Council also send a letter to the County Commissioners and ask them where they stand on this issue. This is a County facility. I have not heard a word from the County Commissioners on Mayor Caliguiri's admirable fight for the commuter tax in this City. And if this Council is going to be giving tax subsidies, tax exemptions to County facilities, I think that the Commissioners, at least, owe this Council the courtesy to tell us where they stand on this issue.

Michelle Madoff:

Mr. Flaherty, are you saying, "Let's use this as leverage to get something like this boundary?" You want this as leverage? It's not so much you're opposed to the inner thing, but as leverage to finally push their hand or move their so that they will do something? I think that we're looking for some boundaries and they're not giving them to us.

Mr. Flaherty:

If it wasn't Community College it could very well be another application. I'm saying this Council has to start to scrutinize these applications. And as far as I'm concerned the icing on the cake with Community College has been their arrogance toward the community and this Council. So this is a very easy time for me to start the ball rolling on this.

Michelle Madoff:

So we're saying that let's use this as leverage to negotiate some kind of an agreement which they're being very hard-nosed about.

Mr. Flaherty:

Right.

Michelle Madoff:

Call the vote.

The Chair:

Is there any further discussion on the motion to recommit?

And on the question, "Shall the motion pass finally?"

The ayes and noes were taken

agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Michelle Madoff

AYES 3

NOES 5

(MR. O'MALLEY, MR. ROBINSON, MR. STONE, MR. WOODS AND MR. DEPASQUALE VOTING NO)

And a majority of the votes of Council not being in the affirmative, the motion was defeated.

The Chair:

On the bill itself?

Mr. O'Malley:

I'd like to clarify that. John D'Alessandro and the concerns of the Community Council, and I see the representative of Community College is here. May I ask a question? Do you think you got the message from this Council about dealing with the concerns of the community? I can have your assurance that you will sit down and deal with the Community? And for future expansion of the College?

Representative of Community College:

The College Administration has met with the Community Council --

The Chair:

Mr. O'Malley, why don't we wait until we get a response from that letter.

Mr. O'Malley:

Okay. I'm going to vote aye on all bills with the understanding that this is

the last aye vote that Community College is going to get from me unless they have cooperation with the neighborhood and I do see boundaries drawn up.

The Chair:

Well, I think Mr. Woods made that rather clear earlier.

Mr. O'Malley:

I want it clear from my standpoint.

Mr. Robinson:

I vote aye on all bills and on No. 183, I'd like to have my comments from last Wednesday inserted into the record as well as the copy of the letter that you're forwarding to the Chairman of the Board of Community College. That letter was supposed to be signed by all members of Council. I'd like to have that inserted into the record along with my comments, and hopefully that will initiate the process that we've all been talking about.

(BEGINNING OF MR. ROBINSON'S
REMARKS ON BILL NO. 183,
WEDNESDAY, 6/9/82)

Mr. Robinson:

Mr. Chairman, if I might, I'd like to speak in favor of passage of this bill, and I would like to speak not only as a Councilman who shares many of Mr. Flaherty's concerns, a very sincere concern, but as Chairman of this Committee, I think that we need to separate out some of the issues so that we might be able to take a responsible action. I am certainly not suggesting that Mr. Flaherty's decision to vote against this is not a responsible action. I think it is very responsible, but I think

there are a couple of things we have to realize. One, this is the first major confrontation that I am aware of between Community College and the surrounding community on the North Side. I think that, while Mr. Flaherty's comments about the recalcitrance of the college, perhaps, are true, and perhaps, could be said of most of the major institutions that we have had to deal with when they have had community problems, that there is a tendency to be hard-nosed. There is a tendency, perhaps, not to have a firm appreciation that they share the neighborhood. I think, perhaps, Community College has indeed been guilty of that kind of attitude. I don't know whether that relates to the attitude of the President, the Board, or simply the kind of structure that they have at the college that creates the kind of decisions that they made. I think they made a bad decision not to try to come up with some sort of agreement. Be it as it may, no agreement has been reached, but I think the college has been forthright in indicating what their position is and has held to that position; but they have also asked us to follow the process, to follow the law. The law is on the side of us approving this zone change, and I don't believe that anyone from Community College has yet asked us to violate the law. I think they have been open and honest with us about their problems in the community. I think Mr. Flaherty and other opponents have been open and honest, and I think we have heard it all, from the personal accusations to the political accusations, back and forth. It has all been said; it has all been heard.

Our Planning Commission has approved this twice. The Law Department has approved it twice. As much as I would like to see the future plans of Community College and most of the major institutions in this community, somehow I feel that we are not on firm

legal grounds to do that. Where I do feel we are on firm legal grounds is to pursue my original suggestion as to what we need to ask the college to do, and Mrs. Madoff picked up on it, in terms of either a letter from this Council, perhaps from our President, with all of our signatures, indicating to Allegheny Community College that we think it's in the best interests of the community, themselves, and this City to immediately form some kind of formal arrangement to resolve problems, to diffuse conflict, and into which, a process into which responsible parties can put their concerns about the future growth, cooperative growth of that community.

One last comment. The Oakland situation was raised, and I think Mr. Flaherty was right on target. As someone who used to work at the University of Pittsburgh and who used to work in community services, I am well aware of the community tensions and the community problems. The biggest problem was credibility, the credibility of the university, mainly, in terms of working with community groups and organizations relative to its legitimate needs to expand and addressing the community's legitimate needs to be able to survive in an environment where a major institutions is dominating it. One of the things that was done at the University, which I think was responsible, and unfortunately, it took some time and many conflicts, is they have established some structures into which, at least, conflicts can be placed. There have been some mutual trusts built up. There is more cooperation there today than there has been in the last 50 or 60 years. I'm not suggesting that that process is perfect, and I'm not suggesting that the dominance of the University and the health centers isn't felt; but, at least, I think in Oakland today you will find more people who are working with the institutions than against them, and I

think the University itself appreciates the fact that this Council, and we proved it on the vote on that giant garage, that this Council will stand behind any responsible group and organization that feels their neighborhood is being encroached upon, but that we will also insist that the people who live in those communities work with those major institutions, because they have a right to be there, and they serve. The University of Pittsburgh serves thousands of students, many of whom live in the City of Pittsburgh. Community College serves thousands of people who live in the City of Pittsburgh, and I think we have an obligation to ask that college, to insist on behalf of the people of the City of Pittsburgh that they establish some formal process. While you're not willing to raise a threat, I'll go on record. If that kind of process is not established, the next time they come here, if they are not meeting the letter of the law, they will not have my vote, because I'm sure they will need to expand. I'm sure they will need to develop, but that needs to be done cooperatively. In that spirit, I recommend that we pass this legislation, that Mrs. Madoff's letter go, that Mr. DePasquale, perhaps, draft a letter where all members of Council can sign it, that we let the College know that we need them to work along with us and all the responsible people in that community.

(END OF MR. ROBINSON'S REMARKS
ON BILL NO. 183, WEDNESDAY, 6/9/82)

(BEGINNING OF LETTER REGARDING
COMMUNITY COLLEGE)

June 11, 1982

Dr. Laurence V. Lauth, President
and Board of Trustees
Community College of Allegheny County
610 Smithfield Street
Pittsburgh, PA 15222

Dear Sir:

We, the undersigned, members of the Council of the City of Pittsburgh, deem it very appropriate and very necessary that a meeting be held between yourself and your Trustees or Board Members in regards to the future encroachment of Allegheny Community College in the school's immediate vicinity. This has been a bone of contention with the Allegheny West Council and several other residents of the North Side, and some Councilmembers. It would be best for all concerned for us to meet and arrive at some logical conclusion.

Yours truly,

EUGENE P. DEPASQUALE
President

(END OF LETTER REGARDING
ALLEGHENY COMMUNITY COLLEGE)

The Chair:

You all should have that letter on your desk. I'd appreciate your signatures as soon as possible.

Mr. Stone:

Aye on all bills and I'd like my comments from Wednesday brought forward.

(BEGINNING OF MR. STONE'S
REMARKS ON BILL NO. 183,
WEDNESDAY, 6/9/82)

Mr. Stone:

If I may, for a moment, having had the opportunity to talk to both

groups, let me just kind of put an analysis that I have here. First of all, the Community College, and I think Mr. Givens got close to mentioning it, that area was a rather depressed area until the Community College came into that area, so they were the catalyst to begin that kind of development. On the other hand, you have throughout this City, a desire for more community participation, and in my opinion, you have the Community College well-meaning and intending to do a good job; you have the community organizations well-meaning and intending to do a good job, but sometimes in the early stages of it where those two meet, while is trying to get a piece of the other, and that always happens in early negotiations.

In the early stages of it I think that that thing tends to create some effect. While I can sympathize with the college's statement that they were a big factor in developing there, I have made it very clear to Mr. Lauth, the President, and also to their Board of Directors this is a new era. There is a definite community spirit where the people want to have a little more say in their community, and there is a desire on behalf of City Council that they have that right where possible, so long as it doesn't get over the line where someone's saying, "Even though you can use your property under the law, we're not going to let you use it the way you want." I don't think we're in that kind of state, frankly, in fairness.

Orally, as I talked to everybody, in fact, the lines that were drawn for me when I did it right at this table and before I took it to the University were actually really drawn by Allegheny West group, and the college did not have any problems with those lines. In fact, this particular property is back from the line.

They also talked about whether or

not the college could expand, and you should know in advance, everybody, both sides agreed the college could expand, and they were suggesting left as you come out of the college into what is now the area headed toward the Grotto, and they line up the two streets above that they felt they had no problems. In effect, everybody is agreed.

I would be remiss, having been part of the University of Pittsburgh's problems, and having worked in the American Legion in Oakland where we sat at a meeting and the University said, "We're not taking any more property," and one block away a high official at the University was taking property that same very night, I can tell you that I see night and day between the University of Pittsburgh and the Community College of Allegheny County.

The one thing I just want to leave at this table, in an era where college expense is becoming such an exorbitant sum that many children will not be able to go to the University of Pittsburgh, Carnegie-Mellon, nor any of the other traditional colleges, there is going to be an obvious need to go to this kind of a school. I am sure that none of us would like to provide that if they can't go to that school because of expenses, that we should not provide them the opportunity to be educated on that level in our community colleges. I think the Community College is a good thing for the City of Pittsburgh and this region, and I think they should work, particularly now because of all the Reaganomics and it's so-called adverse trickle-down. We ought to be looking at that.

In fairness, I will end it the way I began it. I think we have here really, basically, a kind of learning process, but I think both parties were well-meaning and well-intended.

(END OF MR. STONE'S REMARKS ON

BILL NO. 183, WEDNESDAY, 6/9/82)

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also,

Bill No. 858

An Ordinance entitled, "An Ordinance amending the Pittsburgh Code, Title Nine, Zoning, Article III, Chapter 921, Section 921.02, Zoning District Map No. 3 by changing from "M1" Limited Industrial District to "C3" Commercial District certain property having 516.39 feet of frontage along the southeasterly side of Noblestown Road, containing 5.092 acres of land located between Poplar Street and Warriors Road, 28th Ward."

Which was read.

Mr. Flaherty:

May I request that my comments on this bill be brought forward?

(BEGINNING OF MR. FLAHERTY'S REMARKS ON BILL NO. 858, WEDNESDAY, 6/9/82)

Mr. Flaherty:

I am for this proposal, and it was very close in my mind how I was going to go. I was extremely concerned in regard to the arguments that were made that there were some unethical practices as far as to what Kroger's had told the proprietor, the owner of the Stop-N-Go; and it certainly raised some points, but I don't think that it was firmly established in the legal sense that Kroger's had indeed acted in an illegal way.

I also wholeheartedly took into consideration the opposition from homeowners in the immediate area, and I can understand their concerns, and perhaps this may be somewhat of an encroachment on a serene, quiet style of existence that they may have now; but I had to balance that against the proposed 120 jobs that that will be established in that area. We are heading into a very serious recession, so that was the point that tipped the balance in favor of my vote in the affirmative.

(END OF MR. FLAHERTY'S REMARKS ON BILL NO. 858, WEDNESDAY, 6/9/82)

Also,

Bill No. 1035

Resolution entitled, "Resolution repealing Resolution No. 412, effective May 7, 1982, entitled, 'Providing for an Agreement or Agreements with the Oakland Planning and Development Corporation, Inc. for the City's share of funding for the continued involvement and execution of revitalization programs

and projects in the Oakland community'."

Which was read.

MOTIONS AND RESOLUTIONS

Michelle Madoff:

Mr. President, I do not usually come to the Monday meetings because they're billed as the Mayor's Meetings and since the Mayor chooses not to attend his own meetings, I see no purpose in attending them. But because I do get the bills and get the agenda, I learned that the \$55 million bond was being introduced today. I'm not going to address the merits of the bill; that will be discussed at the Wednesday meeting. But I'm going to discuss something that's far more important to this Council.

A teletype came across every brokerage office, every bond office, saying that a \$55 million Pittsburgh, PA, a Merrill-Lynch, White, Weld, Morgan Charitable Trust, Pittsburgh National Bank Group expects negotiate the purchase around June 30th of various proposed general obligations bonds comprising serials and terms maturing March 1, 1983 and running through to the year 2007.

In the Mayor's Meeting today, I asked some questions and I asked a number of questions. One particularly was how much money did it cost us on the \$70 million bond. What was the cost factor to produce the bond? The reason I asked that question is that we have committed funds. This City has committed funds to pay Mr. Sam Katz, the firm of Baskin and Sears, and Herbick and Held. I pointed out, also, that when I called Herbick and Held and said my name was Councilwoman Madoff, they started to give me information, the young woman, but she said, "I'd like to go to the bond, I'm not

sure it's only for \$15 million". My original information out of a person I just happened to be having a casual talk with in New York about some shoes, said I understand your City is going out for a \$15 million bond.

I spoke to Dave Matter. Dave Matter, in front of a witness, my aide, scratched his head and said, "I don't know what bond. It must be a URA bond." But the next day, Mr. Schmeiser, the Fiscal Officer, would not lie when we presented him with the fact in Council, as you recall, and he said the bond could go to \$55 million.

During the meeting today it was established that, indeed, the legal authority to incur debt is not the prerogative of the Mayor or the Administration. That, indeed, they cannot do that. My figure was something in the neighborhood of \$53 million. Mr. Schmeiser informed us that it would be greater, we ought to be over \$100,000.00.

So what has happened is that the Home Rule Charter states that this Council must be informed of any search for funds or any monies that we're going to incur. But there is a contingency in all this. In other words, Mr. Katz and the law firm and Herbick and Held will not be paid if the bond does not go through. Therefore, the Mayor is taking the position, or the Administration, that they have the right to go out and look because if we don't approve the bond, indeed, these people won't get paid. But it is what is known as a very well calculated risk because I don't see them not having enough clout with the different members of Council. I've already stated I'm going to vote against this bond for various reasons which I'm going to outline.

One of the things that upset me

more than anything else was a) I couldn't get information from the bonding house, and that printing normally runs something like \$23,000.00. I don't believe that they were going to go out on a contingency if they weren't darn sure they were going to get that money.

When I asked the Fiscal Officer how much money did it cost us to go out on the \$70 million bond, he said, and all the reporters were present so there were trained ears there, far more astute than mine, I am not a fiscal expert, that the amount was 2.4 percent.

Subsequently, by going back and reviewing some material on the projects that were allocated and the ones that were deferred, and the changes in the dollars, I have learned that after paying the underwriter fees, the original discount by the seller, plus the cost of issuing the printing and the insurance premium to guarantee the rate, we ended up with the exact figure of \$65,597,500.00. It cost the City \$4,402,500.00. That comes out to not 2.4 percent, but 6.28 percent.

Speaking as a reasonable member of this Council, I don't think that there's anybody in this Council, if approached by the Administration that said, "Look, for whatever reasons, we have found it necessary to go out and look in the market for bonding; it might go higher, we might hit 20 percent, we don't know what's going to happen by the year '84, we owe \$74 million", and I might add for the media who does not know this, the \$70 million, if it is not able to be refinanced, and that could happen with the market going to 20 percent, we would have to pay that back at \$74 million, so they're going out not to borrow from Paul to pay Peter, and I can understand that. They also pointed out they're going into legal, not illegal, but legal arbitrage where they will invest

that money between '82 and '84 and generate a million dollars in funds. We discussed the \$330 million pension and the \$40 million workmen's comp liability that the City owns, that is has on it's back.

One of the things that was very interesting was that Mr. Schmeiser publicly stated that the City of Pittsburgh has reached its upper limits of prudent borrowing. Mr. President, dedicated by sound business practices. Now we have an attorney looking into the constitutionality, but I think that's a moot issue now, because obviously, if it's on a contingency and it doesn't go through they don't get paid, and they'll get it on the next bond, it's a boiler plate in any event, I don't know why boiler plates should cost \$100,000.00, but be that as it may, we did pay \$4.5 million out of that \$70 million just to go out on the bond. Now it is suggested that we go out on a \$5 million bond.

Only this weekend I learned of repossessions. Purchases that can be made on almost all new equipment because of the economy, from GE Credit, IIT Credit, Westinghouse Credit, and I'm certainly going to obtain a list of all repossessed construction equipment, and also, of course, we could be able to do this on repossessed cars, etc., and buy on the dollar for pennies on the dollar. When we have a budget of \$85 million a year for supplies, we could easily, conservatively, save \$15 million. Probably a lot more.

Our Water Department met with the staff of the Water Department. The Supervisors informed me that they need something like \$900,000.00, almost a million dollars worth of supplies. We're going out this year to buy one new backhoe. We could have bought three repossessed backhoes. We have in the City now professional buyers. We have

engineering people. We have maintenance people and furthermore, on repossessed material, there's a card kept, an index kept of the condition of the equipment and the condition that it is in and how it has been serviced and when it's due to be serviced, and what warranty it is under.

The thin that distresses me very much is that when I asked Mr. DePasquale, who I believe to be an honorable man, we taped a show the other day for Goodwill Industries, whether he heard about the bond, he said, "When you raised the issue". Now, I am not window dressing. I checked with most members of this Council. I don't think any of us want to be in the position that when they want our opinion they'll give it to us.

So I would like to make a recommendation to the President and Council Members. The City of Pittsburgh is now reaching the upper limit of debt service as dictated by some business practices. As a member of City Council I am highly offended that the Chairman of the Finance Committee, Mr. Robert Rade Stone, did not inform this Council of the pending \$55 million bond issue, and incidentally, that does not meet with the rules of the Home Rule Charter, and that is being prepared for us by a legal counsel. Furthermore, the first time that our Council President, Mr. Eugene P. DePasquale, learned of this bond issue was when I raised the subject in Council. When I raised this important issue in Council originally, I was stone-walled by our Finance Chairman who said, "Oh, that's just something being in the works" and I didn't quite know what he was talking about so I looked further. As I said, I am not window dressing.

It is incumbent on Mr. Stone that Mr. Stone inform this Council of all

serious fiscal matters if he's going to act as our Finance Chairman. Therefore, I call for his censure. And what I would ask in a censure is that he apologize to this Council and promise to never again repeat this act.

Before I relinquish the floor for, I hope, a second --

Mr. Givens:

I call for a point of order right now.

Michelle Madoff:

I would like to finish, if I may. You may call for any point of order you wish --

Mr. Givens:

I call for a point of order.

Michelle Madoff:

I'm not through. I'm almost through; I'm going to wind this up very quickly.

The Chair:

Michelle, under point of order. Go ahead Mr. Givens.

Mr. Givens:

This \$55 million bond issue was brought up in the already passed 1982 Capital Budget which this Council is still waiting to have public debate on.

Michelle Madoff:

That's true. We're not to that yet.

Mr. Givens:

And that this Council had voted on that particular 1982 Capital Budget, I can say this Councilman did not vote on it, I voted no on the particular Budget, but I can't see how you can censure anybody when in fact, it was a public knowledge that the \$55 million bond issue or whatever the Administration wanted to go for at that particular time to satisfy our '82 Capital Budget.

Michelle Madoff:

It was \$70 million. There was nothing on \$55 million. I'm sorry but that is inaccurate.

The Chair:

I would much rather we didn't reach this point of discussion, but we're there and she's within her rights to ask for a censure. Is there a second?

Michelle Madoff:

I'm not through. May I finish? I'm just going to be very quick.

I was told by Mr. Schmeiser that the reason this Council was not informed of the \$55 million -- so he said we were not informed, Mr. Schmeiser said we were not informed -- and the reason we were not informed was that if we were informed we could have, my raising the question, could upset Wall Street. I never knew I was that powerful, that that could affect the bond issue. I don't think it's proper. When a bond is being printed, as we sit here and as we were sitting last Wednesday, that this Council wasn't notified at the point in time they were negotiating that bond. And I call for censure.

The Chair:

Mr. Parliamentarian, is she within order to ask for that motion at this meeting? She's asking to censure Mr. Stone for failing to submit certain information.

Parliamentarian:

I am sure that the City Solicitor has given a two page opinion to this Council on censure and what it means and how it's applied. We must refer to that opinion. It was August of 1981 that it was issued.

Michelle Madoff:

And it said that, yes, you can have a censure. It is at the discretion of the Council to have a censure. Do I have a second?

Mr. Givens:

Only the President or this total body can censure anybody.

Michelle Madoff:

Yes, but I can make a motion. You can vote me down.

Mr. Givens:

That's right.

The Chair:

Very simply, the Parliamentarian says that it is within the right of a member to ask for a censure. The movement must be seconded and have a majority vote.

Mr. Flaherty:

Point of clarification. In order for someone to ask for another member's censure, which I believe is a very serious question, is it stated anywhere in the

Charter for what call can a member -- is it malfeasance in office or is it just a whim of a member that wants to censure somebody?

Michelle Madoff:

A don't think this is a whim.

Mr. Flaherty:

I'm not saying it's a whim, but I'm saying, if a member had a whim, could they throw a censure motion on the floor?

Michelle Madoff:

They were going to for me.

The Chair:

Mr. Flaherty raises a good point. Are we going to out here censuring every day?

Michelle Madoff:

This is not an every-day issue. This is a \$207 million repayment on a \$70 million bond, a \$10 million bond and now a \$55 million bond, and we're mortgaging the futures of our children. That is not a whim.

Mr. Flaherty:

Could the Parliamentarian tell this Council what reasons or what are the parameters for one member to move to censure another one? There certainly must be some kind of guidelines.

Parliamentarian:

I have a letter from the City Solicitor --

Mr. Flaherty:

Could you read it because I don't know what it is and I don't think anybody else knows.

Mr. Givens:

I motion to recess for fifteen minutes, have everyone read that particular letter, including yourself, Mr. President, and then, I think, we can reconvene again.

Michelle Madoff:

He's going to read it out loud.

Parliamentarian:

Do you want the whole letter?

Michelle Madoff:

Yes.

Parliamentarian:

Honorable President and Members
City Council
CITY OF PITTSBURGH

Re: Rules of Order

Dear Mr. President and Members:

The President of Council has inquired whether your Honorable Body has the power to censure a member.

Because the ultimate purpose of legislative bodies such as City Council is the enactment of legislation, parliamentary rules should be applied and interpreted to permit the majority to accomplish its purpose within a reasonable time, but only after the minority has had a fair opportunity to express its views on the issue under discussion. It is clear that orderly

procedure is essential to the accomplishment of the purpose of a legislative body. The presiding officer is responsible for maintaining order during meetings.

This responsibility is reflected in the Pittsburgh Home Rule Charter and in the Rules of Council. Section 306.a of the Charter empowers the president "to preside at all meetings of Council ...," and subsection e of Section 306 empowers the president "to enforce all rules adopted for the government of Council." Council Rule VII.a. requires the president to "rigidly enforce all rules adopted for the government of Council; ... preserve order and decorum, and in debate ... prevent personal reflections and confine members to the question under discussion." This rule also empowers the president to "decide all questions of order, subject to an appeal from his decision."

A person is generally considered out of order when he or she begins to speak without being recognized by the chair. Remarks are "out of order" when they are insulting, profane, or offend the sense of decency of the body, or when they violate some rule of the body. See O. Godfrey Jones, Parliamentary Procedure at a Glance, p. XXVI.

Among the options available for the maintaining of order is that provided in Council Rule VII.e. as follows:

"If any member in debate transgresses the rules of the Council, the president shall, or any member may, through the president, call him to order. If the case requires it, the members so called to order may be fined five dollars (\$5.00) to twenty dollars (\$20.00), to be deducted from his salary as in the case of fine for absentsing himself."

Additionally, it should be noted that Council Rule XIII.b adopts Robert's Rules of Order "as parliamentary authority for all procedure not expressly set forth in these rules." Robert's specifically provides that any member may move to order a penalty such as a motion to censure for improper conduct at the meeting. H. Robert, Robert's Rules of Order Newly Revised, Chap. XX, 60, p. 541 (1970). Censure as discussed in Robert's refers to a reprimand or expression of disapproval. Webster defines "censure" inter alia, as "reprimand" or "condemn as wrong."

Such drastic sanctions as ejecting a member from a meeting as provided in Robert's and in Sec. 151.02(a) of the Pittsburgh Code,* or removal from office raise questions of due process. With respect to removal from office, Sections 806 and 807 of the Charter, and related statutes, provide that the impeachment process is the sole method of removal of elected City officials. In determining whether a legislative body may eject a member from a meeting, it is necessary to balance the rights of the legislative body to proceed with its meeting in an orderly fashion against the rights of the member sought to be ejected to express his or her views and to respond to charges. Some type of due process is required. Robert's, pp. 541-542; 56 Am. Jur. 2d 250, 203. As a practical matter, it may be possible to sidestep the problem of ejecting a member by simply recessing the meeting until calm deliberations can resume.

In summary, it is the opinion of the Law Department that the President may call a member to order and, if necessary, impose the fine provided by Council Rule VII.e; a member disrupting the meeting may, under certain circumstances, be ejected by the assembly; the legislative body may go

into recess until calm deliberations can resume; and Council may, by motion subject to debate, censure a member for failure to act in accordance with rules of order and decorum.

Very truly yours,

MEAD J. MULVIHILL, JR.
City Solicitor

MJM:rms

*This section empowers the President, on majority vote of the other members present, to order the ejection of a disorderly member.

Michelle Madoff:

With all due respect, Mr. President, that did not address the issue.

The Chair:

If I may, Mr. St. Johns, if I read this right, then the only censure can come because of misconduct at the present meeting.

Michelle Madoff:

No, he had another one.

The Chair:

The question Mr. Flaherty asked you is what are the grounds for censuring and that's not answering.

Michelle Madoff:

Improper information to the Council. You go back; you read something there. You said improper behavior in Council. It is improper not to let this Council know that we're going

out on a bond if you're the Finance Chairman.

Mr. President, may I ask you a question. Did you know about this bond before I mentioned it?

The Chair:

Michelle, I'll be very frank with you. I may have heard it discussed, I may not. I wasn't really that aware of it and I figured that stuff comes up at out meetings anyway and then I'll become aware of it. I don't know why I have to be made aware of it before. If it's going to be known then we're going to vote on it one way or another.

Michelle Madoff:

Mr. Flaherty, were you aware of it?

Mr. Flaherty:

No, I was not, but an issue of the policy, that is strictly up to a member of Council and that's what I see this as. It's strictly a policy call.

The Chair:

I don't think we've ever been aware of any bond.

Mr. Givens:

Michelle, I don't have the 1982 budget before me, but one would just have to look at that and see what the total capital projects were by all departments and have to realize that if we were to carry that out that one would then have to raise the bonds in order to raise that particular program. If someone could get an '82 budget, I'll read it right off to you, but I don't know the exact amount. And the fact that once that budget is passed, which it was this

last December of 1981, therein I voted no because we did not have, at that time, public, as far as I was concerned, public debate on that Capital Budget by the neighborhood organizations and by this Council.

The Chair:

Mr. Givens, I'm going to have to rule you out of order. We do not have a second on that censure movement, am I correct? With no second there is no censure. Now, Mr. Givens, if you want to discuss it go ahead.

Michelle Madoff:

I didn't think I would have. I just thought I would express my opinion.

Mr. Givens:

Excuse me. I didn't hear your last words.

The Chair:

I wanted to vote on the censure motion, but there was no second so obviously there can be no vote.

Michelle Madoff:

Mr. President, I thank you for the opportunity to be heard. I just wanted to express my opinion.

The Chair:

Michelle, you're out of order. Mr. Givens now has the floor.

Mr. Givens:

I would not have seconded this because of the fact that it was already passed in the '82 Budget. That's why I voted no without having the normal process of public hearings that on three

different occasions, during that Capital discussion which lasted about fifteen minutes, it was brought up that this particular issue of the bond issues and the Capital Budget will be brought up at the most earliest possible convenience in 1982. We are here today, June 14th, without going through this process. Until we do, as far as I'm concerned, the Administration can do anything they want to do. This Council must, I think by law even, require that we have these public debates in order to accrue that Capital Budget.

Michelle Madoff:

I just talked to Mr. O'Malley and he did not see anything in the budget that said anything about they're going out on another \$50 million. We were also appalled at the \$70 million and the \$10 million. Nobody knew there was another \$55 million, and if indeed there was, when they went out seeking it, this Council should have been informed.

The Chair:

Okay.

Mr. Robinson:

Mr. President, I have one other concern, if I might. I won't take up too much time if my colleagues will bear with me for a second.

On March 15, 1982, Council passed Resolution No. 190, which in effect gave unanimous support to Senate Bill 550 which is in the Senate of the Commonwealth of Pennsylvania. I believe that this Council took that action without being properly informed of the total ramifications of Senate Bill 550, and without understanding that the impact of this bill, if passed, could be to seriously impair our public school system.

With all due respect to all of us who voted for this bill, I think that we need to better inform ourselves as to the ramifications of the bill, particularly its other legislation.

I'd like to go on record at this time in full support of our public school system and to indicate that I am not in favor of any legislation which is going to damage the effectiveness of our school system. I think particularly during this time of great economic and social upheaval in this Country, Senate Bill No. 550 is out of place and so is the legislation being proposed at the national level to offer tuition tax credits. And I would hope that Council would avail itself of an opportunity to reconsider our position.

Without breaching any confidences or embarrassing anyone, I would hope that Council would pay particular attention to a publication made available by the Pennsylvania Federation of Teachers which presents, I think, some very cogent arguments against tuition tax credits, and I think the record should reflect that there are at least forty-three organizations across this Country that are unalterably opposed to the tax credit program and here in our commonwealth, the Pennsylvania Federation of Teachers are leading that fight.

The Chair:

With respect, Mr. Robinson, I think we allowed our hearts to rule our head and I think we overlooked the plain fact of separation of State and Church. I myself, I presume, voted aye. I don't remember the resolution; it went through so fast.

Mr. Robinson:

It was passed unanimously. We all

voted aye.

The Chair:

Yes, if I was here and I probably was. Mr. Givens would like to comment.

Mr. Givens:

I think any resolutions before us, and it was passed, discussion, that is the time for discussion. I hope that any resolution that comes before us is by our own Council rules, again, is received twenty-four hours before this body can deliberate on them, which would be not later than Friday at 2:00, we should be in receipt of any such document that would come before us to work on. Again, customs of Council is the fact that we come out here at 2:00, and in some cases, it's our first opportunity or they're even only passed out by the City Clerk at the 2:00 session. I think we have to go back into our own rules and have to appreciate that if anything comes before us and we are not informed on it, that we should hold it until such time until we are informed. If it's given in a twenty-four hour period, I think you either vote it up or vote it down. I have some great concerns in this particular area. There is national debate on the school tax credit. I think one only has to look at the City of Pittsburgh and drive through our neighborhoods to find out there are many, many churches and private related institutions right here to make a significant contribution to our City and have made a tremendous contribution to this City. If this is to be done, it's to be done at the federal level. I was encouraging this Council, at that time, to have the school tax credit. I personally do not see how that tax credit is going, because it only adds up to, I think, two hundred dollars a year, I believe, per family right now. The legislation, I think, is before the Federal Government. I can't see how two

hundred dollars of tax abatement on the federal dollar is going to impact our public school systems right. There's not going to be a flooding out of people from the public schools into the parochial schools. If one was to read the paper over the weekend, they would have found out that the highest truency rate within our Allegheny County is coming from our own public school system; I think some eighty-seven percent truency. We have some serious problems in our public schools. The School Board has to address those particular problems. I think our local Magistrates must address these particular problems. But we do have problems. Everything is not as we would like to see it. And if people take the option of sending their children to private schools, or they themselves want to go to private educational institutions within the City, then I think they should be given the same benefit of anyone else and that is receive a particular tax incentive for trying to educate their children in this particular area of education. I think, and I would have to say that the private school system compliments the public school system. The public school system compliments the private school system as I have invisioned it over my lifetime.

Michelle Madoff:

Mr. President, I think we acted in haste, we did not understand the bill. We've all been in receipt of the letter from the Pittsburgh Federation of Teachers. I would like to recommend, if you're willing Mr. Robinson, to draw up a resolution rescinding that resolution and I'll second it and we can discuss it on Monday's meeting. If that's alright with you.

Mr. Robinson:

I have no objection to that.

The Chair:

Mr. Parliamentarian, you heard what they said, they want to pass another resolution to rescind the resolution that was previously passed.

Mr. Givens:

If it is not before us in the twenty-four hour period we're in violation of our own Council rules.

The Chair:

I think I have to agree with you, Mr. Givens. Michelle Madoff wanted to pass a resolution to rescind a previous resolution. In effect, it had to do with the tax credit for parochial and private schools.

Parliamentarian:

Is that consensus of Council?

Michelle Madoff:

Yes.

The Chair:

A unanimous resolution on the part of Council that we urge these people to pass this bill.

Parliamentarian:

Under the rules the majority voted in favor of that resolution, would have to move to rescind. You have to vote on that.

Michelle Madoff:

Could we discuss it? We have the resolution, the second and the discussion and then vote again? I just want to know if we can rescind it.

The Chair:

We can rescind it.

Michelle Madoff:

How do we rescind it?

The Chair:

By a motion of a member and a majority.

Michelle Madoff:

Can you say it verbally or do you have to have a resolution?

The Chair:

You have to make a motion to rescind, you get a second and a majority vote.

Michelle Madoff:

Can we do it right now?

The Chair:

Yes, you can do it right now.

Mr. Givens:

Point of order. Any motion that comes before this Council, according to our own Council rules, must be introduced twenty-four hours prior to this meeting. I have not received that particular motion.

Michelle Madoff:

We'll do it Monday.

The Chair:

What happened to your rescind motion? You're not making it

anymore? We can't do it? Is that a fact,
Mr. Parliamentarian?

Michelle Madoff:

Mr. President, Mr. Robinson will
introduce the rescind motion on Monday,
I will second it and we'll discuss it then.

Mr. Woods moved to excuse Mrs. Masloff
for absence from the meeting.

Mr. Stone seconded the motion.

Which motion prevailed.

Mr. Givens moved to approve the
minutes of Monday, June 7, 1982.

Mr. Robinson seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Givens**

Council adjourned.

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Monday, June 21, 1982

PRESENT:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Robinson
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
	(Pres't)

ABSENT:

Mr. Stone

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

Michelle Madoff:

For the record, Mr. Stone is not here; he insulted me. I want to make a point of saying that he isn't here.

The Chair:

For the record, you should be in your seat when the meeting starts.

Michelle Madoff:

That's right. Where is he?

The Chair:

You. Not him.

Michelle Madoff:

I am in my seat.

The Chair:

If he's not here he can't sit in his seat.

Michelle Madoff:

That's right. That's worse than being a little bit late.

The Chair:

Can we start the meeting, Michelle? What are you making a big thing about this for? You've got a little bit of people here — get the cameras on her.

Michelle Madoff:

People are going to think that we're fighting. Let's not do that.

The Chair:

Cut it out.

Mr. Flaherty presented

No. 1133 Resolution providing for the conveyance of certain property in the 16th Ward, City of Pittsburgh, designated as Block 13 K, Lot 30 to Samuel A. Taylor and Janet C. Taylor, his wife for the sum of \$20,000.00.

At a cost not to exceed \$1,392.00, chargeable to and payable from Code Account North Side UDAG Program. (4-15-03-1810-79-181-79-15)

Which were severally read and referred to the Committee on Parks and Recreation.

Mr. O'Malley presented

No. 1161 Resolution transferring \$6,152.00 from People Watching Out For People Trust Fund (PWOP) to City-County Identification and Information System Project Trust Fund (C-CIISP); Providing for the issuance of a warrant in favor of the Pennsylvania Commission on Crime and Delinquency, P.O. Box 1167, Harrisburg, PA 17108, for a refund of monies not expended from the City-County Identification and Information System Project Trust Fund (C-CIISP), in the amount of \$6,152.00.

Which was read and referred to the Committee on Finance.

Also,

No. 1162 Resolution providing for a contract or contracts from time to time in connection with the demolition and removal of condemned buildings and providing for the payment of the costs thereof, cost not to exceed \$100,000.00, payable from 1982 CD Block Grant Program Unspecified Local Option Project.

Which was read and referred to the Committee on Public Safety.

Michelle Madoff:

Before we have the hearing on the \$100,000.00 in demolition, I want to be sure that, indeed, we have that kind of money available under the new bond money or the existing bond money where the money is coming from, so that when they come to Council, I want that information.

And on the overruns. We had asked, Mr. Perry, I don't know if you were here, that we understand the terms in some departments of overruns, particularly in Public Works is a misnomer. It doesn't mean overruns, it means extra work to indicate if it's extra work or if it's an overrun in the amount of how much and why, so that when we get to that discussion a week from Wednesday we know what we're talking about.

Also, before I vote on \$100,000.00 for demolition or the overruns or any other expenses, I sent a letter out to all the Department Heads, major Department Heads, Water, Public Works, and Parks and Recreation, I want a dog and pony show. I want to know what projects were committed under \$70 million, why they were deferred, what's deferred, why they changed in mid-stream, what's going to have priorities, and why bridges that were promised, how long ago, Bill? —

Mr. Robinson:

Ten years.

Michelle Madoff:

— Ten years ago, are not being put in sequence, why certain people, certain communities are being shafted aside. And we're not voting, if I have any say in the matter, for anything until we have that dog and pony show.

That's from the three Departments which you're going to have to schedule, Mike, with the President's permission as to dates and times. He'll decide whether he wants it as a post agenda, three separate post agendas or whether you want to have the hearing on one day from each department justifying what happened to the \$70 million bond before we go out on a \$50 million bond.

And I will tell you, I am going to introduce a resolution, my administrative assistant is here, that Council have the right to hire its own bond and fiscal officer. Would you make a note that I want to introduce a resolution to that effect and would you help draft that, Mr. Perry. I don't think we can count on people who are subject to getting raises and being hired or fired no matter how competent they are, Mr. Buckley, tee shirts and all. I think we have to have independent people that can give us that kind of information. And it may have to be out of towners who don't get a piece of the pie, or who want a piece of the pie.

Also,

No. 1163 Resolution repealing Resolution No. 112, approved February 6, 1981, effective February 17, 1981, entitled, "A Resolution providing for the furnishing and delivery of an automatic facsimile transceiver for the Department

of Police, and for the payment thereof.

Which was read and referred to the Committee on Supplies.

Also,

No. 1164 Resolution transferring the sum of \$5,000.00 from Code Account No. 1468, Equipment to Code Account No. 1464, Supplies and Materials, within the Department of Fire.

Which was read and referred to the Committee on Finance.

Mr. Robinson presented

No. 1165 Resolution providing for an Agreement/s with the Lower Hill Outreach YMCA to provide transportation for their Summer Day Camp Program, and transferring the sum of \$2,000.00 from CA 42, Council Contingent Fund to CA 1838, Misc. Services, Department of Parks and Recreation.

Which was read and referred to the Committee on Parks and Recreation.

Mr. Robinson moved to suspend Rule 8 by providing for consideration of the bill only until or after the 9th calendar day following the meeting in which the bill was introduced so the bill will be on the agenda this Wednesday.

Mrs. Masloff seconded the motion.

Which motion prevailed.

Also,

No. 1166 Resolution providing for an Agreement(s) with the Pittsburgh Neighborhood Alliance or other organizations for the continuation of the Anti-Crime Lock Installation Program, and providing for payment thereof.

Which was read and referred to the Committee on Planning, Housing and Development.

Mr. Woods for Mr. Stone presented

No. 1167 Resolution providing for the issuance of a warrant in favor of Morgan Guaranty Trust Company in the amount of \$924.75 for services rendered from October 1, 1981 to March 31, 1982, as paying agent in connection with General Obligation Bonds, 1981 Series A; and providing for the payment thereof.

Also,

No. 1168 Resolution providing for the issuance of a warrant in favor of Compucom Inc., 1401 West Carson Street, Pittsburgh, Pennsylvania 15219, in the amount of \$11,684.73 in payment for Microfiche Originals and Copies of Real Estate Tax, Water and Sewage Service, and various other tax billing and payment records in the Department of Finance, for the period January 1, 1982 to May 31, 1982, furnished for the benefit of the City; and providing for the payment thereof.

Also,

No. 1169 Resolution providing for the issuance of a \$3,500.00 warrant in favor of Anthony Penna, Peter Cortese and Betty Cortese, c/o William P. Bresnahan for alleged wrongful demolition of claimant's property, charging same to Code Account No. 46, Judgments.

Also,

No. 1170 Resolution providing for a contract with Pittsburgh Exposition Convention Hall to rent part of Pittsburgh Convention Center for administration of Clerk typist 1 and 2 examinations, June 30, 1982. (Interim

approval granted)

Also,

No. 1171 Communication from Ronald C. Schmeiser, Director, Department of Finance, submitting a report of deposits and market value of Collateral Security pledged by City Depositories to secure same as of May 28, 1982.

Which were severally read and referred to the Committee on Finance.

REPORTS OF COMMITTEES

Mr. Woods for Mr. Stone presented

Bill No. 1172

Report of the Committee on Finance for June 16, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1059

Resolution entitled, "Resolution authorizing the issuance of a warrant in favor of Morelli Brothers in the amount of \$3,753.03 in payment for additional concrete work performed at various sites, furnished for the benefit of the City without previous authority of law; and providing for the payment thereof."

Which was read.

Michelle Madoff:

On Bill No. 1059. Additional concrete work. That's exactly what I'm talking about, Mike. What is the additional concrete work? Why was it

additional? We were briefed here in Council. I think they figured they decided to do an extra project because it was an appropriate time to save money, since the contractor was there. But that should appear on the bill. We are not computers. Councilmembers are not computers. And it is very difficult to remember, when we have hundreds of bills, two weeks later or ten days later, what the issue was. So, if you will say "additional because of ...", and I've asked all the departments to do that. Would you, perhaps Ms Johnson, would be willing to send another memo to the Department Heads explaining what they mean. It is two sentences. We were there, we decided to do it. It was a cheaper way to proceed. But I don't want another \$336,000.00 awarded to somebody for filling in caverns that everybody knew were there just because somebody's on the job. This may not be \$336,000.00, but it is \$3,753.00. I'd like a copy of those as soon as possible.

Also,

Bill No. 1064

Resolution entitled, "Resolution providing for the issuance of a warrant in favor of Jim Crivelli Chevrolet, Inc., in the amount of \$19,390.00, for emergency purchase of One Trench Rescue Truck furnished to the Department of Emergency Medical Services without previous authority of law."

Which was read.

Also,

Bill No. 1071

Resolution entitled, "Resolution providing for the issuance of a \$1,019.50 warrant in favor of William L. and Arlene A. Bruni in settlement of claim for property damage and providing for

the payment thereof."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Robinson
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
	(Pres't)

AYES 8 NOES none

And there being two-thirds of the votes of Council in the affirmative, the bills passed finally.

Mr. Givens presented

Bill No. 1173

Report of the Committee on Public Works for June 16, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1053

Resolution entitled, "Resolution vacating a portion of Oneida Street from Grandview Avenue South for One Hundred Forty point Sixty (140.60') Feet and Plymouth Way from Grandview Avenue to Plymouth Street, and a

Thirty-Six point Fifty-Five (36.55') Feet strip of Air Rights over Grandview Avenue, a Thirty-Three point Eighty-Three (33.83') Foot strip of Air Rights over Plymouth Street and a Fifty (50') Foot strip of Air Rights over Oneida Street; Said Resolution is also for an encroachment in the sidewalk of Grandview Avenue of approximately Eight (8') Feet in width and One Hundred Eighty (180') Foot in length and an encroachment in the sidewalk of Plymouth Street of approximately Eight (8') Foot in width and One Hundred Ninety (190') Feet in length in the Nineteenth (19th) Ward of the City of Pittsburgh."

Which was read.

Also,

Bill No. 1054

Resolution entitled, "Resolution providing for an Agreement or Agreements with a Consultant or Consultants for plans and specifications in connection with the removal of the rock slide from Saw Mill Run Boulevard; and providing for the payment of the cost thereof."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Robinson

Michelle Madoff
Mrs. Masloff

Mr. Woods
Mr. DePasquale
(Pres't)

AYES 8

NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Also,

Bill No. 1055

Resolution entitled, "Resolution amending Resolution No. 1285, effective December 16, 1981, entitled: 'Providing for the letting of a contract or contracts for the furnishing and delivery of three (3) automobiles for use by the Bureau of Cable Communications, Department of Public Works; and providing for the payment of the cost thereof; by increasing the number of automobiles from three (3) to four (4)'."

Which was read.

Michelle Madoff:

For the record, there is no reason why we cannot buy cars that have been reclaimed because people couldn't afford to pay for them, repossessed cars. Our Public Works Director is buying automobiles from Avis and from other places and he's having better luck than I've had with brand new cars. I've had two lemons in a row; this one seems to be alright so far. There's no reason to spend thirty thousand dollars for the four cars for that department when we can buy repossessed automobiles. So the answer is no, and call me Second Hand Rose.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Mrs. Masloff
Mr. O'Malley

Mr. Robinson
Mr. Woods
Mr. DePasquale
(Pres't)

AYES 7

NOES 1

(MICHELLE MADOFF VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Robinson presented

Bill No. 1174

Report of the Committee on Planning, Housing and Development for June 16, 1982 transmitting one ordinance and sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 666

Resolution entitled, "Resolution designating as a District of Historical Significance under Section 3 (a) of the Historic and Landmark Ordinance, No. 20, approved July 1979, as amended, that certain area and structure known as "The Stephen foster Center," more particularly located at 286 Main Street (Block 49F Lot No. 165), 9th Ward, City of Pittsburgh." (AS AMENDED IN COMMITTEE)

Which was read.

Also,

Bill No. 1067

Resolution entitled, "Resolution approving Contracts for Disposition of Land by and between the Urban Redevelopment Authority of Pittsburgh and listed Redevelopers for the sale of properties for \$100.00 per lot as per the Property Management and Maintenance Program (PMMP Sideyard Sale)."

Which was read.

Also,

Bill No. 1068

Resolution entitled, "Resolution approving Contracts for Disposition of Land by and between the Urban Redevelopment Authority of Pittsburgh and listed Redevelopers for the sale of properties for \$1.00 per lot as per the Property Management and Maintenance Program (PMMP Sideyard Sale)."

Which was read.

Michelle Madoff:

Mr. Robinson, on Bill No. 1068, these are not sidelots. These are sidewalk sales, there's a developer. We discussed that and it seemed to me that they were all going to be sidelots. Now it says to work with developers. Is it a boiler plate? Is that the problem?

Mr. Robinson:

If I might, I believe that that sideyard sale, on 1067, should also read sideyard sale on 1068. The cost figure that you're referring to is correct. This relates to a very specific program that was designated for certain wards in the City of Pittsburgh where we took properties that were adjacent to owner

occupied, in most instances, residences, and we offered to them for \$1.00. The costs of the total program were written down by funds that were provided to us from the State. This kind of program is not available throughout the City and should not, in any way, be confused with any other program that we have to sell City property. This was simply a special project in some designated wards where for \$1.00 we did turn over properties adjacent to homes so the people could build gardens, etc.

Michelle Madoff:

I think you're a little mistaken. My bill three and a half years ago, which said the post cards would go out to all homeowners with sidelots, and they would have first shot at them and you and I both agree that \$1.00, we don't care what they were, just get the monkey off the back of the taxpayer so we didn't have to do the maintenance and worry about kids sitting in them and they become somebody's tax base for the City, and the rodent control problems.

This bill, No. 1068, let me read you the first paragraph. "Resolution approving Contracts for Disposition of Land, by and between the Urban Redevelopment Authority of Pittsburgh and below-listed redevelopers for the sale of the following properties for \$1.00". That's wrong. That's a misnomer.

Mr. Robinson:

No, it's not wrong, that's what I'm trying to tell you. It is not wrong. This particular program predates your legislation. That's the first thing.

Michelle Madoff:

Three and a half years?

Mr. Robinson:

It predates your legislation. Trust me. It predates your legislation.

Michelle Madoff:

I believe that, but what are they going to redevelop on it?

Mr. Robinson:

The second issue is the utilization of the term "redevelopers". It's a common term that is utilized to identify persons who are going to secure these properties and develop them for whatever purpose, whether they want to put a garage there, put a garden there or whether they want to put grass. This is a generic term. This does not suggest that any major developers as we generally know them would be building a condominium or anything of that sort. That's a generic term.

What I would suggest is, point of clarification, is that we ask our Redevelopment Authority or the appropriate parties, when they forward to us these sideyard-type of legislation, that they give some clarification to the term "redeveloper". I agree with you, it is misleading.

Michelle Madoff:

I said it was a misnomer because I think we did as the question and they did say it was sidelots and it says sidewalk sale, so I assumed that that's what it was and I was prepared to vote for it. But when I read it and it said redeveloper, I thought they were slipping one through.

It's the same thing like extras are not always overruns. And they're misnomers. They're words that don't mean what they say they mean. It's like Alice in Wonderland, they mean what I

want them to mean. And I would like that term changed. Could we have Mr. Robinson's any my suggestion forwarded, please?

Also,

Bill No. 859

An Ordinance entitled, "An Ordinance amending the Pittsburgh Code, Title Nine, Zoning, Article III, Chapter 921, Section 921.02, Zoning District Map No. 11 by changing from "R3" Multiple-Family Residence District and "C3" Commercial District to "RP" Planned Residential Unit Development District all that certain property bounded by: Penn Avenue, Lot No. 14, Block 50-R in the Allegheny County Block and Lot System; Gem Way; Lots No'd. 321 and 305, Block 50-L in the aforesaid System; Dearborn Street and North Atlantic Avenue, 10th Ward."

Which was read.

Also,

Bill No. 860

Resolution entitled, "Resolution approving a Conditional Use under Section 993.01(a)A33 of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993 to Garfield Manor Associates-Crossgates, Inc., for authority to construct an 11 story building to contain housing for the elderly with 95 dwelling units on certain property located on the northwest corner of Penn Avenue and North Atlantic Avenue, 10th Ward."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. O'Malley
Mr. Givens	Mr. Robinson
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
	(Pres't)

AYES 8 NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Mrs. Masloff presented

Bill No. 1175

Report of the Committee on Parks and Recreation for June 16, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1060

Resolution entitled, "Resolution authorizing and directing the City Treasurer, on behalf of the City of Pittsburgh, to accept funds from various public and private foundations and individuals, organizations and agencies, for a Friends of the New Zoo Program, in the Department of Parks and Recreation, and to create a Friends of the New Zoo Trust Fund, and to deposit all funds received for said program into said account; and providing for the payment of expenses in connection with the Friends of the New Zoo Program." (AS

AMENDED IN COMMITTEE)

Which was read.

Also,

Bill No. 1061

Resolution entitled, "Resolution providing for authorization to enter into an agreement or agreements with the Friends of the New Zoo, Inc. for the purpose of a cooperative effort to further develop the membership, programming and resources available to the Pittsburgh Zoo, in the Department of Parks and Recreation."

Which was read.

Michelle Madoff:

I would like my comments from Wednesday brought forward for those who may not know.

(BEGINNING - MICHELLE MADOFF'S REMARKS ON BILL NOS. 1060 AND 1061, WEDNESDAY, 6/16/82)

ON BILL NO. 1060

Michelle Madoff:

Is there someone here to discuss? I hope you're prepared for this one. What were the losses last year on the zoo?

Wendy Bell:

I'm not sure.

Michelle Madoff:

Ballpark it.

Wendy Bell:

I don't --

Michelle Madoff:

Is there anyone here that does know?

Wendy Bell:

The Director is not here now.

Michelle Madoff:

What was it the year before?

Wendy Bell:

I don't know that.

Michelle Madoff:

What do you do for the Parks and Recreation Department?

Wendy Bell:

I'm Assistant Director for Administration.

Michelle Madoff:

And you have no idea. They send somebody who doesn't know the answers.

Wendy Bell:

The physical status of the zoo is not necessarily --

Michelle Madoff:

But you're asking us to address fiscal issues. To establish money to go into a fund, and the City can operate a Zoo where two thirds of the people using the Zoo are not City residents, and where the City taxpayer, this should interest you, Mr. Flaherty, picks up the deficits. Now, as far as I'm concerned, I want to go on record, give the Zoo to the County. Let that Committee be controlled by the County. I'll support the

Zoo. I'll give you my contribution. I think it's a very worthwhile project. But, if two thirds of the people are going to use the Zoo, the Aviary, and the Conservatory, the taxpayers of this City can no longer afford to pick up that deficit. I want to know the amount, and I want it by Monday before we vote on that. Please.

ON BILL NO. 1061

Michelle Madoff:

Is this the companion bill, the original bill?

The Chair:

Yes.

Michelle Madoff:

Of course I am voting opposed.

MR. DEPASQUALE COMMENTS

Michelle Madoff:

Of course you can ask me a question.

MR. DEPASQUALE COMMENTS

Michelle Madoff:

No. I didn't say that. I said the opposite. You weren't listening. I said that I want -- I'll do it again for you, sir. I have said Mr. Flaherty wanted to know what the amount was. I believe the deficit for the Zoo is something in the neighborhood of -- we have our Budget Office here. What is it, sir?

MR. DEPASQUALE COMMENTS

Michelle Madoff:

It's very important to what we're

talking about. How much was our deficit for the Zoo last year?

Mr. Buckley:

I don't know.

Michelle Madoff:

Our Budget Office doesn't now. I don't believe this. As I recall, the last time I looked, the Zoo, the Aviary, the Conservatory, were \$4 million that the taxpayers of the City picked up. Yes, I want a Zoo, Mr. DePasquale. Yes, I think we should have — private citizens have association for a Zoo. But I don't think only the City taxpayers should pick up deficits when this Zoo makes it attractive to people who live in their bedroom community near Pittsburgh, and they ought to be picking up some of that money. Now, you recall, we had a hearing here, and I have our previous Commissioners — Commissioner Foerster showed up in person. And they said, "No way, Jose. We're not giving you any money. You go ahead pick it up and let the City taxpayers pay all of the deficits." I have no objection to getting money. I'll contribute to this fund, but I don't think we, as the City taxpayers, should pick all of the deficits, do you? Answer my question. Do you?

MR. DEPASQUALE COMMENTS

Michelle Madoff:

It has exact bearing on it.

(END - MICHELLE MADOFF'S
REMARKS ON BILL NOS. 1060 AND
1061, WEDNESDAY, 6/16/82)

Michelle Madoff:

If we needed the vote, in order to establish this particular Friends of the Zoo Committee, and one of my ideas

originally was to have "Adopt an Animal", which I understand they're really going full blast on, I would vote for it. However, the only opportunity I have of voicing my dissent with what's going on in the community is to use the mechanism of my vote. I'm going to vote no on both of these bills simply because two-thirds of the people who attend the Zoo, the Aviary or the Conservatory, are non-city residents. As you recall, Mr. President, we had Tom Foerster here, Mr. Foerster, a representative, at that time, Jim Flaherty and a representative. Commissioner, I don't remember who it was at that time, if it was Hunt or not, and they just blatantly told us "Tough bananas. We're not going to pick up any of the deficits". Well the City taxpayers could no longer afford to pick up that \$4 million a year on top of other commitments that we're sort of forced into. And I think some mechanism has got to be arrived at, some way of having the County pay it's fair share. And since they have absolutely, blatantly said no, then I think we ought to give the Zoo back to the County. Not back to it because they never had it, but give the Zoo to the County, and if it's important enough to the County to have it, then we would have it and, indeed, I see no other alternative.

The Chair:

MOTIONS AND RESOLUTIONS

Mr. Flaherty presents

Bill No. 1177 WHEREAS, all named parties in the Three Rivers Stadium Suit have secretly negotiated for the past thirteen months; and

WHEREAS, no members of City Council were involved in these negotiations; and

WHEREAS, all members of Council, who received a full briefing of the tentative agreement were also put under a gag order; and

WHEREAS, all Councilmembers are elected public officials and the proposed Three Rivers agreement is a public issue concerning a public stadium and involving a substantial amount of public tax dollars; and

WHEREAS, a gag order on Councilmembers is unprecedented.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh calls on Judge Joseph Del Sole to immediately rescind this gag order so the Councilmembers can fulfill their duty and responsibility to inform the public and act in the public's interest.

Mr. Flaherty moved to adopt the resolution.

Michelle Madoff seconded the motion.

Michelle Madoff:

I second this just for the purpose of discussion.

The Chair:

Under discussion, I question the propriety and discussion of matters

pertaining a court ordered gag rule.

Mr. Flaherty:

Well I have a second on it and what, specifically, do you question?

The Chair:

The very fact that when we were briefed by the Judge and other parties, you agreed, apparently, that you'll be under the gag order rule and when you left that room, apparently you told everything that went on in that room. Every other Councilperson that was briefed agreed to the gag order rule or else they wouldn't have been briefed.

Mr. Flaherty:

That is not the question, Mr. President.

The Chair:

Once you're briefed, you're breaching a promise, you're breaching good will.

Mr. Flaherty:

There is no breach whatsoever in this resolution of the gag rule. If there is, you point it out to me.

The Chair:

The very fact we're discussing it.

Mr. Flaherty:

No, no, no. You show me where the breach is.

Michelle Madoff:

Mr. President, may I ask a question? Mr. Flaherty, you may not like this question. When you went in the

room, like we all did, we were given a gag order and then we were also presented with some other papers which they took back, but they did not take back the gag order. Did you agree to the confidentiality?

Mr. Flaherty:

Yes I did. When the gag order was given to me and I had some questions in regard to the gag order.

Michelle Madoff:

Did you think it over? Is that the problem?

Mr. Flaherty:

First of all, there will be plenty of time to answer questions that members of Council may have in regard to my behavior or what have you. But I think it's important to give my reasons for this resolution.

The Chair:

I think you state it very clearly in the resolution.

Mr. Flaherty:

I'm going to give my reasons why I submitted this resolution and why members of Council should support this resolution.

As succinctly stated, this issue is a public issue. The get-go on this public issue, as to when debate started on this issue, is when the Mayor and Judge Del Sole, along with Dave Matter and Marvin Fein, invited members of Council, in twos, into the Mayor's Office to discuss this issue.

Michelle Madoff:

The Mayor's Office?

Mr. Flaherty:

Into the Mayor's Office with the Judge present. As ascribed to in the Post Gazette today, the Mayor's Executive Secretary, David Matter, says himself, that because I was quiet and only had asked a few questions and didn't criticize this agreement in that meeting, that my silence was taken as an ascent of approval on this matter. I think it is indicative from the horse's mouth that this was a lobbying effort. I had four years in Harrisburg and I was lobbied by Governor Shapp at three o'clock in the morning and I know soft-sell lobbying when I see it.

I'm saying that is lobbying has started on this issue, then the race has started on the issue. And I'm saying that public taxpayers are being kept out of this race because the get-go has been raised. When they brought us in and when they lobbied for votes on this issue, then this is a public issue because I, along with the rest of you, are elected public officials and our top priority should be to the public. It shouldn't be to the Galbraith's and it shouldn't be to Mayor Caliguiri. It should be to the public.

The Chair:

Who said the public is going to be shut off. We're going to have a public meeting before we vote. The public's going to be aware of everything.

Mr. Flaherty:

Also, the second problem that I have with this gag order is that it is so blatantly inconsistent. What we have here is open bartering in a very discrete

fashion with corporate interest. Corporate interest. I know this first hand. Pittsburgh Week in Review that was on at 10:30 on Friday evening had the Vice President of Pittsburgh National Bank discussing these medallions on TV. Corporate interests are discussing this without the gag rule on them. We are under a gag rule. We look like asses. This is in the paper. I'm sure, I know I have received calls, I'm sure probably all of us have received calls from constituents in regard to this problem. And we are going to let ourselves remain in the position to say "I am gagged; I cannot talk about this issue". Everybody else can. The corporate interests can talk about this issue, but we cannot talk about this issue.

What I am saying is that it is wrong, it is inconsistent, along with having a judge in the Mayor's Office, a judge which was supposed to have been an arbiter, even being present. I think that raises certain questions.

I would just want to close, and then I'll be glad to answer any questions, in that I think that when the Mayor decided, or when he actually had members of Council in lobbying for votes on this issue, then that was when the public was entitled to know. And if the Mayor made a political mistake, then so be it. The Mayor made a political mistake. But I, in my conscience, have to challenge this gag order in this resolution, and I urge this Council to also because this is not an issue just concerning myself or any of us individually. This is concerning a legislative body. This is unprecedented that we are gagged on a public issue and what is to ever keep any Mayor of this City in the future obtaining a gag order from one of the sixty-eight Common Pleas judges in this County to put a gag on Council on a Council issue. This is a precedent and if it ends up in Court, then

let it end up in Court, but it's something this Council should fight for because they're gagging us.

The Chair:

Mr. Parliamentarian, should I caution Council that they may be violating the gag rule order by discussing this resolution?

Parliamentarian:

I talked with the City Solicitor and he feels that such a motion would be highly improper.

The Chair:

Are Councilmembers in danger of being in contempt of court by discussing this gag order?

Parliamentarian:

I'd like to have the Solicitor here.

Mr. Flaherty:

Then let's get the Solicitor up here.

Michelle Madoff:

Mr. President, with due respect, we're not discussing the information, we're only discussing the right to violate the gag order.

Mr. Givens:

Mr. President, I think while we await the Solicitor's viewpoint on this, there's things that can be discussed that you not get into the contractual relationship. We're only gagged on what is of contractual nature.

Number one, I don't know how Mr. Flaherty went in to the Mayor's office. I

went in with an open mind. I think Council's been very sensitive to the fact that we have not been given timely information to make good decisions. Council, by it's nature, is to counsel the Mayor and to give information and inputs of what is happening in the real world out there. I personally had volunteered to go into the Mayor's office when the judge so indicated under the sensitive negotiations that he was going to have to put a gag order on me, I volunteered. Otherwise, that was my time of decision. If I did not agree to it at that particular time, that was my time to get up out of there and walk out. I did not because I felt that possibly I could add some of my knowledge and wisdom to the ongoing negotiations, which is not part of our functions.

You have to assume that it was thirteen months of sensitive negotiations. I'd have to look at the other side of that coin if Council cannot debate the issue in public as we'd like, then what happens? What are the alternatives for any major league ball team in the city having to leave if one, they cannot make a profit in the particular league that they're in. They have three alternatives. They'll be the last team in the league. —

The Chair:

Did you want to interrupt Mr. Givens?

Mr. Robinson:

If he's finished.

The Chair:

No, he's not.

Mr. Givens:

— Two, they can go into

bankruptcy and three, they can just leave this particular city if they so desire. So inherent in that is this Council as a body. As Mr. Flaherty has so pointed out, there are very different divisions between the legislative, the judicial and the executive bodies within this City of ours. And I think he brings up a very pertinent role that this Council should not be gagged. However, that was voluntary on my part.

The Chair:

Mr. Givens, Council is not going to be gagged when it comes to voting. It's going to be in Council's hands to settle this matter. We're going to vote whether Mr. Flaherty likes it or not or knows it or not. Apparently he doesn't know that.

Mr. Givens:

My fourth point is that the Stadium negotiations will come before this particular Council where we'll have a public hearing. My deepest concern in wanting to speak here before this body is the fact of the gag order itself and what is happening to this Council. This Council, through the media and others have been put on record as apparently divulging this information to the media.

The Chair:

The word we used to use was snitch.

Mr. Givens:

I feel that this is a very serious accusation to this body. I think it's something that I encourage Judge Del Sole —

The Chair:

You're getting in real deep and

this is what I'm trying to avoid here. This is what he wants.

Mr. Givens:

I encourage Judge Del Sole to ask that all Councilmen come before his chambers and if so take a polygraph test. I want to know if an individual person has, in fact, violated the trust of the judicial system of this Commonwealth of ours. That is a very serious accusation. I would hope that the judge would take us up on that as a body.

The Chair:

Thank you. Go ahead Mr. Robinson.

Mr. Givens:

I would like the judge to bring in all parties —

The Chair:

Mr. Givens, Mr. Robinson has the floor. We heard you.

Mr. Givens:

Well Michelle brought up a very interesting point, Mr. President. I would like that the judge bring all parties that have been briefed on this contractual agreement into his chambers and find out what he wants to do with them, because right now it appears, it appears, and I am not condemning any of my fellow Councilmembers —

The Chair:

Mr. Givens, we heard you loud and clear. Mr. Robinson has the floor.

Mr. Givens:

Well if you'd let me say what I

want to say, I would have had it done fifteen minutes ago.

The Chair:

Well you finished and turned the floor over to Mr. Robinson. Then Michelle got in the act and you got back in. I'm trying to maintain some kind of order. Go ahead Mr. Robinson.

Mr. Robinson:

I'd just like to preface my brief remarks by having the record reflect a copy of the order that Judge Del Sole gave to me. I was a party to the specific meeting that Mr. Flaherty refers to and again the record shall reflect my comments in reference and in deference to this particular order.

I have not made any commitments relative to the issues that are being discussed now or any issues that were discussed in private with Judge Del Sole or any other parties to that meeting. I would just like to indicate that any decisions that I make will be based on what is good for the City of Pittsburgh. I have some specific concerns and I will raise those concerns in a public form at the appropriate time.

(BEGINNING OF ORDER FROM JUDGE DEL SOLE)

IN THE COURT OF COMMON PLEAS
OF ALLEGHENY COUNTY, PENNA.

STADIUM AUTHORITY OF THE CITY
OF PITTSBURGH,
Plaintiff,

vs.

PITTSBURGH ATHLETIC COMPANY,
INC., AND THE THREE RIVERS
MANAGEMENT CORPORATION,
Defendants.

CIVIL DIVISION
No. GD 81-09053
Code: 020-Equity
ORDER OF COURT

DEL SOLE, J.

ORDER OF COURT

AND NOW, to-wit, this 7th day of June, 1982, it is hereby ORDERED that the parties involved in negotiations with respect to the lease and other matters in the within-captioned case, to-wit, the Pittsburgh Athletic Company, Inc., Three-Rivers Management Corporation, Pittsburgh Steelers Football Club, The Stadium Authority of the City of Pittsburgh, the City of Pittsburgh and Mellon Bank National Association, their agents, servants, employees and counsel are hereby prohibited from discussing the matters subject to these negotiations with any firm, person or corporation who is not a party to these negotiations without the consent of the Court.

This Order shall remain in full force and effect until further Order of Court.

BY THE COURT:

Del Sole, J.

(END OF ORDER FROM JUDGE DEL SOLE)

Michelle Madoff:

Is it my turn, Mr. President?

The Chair:

Yes Michelle.

Michelle Madoff:

Thank you Mr. President. You are

a gentleman and a scholar.

The Chair:

Never mind, Michelle, please. Two Councilpersons have already — we're discussing this resolution and not the terms of this agreement between the Stadium Authority and all the other parties. Okay?

Michelle Madoff:

That is correct. I received my invitation from Judge Del Sole's office saying that they were briefing all of Councilmembers and I was to meet, that's why I questioned you, Councilman Flaherty, —

Mr. Flaherty:

You received it from the Judge? The Judge called you up and told you —

Michelle Madoff:

I can speak for myself, Tom.

The Chair:

Michelle, will you address the Chair.

Mr. Flaherty:

Well I find that interesting that the Judge called you up.

Michelle Madoff:

May I finish? I was called by the Judge's Chambers to say, would I be available for a briefing? I went there on my own accord. They asked if I would accept a gag order; I accepted it, and the reason I did it, and I would like to be on record, is that I am very distressed when I'm calling somebody in New York to ask about buying some shoes because I have

quads, and they tell me, "Hey, I understand the City's going out on a bond issue". I would have been happier if the Mayor had briefed us, be it under a gag order, and told us that we're going out on a bond issue. So I was delighted that when I got a call to say, "We want to brief Council". I don't want to find out in the street what's going on. And again I think we had a chance to have some input. I had a chance to ask some very pertinent questions, and I will tell you that what I've heard so far, I like the agreement. When I hear more, I may change my mind because I have an open mind. But I think it is the lesser of what could happen without discussing the pertinent points. I agree with you, Mr. President, that when the point and time comes, that we are presented as a body with all the facts, all the figures, all the data, all the alternatives. It will be ample time for the media to be informed. It's like everything else. If I were a media person, I'd want to know right away, because I wouldn't want to be scooped by anybody else. And I will tell you that some of the very bright lights in the media gave me some good questions to ask. And I asked those questions in the briefing, and I will probably pick up some more questions, even from Councilman Flaherty, concerns that he has that I will want answered.

But I think it is a far better thing the Mayor does today to brief us, at least, than going out and mortgaging the future of our children for another \$50 million as he did the \$80 million last year, and at least he told us —

Mr. O'Malley:

That isn't the issue, Michelle.

Michelle Madoff:

It is the issue. The issue is at least we were briefed. And we were not

briefed on the bond issue. And that's the point I'm making so don't tell me it's not pertinent.

While I disagree with my colleague, the reason I seconded the motion is I don't believe that anyone should not be heard and I respect Councilman Flaherty's right to be heard.

Mr. Flaherty:

I appreciate that, Michelle, but I just have one pertinent question for you. When you were seeking out your quad shoes in New York and they told you specifics about the bond issue, don't you feel that an analogy can be drawn to the point that I raised that there is free corporate discussion of this issue, and this is a public issue involving substantial amounts of public tax dollars, but we are going to let ourselves be gagged. Everybody is talking about this issue. We are going along saying we are going to let ourselves be gagged. I resent very much a judge trying to gag a legislative body. This is an issue that is bigger than the Stadium. This is an issue of principle where the legislative body of this Council is going to be gagged by the judicial branch.

The Chair:

You're repeating yourself, Mr. Flaherty.

I just wonder, I see Stan Savaran and Ray Tannehill, if we know of any trades we can inform those two gentlemen about. Is that why you're here, Stan?

Mr. Malley:

I disagree with my colleague, Mr. Flaherty. I don't feel that the Administration was lobbying in any sense. This is my opinion that the

Administration was just being gracious to try to inform members of this Council of the progress, if there was any progress, in negotiation with the Pirates to solve the dispute over the Stadium. It was to inform the Council of the Direction that they were going in and to ask for suggestion and input. They certainly asked me for suggestions and input.

There is nothing finalized with the Pirates. The Administration, I feel, was just conforming to the wishes of this Council, as Ms. Madoff said, to keep us informed on any major policy issues that affects this City.

Now it is easy for me to understand why the Administration is reluctant to take this Council into its confidence. Even served with a gag order by Judge Del Sole, after this the Administration could have nothing but reluctance to take this Council into confidence. I don't feel that there is any violation of public confidence by the Administration. I know that once an agreement is reached with the Pirates over the Stadium, that it will be brought before this Council for a public hearing and for full discussion. I feel that the attack on the Administration is unwarranted and undeserved, and I think it does a disservice to this Council and I think it does a disservice to Mayor Caliguiri's Administration.

Mr. Woods:

All Councilmembers can read this resolution. It's very plain what he wanted to say. He presented it and it was duly seconded. Everybody had their shot to say what they wanted to say --

Michelle Madoff:

I'm not through.

Mr. Woods:

I would like to vote on this issue.

The Chair:

Question called for.

Mr. Flaherty:

Wait. Discussion is not shut off yet.

Michelle Madoff:

Under Robert's Rules you have twenty minutes per person. Would you like me to pull the page. I come with Robert's Rules at all times, Mr. President.

The Chair:

Who's shutting you off? If you want to further discuss it — you spoke, he spoke five times and repeated himself five times. Are you going to repeat yourself?

Michelle Madoff:

No, I'm not going to repeat myself.

The Chair:

Alright, what are you going to say about this resolution?

Michelle Madoff:

Is it my turn? I don't want to be out of order.

The Chair:

Yes, but don't go off on bond issues and all the other stuff. Now what do you want to say about this resolution?

Michelle Madoff:

I wish to state that the initial violation of the gag order, I believe, did not come from any member of this Council.

The Chair:

Boy are you naive.

Michelle Madoff:

I was called like everybody else was called to see if I would substantiate or whether I knew things and I explained that I was under a gag order, but I think Mr. Flaherty makes a point. I think the initial violation of the gag order came from the private sector. And I believe, Mr. Flaherty, it's time you go on record. Did you or did you not violate the gag order?

Mr. Flaherty:

You are not Judge Del Sole and you are questioning my integrity and I resent that.

Michelle Madoff:

No, I'm not. I'm making a point that I think it came from the private sector.

Mr. Flaherty:

Well, if it did come from the private sector, it's not a violation of the private sector because they can talk about it. It is no violation of the public sector and I am saying let Judge Del Sole, if he feels it is reasonable of him, to find out who did violate this. I don't think we should get into any kind of —

Michelle Madoff:

You misunderstood me. I was

supporting your position that you read in the papers that they're talking about medallions and I hear about it in New York, and I'm saying that so many people are in on the negotiations that, indeed, you were being accused of having violated the confidentiality.

Mr. Flaherty:

I just want to respond to that. That is irrelevant and I don't respond to the Mayor's hirelings or his plumbers. I just want to get that on the record. I respond to the Mayor. If the Mayor has something to say in this issue, the Mayor can contact Tom Flaherty. As far as what Dave Matter said in the paper —

Michelle Madoff:

I'm sorry. I didn't mean to get you upset.

The Chair:

Alright, look. Personalities aside, we're going to vote on this issue.

Michelle Madoff:

Why weren't we all briefed together?

Mr. Flaherty:

I would just want to close my argument on this issue. I believe that if members of Council, if you vote against this issue, you are voting against the public's right to be informed and keeping them in the dark on negotiations that everyone else is aware of.

The Chair:

Baloney. Let's vote on the issue. And don't speak for the rest of Council.

Mr. Flaherty:

And if Councilman O'Malley's tone of what graciousness is is a gag rule, then I do not agree with that. If graciousness is a gag rule where they don't trust you, they smack you with a gag rule the second you walk in the room, then so be it.

The Chair:

You know all about honor, Tom, so you can speak very well on that subject. There's a question called for.

Mr. Givens:

Could we not hear from our Solicitor as to the validity of this vote.

The Chair:

There's no purpose any more, Dick. We wanted to know if we were allowed to discuss it. We discussed it for an hour.

Mr. Givens:

It's not on the discussion. I have a legal point that I'd like to have clarified if I could have him before the microphone.

The Chair:

Why do that before we vote? Why don't we vote?

Mr. Givens:

Because I don't want to vote on this issue until I hear from our Solicitor. Danny, could you take the microphone, please?

Is there anything that you have that you would like to give to this Council? Specifically, I'd like to know

the legislative right of any legislative body to pursue what Mr. Flaherty has proposed in this particular resolution. Would any legislative body be in violation of a judge's gag order, for example?

Dante Pellegrini,
City Solicitor:

I don't believe that the resolution violates the gag order. However, I do question the propriety of the resolution in asking that the judge rescind the gag order after every Councilmember agreed to it.

Mr. Givens:

You still did not answer. Does the legislative body, in its unique powers, separate from that of the judicial body of government, does not the legislative body have the unique power inherited to it and its elected officials?

Mr. Pellegrini:

All Councilmembers will have a right to debate this issue when the matters come before Council. If any individual Councilmember did not want to abide by Judge Del Sole's order, they had the opportunity prior to the briefing to say that they did not want to abide by it, and that would have been their choice. The Mayor had no obligation to brief Council until it came before this body, or Judge Del Sole didn't. By briefing Council and by accepting the provisions of the gag order you are now bound by it. You can always ask the Judge to rescind his order and he can do so if he wishes.

Mr. Flaherty:

I have some questions for Mr. Pellegrini. What is your legal opinion of Judge Del Sole appearing in the Mayor's office while members of Council are in

there, without anyone from the Steelers or the Pirates or any of the other negotiating parties present? What is your opinion of that? What is the legal opinion?

Mr. Pellegrini:

Judge Del Sole supervised the negotiations over the thirteen month period. I don't see anything wrong with Judge Del Sole's conduct in this matter.

Mr. Flaherty:

Okay. Would you say that an argument can be made, a very strong argument, that since this Council are public officials, and since this is a very public issue in every regard, that a question is certainly raised in regard to the distinction of powers between the legislative body and the judicial body, and perhaps there may be an intrusion upon the powers of the legislative body by the judicial body?

Mr. Pellegrini:

No, I don't think there's any intrusion whatsoever. Council could have, any Councilmember that was briefed, could have said, "I don't want to be bound by your order" and could have walked out. Councilmen could have discussed. It's like when you speak to a newspaper reporter and you say "off the record" there's freedom of the press but yet they abide by that agreement.

Michelle Madoff:

Mr. Pellegrini, let's return to the subject of going into the judge's chamber and agreeing to the gag order. Supposing I had gone in, or Councilman Flaherty had gone in and said, "No, I don't want this to be confidential. I do not agree to the gag order." Then we would not have received any information. Is that

correct?

Mr. Pellegrini:

That would have been their decision at that time.

Michelle Madoff:

What recourse would we, as members of the legislative body, have had to force all the information out into the open, which appears to be, everybody's talking about, everybody knows the details, and Council is being accused of violating the gag order when it came from elsewhere.

Mr. Pellegrini:

As you're all aware, when we have settlements of lawsuits, they come before Council for acclamation, for voting on the money. And that's what's going to happen here. There will be plenty of time for public discussions. I think it's quite evident that all of you are very familiar with public discussion.

Michelle Madoff:

You begged my question. I, personally, have stated earlier that I think that the public will be very well informed, the Council will have ample time to debate, and that I agreed to the gag order for many reasons. One, I wanted to know what was going on. But aside from that, I also felt I wouldn't have found out if I hadn't agreed to the gag order. And I also think it's a good agreement as far as it goes. However, I think Councilman Flaherty raises a very valid issue. Supposing, and you didn't answer my question, now acting for Council not for the Mayor. Remember David Lawrence said if I take it out of my right pocket I want a no answer and if I go to my left I want a yes answer. Now, I want a true answer. Supposing

Councilmembers in general, the majority of it said, "No, we don't want to be bound by the gag order." Could we have petitioned the Courts or the Mayor to say we want this to become public? What legal ground, what were the chances on it. An educated opinion, what would the shots have been to get the information?

Mr. Pellegrini:

You can always petition to have something changed. My understanding, since all of you agreed to the gag order, that would be somewhat of a mute question. The answer is, that you probably would not have been briefed at that particular point in time, because Judge Del Sole had issued a gag order, not only on Council, but on Administration members.

Michelle Madoff:

Which one of you spilled the beans? Did you spill the beans, Danny?

Mr. Pellegrini:

No.

Michelle Madoff:

You really begged my question, but you did it very eloquently.

The Chair:

Is that it? Thank you.

Mr. Givens:

I'd like to vote aye, and I preface that by indicating that the legislative body has their prerogative to keep the public informed. I would encourage, as the resolution so indicates, that we encourage the judge to lift this gag order so we can publicly discuss the issues

before us.

Michelle Madoff:

I'm going to vote that the judge lift the gag order, but I will not violate it as long as it is in effect. I vote aye.

Mrs. Masloff:

I vote no because I don't believe that a gag order applies in every single case. This is an unusual situation. I don't believe that there was any intent to make this a permanent order that we would be gagged in every instance. So I vote no.

Mr. O'Malley:

I vote no because I feel that there are very serious negotiations going on between the Administration and the Pirates over the Stadium. And I don't know of any negotiations that are held in a public form. I think members of this Council gave their word to Judge Del Sole not to discuss this in public, and I think if members of this Council cannot be responsible to their word, this City is in very serious trouble. I vote no.

Mr. Woods:

Mr. President, I vote no because I agreed to the gag order and I know as well as every other member on this Council knows there will be a public hearing, there will be a lot of discussions, we'll hear the pros and cons on both issues, it will go on for quite some time and the public is going to be informed. So I vote no.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the

bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Mr. Givens
Michelle Madoff

AYES 3

NOES 4

ABSTAINING 1

(MRS. MASLOFF, MR. O'MALLEY, MR. WOODS AND MR. DEPASQUALE VOTING NO)
(MR. ROBINSON ABSTAINING)

And a majority of the votes of Council not being in the affirmative, the bill was defeated.

Mr. Flaherty:

Mr. President, I just have a few very brief remarks.

The Chair:

On what?

Mr. Flaherty:

In regard to this issue, the vote.

This proposed agreement shoveled the lease agreement of Three Rivers Management Corp. to the City taxpayer. Currently the Galbraith's interests have attempted to break their legal agreement to maintain the Stadium.

The estimated 4.2 million dollar cost of repairs along with other Stadium amenities will be shouldered by City taxpayers to the new tune of at least 17.4 million dollars in addition to the

current City subsidies of 35 million dollars. And, this is only if the Galbraith's interest in the future do not again decide to break their lease.

I will not condone the shrouded bargaining process between the Administration and corporate interests for the most choice Stadium accommodations. Nor will I accept the twelve medallion contributions as nothing more than billboard advertisement in which there should be payment.

This corporate tactic is nothing more than a political maneuver to give the City taxpayer a sugar coated pill before sticking them with higher subsidies.

It is unfortunate that Council on this unprecedented gag does not have the fortitude or backbone to erase its rubber stamp image.

It is obvious that City Hall has a corporate voice, it is long overdue that the people of Pittsburgh have a public voice.

The Chair:

Thank God you don't speak for Council. We're going to have our right to vote at that table and we'll have our say then. Don't you speak for me. Ever. Don't you ever.

Mr. Flaherty:

Well there's questions about your conflict of interests. You shouldn't even be involved in the negotiations. Conflict of interests.

The Chair:

You prove it. You're out of order.

Mr. Flaherty:

Prove it? You're head of the ushers.

The Chair:

Look, baby, get off that table and do your voting.

Mr. Flaherty:

You shouldn't even be chairing this meeting.

The Chair:

I shouldn't chair the meeting?

Mr. Flaherty:

That's right. You shouldn't even be chairing.

The Chair:

What are you going to say —

Mr. Flaherty:

Because you've got conflict of interests.

The Chair:

Where's the conflict?

Mr. Woods:

Point of order, Mr. Chairman. Let's conduct this meeting. That vote is dead, the resolution lost, shouldn't even let him speak. Let's go on to the next resolution.

The Chair:

If I rule him out of order, he won't pay attention to it, and nobody wants to make a motion to adjourn to end this

foolishness.

Michelle Madoff:

We still have three more resolutions to go.

The Chair:

All he wants is publicity. Look at him laughing with his buddies there. That's all he wants to do. Publicity. And they all came out today for it.

Mr. Flaherty:

You can't stand up for anything.

The Chair:

You prove it. You say that one more time and you better prove it.

Mr. Flaherty:

Yeah, any time.

The Chair:

You don't get your point, now the baby's going to cry.

Mr. Woods moved to excuse Mr. Stone for absence from this meeting.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mrs. Masloff moved to approve the minutes of Monday, June 14, 1982.

Mr. O'Malley seconded the motion.

Which motion prevailed.

And on the motion of **Mr. Woods**

Council adjourned.

Also,

Bill No. 1089

Resolution entitled, "Resolution providing for a Contract or Contracts for the Reconstruction of Crane Avenue from Saw Mill Run Boulevard to the Norfolk and Western Railroad, including work on private property and other work incidental thereto; and providing for the payment of the cost thereof." (AS AMENDED IN COMMITTEE)

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

AYES 8

NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Mr. Robinson presented

Bill No. 1202

Report of the Committee on Planning, Housing and Development for June 23, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Mr. Givens:

Point of order. I think we have one Councilperson missing and we have a very important bill coming up. Could we ask the Chief Clerk to summon that person so they're here for the vote.

The Chair:

That person knows that 2:00 is starting time as everyone else does. We'll go on with the reading of the bills. If you want to recommit it, one of the bills or all of the bills, that's your prerogative.

Mr. Givens:

I just ask that that bill be held until --

The Chair:

We haven't read any bills yet. Wait until he reads the bills.

Mr. Givens:

I don't want to hold it over, Mr. President, I just want hold it until all members of Council are present. Not to recommit, just to hold it until all members are present. We have one member absent, I ask that the Chief Clerk send somebody out to summon that individual to the floor.

Mr. Givens moved to hold Bill No. 51.

Mr. O'Malley seconded the motion.

Which motion prevailed.

The Chair:

We're waiting until Michelle Madoff gets here.

Mr. Woods:

What if she doesn't get here today? I mean there could be weeks that go by that we don't have a whole Council.

Mr. Givens:

We have to vote it then. Just hold it until the meeting adjourns.

Also, with a **NEGATIVE** recommendation,

Bill No. 51

Resolution entitled, "Resolution approving a Conditional Use under Section 993.01(a)A43 of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993 for use of the existing structure located at 5899 Bartlett Street

by Hasina House, as a Group Residence Facility for eight dependent females, ages 13-18, with supervision, on property zoned "R2" Two-Family Residence District and identified as Block 86-M, Lot No. 266 in the Allegheny County Block and Lot System, 14th Ward."

Which was read.

Michelle Madoff:

Mr. President, I beg your indulgence, but my phone has been ringing about Hasina House. I had been on the phone, I couldn't even get here and I was waylaid in the hall.

I've done a lot of soul-searching, and as I stated during the hearing, others may not agree with me but I think I was the person who led the charge into opening up the "R1" and "R2" area. The Mayor did not, the Administration did not do it, but they did not veto it. This Council, we were the people that said we should share equally, not just one community. My house was the house that was picketed.

I really believe that we have to have this kind of facility next door to me, across the road. We all have to care about each other. I looked into the possibility of a six month trial and I was advised that once there's a six month trial, forget it, nobody gets moved out. You can say under the new review system nothing changed --

Mr. Flaherty:

Who advised you on that, Michelle?

Michelle Madoff:

I talked to a number of people.

Mr. Flaherty:

Who specifically?

Michelle Madoff:

I would rather not say that, but I talked to a number of people. I did my research and my homework.

We did have a situation where I think Mr. Stone was very, very helpful, and I'm sorry he wasn't here to advise us, and that was on the Women's Shelter. Do you recall what happened on the Women's Shelter? The building was not suitable first of all, but a second time go around, Council did find some funds. Is that correct?

Mr. Stone:

Council took care of that matter.

Michelle Madoff:

And I would hope that Council, on the upcoming budget, would feel that this is important enough to do likewise. And I pledge not only to vote for it in a suitable building, and go on record for that, and a suitable building being one that does not have a joint driveway, that has a backyard that can be fenced off and where eight young women, who we would encourage to have friends. I have a daughter, my daughter's twenty-two. She was between the ages at one point in her life of the young women who are moving in here, and I feel that because of that I cannot, and I hope you will respect my integrity, and I vote my conscience.

Mr. Givens:

Michelle did touch on something that I thought might be a compromise within this particular house for a very worthy cause. And that is to put it on a

six month probationary period. This would allow the religious group that is sponsoring this particular thing to receive the amounts of money necessary in order to rehabilitate the facility and give a chance to those neighbors there to look over the situation on a six month probationary period.

I think this is good in more ways than one. I think when people find out how these homes are conducted, it gives the people in any of our neighborhoods a better opportunity to understand what is moving next door to them. Not that any group or any individual institution would move next door to them and then find out that they really have a monster on their hands, or likewise, that they thought they might have a monster and that monster really did not turn out to be much other than a little --

In this particular case, I think we have to feel where these people are going to be located at. One of the variances that this Council must give, if we do approve this, is the fact of four thousand square feet versus six thousand square feet of property in the home itself. I have to go back to my own experience, coming from a large family, having eight children and living in various configurations, including small and large, and I'd have to say in my experience, with a large family and with a large adult family, that four thousand square feet is not unreasonable. If anything, it's a very acceptable standard in most families. That generally generates seven, eight, nine bedrooms in a particular home, each one having their own individual house. If any of us know teenagers, the only thing they're going to use the backyard for, primarily, is maybe to do a little bit of sunbathing. Otherwise, they're down to the local community areas and they still have they're own independent lives to live with friends and et cetera and this is a

transitional period that they're going to be in this house. They won't be in it for long periods of time. It's a transitional to get the children out of a very serious environment, put them in one where they're safe and secure, something where the children can go to. Right now, if you have a problem within the immediate family, there is no place to go to. This gives that particular outreach to these children that need it very, very desperately.

I put a motion on the floor that we accept this particular bill with the intent of amending it to include that this will be a six month probationary period after the time of construction. Otherwise meaning that after the house is rehabilitated for its use, the clock will start six months from the time of occupancy of the children and their house mother. I make that in a form of a motion.

Mr. Flaherty:

I'll second that amendment.

Mr. Robinson:

Point of order. I believe that the relevant laws of the City of Pittsburgh preclude what Mr. Givens is suggesting. We do have a group home ordinance which spells out how these facilities are to be regulated. The six month provision that Mr. Givens is suggesting is inappropriate. The period of time listed in the ordinance is one year, which is more than an adequate period of time. If we restrict Hasina House to six months, I think you are discriminating against them, putting them in a prejudicial position on this matter. I think it's a question of whether or not we are going to give the Hasina House Board of Directors ample opportunity to be evaluated by the community, the same opportunity we have given all other

group homes that we have approved. And I would strongly recommend that this Council not violate it's own law in trying to set up a special situation for Hasina House.

Mr. Flaherty:

I concur wholeheartedly with Mr. Robinson's argument and it has changed my mind. I withdraw my second.

The Chair:

Apparently we have a legal matter here. Mr. Givens, do you withdraw your motion?

Mr. Givens:

I withdraw the motion.

Michelle Madoff:

Mr. President, I beg your indulgence. Sophie Masloff just brought something to my attention which I think is very pertinent to this discussion, and she has sent someone to her office to get a letter that she would like to share with us. And while we're waiting for that letter to come — it's on the subject — and what I would like to share with this Council is that we have other places in the City, and I think Councilwoman Masloff is going to address the issue in her own way, but we have other places. Where I was picketed —

The Chair:

Begging your indulgence, Michelle

—

Michelle Madoff:

I'm addressing the issue. Just one moment. I'm not through and I haven't yielded the floor.

We have other groups where, as I say, they picketed my house and then after they picketed and we opened up the "R1" and "R2" and this group home is in violation because of disruptiveness in the area, the people in the area said, "Look, we need a place for these boys. Just let them stay." If we pass this bill with the one year trial period as it is, we would have to go back on every single group home now and start shutting them down because the one on Craig doesn't meet the standards, there are others that don't meet standards, and as I said, I hope Councilwoman Masloff, -- the letter isn't here and I don't think they want to wait -- would address the issue.

Mr. Flaherty:

I speak today in support of Hasina House and I believe that this Council has neglected to talk into explore the argument that virtually any transitional home can, and are, and probably will continue to be open to criticism. The bottom line is, is this Council going to cut some slack, is this Council going to stay in the leadership role, which I think for the most part it has been, in regard to transitional homes.

This case sort of reminds me of the old adage, if you're wealthy enough and if you can hire a good attorney, you may not be metted out the same harsh sentence that a poor person may have who cannot hire a high caliber attorney. And it has been my experience on Council that when people come in and hire attorneys and can hire consultants to make high powered arguments and criticisms of transitional homes, they invariably win. And I believe that we have to look at transitiona homes in respect to the entire City. Eighty percent of the neighborhoods in this City, and I believe all of us on Council would agree, are saturated with transitional homes. They are carrying

more than their share, their commitment and their responsibility.

The Beacon House transitional home, which was in front of this Council approximately eight or nine months ago, that was in the immediate area of where the proposed Hasina House is, was also argued by attorneys and consultants and this Council turned that application down.

As far as addressing the specifics of the Hasina House, I feel it could not be in a more ideal location. It's a corner house to start with, first of all. I believe that's very essential. It has received a grant of \$128,000.00 from the State and it is incumbent upon receiving that essential grant that Council approve this Conditional Use application by the end of this month. Otherwise, who knows where that money is going. We are all aware of the over-crowded conditions of the McIntyre Shelter. And I think this Council is most sympathetic; we have passed a few resolutions in regard to the victims of child abuse and incest, and so I think that's indicative that we are very sensitized to their plight. And these are people that probably need love and protection and shelter more than anyone and will probably, in my mind, strictly in my opinion, will not be people out raising all sorts of chaos in the neighborhoods. I think a victim of rape or incest or child abuse, if anything, is going to, unfortunately, be a most withdrawn person who needs confidence from this community. And I believe these victims, more so than probably any other segment of our society that is served through the virtues of transitional homes, are in need of the Hasina House. And I think it's hypocrisy to say, and I am addressing this to Councilwoman Madoff, that we will look, that she will be the first one out front to look for another home, because we hear that argument every time; we don't have the guts to support the

underprivileged in this City. I urge my colleagues to stand up to some political pressure and some special interest community pressure and stand up for the people that need stood up for.

Michelle Madoff:

I am deeply offended, Councilman Flaherty, because if there's anybody on this Council who for a year and a half, when the votes were in, it was always eight to one, when you brought up the resolution on districting, I seconded you motion. Frequently I've taken a very unpopular political position because I have the guts to vote my conscience and I'm sure you're clearly implying that you do not. I know the good gentlemen that are sitting out in the audience. I've known them socially, I've known them personally, and I think they're outstanding, caring people, and I'm just as caring as they are. We have a difference of opinion.

When you say, "we'll look into it, and I pledge", and you obviously meant me, to look into another source of funding, I would remind you that even Mr. Stone, who is not my favorite person and that's the understatement of the year, has stated that, indeed, on the Women's Shelter we did find other monies. And to imply that we cannot do that is ridiculous. Furthermore, I would like to see the same plea when we go into budget time so that we find the monies available to make sure this becomes a reality because I agree with you and I think every member of this Council, no matter how they vote, agrees with you that it has to happen. We've got to help people in every community.

You've offended me and I think you should apologize to me.

Mr. Flaherty:

I don't agree with that. I think this City is over-burdened. Areas like Southside and Bloomfield and Garfield and Morningside and East Liberty, they're saturated to the point of no return and they still don't come in and put up a high-powered defense when we continue to go into their neighborhoods. And it's about time that the entire City share responsibility in transitional homes.

The Chair:

If I may, Mr. Flaherty, Michelle Madoff, you made these very same points at the Finance Committee meeting. You're repeating yourselves. It's all well and good. Now Sophie, if you have a letter to read into the record.

Mrs. Masloff:

No, not necessarily. Tom, who are the high-powered defense? As far as I knew it was just the neighbors.

Mr. Flaherty:

They brought an attorney in, they brought consultants in. On the Beacon House there were attorneys, there were psychiatrists from Pitt and to repeat, this is analogous to the poor defendant that can't hire the high-caliber attorney and he gets sent up the river and the other one who has a supreme defense receives the lesser term and I see a direct analogy between high powered consultants that are coming in defending certain areas whenever this Council attempts to spread the responsibility of the entire society. And other neighborhoods, strictly because of economical reasons, can't afford attorneys or can't afford psychiatrists or consultants to come and argue their point.

The Chair:

Okay. We'll take this bill separately, and I want to caution Council that this is a negative recommendation. To vote for the Hasina House you have to vote aye and opposed nay.

Mr. Stone:

I am at a loss to understand the kind of actions being expressed here. Everybody says we're talking about a good thing and yet there seems to be so much violence in the voice, I almost shocked with what's happening. But I can't sit here without making one comment, and that is, I think it is wrong to attempt to divide our City, whether on an economic strata or on some geographic strata. I think it is wrong to imply that this Council looks down on any community that can't afford to have legal counsel here and the converse, I think, is also true. It would be wrong for this Council to, in any way, attempt to besmirch anyone who came here with talent, with psychologists, with attorneys or anyone else. The whole object here in City Council is for us to sit here and to listen to everybody put their best foot forward in a way and in the fashion and with as much ability and talent as they might. I don't think that we should be looking at that adversely. We here, are supposed to be people who are looking at things fairly, we're listening to it, what we like to hear, we hear. What we don't want to hear, we don't want to hear. What is meritorious shall be honored, what's not meritorious shall be put aside.

I think that anything that needs to be done here is to find out first of all, whether the cause is just, and from what I can gather here, there seems to be unanimity in this type of group residence, that we should have these kind of facilities. And I think it would be grossly wrong, and I'm sure that no one

can oppose the general good intent of these kind of group residences because they do have a good meaning. Somebody has to be their brother's keeper and I think that's essential.

The issue here today is one that I think ought to be handled rather lightly. And that is whether or not that particular location fits what's involved in this case. And we don't need all of the excitement that seems to have been generated here — I'm right, you're wrong or you're wrong, I'm right, I was right yesterday, you're wrong today — who cares? The issue is whether or not this particular residence should or should not be approved and I think we ought to get down to that issue.

Mr. Flaherty:

I would just care to respond very briefly in a very composed fashion.

We are all aware of the Voting Rights Act that was just passed in Washington. And the big argument was over intent and effects. And this can be held true in this Council. What I'm saying is no one, including myself, is challenging the intent of anyone who comes into this Council. But when the effects of a policy over years in this Council, such as the effects of the Voting Rights Act of certain municipalities showed that they tend to discriminate against a certain segment of society, then we, such as Congress is doing, then we have to start to look and have to start to dig into what causes that effect that tends to discriminate. And that's all I was trying to do here. I'm saying, certain areas are carrying more than their responsibility on group homes.

Mr. Stone:

Mr. President, I don't see any discrimination here. I see a common

situation. Most people don't want group homes in their residency and it's a matter that they'll all fight. That's understandable. That's something that's human nature and that's to be expected. To say the Fourteenth Ward is discriminated because they don't have a lot of them there, obviously there's some considerations that show why it's not. It's more expensive to be there. And I think that when we sometimes look at these things, some of those people in that area are paying more taxes than anyone else, but they still are paying for a private police force to watch their homes. If anyone's being discriminated against, they are, because they have money. And I think that's not fair. I think we ought to leave that kind of economic discrimination and considerations out of this picture. We've got to get down to the issue involved.

Michelle Madoff:

Mr. President, I'm sorry, but I live in the Fourteenth Ward and I remind this Council before Mr. Flaherty got here, you, sir, and the rest of us, led to open up to have group homes and "R1"s and "R2"s, the areas the Fourteenth Ward and other areas, and the fact remains that I cannot think, perhaps you can, of any group that ultimately didn't get a place, including the Women's Shelter. And that is not a fair commentary.

The Chair:

Call the vote, please. Aye, in favor of the Hasina House locating on Bartlett Street, nay for against it.

Mr. Givens:

I vote aye. I was not here for that public hearing. I read the testimony of that, especially Thomas Halloran who is in the office here on behalf of the United Mental Health, and I have to have a

great feeling of compassion here. It's just a long procedure that this particular group has gone through to establish a house. I have to appreciate that this Council has established, probably a state-wide if not a national ordinance, to take care of our homes here. For that reason I vote aye and I would hope that the neighbors who live abutting to this particular home will have the goodness of their heart to visit that home and try to help these young teenagers out.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mr. O'Malley	Mr. Woods

AYES 6 NOES none

(MICHELLE MADOFF, MRS. MASLOFF
AND MR. DEPASQUALE VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Michelle Madoff:

For the record. I think it should be stated that all of us will do whatever we can, since it has passed this Council, to do what we can to make it a viable entity.

Also, with an affirmative recommendation,

Bill No. 1065

Resolution entitled, "Resolution authorizing the City of Pittsburgh to convey and the Urban Redevelopment Authority of Pittsburgh to acquire all of the City's right, title and interest, if any, in and to the City-owned property in the Nineteenth and Twentieth Wards of the City of Pittsburgh designated in the Deed Registry Office of Allegheny County as Block 5R Lots 100, 150 and 200, under the Neighborhood Housing Fund."

Resolution entitled, "Resolution approving execution of Contracts for Disposition of Land by and between the Urban Redevelopment Authority of Pittsburgh and listed redevelopers for the sale of properties in the Twenty-First Ward of the City of Pittsburgh in Redevelopment Area No. 27."

Which was read.

Michelle Madoff:

Mr. Robinson, on Bill No. 1112, that was the one I abstained on the other day, based on non-sufficient information. Is that correct?

Mr. Robinson:

Yes.

Michelle Madoff:

Okay. I just want to make sure I know what I'm voting on.

Michelle Madoff:

I would like my comments on this bill brought forward from Wednesday.

(BEGINNING OF MICHELLE MADOFF'S
REMARKS ON BILL NO. 1112,
WEDNESDAY, 6/23/82)

Michelle Madoff:

What are these? Are these people who were transferred to other areas like Bloomfield where they had to relocate them? Are these relocations?

MR. ROBINSON COMMENTS

Michelle Madoff:

Are these sidelots?

MR. ROBINSON COMMENTS

Michelle Madoff:

Mr. Brophy, how did these people come into knowledge of these properties?

Mr. Brophy:

Some of these are sideyards.

Michelle Madoff:

Why aren't they marked so? They are supposed to be under law. We changed the rule. They have to be marked sidelots. Is that right, Miss Johnson? Would you make sure that URA is aware of that, as well as Lands and Buildings, please, by note today with a signed return to all members of Council?

Mr. Brophy:

Let me give you the breakdown. Three properties, Property 47B going to Bernard Markovitz on Sedgwick Street is a sideyard; 119A going to Robert Williams is a sideyard; and Property 10B going to Dewey L. Bryant and Elizabeth Cotton is a sideyard.

Michelle Madoff:

Don't you think that would have

been helpful to us to have had that information, just S.L.?

Mr. Brophy:

Sure. I know that the fact sheet on these is communicated to Council along with the legislation.

Michelle Madoff:

I have the thing here, but what I'm trying to get at, and I've said this before, and you haven't been here — we're not computers, and sometimes you read through so much material. It's like Louise giving it to Mr. Stone, and I don't know what's happening. I read the bills, and I check that out, but I'm not interested in the sidelots. Sidelots are an aside. Bernie Markovitz on the 47B is a sidelot. Is 47C a sidelot?

Mr. Brophy:

No. 47C is a structure, so he's buying the structure for rehab and the sideyard to go with it.

Michelle Madoff:

How did Bernie Markovitz know about this? I know Bernie quite well.

Mr. Brophy:

All of these applications were taken through the Manchester Citizens Corporation, Stanley Lowe's organization, as a contract with the Redevelopment Authority as market properties in Manchester.

Michelle Madoff:

Bernie Markovitz does not live in Manchester. He is a Republican attorney who lives in the Squirrel Hill area

Mr. Brophy:

There is no problem with someone from outside the neighborhood buying a property.

Michelle Madoff:

Fine. Now, why didn't I know about it? I want to buy it, and I'll bid higher on it. Now, I'm just going to make a point. I just want to make a point. He's offering to buy the property and the sidelot for —

Mr. Brophy:

Eighteen hundred dollars.

Michelle Madoff:

I'll give you two thousand dollars. Can I have it?

Mr. Brophy:

No.

Michelle Madoff:

Why not?

Mr. Brophy:

Well, you can have it if Council rejects it.

Michelle Madoff:

I'm making a point. Could somebody out here have it for \$2,100.00?

Mr. Brophy:

Well, we don't auction these off. Rather, people who come in and develop redevelopment packages for these — we want to have some sense that he had the ability to rehab.

Michelle Madoff:

So do I. I built my own house. I put in my own patio with my own little pinkies, okay? Now, I put in 3,000 bricks. I designed my own house. I subcontracted my own house, and I'm a very bright lady. I want the same option that Bernie Markovitz has. Is there anybody out in that audience that doesn't want the same option?

THE CHAIR COMMENTS

Michelle Madoff:

But that's what the issue is, and that's what Bill Robinson is talking about.

THE CHAIR COMMENTS

Mr. Brophy:

Yes. If I may, Mr. Chairman, let me point out what I think is the contradiction. A minute ago you asked me how long did it take to do the Great House Sale and why don't we use developers instead of just doing things at general auction lottery to get things moving quickly. That's what these are.

Michelle Madoff:

I'm a developer.

Mr. Brophy:

Well, then, go over to Manchester, knock on the door, and apply, and you'll be treated as any other applicant. You'll be given a fair shake to try to get a redevelopment package done. The point is, it doesn't make a lot of sense to work with Mr. Markovitz or anyone else if, after they put the time in to develop the redevelopment package, somebody comes in and offers \$100.00 more, and they lose the deal. We have to operate in good

faith. I think the point of being equitable is to make sure that we're not showing favoritism to any one developer who is walking in the door, but there are, I think, just procedures and equitable procedures to the public person to get people in who are going to provide the rehab that needs to be done. Our objective here is not to make \$1,500.00 or \$1,600.00 per sale but to get this property rehabbed.

Michelle Madoff:

I want to address that. We're being unfair, because you're saying I could go over to the Manchester area -- and these happen to fall in the Manchester area, is that right?

Mr. Brophy:

These are all in the Manchester area.

Michelle Madoff:

But we have them in the 20th; we have them in the 28th; we have scattered sites on the South Side, which is a very stable community. We have some great ones on the North Side. That would be a bundle over there. The point that I'm making is, you're using this to say, "Well, the Manchester people, I had the opportunity to go over and look," but the fact remains that it isn't so widely advertised that people really know. Let's take it away from Manchester. Maybe I used a bad example, because I think your point is well taken. You've got to act in good faith. If you cut a deal with somebody, you don't go back because it's \$100 or \$1,000 more. You and I have no disagreement on that. What we do have a disagreement on -- take it out of Manchester. Pretend it was on the South Side. I want to know that everybody has that option. One of the shell games, the shell game that's being played in this

City is when you want to negotiate something, you get it transferred out of Mr. Smith's department in Lands and Buildings into your department where we have no control on it anymore, and that's how all these things happen, and I'm really not going to put up with it. I wrote a paper three and a half years ago, and if I have to take legal action to stop this, it's going to cease and desist, and that's the way it's going to be.

MR. WOODS COMMENTS

Michelle Madoff:

He's not. He's an attorney.

MR. WOODS COMMENTS

Mr. Brophy:

That's right. He'll be rehabbing this for either resale or --

Michelle Madoff:

So are you a developer. He's an attorney by profession who just happens to deal -- If you look at the Sheriff's Sales, you'll see Markovitz's name all the time, and Markovitz knows, and he's familiar with real estate; but, Ben, you're just as smart as he is. As a matter of fact, in building, you're probably smarter; and if you knew about this deal, maybe you'd like to make some money. I don't care about you or me. I just want everybody to have equal opportunity, forgetting Manchester. You understand what I'm saying.

Mr. Brophy:

We have more vacant properties in Manchester now than we have developers for those, so if anyone in this audience or anyone who's watching this on cable TV wants to go over to Manchester, please do.

Michelle Madoff:

Is cable TV on this?

Mr. Brophy:

We've been trying to get developers in Manchester for a number of years.

Michelle Madoff:

This is going to replace the Gong Show. I'm going to abstain.

(END OF MICHELLE MADOFF'S
REMARKS ON BILL NO. 1112,
WEDNESDAY, 6/23/82)

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Mrs. Masloff	Mr. Woods
Mr. O'Malley	Mr. DePasquale (Pres't)

AYES 8 NOES 1

(MICHELLE MADOFF VOTING NO)

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Bill No. 1205

Report of the Committee on Public Safety for June 23, 1982 transmitting one ordinance to Council.

Which was read, received and filed.

Also, with a **NEGATIVE** recommendation,

Bill No. 696

An Ordinance entitled, "An Ordinance amending the Pittsburgh Code, Title Eight, Fire Prevention, Chapter 803, Amendments, Section 803.01 Changes Specified by amending Section F1702.2 to permit self-service dispensing devices with conditions and deleting the prohibition of such stations." (AS AMENDED BY SUBSTITUTE)

Which was read.

Mr. O'Malley:

I'd like to say a few words. This bill was not put up because Jim O'Malley thought there should be self-service gas stations in the City of Pittsburgh. This bill was put up and introduced by me because the majority of dealers in the City of Pittsburgh who own gasoline stations are having a very hard time competing for survival against the competition from the suburbs. Unless we lift the ban on self-service gas stations, many of these dealers are not going to be in business three months from now, and six months from now, because it is very competitive competition, not only from the suburbs, but also from people who have entered into the car care field such as JC Penney, Sears and Roebucks and Goodyear.

People are no longer able to run full line gasoline stations in many areas of the City of Pittsburgh. Many of them have to be able to change over to self-service just to survive. It's very important in this business for some of these people to streamline their operations and to make it as cost efficient as possible.

I'd just like to remind my

colleagues of a number of things that came up during the hearing. Of over ninety dealers in the City of Pittsburgh, only two dealers spoke out against self-service gas stations. What they said is, "I don't want self-service gas stations for my gas station, but also, I don't want anybody else in the City of Pittsburgh to have it." The fifteen dealers who spoke in favor of self-service gas stations were saying, "Give me an opportunity to compete fairly". Certainly, if some of the dealers want to stay full-service, they certainly have that choice.

I don't think it's too much for this Council to give these men an opportunity to run their business as effeciently as possible. Most of these people live in the City of Pittsburgh, they work in the City of Pittsburgh, and they certainly pay taxes to the City of Pittsburgh.

Another argument that was used is that it would cause unemployment. I've done a great deal of research in this because I'm just as concerned as every other Councilmember about unemployment. We have a feeling that if self-service comes into the City of Pittsburgh, there will be additional stations opened up.

There are many stations that cannot compete with Sear and Roebuck and JC Penney. They want the opportunity to convert to convenience stores. Convenience stores employ twice as many people as a full-service gas station. Most of your self-service gas stations are open twenty-four hours a day. They have to run three shifts of people. They employ on an average of seven people. Your full-service are open twelve hours a day.

The dealers that argue that there is no difference in price between full service and self-service is ridiculous. Everybody knows that there's a

difference in price between full-service, and by many services are saying that there's a difference between mini-service and full-service.

What struck me as unusual at the hearing is that Rudy Molnar, who owns a gasoline station, who is the head of the Dealers' Association, did not show up for the hearing. And he stated the reason that he did not show up for the hearing is that the majority of his members who own gasoline stations in the City of Pittsburgh are in favor of self-service gas stations. Mr. Haddad, who is the President of the Association of Retail Gasoline Dealers, stated to this Council that the majority of his dealers are in favor of self-service gas stations.

In 1978, this Council rejected self-service gas stations because they were said to be a fire hazard. In 1982 that was proved untrue. Self-service gas stations are as safe as full-service gas stations. In fact, the only building in the City of Pittsburgh that would be safer than a self-service gas stations are fire houses themselves. So that argument no longer holds true.

The Pittsburgh Fire Department recommended self-service gas stations. The Pittsburgh Board of Code Review recommended self-service gas stations. The fear by some of my colleagues on this Council that is we permit self-service gas stations in the City of Pittsburgh, that ninety dealers are going to run out tomorrow and convert all their stations over to self-service is ridiculous. State-wide and national statistics prove that 61.9 percent of the stations in the City of Pittsburgh will stay full-service. They will be able to accomodate the elderly, the handicapped, and the people who do not want to pump their own gas. This Council does not have the right to deny people who are on unemployment or on a

fixed income the opportunity to save a few cents on a gallon of gasoline if they choose to save a few cents.

I'll give you just one instance; in Wilkinsburg, there are nine gas stations. They've had self-service allowed in Wilkinsburg for a number of years. Out of nine gas stations, seven are still full-service and only two are self-service.

I'll just say it one more time. There is no legitimate reason not to permit self-service in the City of Pittsburgh, and to give our dealers, who pay taxes and live in this City who operate a business, the same chance to compete with the suburban stations.

The Chair:

If I may answer Mr. O'Malley, in regards to the vote in '78, which I took part in, there was another compelling feature, in fact two, as to why we voted against self-service. One was that the dealers, almost unanimously, wanted full-service. Two, the public wanted full-service. Now the dealers have switched. Now they want self-service. The public, as far as I hear, from my understanding, still wants full-service.

Mr. Flaherty:

I am opposed to the self-service stations in the City of Pittsburgh and I will try to be extremely concise. As Councilman O'Malley has said earlier, why some of the dealers in the City are interested in having self-serve is that they feel that they will go under because they are competing with the suburbs. Well if that holds true, if you have self-serve in the City of Pittsburgh, then self-serve is going to put out of service those full-serve stations. For example, in Philadelphia, which a few years ago went self-serve, and these are statistics from the Pennsylvania Commerce

Department. In 1980, there were 1,180 service stations in Philadelphia. Since the inception of self-serve, there are 791. We see a decrease of over a third of the stations, just in the last two years, have closed in the city of Philadelphia. What this does then, is, it takes away the right of choice. It's going to take away the right of choice from the consumer because self-service stations are going to put full-service stations out of business. And the reason why they're going to do that is because they're much cheaper to construct, to start with. Second of all, they don't have to have the payroll, and the payroll they do have is unskilled payroll. It's a cashier; it is not a mechanic, for example.

So, actually, the inverse is going to happen. It's going to take away the right to choose from the consumers. And I should just want to say in finishing that the devorcement bill, which is now in Harrisburg, from conversations I've had with friends in Harrisburg, seems to be a ruse in that this bill does not stand much of a chance at all of gaining passage. And you can be rest assured that the American Petroleum Industry is watching this vote very closely. In fact, I know they are. The lobbyist for the American Petroleum Industry is a former State Senator from this area and he's been in Council Chambers while we have had this debate.

So what this is coming down to — it's big oil companies are going to masquerade under looking out for consumers, put in self-service stations, take away the right to choose. Once that is away, the price will be inflated because there will not be that competitive edge. And what will happen is people, handicapped people, for example, elderly people, just those people who choose simply not to pump their own gas, will not have a choice. For example, I ran out of gas in

Homestead approximately a year ago on Eighth Avenue and the only station that was open was a self-service station about a block and a half up from the Homestead Highlevel Bridge. So I went there and the person wouldn't even come out of the booth. They had no can. I just asked them for a can, if need be, an oil can, they didn't even have that, to put some gasoline in. And this is just an example of what will occur because there will be very few full-serve stations in existence.

Just one other thing. Jim throws out some figures, and these are very speculative figures. He says, "Statistics show that 61.9 percent of the stations will be full-serve stations if self-serve comes into the City of Pittsburgh. That's gingerbread, that statistic is right out of a puff piece put out by the American Petroleum Industry. And they are the backers of this bill and we should support our consumer constituency and not the oil companies.

Mr. Givens:

Mr. President, it's unique that Mr. Flaherty had brought up the Philadelphia situation because in Philadelphia I was this last weekend. There are no laws or ordinances governing self-service. Dealers can set up self-service any time, any way. I think if we look back on our own Council's ordinance, it was back in '78 that this Council prevented self-service stations from coming into the City. If a positive vote for self-service would only put it back in alignment that we leave the free enterprise system do what it might and let the people of the City of Pittsburgh decide where they want to buy their gasoline. My own observation within the Philly area, it looked like there was a difference of five to ten cents a gallon cheaper for the self-serve versus the full-serve. Up there, in my observation, it appeared

that it was either-or. Either it was full-service or self-service. There was no mini-service or anything of that type. The people in Philadelphia have not complained according to Lou Menna, License and Inspection Department, since this has gone into existence up there. One thing that Philadelphia doesn't have, and Jim, I would like to, at some future date, very early, to incorporate it into this particular ordinance and that is, they do require safety canopies and they do require a suppression-type kit to put out any fire that might start.

One other thing that I would like to add is within these particular self-service stations, that we can get water, air, and some time of device to clean a windshield. I think that would satisfy about ninety percent of all those people who would be walking in there to use that particular facility.

Michelle Madoff:

Mr. President. With all due respect to my colleague, Councilman Flaherty, I think he made one of the greatest arguments for self-service stations, because he was out of gas and thank God there was a self-service station open.

We've also learned that, for example, I drive to Hilton Head in the summer and I find that, thank God, when I'm driving at night, out of the sun, that I can get self-service. What is he saying, with all due respect to my colleague, who I'm very fond of, that big oil is not going to single out Pittsburgh. Is that what you want? They can go into Wilksburg. They can go to Braddock. They can go anywhere they want but not into Pittsburgh. That's ridiculous. I did some research as well and I found out two things. The people who own the gas stations have promised me, the ones who

lobbied before us, and asked us to let them do business as they wish. They are going to put out a published list in the newspapers of where you can get full-service so that when I'm out at night, and all the other stations who came in and pleaded with us because they close at six o'clock, they've made their big bucks during the day, I'll know where I can go if I have a broken light or a flat tire, and so on.

Councilman O'Malley said that he voted — it was not his bill; it was a bill of the dealers who changed their minds. That's not my reason, Councilman O'Malley. My reason is that unlike you, Mr. President, you're mail and your people contacting you had said that they would prefer full-station. Maybe you're hearing from a lot of senior citizens who say "I want it". Well, I'm a senior citizen; I'm over twenty-two, and I am a clutz. I'm totally mechanically inept. The one time I tried to serve myself with self-service gas, I got it all over me.

The Chair:

If I was there with a match, what would have happened?

Michelle Madoff:

You would have got lucky, baby, but you would have gone up in flames with me.

However, I don't believe that I have the right to deprive the people that we represent and there's an overwhelmingly vote, I would say that it is at least three or four to one, if you poll people who say "Don't you decide for me whether I have the right to go out and get gasoline all over me." With the new attachments I believe you won't have that happening. If I want to save some money, I have that right.

I happen to live at the top of Commercial Hill which is on Mt. Royal Road, and I can go down two minutes, down Commercial Road, hit the Swissvale self-service station, get my gas cheaper, and then head on into Squirrel Hill, if I wanted to save some money. So I don't think that we ought to say big oil is only going to discriminate against Pittsburgh and we should give people the right to choose.

I do want to close by saying something very important. If this does not pass, I can assure you that the people who are being discriminated against are going to go to court on a constraint of trade argument and usually anti-trust attorneys, and I would gather they would win and I personally will act as an amicus on their behalf, because nobody, we do not have the right to tell people if they want to save money when they're unemployed that they can't go out and get their own gasoline.

One little funny story. I heard that the City had a self-service station; that the men could go down and pump their own gasoline. Well, it turns out that while they can do it and many of them do, we do have somebody there because of the oil and because of the other things and it was not a true story. But the women I checked it with in the Supplies office said, "But I'll tell you, Michelle, when I go to get my gasoline, if I possibly can, I go out of the City because I can buy it cheaper in the suburbs."

The Chair:

Michelle, we do have some full-service stations open twenty-four hours a day, not that many of them, I agree with you. We had quite a few before but robberies obviously caused them to close. It just wasn't safe to be open after midnight into the wee hours of the

morning. The same is going to hold true of self-service. The gunman isn't going to shy away from self-service stations any more than from a full-service station.

Mr. Flaherty:

Except, Mr. President, who they're going to be robbing in the self-service station is the consumer because the cashier is in the bubble, and they don't come out of the bubble for anything. So if anybody is going to be robbed, it's going to be the consumer that's getting out of the car to pump their gas.

Mr. Stone:

Mr. President, if I may. I'd like first to preface my remarks with a bit of consistency. We talked earlier about lobbying efforts or ability of people to put their best foot forward. I don't know that we've been as lobbied as vigorously and as long and as persistently and as consistently as we have by these gas dealers. We've had them in our private rooms, we've had them in the private halls, we've had them in the Clerk's Office, we've had them in the hallways, we've had them in the elevators, out of the elevators, first floor, outside, in these Chambers, at the table, away from the table, in the bathrooms. You name it, we've had the full gammon. And I would just like to say in advance that I have no objections to their efforts. That's their right and like I said earlier, I'll listen to it and make my own decision. I would like, as well, to commend Councilman O'Malley for putting forth what I think is the best possible to put forward what he can for this particular position. But as I indicated earlier, the final decision is mine and I'd like to just make a couple of comments if I may.

I'm told that we can go out of City to purchase our gas. I'd just like to remind people that when you go out, you need gas to get there; you need gas to get back. And gas is going to cost you to get out there and gas will cost you to get back.

Michelle Madoff:

Not if you live on the border of the City.

Mr. Stone:

I didn't interrupt you and you'll pay that courtesy even though it's tough.

Michelle Madoff:

Certainly.

Mr. Stone:

I believe that the consumer in the City of Pittsburgh wants some service and I think the City of Pittsburgh offers something to the service station operators that the outside doesn't quite offer, and that is the immediate density, the immediate customer, the potential customer right there. And in that connection I think that they're entitled to some service. And as Councilman Bulls once said, and I think it's a valid point, if you want to know what the people think go out and talk to the people. I've had an opportunity to see it. I stopped in a gas station one time, at least I thought it was a gas station, and one of the very basic things was do they have a can for water. They had no can. I asked them then if they had an air pump. No air pump. I was told, however, if I wanted a candy bar that I could get that somewhere on the shelf and that was self-service. Relative to that aspect of it, the lack of service, getting our windshield wipers cleaned, changing the water, changing the oil, all

of those things, are the kind of service that I think is good business as well as good service to the people which I think they particularly want.

In addition to that, as I see these gas stations, I begin to wonder what kind of business they want to be in. Do they want to be in the gas station, the traditional understanding is provider of gas and, as well, provider of service, and as well, provider of repairs. Change of tires. I don't know that you can get that done anymore. Or some basic small repairs that don't require you to put your car in the garage. What I do see, however, is a great influx of what used to be a subsidiary service and that is now the confectionary store; they'll sell you newspapers, they'll sell you popcorn, they'll sell you potato chips, but it just won't give you any service which is traditional. And in that connection, if they want to be in the confectionary store business, then maybe they ought to give up the gas business. But that's their choice if they want to mix the two.

But you know, I see the City of Pittsburgh is having much smaller gas stations than most other areas. When you're in the outspands of the City of Pittsburgh outreach areas, you have much larger gas stations. We could not say to the gas stations within our boundaries today, "Yours is too small; your's is too large." It's quite obvious. When you have the spacious gas stations, you eliminate some of the safety problems. And in that connection, I think the density problem here creates a greater problem.

I had the opportunity as I mentioned once before, let me repeat it, that on a Sunday morning I stopped at a self-service gas station. I saw in the automobile three children. I saw a woman with a fur around her neck looking for the nozzle and the tank

opening so that she could put it in. And it was a self-service gas station, and she had a cigarette in her left hand. All dressed up with white gloves. And I'm beginning to wonder whether this is the kind of gas station that everybody envisions. Everybody's concerned for that customer until there's no other choice.

We have this understanding, at least someone proposed that it's cheaper. Yes, it's cheaper in the first stage. When I wipe out the other gas station and they're all self-service, you can bet your last dollar that the damn price is going up everywhere, that it will be the same as it is for those services we now get.

Relative to that matter of service, no service means unemployment. And I don't think that I as a Councilman at this point can afford any more unemployment in the City of Pittsburgh than we already have.

I'm told as well, relative to the safety question, and right here in our public hearing I couldn't really believe what I heard and I was kind of shocked to hear it. When one of the operators indicated that he had extracted from his oil company an agreement that they would give him a revolving, bullet-proof cage so that he can be in there and nobody can get to him and rob him anymore. Well that's nice. The only problem is who is going to give the bullet-proof cage to the customer who comes into that gas station?

The last question is one that I think is in the interest of the gas operators themselves. That's this matter of devorcement. I happen to have represented the gas station operator who, after he took a gas station worth nothing and parlayed it into a lot of gas gallonage by virtue of his extra services

that he provided in that gas station. His rent went up some one thousand to fifteen hundred dollars a month, only because of his American, self-enterprising efforts. And this is the fear that lurks behind relative to the devorcement.

I'll just close with one comment. Again, everybody has had their opportunity to put their best foot forward. I have no objections. But as I've indicated, I'll make my decision in this case.

The Chair:

Michelle, would you do us a favor and stay seated. You're going back and forth like a football player.

Michelle Madoff:

I want to be an usher. I'm practicing.

The Chair:

You can be an usher when the City takes over. Take my job.

Mr. O'Malley:

Listening to Mr. Flaherty and listening to Mr. Stone, as I've said, they try so hard to come up with convincing arguments against self-service and there's not one legitimate argument against self-service gas stations. Mr. Flaherty goes on about Philadelphia. Do you take into consideration it might be because of Goodyear and JC Penney and Midas Muffler that the stations are having such a hard time? And that, Mr. Stone, they might have to convert over to a convenience store, and they should have the opportunity to do so, to save their business? Mr. Flaherty says it represents big oil. Turn around and look at these men sitting right here. How

many of these men represent big oil? These men have been in business ten, twenty or thirty years. They come to this Council and they're asking us for a chance to survive in a competitive business and we're giving them a lot of nonsense. I never heard of anything like this in my life. Mr. Stone's been talking about the same women with the cigarette in her hand for four years. I don't think that woman ever got her gas and she should go to a full-service gas station.

The Chair:

You have to be fair. She changed cigarettes in four years.

Mr. O'Malley:

Everybody says that everybody they talked to — Mr. Stone, we brought in petitions with ten thousand names on it and whether Mr. DePasquale and Mr. Stone — the ten thousand names of Pittsburghers. That is very relevant.

As Mr. Flaherty discounts my statistics, let Mr. Flaherty take my car and my gasoline, drive into Wilksburg where there's nine gas stations and seven of them are full-service.

I've never heard so much nonsense in my life. I've been sitting on this Council for two and a half years and you tell these men here that when they go out of business in three months or six months, to wait for the devorcement bill which might not come.

Mr. Flaherty:

It won't come.

Mr. O'Malley:

That's right. And these men right here won't be here to see it if it did

come because they don't have self-service. Now this is on your conscience.

The Chair:

Okay, you made your point. Question called for on the vote. Aye is for the bill and nay is against. It's a negative recommendation.

Mrs. Masloff:

I vote no and I resent the fact that because our opinion isn't the same as Mr. O'Malley's he brands them as ridiculous. My opinion isn't ridiculous and I resent that. My vote is no.

The Chair:

Is there any discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Givens	Mr. O'Malley
Michelle Madoff	Mr. Robinson

AYES 4	NOES 5
--------	--------

(MR. FLAHERTY, MRS. MASLOFF, MR. STONE, MR. WOODS AND MR. DEPASQUALE VOTING NO)

And a majority of the votes of Council not being in the affirmative, the bill was defeated.

Mr. O'Malley:

I don't think they meant anything, Mr. President. I just think they're very upset; they've worked very hard.

The Chair:

I've been getting threats for eleven years; I don't pay attention to them. And anyway, when I do get threatened, I go the other way.

Mr. Flaherty presented

Bill No. 1206

Report of the Committee on Lands and Buildings for June 23, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1083

Resolution entitled, "Resolution providing for the filing of a petition or petitions for the sale of certain property or properties acquired at tax sale in accordance with Act No. 514 of 1947 as amended."

Which was read.

The Chair:

Is there any discussion on the bills?

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale (Pres't)

AYES 8 NOES none

And a majority of the votes of Council being in the affirmative, the bills passed finally.

MOTIONS AND RESOLUTIONS

Michelle for Mr. O'Malley presents

Bill No. 1207 WHEREAS, the first woman was admitted to the University of Pittsburgh in 1892; and

WHEREAS, in 1970, the Chancellor of the University of Pittsburgh appointed the Advisory Council on Women's Opportunities to investigate the situation of women students, faculty and staff at Pitt; and

WHEREAS, through their efforts, the Women's Center was established in 1973; and

WHEREAS, the Women's Center has provided many vital services to the women of the University of Pittsburgh.

NOW, THEREFORE,

BE IT RESOLVED, that the Members of the Council of the City of Pittsburgh hereby urge that the Women's Center of the University of Pittsburgh be saved.

Michelle Madoff moved to adopt the resolution.

Mr. Givens seconded the motion.

Which motion prevailed.

Mr. Robinson presents

Bill No. 1208 WHEREAS, numerous individuals have served the City of Pittsburgh, and its citizens, in various volunteer capacities; and

WHEREAS, their services have been invaluable in the pursuit of excellence in the delivery of government service; and

WHEREAS, the City, its Bureaus, Commissions, Committees and Advisory Groups, are indebted to these unselfish volunteers.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and the Council of the City of Pittsburgh does honor and recognize the contributions of its volunteers and shall prepare an appropriate commemoration to be henceforth presented to each such distinguished person upon the occasion of their termination of service, and

furthermore, such commemoration shall be presented at an appropriate public occasion.

Mr. Robinson moved to adopt the resolution.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Woods and Mr. DePasquale presents

WHEREAS, the Station Square Development is important to the City of Pittsburgh; and

WHEREAS, the City of Pittsburgh has invested substantial effort, money and other resources toward the success of the Station Square Project; and

WHEREAS, the Grand Concourse Restaurant is a big attraction within the Station Square; and

WHEREAS, a majority of the employees of the Grand Concourse Restaurant have elected to be represented by a union for purposes of collective bargaining; and

WHEREAS, the Employer and the Union have been negotiating for a long period of time without successfully concluding a collective bargaining agreement; and

WHEREAS, it would be in the best interests of all parties involved if a strike could be avoided.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh, understanding the serious nature of this matter to both the Employer and the Union, as well as the possible effect on the outstanding development at Station

Square, calls upon the Employer and the Union to submit their differences to binding arbitration so as to avoid a strike and work stoppage.

BE IT FURTHER RESOLVED, that the Clerk is directed to send copies of this resolution to all concerned parties.

Mr. Woods moved to adopt the resolution.

Michelle Madoff seconded the motion.

Mr. Givens:

Excuse me, Mr. President. Discussion on the resolution itself. The purpose of the resolution is to get the parties together under a third party and that's very commendable. However, I feel that I cannot inject my vote into ongoing employer and union negotiations.

Michelle Madoff:

Don't.

The Chair:

I think you misunderstand the point altogether, Mr. Givens. We're just urging them to come to some sort of compromise and sit down and have this arbitrated. We're not interfering in their negotiations whatsoever. We're asking them to have a neutral or an impartial arbitrator to serve. If they don't want to do it they don't want to do it. We can't force them.

Mr. Givens:

Well, Mr. President, I think that the employer has the right to do what they want to do and I feel very strongly that the union has the right —

The Chair:

Absolutely. Nobody is saying they don't. We're just asking them if they would submit to an arbitrary.

Mr. Woods:

Mr. Chairman, if Mr. Givens wants to vote against it, vote against it. It's as simple as that.

Mr. Flaherty:

I just have one question. How does the Union feel in regard to this?

The Chair:

The Union instigated it. It was the Union that asked.

There was a problem down there where they had a vote as to be recognized by a local, I think, the waiters and the bartenders, and they were turned down. The employer turned them down. Now they asked if they could move into the picture and the waiters and the bartenders said okay. They haven't reached the stage of a vote yet. We're saying that maybe through arbitration, binding arbitration, that would be the answer.

Mr. Woods:

That's not right, Mr. Chairman. The Union, they won the election. And now they want to negotiate and the Grand Concourse isn't negotiating with them. Now they want to put it to binding arbitration. They refused that. They're just asking us to do that. The election's over. They won it.

The Chair:

They don't even want to talk contract?

Mr. Woods:

Right.

The Chair:

Okay.

Michelle Madoff:

Mr. President, since I have a charge card there, do I have a conflict of interests?

Mr. Givens:

Is the vote taken on this?

The Chair:

We were in the process of voting when you asked to discuss it.

Mr. Givens:

Okay, then I'll call for a vote.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty
Michelle Madoff
Mr. Stone

Mr. Woods
Mr. DePasquale
(Pres't)

AYES 5

NOES none

(MR. GIVENS ABSTAINING)

And a majority of the votes of Council being in the affirmative, the bill

passed finally.

Michelle Madoff:

Mr. President, one quick item. I'd like to call your attention to an article that appeared in the Sunday paper. I just called it to the Mayor's attention. He had not seen it himself. It is an article on the Stadium. A dubious divvy-up at the Stadium, and they're referring to the issue of the contract that will be basically shown in the year 2011. He doesn't think anybody will be going to the games and we ought to be getting a percentage of the monies that would be generated from contracts where the games are shown on the media. And I think he has a very good point.

The Chair:

Michelle, I read the article and I don't want to interrupt you, but that very subject was discussed back in 1950. They're no closer to that than they were then. They're talking about paying for every empty seat in the Stadium. It's never going to happen. If it does it's going to be many, many, many years down the road because the American public, whether you like it or not, loves to be sitting there watching the events. It's much more comfortable to sit in your living room and watch a football game on a cold, frosty day, but yet fifty-five thousand go down to that Stadium and practically freeze to death because they want to be there. And it's always going to be that way. But he's got a good argument in regards that they're not looking into that for the future.

Michelle Madoff:

Well that was all I bringing it up for.

The Chair:

You had a good point on concessions. Concessions is the bone of contention down there. If the Pirates manage that Stadium and couldn't manage it well, couldn't pay their bills and now say "Get the monkey off my back and somebody else manage the Stadium." So they want to keep the concessions, and I say this, and you can quote me, "Bullshit". They are not going to keep those concessions under any circumstances. They are now the renters and will be the renters and they'll keep them no more than you or I kept them when they were managing that place and couldn't manage it in the proper manner.

Michelle Madoff:

Well we are negotiating a new contract and we ought to be looking at electronic revenues. And I think he makes a very valid point.

Mr. Flaherty:

Mr. President, could we have Superintendent Coll come in on Wednesday to the post agenda to discuss the suicides that have occurred over in the Public Safety Building and also ask him to share his ideas on how possible suicides could be prevented in the future?

The Chair presents

Bill No. 1210 WHEREAS, the City of Pittsburgh seeks to support an end to world hunger; and

WHEREAS, Winning: A Transcontinental Relay is a non-profit organization whose purpose is to call attention to and generate support for the end of world hunger and starvation; and

WHEREAS, the issues of hunger

and starvation are not only issues that affect people in other countries but also affect people in the United States; and

WHEREAS, Winning is supported by a network of local groups and organizations across the Country; and

WHEREAS, "Winning: A Transcontinental Relay to End World Hunger Day" will assist greatly in publicizing the issues of world hunger and starvation and ultimately eliminate these problems from the world; and

WHEREAS, community involvement is planned as our runners come through various cities between San Francisco and New York.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh, on behalf of the citizens of Pittsburgh, hereby recognize June 30, 1982 as "Winning: A Transcontinental Relay to End World Hunger Day" and support the participation of Pittsburgh toward this goal.

Michelle Madoff moved to adopt the resolution.

Mr. Woods seconded the motion.

Which motion prevailed.

Michelle Madoff moved to approve the minutes of Monday, June 21, 1982.

Mr. Woods seconded the motion.

Which motion prevailed.

Mr. Woods moved to adjourn and meet again Tuesday, July 6, 1982, at 2:00 p.m.

And on the motion of Mr. Woods

Council adjourned.

ONE-HUNDRED TWENTY-SECOND COUNCIL

EUGENE P. DePASQUALE President
MICHAEL PERRY City Clerk
LINDA M. JOHNSON Asst. City Clerk

Pittsburgh, PA
Tuesday, July 6, 1982

PRESENT:

Mr. Flaherty	Mr. Robinson
Mr. Givens	Mr. Stone
Michelle Madoff	Mr. Woods
Mrs. Masloff	Mr. DePasquale
Mr. O'Malley	(Pres't)

The meeting was opened by the recitation of the pledge of allegiance to the Flag of the United States of America.

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible, with liberty and justice for all.

PRESENTATIONS

The Chair:

For our first order of business we're going to take the resolutions.

Michelle Madoff:

Excuse me, Mr. President. I'm a little confused. Are we going with our resolutions before --

The Chair:

We're going with the resolutions first as has been requested.

Michelle Madoff:

At the request of whom?

The Chair:

Mr. Robinson, Mr. Woods and I presumed you wanted also to be included.

Michelle Madoff:

Well it's my resolution. I was thinking we're taking it at the end because we have some business that --

The Chair:

You want your's at the end? Okay.

Mr. Robinson presents

Bill No. 1270 WHEREAS, throughout American history our prisoners of war have been called upon to make uncommon sacrifices. In fulfilling their duty as citizens of the United States they have defended American ideals while suffering unimaginable indignities under the absolute control of the enemy. They remained steadfast

even while their treatment contravened international understandings and violated elementary considerations of compassion and morality; and

WHEREAS, all Americans ought to recognize the special debt we owe to our fellow citizens who, in the act of serving our Nation, relinquished their freedom that we might enjoy the blessings of peace and liberty. Likewise, we must remember the unresolved casualties of war — our servicemen who are still missing. The pain and bitterness of war endure for their families, relatives and friends — and for all of us. Our Nation will continue to seek answers to the many questions that remain about their fate.

NOW, THEREFORE,

BE IT RESOLVED, that the Council of the City of Pittsburgh, on behalf of its citizens, does recognize July 9, 1982 as P.O.W. - M.I.A. Recognition Day in the City of Pittsburgh and does dedicate that day to all former American prisoners of war, to those still missing, and to their families.

Mr. Robinson moved to adopt the resolution.

Mr. O'Malley seconded the motion.

Which motion prevailed.

Mr. Robinson:

Mr. President, with us today are three persons who would like to have the honor of speaking before Council. I'd like, also, to have the City Clerk to present them with gold seal copies of this resolution.

Mr. Richard Dunmire is here. He is the regional representative of the Governor's Veterans Outreach and

Assistance Center and he's in North Huntingdon, Pennsylvania. That's where he's located.

Also, Mr. John Estochin, who's brother was a P.O.W., and Mrs. Shirley Estochin, President of the Western Pennsylvania Chapter of the National League of Families Prisoners of War, Missing in Action.

And with your approval, Mr. President, I'd like to have the three of them come forward to accept the gold seal copies and to speak to Council.

Mr. Givens:

Mr. President, if I might as they're walking up to the podium. Being a veteran of that particular war, I can assure you that many of the people that were over there fighting in that particular war had secret documents and wherein we had pictures from North Vietnam, from whatever source they came in from, and it was a part of all combat troop members that if they had known someone personally that was in that conflict and was missing in action or considered dead, whatever the case might be, we all screened those particular pictures that came back to see if we could make a positive identification. And I appreciate what you're trying to do here in keeping that memorial of those that were lost. There are many stories that we're still hearing coming out Cambodia and Laos. You have to believe some of them.

Mrs. Shirley Estochin:

Thank you very much. I accept this proclamation from the City of Pittsburgh on behalf of my brother-in-law, Michael Estochin, who has still not returned from Vietnam and who was known to be alive, a prisoner of war. I thank the City of Pittsburgh for making

this National P.O.W. Day in Pittsburgh, as well as across the nation. I think that these men should be recognized every day other than just on this National P.O.W. - M.I.A. Recognition Day. Mike has been missing 5,516 days, and if he's still alive, he does deserve to come back home. The Estochin household was rather solemn on the Fourth of July because Mike does not have the freedom that he deserves and is owed to him.

The only thing I can say to the people of Pittsburgh, besides thank you, is to keep one thing in mind as far as the men who are still missing: "Poor is the nation who has no heroes, shameful is the one that has them and forgets." Thank you.

Mr. Richard Dummire:

Council, my name is Richard Dummire, I'm from the Governor's Veterans' Outreach Center. I'd like to thank the Council and the Members of Council for the opportunity to have this time for recognition for P.O.W. - M.I.A.s. We appreciate your cooperation in helping us bring about an awareness and new recognition of an issue that needs to be resolved. I think only an overwhelming cry from a united America is going to help bring these boys home and it's opportunities like this that will help us achieve that end.

I'd like to leave you with one statement from Calvin Coolidge. He said, "The nation that forgets his defenders will be itself - a nation forgotten." Thank you.

The Chair:

I'd like to thank all of you for coming. I personally share your experiences. I think the United States Government is probably as much at fault as anybody. My oldest son was wounded

in Vietnam and was in a hospital in Japan for almost a month in critical condition, and nobody had the courtesy or respect in the United States Government to inform me or any member of my family that the boy was in that situation. Only when he made a long distance call collect, a month later, was I informed of his condition. So you see, it was a forgotten war and forgotten people and it was a real tragedy. And to this day they're still forgetting you. So our prayers go with you.

Michelle Madoff:

Mr. President, I'm a little confused. I always thought our resolutions were at the end of the meeting unless we had, perhaps, several hundred people --

The Chair:

Resolutions can be read before the regular meeting if it's so desired by Councilmembers.

Michelle Madoff:

Well it's the first I've heard of it, so I'll know it in the future.

The Chair:

It's been going on for a long time, Michelle.

Mr. Woods presents

Bill No. 1271 WHEREAS, Brighton Heights Citizens Organization was formed in 1967 for the betterment of the neighborhood; and

WHEREAS, the Organization is involved in planning and action on a non-profit, non-sectarian, non-partisan and interracial basis; and

WHEREAS, the Organization works toward the advancement of public services to a level which will protect the health, safety, property and well-being of the residents; and

WHEREAS, the Citizens Organization tries to help needy individuals and families in the area. They have made contributions to people who have lost their homes to fire and, just recently, have given an R.O.T.C. scholarship to a needy youngster; and

WHEREAS, July 10, 1982 is the Brighton Heights Citizens Organization's annual community festival.

NOW, THEREFORE,

BE IT RESOLVED, that the Mayor and Members of the Council of the City of Pittsburgh, recognize July 10, 1982 as Brighton Heights Community Day.

Mr. Woods moved to adopt the resolution.

Michelle Madoff seconded the motion.

Which motion prevailed.

Mr. Woods:

Mr. President, we have a few people here from the Brighton Heights Citizens Organization, and they do many more things than what's on this resolution. And it just goes to show you that with a group like this, and with the cooperation of City government, what can be done in a community. They not only represent Brighton Heights, but they represent and look out for the whole 27th Ward. And right now I'd like to call Jack Brennan up to receive this award.

Mr. Brennan:

I'm not accustomed to receiving

too much but when I was informed of this occasion by Councilman Woods on behalf of our organization, I was naturally thrilled beyond words. It's just a symbol of what you people, as leaders in our Government, get down to thinking that the City is only as good as the communities that support it. And I can say in my year and a half as President of the Brighton Heights Citizens Federation, I would have to give, on a one to ten basis, an eight and a half to nine batting average in regard to responses from you people on Council. This is non-political, but inadvertently, no matter how you look at it, it does have a tinge to divert itself to politics because whenever you people do things for communities -- I've been at enough Council hearings, and I enjoy coming to them because a lot of people in that it's comedy, but I think you people are doing a fine job, and as far as our community is concerned, I just wish to convey to you that we're more than content, but naturally we want more, as anybody else does. But you can rest assured, sit back and be content, that we are getting our share. I read letters to the editor daily and I see a lot of you people are critized, unwontedly in my opinion, because you are trying to do a job and you can't satisfy both sides; you'll make enemies no matter what. But if you keep your whole vein of thought to the fact that the people in the community are important, I'm sure that you'll be in Council as long as you want to. And that's the mode of politics to me. I've been in politics all my life, but I find the rewards in this community activities much greater and I appreciate everything that you've done for us, myself and my Executive Board, JoAnn Pefferman, my Treasurer Bobby Riker, and my Secretary Jack Ladebu. These are the people that hold this organization together because without them I couldn't do it. You believe it.

I thank you again, all of you, for this presentation, and we'll cherish it, and invite each and every one of you to our Fund Day this coming Saturday, July 10th. And if you're there, the people will know about it. Thank you very much.

The Chair:

Thanks Jack and congratulations. I can assure you that all of Council is aware of the good work that the Brighton Heights Citizen Organization is doing.

Mr. Flaherty presented

Which were severally read and referred to the Committee on Public Works.

Mr. Givens:

On one bill that I think is of significant interest to the Council and that is in regards to our Cable Bureau here and what is going to happen here in regards to our studio and what Council either wants or does not. I'd like, this coming Wednesday, to have Brother Richard Emenecker up here on this particular bill, and to have him give us at least a three to five minute presentation of what it means to us.

Mr. Perry:

Do you want Suspend Rule 8 on those bills too?

Mr. Stone:

No he wants a post Wednesday.

Mr. Givens:

No, not a post, on the bill itself as the bill is presented in Council in the Wednesday session. I think that comes up next Wednesday. Or, otherwise, if each of the Councilpeople want to

personally talk with Brother Richard down there, then they're welcome to do that. Either way.

Michelle Madoff presented

No. 1233 Resolution authorizing the Mayor to issue and the City Controller to countersign a warrant in favor of Mark D. Schwartz, Attorney at Law, in the amount of \$539.90, for professional services rendered to Pittsburgh City Council, without previous authority of law, chargeable to and payable from Code Account 1001-2, Services and Salaries of Council.

REPORTS OF COMMITTEES

Mr. Stone presented

Bill No. 1262

Report of the Committee on Finance for June 30, 1982 transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1114

Resolution entitled, "Resolution of the City of Pittsburgh ("The City") increasing the bonded indebtedness of the City by an issue of General Obligation Bonds in the principal amount of \$55,000,000.00 for the purpose of providing funds to pay a portion of the cost of the City's Capital Improvement Program to refund certain of the City's outstanding notes and to provide funds for other related purposes as described herein."

Which was read.

Michelle Madoff:

On Bill No. 1114. We have members of Council on our list of legal counsel approved by Mr. DePasquale and there are copies of those of Council Members who would like a copy. I just submitted this bill on the issue; I don't want to take Council's time by reading the details. Essentially, what it says is that the Mayor has the right to go out and review it but does not have the right

to indebt Council. And it is very clear there is a \$110 thousand debt already incurred, but the story we're getting is that on a contingency basis is really moot because they know the next time the bond comes up the people have done the preliminary work. Furthermore, this business that we gave the contract to save money to the printer that was doing previous work for us is a lot of nonsense because in checking further, there is an item called scanner, that in five minutes they can reproduce our original boiler plant, and that is discriminatory in the way the contract is awarded. I'm just learning about these things because I'm not a fiscal expert but you know I have a bill introduced today to address that issue. But my reason for opposing Bill 1114 is when they want our opinion they'll give it to us. If we hadn't learned about this disability rule, we wouldn't even have been approached. At this point they should be polite enough to hallmark it. And if they can't, for us to say, "Why don't we give a window," we should be prepared to go out and look. I don't think any member of Council, including myself, would deny them that right, and incur that debt. But either way, our Council is irresponsible for fiscal commitments or we're not, And for that reason I'm going to oppose that particular bill.

Mr. Givens:

On the bill regarding the \$55 million bond issue, that must come back before Council for our final approval on the interest rates. And that will then give us another opportunity. In noting that almost \$37 million will be for terminating our short term notes that we have, I don't think, we can do it now or we can do it next year. It's not that big of a hurry.

The Chair:

Is there any further discussion on the bill?

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:

Mr. Flaherty	Mr. Robinson
